To ensure the policies regarding suicide prevention are properly adopted, implemented, and updated, Charter School created an in-house Suicide Prevention Crisis Team ("SPCT") consisting of administrators, mental health professionals, relevant staff, parents, and middle and high school students.

Charter School designates the following administrators to act as the primary and secondary suicide prevention liaisons to lead the SPCT:

1. School Psychologist
2. Executive Director

The functions of the SPCT are to:

- Review mental health related school policies and procedures;
- Provide annual updates on school and district data and trends;
- Review and revise school prevention policies;
- Review and select general and specialized mental health and suicide prevention training;
- Review and oversee staff, parent/guardian, and student trainings;
- Ensuring the suicide prevention policy, protocols, and resources are posted on the district and school websites;

- Collaborate with community mental health organizations,
- Identify resources and agencies that provide evidence-based or evidence-informed treatment,
- Help inform and build skills among law enforcement and other relevant partners, and
- Collaborate to build community response.

### **Staff Development**

Charter School, along with its partners, has carefully reviewed available staff training to ensure it promotes the mental health model of suicide prevention and does not encourage the use of the stress model to explain suicide.

Training shall be provided for all school staff members. It may also be provided, when appropriate, for other adults on campus (such as substitutes and intermittent staff, volunteers, interns, tutors, coaches, and afterschool staff). Training shall include the following:

1. All suicide prevention trainings shall be offered under the direction of mental health professionals (e.g., school counselors, school psychologists, healthy youth school therapist, other public entity professionals, such as psychologists or social workers) who have received advanced training specific to suicide. Charter School has collaborated with [Insert Names of One Or More County and/or Community Mental Health Agencies] to review the training materials and content to ensure it is evidence-based, evidence-informed, and aligned with best practices.
2. Staff training may be adjusted year-to-year based on previous professional development activities and emerging best practices.
3. Charter School shall ensure that training is available for new hires during the school year.
4. At least annually, all staff shall receive training on the risk factors and warning signs of suicide, suicide prevention, intervention, referral, and postvention.
5. At a minimum, all staff shall participate in training on the core components of suicide prevention (identification of suicide risk factors and warning signs, prevention, intervention, referral, and postvention) at the beginning of their employment or annually. Core components of the general suicide prevention training shall include:
  - a. Suicide risk factors, warning signs, and protective factors.
  - b. How to talk with a student about thoughts of suicide.
  - c. How to respond appropriately to the youth who has suicidal thoughts. Such responses shall include constant supervision of any student judged to be at risk for suicide and an immediate referral for a suicide risk assessment.

- d. Emphasis on immediately referring (same day) any student who is identified to be at risk of suicide for assessment while staying under constant monitoring by staff member.
  - e. Emphasis on reducing stigma associated with mental illness and that early prevention and intervention can drastically reduce the risk of suicide.
  - f. Reviewing the data annually to look for any patterns or trends of the prevalence or occurrence of suicide ideation, attempts, or death. Data from the California School Climate, Health, and Learning Survey (Cal-SCHLS) should also be analyzed to identify school climate deficits and drive program development. See the Cal-SCHLS Web site at <http://cal-schls.wested.org/>.
  - g. Information regarding groups of students judged by the school, and available research, to be at elevated risk for suicide. These groups include, but are not limited to, the following:
    - i. Youth affected by suicide.
    - ii. Youth with a history of suicide ideation or attempts.
    - iii. Youth with disabilities, mental illness, or substance abuse disorders.
    - iv. Lesbian, gay, bisexual, transgender, or questioning youth.
    - v. Youth experiencing homelessness or in out-of-home settings, such as foster care.
    - vi. Youth who have suffered traumatic experiences.
    - vii. [Charter School may Insert other Local Youth Populations Vulnerable to Depression and Suicide].
6. In addition to initial orientations to the core components of suicide prevention, ongoing annual staff professional development for all staff may include the following components:
- a. The impact of traumatic stress on emotional and mental health.
  - b. Common misconceptions about suicide.
  - c. Charter School and community suicide prevention resources.
  - d. Appropriate messaging about suicide (correct terminology, safe messaging guidelines).
  - e. The factors associated with suicide (risk factors, warning signs, protective factors).
  - f. How to identify youth who may be at risk of suicide.
  - g. Appropriate ways to interact with a youth who is demonstrating emotional distress or is suicidal. Specifically, how to talk with a student about their thoughts of suicide and (based on Charter School guidelines) how to respond to such thinking; how to talk with a student about thoughts of suicide and appropriately respond and provide support based on Charter School guidelines.
  - h. Charter School-approved procedures for responding to suicide risk (including multi-tiered systems of support and referrals). Such procedures should emphasize that the suicidal student should be constantly supervised until a suicide risk assessment is completed.

- i. Charter School-approved procedures for responding to the aftermath of suicidal behavior (suicidal behavior postvention).
- j. Responding after a suicide occurs (suicide postvention).
- k. Resources regarding youth suicide prevention.
- l. Emphasis on stigma reduction and the fact that early prevention and intervention can drastically reduce the risk of suicide.
- m. Emphasis that any student who is identified to be at risk of suicide is to be immediately referred (same day) for assessment while being constantly monitored by a staff member.

### **Specialized Professional Development for School-based Mental Health Staff (Screening and/or Assessment)**

Additional professional development in suicide risk assessment (SRA) and crisis intervention is provided to designated student mental health professionals, including but not limited to school counselors, psychologists, healthy youth school therapist, social workers, administrators, and nurses employed by Charter School. Training for these staff is specific to conducting SRAs, intervening during a crisis, de-escalating situations, interventions specific to preventing suicide, making referrals, safety planning, and re-entry.

Specialized Professional Training for targeted School-based mental health staff includes the following components:

- Best practices and skill building on how to conduct an effective suicide risk screening/SRA using an evidence-based, Charter-approved tool; Patient Health Questionnaire 9 (PHQ-9) Depression Scale; BSS Beck Scale for Suicide Ideation ; National Institute of Mental Health (NIMH)'s Ask Suicide-Screening Questions (ASQ) Toolkit; and the Adolescent Suicide Assessment Protocol – 20.
- Best practices on approaching and talking with a student about their thoughts of suicide and how to respond to such thinking, based on district guidelines and protocols.
- Best practices on how to talk with a student about thoughts of suicide and appropriately respond and provide support based on district guidelines and protocols.
- Best practices on follow up with parents/caregivers.
- Best practices on re-entry.

### **Virtual Screenings for Suicide Risk**

Virtual suicide prevention efforts include checking in with all students, promoting access to school and community-based resources that support mental wellbeing and those that address mental illness and give specific guidance on suicide prevention.

Charter School has established a protocol for assigning school staff to connect with students during distance learning and school closures. In the event of a school closure, Charter School has determined a process and protocols to establish daily or regular contact with all students. Staff understand that any concern about a student's emotional wellbeing and/or safety must be communicated to the appropriate school staff, according to Charter School protocols.

Charter School has determined a process and protocols for school-based mental health professionals to establish regular contact with high-risk students, students who are on their caseloads, and those who are identified by staff as demonstrating need. When connecting with students, staff are directed to begin each conversation by identifying the location of the student and the availability of parents or caregivers. This practice allows for the staff member to ensure the safety of the student, particularly if they have expressed suicidal thoughts.

#### **Employee Qualifications and Scope of Services**

Employees of the Charter School must act only within the authorization and scope of their credential or license. While it is expected that school professionals are able to identify suicide risk factors and warning signs, and to prevent the immediate risk of a suicidal behavior, treatment of suicidal ideation is typically beyond the scope of services offered in the school setting. In addition, treatment of the mental health challenges often associated with suicidal thinking typically requires mental health resources beyond what schools are able to provide.

#### **Parents, Guardians, and Caregivers Participation and Education**

1. Parents/guardians/caregivers may be included in suicide prevention efforts. At a minimum, the Charter School shall share this Policy with parents/guardians/caregivers by notifying them where a complete copy of the policy is available.

This Suicide Prevention Policy shall be easily accessible and prominently displayed on the Charter School Web page and included in the parent handbook.

2. Parents/guardians/caregivers should be invited to provide input on the development and implementation of this policy.
3. Charter School shall establish and widely disseminate a referral process to all parents/guardians/caregivers/families, so they are aware of how to respond to a crisis and are knowledgeable about protocols and school, community-based, and crisis resources.
4. Community-based organizations that provide evidence-based suicide-specific treatments shall be highlighted on the Charter School's website with treatment referral options marked accordingly.
5. Staff autoreplies during vacations or absences shall include links to resources and phone/text numbers so parents and students have information readily available.
6. All parents/guardians/caregivers may have access to suicide prevention training that addresses the following:
  - a. Suicide risk factors, warning signs, and protective factors.

b. How to talk with a student about thoughts of suicide.

How to respond appropriately to the student who has suicidal thoughts. Such responses shall include constant supervision of any student judged to be at risk for suicide and referral for an immediate suicide risk assessment.

c. Charter School's referral processes and how they or their children can reach out for help, etc.

7. Parents/guardians/caregivers are reminded that the Family Educational Rights and Privacy Act ("FERPA") generally protects the confidentiality of student records, which may sometimes include counseling or crisis intervention records. However, FERPA's health or safety emergency provision permits the disclosure of personally identifiable information from a student's education records, to appropriate parties, in order to address a health or safety emergency when the disclosure is necessary to protect the health or safety of the student or other individuals.

### **Student Participation and Education**

Messaging about suicide has an effect on suicidal thinking and behaviors. Consequently, Charter School along with its partners has carefully reviewed and will continue to review all materials and resources used in awareness efforts to ensure they align with best practices for safe messaging about suicide. Suicide prevention strategies may include, but not be limited to, efforts to promote a positive school climate that enhances students' feelings of connectedness with Charter School and is characterized by caring staff and harmonious interrelationships among students.

Charter School's instructional and student support program shall promote the healthy mental, emotional, and social development of students including, but not limited to, the development of problem-solving skills, coping skills, and resilience. The instruction shall not use the stress model to explain suicide.

Charter School's instructional curriculum may include information about suicide prevention, as appropriate or needed. If suicide prevention is included in the Charter School's instructional curriculum, it shall consider the grade level and age of the students and be delivered and discussed in a manner that is sensitive to the needs of young students. Under the supervision of an appropriately trained individual acting within the scope of her/his credential or license, students shall:

1. Receive developmentally appropriate, student-centered education about the warning signs of mental health challenges and emotional distress. The content of the education may include:
  - a. Coping strategies for dealing with stress and trauma.
  - b. How to recognize behaviors (warning signs) and life issues (risk factors) associated with suicide and mental health issues in oneself and others.

- c. Help-seeking strategies for oneself and others, including how to engage school-based and community resources and refer peers for help.
- d. Emphasis on reducing the stigma associated with mental illness and the fact that early prevention and intervention can drastically reduce the risk of suicide.

2. Receive developmentally appropriate guidance regarding Charter School's suicide prevention, intervention, and referral procedures.

Student-focused suicide prevention education can be incorporated into classroom curricula (e.g., health classes, orientation classes, science, and physical education).

Charter School will support the creation and implementation of programs and/or activities on campus that raise awareness about mental wellness and suicide prevention (e.g., Mental Health Awareness Week, Peer Counseling, Freshman Success, and National Alliance on Mental Illness on Campus High School Clubs).

Charter School maintains a list of current student trainings and is available upon request. Charter School has shared school-based supports and self-reporting procedures, so students are able to seek help if they are experiencing thoughts of suicide or if they recognize signs with peers. Although confidentiality and privacy are important, students should understand safety is a priority and if there is a risk of suicide, school staff are required to report. Charter-based mental health professionals are legally and ethically required to report suicide risk. **When reporting suicidal ideation or an attempt, school staff must maintain confidentiality and only share information limited to the risk or attempt.**

Charter School shall establish and widely disseminate a referral process to all students, so they know how to access support through school, community-based, and crisis services. Students shall be encouraged to notify a staff member when they are experiencing emotional distress or suicidal ideation, or when they have knowledge or concerns of another student's emotional distress, suicidal ideation, or attempt.

**Intervention and Emergency Procedures**

Whenever a staff member suspects or has knowledge of a student's suicidal intentions, they shall promptly notify the primary designated suicide prevention liaison. If this primary suicide prevention liaison is unavailable, the staff shall promptly notify the secondary suicide prevention liaison.

The suicide prevention liaison shall immediately notify the Executive Director or designee, who shall then notify the student's parent/guardian as soon as possible if appropriate and in the best interest of the student. Determination of notification to parents/guardians/caregivers should follow a formal initial assessment to ensure that the student is not endangered by parental notification.

The suicide prevention liaison shall also refer the student to mental health resources at Charter School or in the community.

When a student is in imminent danger (has access to a gun, is on a rooftop, or in other unsafe conditions), a call shall be made to 911. The call shall NOT be made in the presence of the student and the student shall not be left unsupervised. Staff shall NOT physically restrain or block an exit.

When a suicide attempt or threat is reported on campus or at a school-related activity, the suicide prevention liaison shall, at a minimum:

1. Ensure the student's physical safety by one or more of the following, as appropriate:
  - a. Securing immediate medical treatment if a suicide attempt has occurred.
  - b. Securing law enforcement and/or other emergency assistance if a suicidal act is being actively threatened.
  - c. Keeping the student under continuous adult supervision until the parent/guardian and/or appropriate support agent or agency can be contacted and has the opportunity to intervene.
  - d. Remaining calm, keeping in mind the student is overwhelmed, confused, and emotionally distressed.
  - e. Moving all other students out of the immediate area.
  - f. Not sending the student away or leaving him/her alone, even to go to the restroom.
  - g. Providing comfort to the student, listening and allowing the student to talk and being comfortable with moments of silence.
  - h. Promising privacy and help, but not promising confidentiality.
2. Document the incident in writing as soon as feasible.
3. Follow up with the parent/guardian and student in a timely manner to provide referrals to appropriate services as needed and coordinate and consult with the county mental health plan if a referral is made for mental health or related services on behalf of a student who is a Medi-Cal beneficiary. **Determination of notification to parents/guardians/caregivers should follow a formal initial assessment to ensure that the student is not endangered by parental notification.**
4. After a referral is made, Charter School shall verify with the parent/guardian that the follow up treatment has been accessed. Parents/guardians will be required to provide documentation of care for the student. If parents/guardians refuse or neglect to access treatment for a student who has been identified to be at risk for suicide or in emotional distress, the suicide prevention liaisons shall meet with the parent to identify barriers to treatment (e.g., cultural stigma, financial issues) and work to rectify the

situation and build understanding of care. If follow up care is still not provided, Charter School may contact Child Protective Services.

5. Provide access to counselors or other appropriate personnel to listen to and support students and staff who are directly or indirectly involved with the incident at Charter School.
6. Provide an opportunity for all who respond to the incident to debrief, evaluate the effectiveness of the strategies used, and make recommendations for future actions.

In the event a suicide occurs or is attempted on the Charter School campus, the suicide prevention liaison shall follow the crisis intervention procedures contained in Charter School's safety plan. After consultation with the Executive Director or designee and the student's parent/guardian about facts that may be divulged in accordance with the laws governing confidentiality of student record information, the Executive Director or designee may provide students, parents/guardians, and staff with information, counseling, and/or referrals to community agencies as needed. Charter School staff may receive assistance from Charter School counselors or other mental health professionals in determining how best to discuss the suicide or attempted suicide with students.

In the event a suicide occurs or is attempted off the Charter School campus and unrelated to school activities, the Executive Director or designee shall take the following steps to support the student:

1. Contact the parent/guardian and offer support to the family.
2. Discuss with the family how they would like Charter School to respond to the attempt while minimizing widespread rumors among teachers, staff, and students.
3. Obtain permission from the parent/guardian to share information to ensure the facts regarding the crisis are correct.
4. The suicide prevention liaisons shall handle any media requests.
5. Provide care and determine appropriate support to affected students.
6. Offer to the student and parent/guardian steps for re-integration to school. Re-integration may include obtaining a written release from the parent/guardian to speak with any health care providers; conferring with the student and parent/guardian about any specific requests on how to handle the situation; informing the student's teachers about possible days of absences; allowing accommodations for make-up work (being understanding that missed assignments may add stress to the student); appropriate staff maintaining ongoing contact with the student to monitor the student's actions and mood; and working with the parent/guardian to involve the student in an aftercare plan;

providing parent's/guardians/caregivers/families local emergency numbers for after school and weekend emergency contacts.

### **Supporting Students during or after a Mental Health Crisis**

Students shall be encouraged through the education program and in Charter School activities to notify a teacher, the Executive Director, another Charter School administrator, psychologist, Charter School counselor, suicide prevention liaisons, or other adult when they are experiencing thoughts of suicide or when they suspect or have knowledge of another student's suicidal intentions. Charter School staff should treat each report seriously, calmly, and with active listening and support. Staff should be non-judgmental to students and discuss with the student, and parent/guardian, about additional resources to support the student.

### **Responding After a Suicide Death (Postvention)**

A death by suicide in the school community (whether by a student or staff member) can have devastating consequences on the school community, including students and staff. Charter School shall follow the below action plan for responding to a suicide death, which incorporates both immediate and long-term steps and objectives:

The suicide prevention liaison shall:

1. Coordinate with the Executive Director to conduct an initial meeting of the Suicide Prevention Crisis Team to:
 
  - a. Confirm death and cause.
  - b. Identify a staff member to contact deceased's family (within 24 hours).
  - c. Enact the Suicide Postvention Response.
  - d. Notify all staff members (ideally in-person or via phone, not via e-mail or mass notification).
2. Coordinate an all-staff meeting, to include:
 
  - a. Notification (if not already conducted) to staff about suicide death.
  - b. Emotional support and resources available to staff.
  - c. Notification to students about suicide death and the availability of support services (if this is the protocol that is decided by administration).
  - d. Share information that is relevant and that which you have permission to disclose.
3. Prepare staff to respond to needs of students regarding the following:

5. Identify students affected by suicide death but not at risk of imitative behavior.
6. Communicate with the larger school community about the suicide death. Staff shall not share explicit, graphic, or dramatic content, including the manner of death.
7. Consider funeral arrangements for family and school community.
8. Respond to memorial requests in respectful and non-harmful manner; responses should be handled in a thoughtful way and their impact on other students should be considered.
9. Identify media spokesperson if needed.
10. Ensure that all communications, documents, materials related to messaging about suicide avoid discussing details about method of suicide, avoid oversimplifying (i.e. identifying singular cause of suicide), avoid sensational language, and only includes clear, respectful, people-first language that encourages an environment free of stigma. As part of safe messaging for suicide, we use specific terminology when referring to actions related to suicide or suicidal behavior:

<b>Use</b>	<b>Do Not Use</b>
<b><u>"Died by suicide"</u></b> <b>or</b> <b><u>"Took their own life"</u></b>	<b><u>"Committed suicide"</u></b> <b>Note:</b> Use of the word "commit" can imply crime/sin
<b><u>"Attempted suicide"</u></b>	<b><u>"Successful" or "unsuccessful"</u></b> <b>Note:</b> There is no success, or lack of success, when dealing with suicide

11. Include long-term suicide postvention responses:
  - a. Consider important dates (i.e., anniversary of death, deceased birthday, graduation, or other significant event) and how these will be addressed.
  - b. Support siblings, close friends, teachers, and/or students of deceased.
  - c. Consider long-term memorials and how they may impact students who are emotionally vulnerable and at risk of suicide.

#### **Employee Qualifications and Scope of Services**

Employees of the Charter School must act only within the authorization and scope of their credential or license. While it is expected that school professionals are able to identify suicide risk factors and warning signs, and to prevent the immediate risk of a suicidal behavior, treatment of suicidal ideation is typically beyond the scope of services offered in the school setting. In addition, treatment of the mental health challenges often associated with suicidal thinking typically requires mental health resources beyond what schools are able to provide.

A complete copy of the Suicide Prevention Policy is available on the school website.

Charter School shall also immediately enroll a homeless youth who seeks to enroll in the Charter School, if the youth would otherwise be eligible to attend and subject to the Charter School's capacity and pursuant to the procedures stated in the Charter School charter and Board policy. A homeless youth who is enrolled will have the right to attend classes and participate fully in school activities, including extracurricular activities.

The youth shall be immediately enrolled even if the student lacks records normally required for enrollment (such as previous academic records, records of immunizations, other required health records, proof of residency) or has missed application or enrollment deadlines during any period of homelessness. Records will immediately be requested from the previous school. (42 U.S.C. § 11432(g)(3)(C); Education Code Section 48850(a)(3)(A).)

If the student needs to obtain immunizations or does not possess immunization or other medical records, the Executive Director or designee shall refer the parent/guardian to the Charter School Liaison. The Charter School Liaison shall assist the parent/guardian in obtaining the necessary immunizations or records for the student. (42 U.S.C. § 11432(g)(3)(C).)

A homeless youth may remain in the student's school of origin for the entire period for which the youth is homeless. If a youth obtains permanent housing during an academic year, the youth will be permitted to remain in the school of origin through the end of the academic year.

### **Enrollment Disputes**

If a dispute arises over admissions/enrollment, the student shall be immediately admitted (subject to Charter School's capacity and pursuant to the procedures stated in the Charter School charter and Board policy), pending final resolution of the dispute, including all available appeals. ~~(42 U.S.C. § 11432(g)(3)(E))~~

The parent/guardian shall be provided with a written explanation of the admission/enrollment decision, including an explanation of the parent/guardian's right to appeal the decision. The parent/guardian shall also be referred to the Charter School Liaison. (42 U.S.C. § 11432(g)(3)(E).)

The Charter School Liaison shall carry out the Board-adopted dispute resolution and complaint process as expeditiously as possible after receiving notice of the dispute. (42 U.S.C. § 11432(g)(3)(E).)

### **Housing Questionnaire**

Charter School shall administer a housing questionnaire for purposes of identifying homeless children and youth. Charter School shall ensure that the housing questionnaire is based on the best practices developed by the CDE. Charter School shall annually provide the housing questionnaire to all parents/guardians of students and to all unaccompanied youths at Charter School. The housing questionnaire shall include an explanation of the rights and protections a student has as a homeless child or youth or as an unaccompanied youth. The housing questionnaire shall be available in paper form. The housing questionnaire shall be available in the primary language other than English spoken by fifteen (15) percent or more of the students enrolled at Charter School and shall be translated into other languages upon request of a student's parent/guardian or an unaccompanied youth. Charter School shall collect the completed housing questionnaires and annually report to the CDE the number of homeless children and youths and unaccompanied youths enrolled. (Education Code Section 48851.)

### **Comparable Services**

Each homeless child or youth shall promptly be provided services comparable to services offered to other students in Charter School such as (42 U.S.C. § 11432(g)(4)):

- Transportation services
- Educational services for which the child or youth meets eligibility criteria, such as educational programs for students with disabilities and educational programs for students with limited English proficiency
- Programs in career-vocational and technical education
- Programs for gifted and talented students
- Charter School nutrition programs

### **Transportation**

In the event that Charter School provides transportation services to all Charter School students, Charter School shall provide comparable transportation services to each homeless child or youth attending Charter School, as noted above. (42 U.S.C. § 11432(g)(4).)

If the Charter School does not otherwise provide transportation services to all Charter School students, Charter School shall ensure that transportation is provided for homeless students to and from Charter School, at the request of the parent or guardian (or Charter School Liaison), if Charter School is the student's school of origin. (42 U.S.C. § 11432(g)(1)(J).) Transportation provided by Charter School will be adequate and appropriate for the Student's situation, but Charter School does not commit to any one method of transportation for all youth.

### **Professional Development**

All administrators, teachers and employees of Charter School including the Charter School Liaison, will be provided professional development on the identification, services, and sensitivity necessary when dealing with homeless children and youth. ~~(42 U.S.C. § 11433(d)(3))~~  
~~All identified or suspected homeless children and youth will be referred to the Charter School Liaison. The Charter School Liaison will verify that the Charter School is providing the required training to school personnel providing services to youth experiencing homelessness at least annually through the CDE's verification system. (Education Code Section 48852.5(c)(2).)~~

The Charter School Liaison shall offer training to Charter School certificated and classified employees providing services to students experiencing homelessness, including, but not limited to, teachers, support staff, and other school staff who work with pupils, at least annually relating to:

- (1) Charter School's homeless education program policies; and
- (2) Recognition of signs that pupils are experiencing, or are at risk of experiencing, homelessness.

The Charter School Liaison shall inform such employees of the availability of training and the services the Charter School Liaison provides to aid in the identification and provision of services to students who are experiencing, or are at risk of experiencing, homelessness.

### **High School Graduation Requirements**

Homeless students who transfer to the Charter School any time after the completion of their second year of high school shall be exempt from any of the Charter School's graduation requirements that are in excess of the California minimum graduation requirements specified in Education Code section 51225.3 ("additional graduation requirements") unless Charter School makes a finding that the student is reasonably able to complete the Charter School's graduation requirements by the end of the student's fourth year of high school.

To determine whether a homeless student is in their third or fourth year of high school, either the number of credits the student has earned to the date of transfer or the length of the student's

school enrollment may be used, whichever will qualify the student for the exemption.

Within thirty (30) calendar days of the date that a student who may qualify for exemption under the above requirements transfers into the Charter School, the Charter School shall notify the student, the student's educational rights holder, and the Charter School Liaison of the availability of the exemption and whether the student qualifies for an exemption.

The Charter School shall notify students who are exempted from the Charter School's additional graduation requirements and the student's educational rights holder of how any of the requirements that are waived will affect the student's ability to gain admission to a postsecondary educational institution and provide information about transfer opportunities available through the California Community Colleges.

The Charter School shall not require any student who would otherwise be entitled to remain in attendance at the Charter School to accept the exemption from the Charter School's additional graduation requirements or deny the student enrollment in, or the ability to complete, courses for which the student is otherwise eligible. The Charter School shall not revoke an exemption and shall grant an eligible student's request for the exemption at any time if the student qualifies, regardless of whether the student previously declined the exemption. An eligible student's exemption from the Charter School's additional graduation requirements will continue to apply while the student is enrolled in the Charter School or if the student transfers to another school even after the student no longer meets the definition of a homeless child.

The Charter School shall not require or request that a student transfer schools in order to qualify the student for the exemption. Nor shall a student, a student's parent/guardian or educational rights holder, or a student's social worker or probation officer request a transfer solely to qualify for an exemption from the Charter School's additional graduation requirements.

If a student who is exempted from the Charter School's additional graduation requirements completes the California minimum coursework requirements specified in Education Code section 51225.3 before the end of the student's fourth year of high school and would otherwise be entitled to remain in attendance at the Charter School, the Charter School shall not require or request that the student graduate before the end of the student's fourth year of high school.

If the Charter School determines the student is reasonably able to complete the Charter School's graduation requirements by the end of the student's fifth year of high school, the Charter School shall do the following:

1. Inform the student of the student's option to remain at the Charter School for a fifth year to complete the Charter School's graduation requirements.
2. Inform the student, and the educational rights holder for the student, about how remaining in school for a fifth year to complete the Charter School's graduation requirements will affect the student's ability to gain admission to a postsecondary

educational institution.

3. Provide information to the student about transfer opportunities available through the California Community Colleges.
4. Permit the student to stay at the Charter School for a fifth year to complete the Charter School's graduation requirements upon agreement with the student, if the student is 18 years of age or older, or, if the student is under 18 years of age, upon agreement with the educational rights holder for the student.

### **Acceptance of Course Work**

The Charter School will accept any coursework satisfactorily completed at any public school, a juvenile court school, a school in a country other than the United States, and/or a nonpublic, nonsectarian school or agency by a homeless student.

The Charter School will provide homeless students credit for the partial completion of courses taken while attending a public school, a juvenile court school, a school in a country other than the United States, and/or a nonpublic, nonsectarian school or agency. If the student did not complete the entire course, the Charter School shall not require the student to retake the portion of the course the student completed unless the Charter School, in consultation with the holder of educational rights for the student, finds that the student is reasonably able to complete the requirements in time to graduate from high school. When partial credit is awarded in a particular course, the homeless student shall be enrolled in the same or equivalent course, if applicable, so that the student may continue and complete the entire course. These students shall not be prevented from taking or retaking a course to meet California State University or the University of California admission eligibility requirements.

### **Notice**

For any homeless student who seeks enrollment at the Charter School, written notice will be provided to the parent/guardian at the time of enrollment and while the student is enrolled at the Charter School in alignment with the law. (42 U.S.C. § 11432(e)(3)(C).)

### **Annual Policy Review**

The Charter School shall annually review and revise any policies that may act as barriers to the identification of homeless children and youths or the enrollment of homeless children and youths at the Charter School. In reviewing and revising such policies, consideration shall be given to issues concerning transportation, immunization, residency, birth certificates, school records and other documentation, and guardianship. Special attention shall be given to ensuring the identification, enrollment, and attendance of homeless children and youths who are not currently attending school. [Charter School's review of its homeless education program policies shall use resources developed by the CDE and posted on the CDE's internet website and](#)

resources developed by homeless education technical assistance centers established using funding from the American Rescue Plan Act of 2021.

**School Website Posting**

Charter School shall ensure that the following information is posted, and updated as necessary, on its internet website:

- The name and contact information of the Charter School Liaison(s) for homeless children and youths.
- The contact information of any employee or contractor that assists the Charter School Liaison in completing the Liaison’s duties.
- Specific information regarding the educational rights and resources available to persons experiencing homelessness.

The Charter School recognizes that Foster and Mobile Youth may face significant barriers to achieving academic success due to their family circumstances, disruption to their educational program, and their emotional, social, and other health needs. To enable such students to achieve state and charter school academic standards, the Charter School shall provide them with full access to the Charter School’s educational program and implement strategies identified as required by law and necessary for the improvement of the academic achievement of foster youth in the Charter School’s local control and accountability plan (“LCAP”).

- “*Best interests*” means that, in making educational and school placement decisions for a foster youth, consideration is given to, among other factors, the opportunity to be educated in the least restrictive educational program and the foster youth’s access to academic resources, services, and extracurricular and enrichment activities that are available to all Charter School students.

### **Foster and Mobile Youth Liaison**

In order to help facilitate the enrollment, placement, and transfer of Foster and Mobile Youth to the Charter School, the Governing Board shall designate a Foster and Mobile Youth liaison. The Governing Board designates the following position as the Charter School’s liaison for Foster and Mobile Youth:

Ana Maria Rojas  
Equity and Inclusion Administrator  
[arojos@altusschools.net](mailto:arojos@altusschools.net)  
858-678-4818

The Foster and Mobile Youth Liaison shall be responsible for the following:

1. Ensure and facilitate the proper educational placement, enrollment in the Charter School, and checkout from the Charter School foster youth.
2. Ensure proper transfer of credits, records, and grades when ~~Foster and Mobile Youth~~ foster youth transfer to or from the Charter School.
3. When a foster youth is enrolling in the Charter School, the Foster and Mobile Youth Liaison shall contact the school last attended by the student within two (2) business days to obtain all academic and other records. The last school attended by the foster youth shall provide all required records to the new school regardless of any outstanding fees, fines, textbooks, or other items or moneys owed to the school last attended. When a foster youth is transferring to a new school, the Foster and Mobile Youth Liaison shall provide the student's records to the new school within two (2) business days of receiving the new school's request, regardless of any outstanding fees, fines, textbooks, or other items or moneys owed to the Charter School.
4. When required by law, notify the foster youth's attorney and the appropriate representative of the county child welfare agency at least ten (10) calendar days preceding the date of the following:
  - a. An expulsion hearing for a discretionary act under the Charter School's charter.

5. As needed, make appropriate referrals to ensure that students in foster care receive necessary special education services and services under Section 504 of the federal Rehabilitation Act of 1973.
6. As needed, ensure that students in foster care receive appropriate school-based services, such as counseling and health services, supplemental instruction, and after-school services.
7. Develop protocols and procedures for creating awareness for Charter School staff, including but not limited to Administrator of Instructional Services, School Coordinator and Student Services Coordinator of the requirements for the

proper enrollment, placement, and transfer of foster youth.

9. Monitor the educational progress of foster youth and provide reports to the Equity and Inclusion Officer or designee and the Governing Board based on indicators identified in the Charter School's local control and accountability plan.

This Policy does not grant the Foster and Mobile Youth Liaison authority that supersedes the authority granted under state and federal law to a parent or legal guardian retaining educational rights, a responsible person appointed by the court to represent the child pursuant to Welfare and Institutions Code sections 319, 361 or 726, a surrogate parent, or a foster parent exercising authority under Education Code section 56055. The role of the Foster and Mobile Youth Liaison is advisory with respect to placement options and determination of the school of origin.

### **School Stability and Enrollment**

The Charter School will work with foster youth and their ERH to ensure that each foster youth is placed in the least restrictive educational programs and has access to the academic resources, services, and extracurricular and enrichment activities that are available to all students, including, but not limited to, interscholastic sports. All decisions regarding a foster youth's education and placement will be based on the best interest of the child and shall consider, among other factors, educational stability and the opportunity to be educated in the least restrictive educational setting necessary to achieve academic progress.

Foster youth, currently migratory children, and children of military families have the right to remain in their school of origin if it is their best interest. The Charter School will immediately enroll a foster youth, a currently migratory child, or child of a military family seeking reenrollment in the Charter School as their school of origin.

A foster youth, currently migratory child, or child of a military family who seeks to transfer to the Charter School will be immediately enrolled (subject to the Charter School's capacity, if the Charter School is not the student's school of origin, and pursuant to the procedures stated in the Charter School's charter and Board policy) even if the student has outstanding fees, fines, textbooks, or other items or monies due to the school last attended or is unable to meet normal enrollment documentation or school uniform requirements (e.g. producing medical records or academic records from a previous school).

At the initial detention or placement, or any subsequent change in placement, a foster youth may continue in their school of origin for the duration of the court's jurisdiction. A currently migratory child or child of a military family may continue in their school of origin as long as the student meets the definition of a currently migratory child or child of a

military family as described above. Foster youth, currently migratory children, and children of military families have the right to remain in their school of origin following the termination of the court's jurisdiction or termination of the child's status as a currently migratory child or child of a military family, as follows:

1. For students in kindergarten through eighth grade, inclusive, the student will be allowed to continue in the school of origin through the duration of the academic year in which the student's status changed.
2. For students enrolled in high school, the student will be allowed to continue in the school of origin through graduation.

If the foster youth, currently migratory child or child of a military family is transitioning between school grade levels, the youth shall be allowed to continue in the district of origin in the same attendance area to provide the youth the benefit of matriculating with their peers in accordance with the established feeder patterns of school districts. A student who is transitioning to a middle school or high school shall be allowed to enroll in the school designated for matriculation in another school district.

The Foster and Mobile Youth Liaison may, in consultation with and with the agreement of the foster youth and the ERH for the foster youth, recommend that the foster youth's right to attend the school of origin be waived and the student be enrolled in any district school that the student would otherwise be eligible to attend as a resident of the school district or in the Charter School consistent with current enrollment procedures. All decisions shall be made in accordance with the foster youth's best interests.

Prior to making any recommendation to move a foster youth from their school of origin, the Foster and Mobile Youth Liaison shall provide the foster youth and the foster youth's ERH with a written explanation of the basis for the recommendation and how the recommendation serves the foster youth's best interests.

If any dispute arises regarding a foster youth's request to remain in the Charter School as the foster youth's school of origin, the foster youth have the right to remain in the Charter School pending resolution of the dispute. The dispute shall be resolved in accordance with the existing Charter School dispute resolution process.

### **Transportation**

The Charter School shall not be responsible for providing transportation to allow a foster youth to attend school, unless there is an agreement with a local child welfare agency that the Charter School assumes part or all of the transportation costs in accordance with Section 6312(c)(5) of Title 20 of the United States Code, or unless required by federal law. The Charter School is not prohibited from providing transportation, at its discretion, to

allow a foster youth to attend school.

In accordance with Section 6312(c)(5) of Title 20 of the United States Code, the Charter School shall collaborate with local child welfare agencies to develop and implement clear written procedures to address the transportation needs of foster youth to maintain them in their school of origin, when it is in the best interest of the youth.

For any student who has an individualized education program ("IEP"), the student's IEP team will determine if the student requires special education transportation as a related service regardless of the student's status.

#### **Effect of Absences on Grades**

The grades of a foster youth shall not be lowered for any absence from the Charter School that is due to either of the following circumstances:

- a. A decision by a court or placement agency to change the student's placement, in which case the student's grades shall be calculated as of the date the student left school.
- b. A verified court appearance or related court-ordered activity.

#### **Transfer of Coursework and Credits**

The Charter School shall accept coursework satisfactorily completed by a Foster and Mobile Youth while attending another public school<sup>4</sup>, a juvenile court school, a charter school, a school in a country other than the United States, or a nonpublic, nonsectarian school or agency even if the student did not complete the entire course and shall issue that student full or partial credit for the coursework completed. The credits accepted pursuant to this paragraph shall be applied for enrollment purposes to the same or equivalent course, if applicable, as the coursework completed in the prior public school, juvenile court school, charter school, school in a country other than the United States, or nonpublic, nonsectarian school. For purposes of the official transcript, the credits accepted pursuant to this paragraph shall be added to the credits earned from the same or equivalent course for purposes of calculating the total credits earned for the course but shall separately identify the school and local educational agency in which the credits were earned.

If a Foster and Mobile Youth transfers in or out of Charter School, Charter School shall issue the full and partial credits on an official transcript for the pupil and shall ensure the transcript includes all of the following:

- a. All full and partial credits and grades earned based on any measure of full or partial coursework being satisfactorily completed, including a determination of the days of enrollment or seat time, or both, if applicable, at a school of that local educational agency or a prior local educational agency, or any other public school, juvenile court school, charter school, school in a country other than the United States, or nonpublic, nonsectarian school.

<sup>4</sup> For purposes of coursework completed by a student who is a child of a military family, "public school" includes schools operated by the United States Department of Defense.

- b. The credits and grades for each school and local educational agency listed separately so it is clear where they were earned.
- c. A complete record of the pupil's seat time, including both period attendance and days of enrollment.

If Charter School has knowledge that the transcript from the transferring local educational agency may not include certain credits or grades for the pupil, it shall contact the prior local educational agency within two business days to request that the prior local educational agency issue full or partial credits pursuant to this paragraph. The prior local educational agency shall issue appropriate credits and provide all academic and other records to Charter School within two business days of the request.

If the Foster and Mobile Youth did not complete the entire course, the student shall be issued partial credit for the coursework completed and shall not be required to retake the portion of the course that the student completed at another school unless the Charter School, in consultation with the student's ERH, finds that the student is reasonably able to complete the requirements in time to graduate from high school. Whenever partial credit is issued to a Foster and Mobile Youth in any particular course, the student shall be enrolled in the same or equivalent course, if applicable, so that the student may continue and complete the entire course.

In no event shall the Charter School prevent a Foster and Mobile Youth from taking or retaking a course to meet the eligibility requirements for admission to the California State University or the University of California.

#### Applicability of Graduation Requirements

To obtain a high school diploma from the Charter School, a student must complete all courses required by the Charter School and fulfill any additional graduation requirements prescribed by the Board. However, Foster and Mobile Youth who transfer to the Charter School any time after the completion of their second year of high school, and students participating in a newcomer program who are in their third or fourth year of high school, shall be exempt from any of the Charter School's graduation requirements that are in excess of the California minimum graduation requirements specified in Education Code section 51225.3 ("additional graduation requirements") unless the Charter School makes a finding that the student is reasonably able to complete the Charter School's graduation requirements by the end of the student's fourth year of high school.

To determine whether a Foster and Mobile Youth is in their third or fourth year of high school, either the number of credits the student has earned to the date of transfer, or the length of the student's school enrollment may be used, whichever will qualify the student for the exemption. For a student participating in a newcomer program, enrollment in grade 11 or 12 based on the average age of students in the third or fourth year of high school

may be used to determine whether the student is in their third or fourth year of high school.

Within thirty (30) calendar days of the date that a student who may qualify for exemption under the above requirements transfers into the Charter School, the Charter School shall notify the student, the ERH, and where applicable, the student's social worker or probation officer, of the availability of the exemption and whether the student qualifies for the exemption. If the Charter School fails to provide timely notice of the availability of the exemption, the Foster and Mobile Youth shall be eligible for the exemption from the additional graduation requirements once notified, even if that notification occurs after the termination of the court's jurisdiction over the student, if the foster youth otherwise qualifies for the exemption.

If a student is exempted from the Charter School's additional graduation requirements pursuant to this Policy and completes the statewide coursework requirements specified in Educational Code section 51225.3 before the end of their fourth year of high school and that student would otherwise be entitled to remain in attendance at the Charter School, the Charter School shall not require or request that the student graduate before the end of their fourth year of high school.

The Equity and Inclusion Officer or designee shall notify a Foster and Mobile Youth and their ERH if the Charter School grants an exemption from the additional graduation requirements, ~~how any requirements that are waived will affect the student's ability to gain admission to a postsecondary educational institution, and shall provide information about transfer opportunities available through the California Community Colleges, and shall consult with the Foster and Mobile Youth and their ERH. The consultation shall include all of the following:~~

- ~~1. Discussion regarding how any of the requirements that are waived may affect the pupil's postsecondary education or vocation plans, including the ability to gain admission to a postsecondary educational institution.~~
- ~~2. Discussion and information about other options available to the pupil, including, but not limited to, a fifth year of high school, possible credit recovery, and any transfer opportunities available through the California Community Colleges.~~
- ~~3. Consideration of the pupil's academic data and any other information relevant to making an informed decision on whether to accept the exemption.~~

A Foster and Mobile Youth who would otherwise be entitled to remain in attendance at the Charter School shall not be required to accept the exemption from additional graduation requirements or be denied enrollment in, or the ability to complete, courses for which the student is otherwise eligible, including courses necessary to attend an

institution of higher education, regardless of whether those courses are required for statewide graduation requirements.

If ~~an eligible student a Foster and Mobile Youth who was eligible for an exemption and 1) was not properly notified of the availability of the exemption, or 2) is not exempted from additional graduation requirements or has~~ previously declined the exemption pursuant to this Policy, the Charter School shall exempt the student ~~at any time within thirty (30) days of the exemption request,~~ if an exemption is requested by the youth and the youth ~~qualifies at one time qualified~~ for the exemption, ~~even if the pupil is no longer a Foster and Mobile Youth or the court's jurisdiction of the pupil has terminated.~~ Likewise, if the youth is exempted, the Charter School may not revoke the exemption.

If a Foster and Mobile Youth is exempted from additional graduation requirements pursuant to this section, the exemption shall continue to apply after the termination of the court's jurisdiction over the student or after the termination of circumstances which make the Student eligible while he or she is enrolled in school or if the student transfers to another school, including a charter school, or school district.

The Charter School shall not require or request a Foster and Mobile Youth to transfer schools in order to qualify for an exemption from additional graduation requirements, and no Foster and Mobile Youth or any person acting on behalf of a Foster and Mobile Youth may request a transfer solely to qualify for an exemption from the Charter School's additional graduation requirements.

Upon making a finding that a Foster and Mobile Youth is reasonably able to complete the Charter School's additional graduation requirements within the student's fifth year of high school, the Equity and Inclusion Officer or designee shall:

1. ~~Inform-Consult with~~ the student and the student's ERH of the student's option to remain in school for a fifth year to complete the Charter School's graduation requirements, consistent with the laws regarding continuous enrollment and satisfactory progress for Charter School students over age 19.
2. ~~Inform-Consult with~~ the student and the student's ERH how remaining in school for a fifth year will affect the student's ability to gain admission to a postsecondary educational institution.
3. ~~Provide-Consult with and provide~~ information to the student about transfer opportunities available through the California Community Colleges.
4. Upon agreement with the student or, if the student is under 18 years of age, the

ERH, permit the student to stay in school for a fifth year to complete the Charter School's graduation requirements.

Through January 1, 2028, upon making a finding that a Foster and Mobile Youth is not reasonably able to complete the Charter School's additional graduation requirements but is reasonably able to complete state coursework requirements specified in Education Code Section 51225.3 within the student's fifth year of high school, the Executive Director or designee shall exempt the pupil from Charter School's graduation requirements and provide pupil the option of remaining in school for a fifth (5<sup>th</sup>) year to complete the statewide coursework requirements. Charter School shall consult with the Foster and Mobile Youth and the ERH regarding all of the following:

1. The pupil's option to remain in school for a fifth year to complete the statewide coursework requirements.
2. How waiving the local educational requirements and remaining in school for a fifth year may affect the pupil's postsecondary education or vocation plans, including the ability to gain admission to a institution of higher education.
3. Whether any other options are available to the pupil, including, but not limited to, possible credit recovery, and any transfer opportunities available through the California Community Colleges.
4. The pupil's academic data and any other information relevant to making an informed decision on whether to accept the exemption and option to remain in school for a fifth year to complete the statewide coursework requirements.

If a Foster and Mobile Youth is not eligible for an exemption in the year in which the pupil transfers between schools, because Charter School makes a finding that the pupil is reasonably able to complete Charter School's additional graduation requirements in time to graduate from high school by the end of the pupil's fourth year of high school, then Charter School shall do the following:

- 1) Within the first 30 calendar days of the following academic year, Charter School shall reevaluate eligibility;
- 2) Provide written notice to the pupil, the ERH, and the pupil's social worker or probation officer, if applicable, whether the pupil qualifies for an exemption, based on the course completion status of the pupil at the time of

reevaluation, to determine if the pupil continues to be reasonably able to complete Charter School's additional graduation requirements in time to graduate from high school by the end of the pupil's fourth year of high school.

- 3) If, given their course completion status at that time the reevaluation is conducted, the pupil is not reasonably able to complete Charter School additional graduation requirements in time to graduate from high school by the end of the pupil's fourth year of high school, the Charter School shall:**
- i. provide the pupil with the option to receive an exemption from all coursework and other requirements adopted by the governing board body of Charter School that are in addition to the statewide coursework requirements specified in Section 51225.3, or**
  - ii. to stay in school for a fifth year to complete the Charter School's additional graduation requirements.**

Charter School shall provide notification of the availability of these options. The pupil (if not a minor) or the ERH shall have sole discretion whether to accept the exemption, based on the pupil's best educational interests.

If a juvenile court youth satisfies the requirements for high school graduation while enrolled at a juvenile court school but has elected to decline the issuance of the diploma for the purpose of taking additional coursework, the Charter School will not prevent the juvenile court youth from enrolling in the Charter School and pursuing additional coursework if requested by the youth or by the youth's ERH.

#### **Eligibility for Extracurricular Activities**

A student who is in foster care whose residence changes pursuant to a court order or decision of a child welfare worker shall be immediately deemed to meet all residency requirements for participation in interscholastic sports or other extracurricular activities.

#### **Waiver of Fees for Afterschool Programs**

The Charter School shall not charge any student who the Charter School knows is currently in foster care any family fees associated with an After-School Education and Safety ("ASES") Program operated by the Charter School.

#### **Student Records**

When the Charter School receives a transfer request and/or student records request for the educational information and records of a foster youth from a new LEA, the Charter School shall provide these student records within two (2) business days. The Charter School shall compile the complete educational record of the student, including but not limited to a determination of seat time, full or partial credits earned, current classes and grades, immunization, and other records, and, if applicable, a copy of the student's special education records including assessments, IEPs, and/or 504 plans. All requests for student records will be shared with the Foster and Mobile Youth Liaison, who shall be aware of the specific educational record keeping needs of Foster and Mobile Youth.

In accordance with the Charter School's Educational Records and Student Information Policy, under limited circumstances, the Charter School may disclose student records or personally identifiable information contained in those records to certain requesting parties including but not limited to a foster family agency and state and local authorities within a juvenile justice system, without parental consent.

### **Complaints of Noncompliance**

Complaints of noncompliance with this Policy shall be governed by the Charter School's Uniform Complaint Procedures. A copy of the Uniform Complaint Policy and Procedures is available upon request.

### **Reporting Requirements**

Charter School shall report to the California Department of Education ("CDE") annually on the number of pupils who, for the prior school year, graduated with an exemption from the Charter School's graduation requirements that are in addition to the statewide coursework requirements. This data shall be reported for pupils graduating in the fourth year and fifth year cohorts, and shall be disaggregated by cohort, pupil category, race, and disability status. The CDE shall make this data publicly available on an annual basis aligned with other reporting timelines for the California dashboard graduation data. For purposes of this subdivision, "pupil category" means the categories of pupils identified in the "Definitions" section of this Policy, above.

\*\*\*\*

### **Availability of Complete Policy**

For any Foster and Mobile Youth who enrolls at the Charter School, a copy of the Charter School's complete foster youth policy shall be provided at the time of enrollment. A copy of the complete Policy is available on the school website.

## ***Section 504: Policy, Procedures, and Parent Rights Regarding Identification, Evaluation, and Education***

**Board Policy: 3325**

**Approved: February 16, 2022**

**Amended: June 22, 2023**

### **A. SECTION 504 POLICY**

The Board of Directors of Audeo Charter School hereby adopts the Section 504: Policy,

Procedures, and Parent Rights Regarding Identification, Evaluation and Education to apply to Audeo Charter School II, Audeo Charter School III, Audeo Valley Charter School, Grossmont Secondary School, [Mirus Secondary School](#) and Sweetwater Secondary School hereafter collectively referred to as ("Charter School"). The Governing Board of the Charter School recognizes the need to identify and evaluate students with disabilities in order to provide them with a free, appropriate public education and its legal responsibility to ensure that "no qualified person with a disability shall, solely by reason of their disability, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance." This Policy and the related administrative regulation has been developed to ensure the implementation of Section 504 of the Rehabilitation Act of 1973 ("Section 504"), and its implementing regulations as amended, which pertains to public schools. The intent is to ensure that all students with disabilities, who are eligible under Section 504, are identified and evaluated and have access to a free, appropriate public education ("FAPE").

Under Section 504, individuals with physical or mental impairments that substantially limit one or more major life activities, including learning, are entitled to receive regular or special education and/or related aids and services designed to meet their individual needs as adequately as the needs of nondisabled students are met. Major Life Activities include functions such as caring for oneself, performing manual tasks, seeing, hearing, eating, sleeping, walking, standing, lifting, bending, speaking, breathing, learning, reading, concentrating, thinking, communicating, and working, as well as the operation of a major bodily functions, including functions of the immune system, normal cell growth, digestive, bowel, bladder, neurological, brain, respiratory, circulatory, endocrine, and reproductive functions. Students may be disabled and entitled to services under Section 504 even though they are not eligible for services pursuant to the Individuals with Disabilities Education Act Improvement Act of 2004 ("IDEA").

The Charter School's Executive Director or designee shall ensure that this policy and set of procedures is implemented and followed. Whenever there is reason to believe that, because of a disability, a student needs regular or special education and/or related aids and services (and the student has not been found eligible under IDEA) that student will be evaluated under this policy's corresponding procedures.

A Section 504 Team will be convened to determine the student's need for regular or special education and/or related aids and services. The 504 Team will include persons knowledgeable about the Section 504 standards, the student's individual needs and school history, the meaning of evaluation data, and placement options. The student's parent/guardian shall be invited to participate in this 504 Team and shall receive notice of procedural safeguards guaranteed by law.

If Charter School does not assess a student after a parent has requested an assessment, the Charter School shall provide notice of the parent's/guardian's procedural safeguards. Charter School shall not retaliate in any way against parents/guardians or students who exercise any rights under the procedural safeguards and/or Section 504.

If the student, due to disability, is found to require regular or special education and/or related aids and services under Section 504, the Section 504 Team shall develop a 504 plan for the provision of such services to the student. The student shall be educated with nondisabled students to the maximum extent appropriate to the student's individual needs. The student's parent/guardian shall be provided a copy of the 504 plan and shall receive notice of procedural safeguards guaranteed by law. Charter School shall periodically review the student's progress and placement.

The Charter School does not discriminate on the basis of disability, or any other characteristic protected under law. Charter School will implement this policy through its corresponding procedures.

## **B. SECTION 504 PROCEDURES**

### **A. Definitions**

1. **Academic Setting** – the regular, educational environment operated by Charter School.
2. **Individual with a Disability under Section 504** – An individual who:
  - a. has a physical or mental impairment that substantially limits one or more major life activities;
  - b. has a record of such an impairment; or
  - c. is regarded as having such an impairment.
3. **Evaluation** – procedures used to determine whether a student has a disability as defined within these Procedures, and the nature and extent of the services that the student needs. The term means procedures used selectively with an individual student and does not include basic tests administered to,

or procedures used with, all students in a school, grade, or class.

4. **504 Plan** – is a plan developed to identify and document the student’s needs for regular or special education and related aids and services for participation in educational programs, activities, and school–sponsored events.
5. **Free Appropriate Public Education (“FAPE”)** – the provision of regular or special education and related aids and services that are designed to meet the individual needs of persons with disabilities as adequately as the needs of persons without disabilities are met.
6. **Major Life Activities** - Functions such as caring for oneself, performing manual tasks, seeing, hearing, eating, sleeping, walking, standing, sitting, reaching, lifting, bending, speaking, breathing, learning, reading, concentrating, thinking, communicating, interacting with others, and working. A major life activity also includes the operation of a major bodily function, including but not limited to, functions of the immune system, special sense organs and skin, normal cell growth, digestive, genitourinary, bowel, bladder, neurological, brain, respiratory, circulatory, endocrine, hemic, lymphatic, musculoskeletal, and reproductive functions.
7. **Physical or Mental Impairment** –
  - a. Any physiological disorder or condition, cosmetic disfigurement, or anatomical loss affecting one or more of the following body systems: neurological; musculoskeletal; special sense organs; respiratory; including speech organs; cardiovascular; reproductive; digestive; genitor-urinary; hemic and lymphatic; skin; and endocrine; or
  - b. Any mental or psychological disorder, such as intellectual disability, organic brain syndrome, emotional or mental illness, and specific

learning disabilities.

8. **504 Coordinator** – The Special Education Coordinator shall serve as the Charter School’s Section 504 Coordinator. The parents or guardians may request a Section 504 due process hearing from or direct any questions or concerns to the Section 504 Coordinator at (619) 393-2270.
9. **Has a record of such an impairment** - means has a history of, or has been misclassified as having, a mental or physical impairment that substantially limits one or more major life activities.
10. **Is regarded as having an impairment** - means
  - a. An individual meets the requirement of 'being regarded as having such an impairment' if the individual establishes that they have been subjected to an action prohibited under this Act because of an actual or perceived physical or mental impairment whether or not the impairment limits or is perceived to limit a major life activity.
  - b. Being regarded as having an impairment shall not apply to impairments that are transitory and minor. A transitory impairment is an impairment with an actual or expected duration of 6 months or less.

B. Referral, Assessment and Evaluation Procedures

1. Charter School will evaluate any student who, because of disability, needs or is believed to need regular or special education and/or related aids and services.
2. A student may be referred by anyone, including a parent/guardian, teacher, other school employee or community agency, for consideration as to whether the student qualifies as a student with disabilities under Section 504. Requests for evaluation shall be made in writing, and a copy of said request will remain in the student’s file regardless of the final determination. This referral should be made to the Section 504 Coordinator who will convene a 504 Team. Any requests made to another Charter School employee will be forwarded to the Section 504 Coordinator.
3. The Charter School has the responsibility to ensure that students with disabilities are evaluated. Therefore, it is important that students who have or may have a disability are referred to the Section 504 Coordinator so that

the assessment process is initiated.

4. The 504 Team convened by the Section 504 Coordinator will be composed of the student's parents/guardians and other persons knowledgeable about the student (such as the student's regular education teachers), the student's school history, the student's individual needs (such as a person knowledgeable about the student's disabling condition), the meaning of evaluation data, the options for placement and services, and the legal requirements for least restrictive environment and comparable facilities.
5. The 504 Team shall promptly consider the referral and determine what assessments are needed in all suspected areas of disability to evaluate whether the student is a student with a disability under Section 504 and what special needs the student may have. The decision regarding what assessments shall be undertaken shall be based on a review of the student's school records (including academic, social and behavioral records), any relevant medical records, and the student's needs. Students requiring assessment shall be provided appropriate assessments administered by qualified assessment specialists.
6. The 504 Team will consider the following information in its evaluation of the student:
  - a. Tests and other evaluation materials that have been validated for the specific purpose for which they are used and are administered by trained personnel;
  - b. Tests and other evaluation materials including those tailored to assess specific areas of educational need and not merely those which are designed to provide a single general intelligence quotient; and
  - c. Tests are selected and administered so as to best ensure that, when a test is administered to a student with impaired sensory, manual, or speaking skills, the test results accurately reflect the student's aptitude or achievement level or whatever factor the test purports to measure, rather than reflecting the student's impaired sensory, manual, or speaking skills (except where those skills are the factors that the test purports to measure.)

7. The evaluation of the student must be sufficient for the 504 Team to accurately and completely describe: (a) the nature and extent of the disabilities; (b) the student's special needs; (c) the impact upon the student's education; and (d) what regular or special education and/or related aids and services are appropriate to ensure that the student receives a free appropriate public education. All significant factors relating to the learning process for that student, including adaptive behavior and cultural and language background, must be considered. The evaluation may include, but is not limited to, classroom and playground observation, performance-based testing, academic assessment information, and data offered by the student's teachers and parent/guardian.
8. Mitigating measures cannot be considered when evaluating whether or not a student has a substantially limiting impairment. Mitigating measures could include medications, prosthetic devices, assistive devices, or learned behavioral or adaptive neurological modifications a student uses to eliminate or reduce the effects of an impairment.
9. The parents/guardians shall be given an opportunity in advance of 504 Team meetings to examine assessment results and all other relevant records.
10. If a request for evaluation is denied, the 504 Team shall inform the parents/guardians in writing of this decision and of their procedural rights as described below.

C. 504 Plan

1. When a student is identified as having a disability within the meaning of Section 504, the 504 Team shall determine what, if any, services are needed to ensure that the student receives a FAPE.
2. The 504 Team responsible for making the placement decision shall include the parents/guardians and other persons knowledgeable about the child, the meaning of the evaluation data, and the placement options.
3. For each identified eligible student, the 504 Team will develop a 504 Plan describing the student's disability and the regular or special education

and/or related aids and services needed. The Plan will specify how the special education and/or related aids and services will be provided to the eligible student and by whom. The 504 Plan will also identify the person responsible for ensuring that all the components of the Plan are implemented.

4. The student's teacher and any other staff who are to provide services to the student or who are to make modifications in the classroom for the student shall be informed of the services or modifications necessary for the student and, if appropriate, provided a copy of the 504 Plan. A copy of this plan shall be kept in the student's cumulative file in a manner that limits access to those persons involved in the 504 process and/or the provision of services and modifications.
5. The eligible student shall be placed in the regular education environment unless it is demonstrated that the student's needs cannot be met in the regular education environment with supplementary aids and services. The student shall be educated with students who are not disabled to the maximum extent appropriate to their individual needs.
6. The referral, assessment, evaluation, and placement process will be completed within a reasonable time. It is generally not reasonable to exceed fifty (50) school days in completing this process.
7. The parents/guardians shall be notified in writing of the final decision concerning the student's identification as a person with disabilities, the educational program and services to be provided, if any, and of the Section 504 procedural safeguards, as described below, including the right to an impartial hearing to challenge the decision.
8. If the 504 Team determines that the student has a disability but that no special services are necessary for the student, the 504 Plan shall reflect the identification of the student as a person with a disability under Section 504 and shall state the basis for the decision that no special services are presently needed.
9. The 504 Plan shall include a schedule for annual review of the student's needs and indicate that this review may occur more frequently at the request of the parent/guardian or school staff.
10. Charter School shall immediately implement a student's prior 504 Plan, when a student enrolls at the Charter School. Within thirty (30) calendar days of starting school, Charter School shall schedule a 504 Team meeting

to review the existing 504 Plan. Charter School shall request a copy of the prior 504 plan from both the prior school and the parent/guardian.

D. Review of the Student's Progress

1. The 504 Team shall monitor the progress of the eligible student and the effectiveness of the student's 504 Plan. According to the review schedule set out in the student's 504 Plan, the 504 Team shall annually determine whether the services and modifications are appropriate.
2. A reevaluation of the student's needs shall be conducted before any subsequent significant change in placement.

E. Procedural Safeguards

1. Parents/guardians shall be notified in writing of all decisions regarding the identification, evaluation or educational placement of students with disabilities or suspected disabilities. Notifications shall include a statement of their rights to:
  - Examine relevant records
  - Have an impartial hearing with an opportunity for participation by the parents/guardians and their counsel
  - Have the right to file a Uniform Complaint pursuant to Charter School policy
  - Seek review in federal court if the parents/guardians disagree with the hearing decision.
2. Notifications shall also set forth the procedures for requesting an impartial hearing. Requests shall be made to the following:

Kirsten Ramirez Henderson  
10170 Huennekens Street, San Diego, CA 92121  
(619)-393-2270  
khenderson@altusschools.net

Notifications shall also advise that reimbursement for attorney's fees is available only as authorized by law.

3. The Executive Director or designee shall maintain a list of impartial hearing officers who are qualified and willing to conduct Section 504 hearings. To ensure impartiality, such officers shall not be employed by or under contract with Charter School or any district within the El Dorado Charter SELPA or the San Diego County Office of Education in any capacity other than that of hearing officer and shall not have any professional or personal involvement that would affect their impartiality or objectivity in the matter.
4. If a parent/guardian disagrees with the identification, evaluation or educational placement of a student with disabilities under Section 504, the parent/guardian may request a hearing to initiate due process procedures. The parent/guardian shall set forth in writing their request for a hearing. A request for hearing should include:
  - The specific decision or action with which the parent/guardian disagrees.
  - The changes to the 504 Plan the parent/guardian seeks.
  - Any other information the parent/guardian believes is pertinent.
5. Within five (5) calendar days of receiving the parent/guardian's request for a hearing, the Charter School may offer the parent/guardian an optional alternative dispute resolution process. However, the timeline for the hearing shall remain in effect unless it is extended by mutual written agreement of the parent/guardian and the Charter School. Alternative dispute resolution options include:
  - Mediation by a neutral third party.
  - Review of the 504 Plan by the Executive Director or designee.
6. Within ten (10) calendar days of receiving the parent/guardian's request, the Executive Director or designee shall select an impartial hearing officer. These 10 days may be extended for good cause or by mutual agreement of the

parent/guardian and Executive Director.

7. Within thirty-five (35) calendar days of the selection of the hearing officer, the due process hearing shall be conducted. These thirty-five (35) calendar days may be extended for good cause or by mutual agreement of the parent/guardian and Executive Director.
8. The parent/guardian and the School shall be afforded the rights to:
  - Be accompanied and advised by counsel and by individuals with special knowledge or training related to the individual needs of students who are qualified as having a disability under Section 504.
  - Present written and oral evidence.
  - Question and cross-examine witnesses.
  - Receive written findings by the hearing officer.
9. The hearing officer shall issue a written decision within ten (10) calendar days of the hearing.
10. If desired, either party may seek a review of the hearing officer's decision by a federal court. The decision shall be implemented unless the decision is stayed, modified or overturned by a court.
11. Charter School shall not retaliate in any way against parents/guardians or students who exercise any rights under the procedural safeguards and/or Section 504.

F. Suspension and Expulsion, Special Procedures for Students with Disabilities

Charter School shall follow the suspension and expulsion policy and procedures as set forth in the charter. A student who is qualified for services under Section 504 of the Rehabilitation Act of 1973 is subject to the same grounds for disciplinary action, including suspension and expulsion, and is accorded the same due process procedures applicable to general education students except when federal and state

law mandates additional or different procedures. Charter School will follow Section 504 and all applicable federal and state laws when imposing any form of discipline on a student identified as an individual with disabilities or for whom the Charter School has a basis of knowledge of a suspected disability or who is otherwise qualified for such services or protections in accordance to due process to such students. The following procedures shall be followed when a student with a disability is considered for suspension or expulsion. These procedures will be updated if there is a change in the law.

1. Services During Suspension

Students suspended for more than ten (10) school days in a school year shall continue to receive services so as to enable the student to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the child's 504 Plan; and receive, as appropriate, a functional behavioral assessment ("FBA") and behavioral intervention services and modifications, that are designed to address the behavior violation so that it does not recur. These services may be provided in an interim alternative educational setting.

2. Procedural Safeguards/Manifestation Determination

Within ten (10) school days of a recommendation for expulsion or any decision to change the placement of a child with a disability because of a violation of a code of student conduct, Charter School, the parent, and relevant members of the 504 Team shall review all relevant information in the student's file, including the child's 504 Plan, any teacher observations, and any relevant information provided by the parents to determine:

- a. If the conduct in question was caused by, or had a direct and substantial relationship to, the child's disability; or
- b. If the conduct in question was the direct result of the local educational agency's failure to implement the 504 Plan.

If Charter School, the parent, and relevant members of the 504 Team determine that either of the above is applicable for the child, the conduct shall be determined to be a manifestation of the child's disability.

If Charter School, the parent, and relevant members of the 504 Team make the determination that the conduct was a manifestation of the child's disability, the 504 Team shall:

- a. Conduct an FBA and implement a behavioral intervention plan ("BIP") for such child, provided that Charter School had not conducted such assessment prior to such determination before the behavior that resulted in a change in placement;
- b. If the child has a BIP, review the BIP and modify it, as necessary, to address the behavior; and
- c. Return the child to the placement from which the child was removed, unless the parent and Charter School agree to a change of placement as part of the modification of the BIP.

If Charter School, the parent, and relevant members of the 504 team determine that the behavior was not a manifestation of the student's disability and that the conduct in question was not a result of the failure to implement the 504 Plan, then Charter School may apply the relevant disciplinary procedures to children with disabilities in the same manner and for the same duration as the procedures would be applied to students without disabilities.

3. Appeals

The parent/guardian of a child with a disability under a 504 Plan who disagrees with any decision regarding placement, or the manifestation determination, or if the Charter School believes that maintaining the current placement of the child is substantially likely to result in injury to the child or to others, either party may request to utilize the appeal process outlined in the Procedural Safeguards section of these Procedures.

When an appeal relating to the placement of the student or the manifestation determination has been requested by either the parent or Charter School, the student shall remain in the interim alternative educational setting pending the decision of the hearing officer in accordance with state and federal law, including 20 U.S.C. Section 1415(k),

until the expiration of the forty-five (45) day time period provided for in an interim alternative educational setting, unless the parent and Charter School agree otherwise.

4. Special Circumstances

Charter School personnel may consider any unique circumstances on a case-by-case basis when determining whether to order a change in placement for a child with a disability who violates a code of student conduct.

The Executive Director or designee may remove a student to an interim alternative educational setting for not more than forty-five (45) days without regard to whether the behavior is determined to be a manifestation of the student's disability in cases where a student:

- a. Carries or possesses a weapon, as defined in 18 U.S.C. § 930, to or at school, on school premises, or to or at a school function;
- b. Knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at school, on school premises, or at a school function; or
- c. Has inflicted serious bodily injury, as defined by 20 U.S.C. § 1415(k)(7)(D), upon a person while at school, on school premises, or at a school function.

5. Interim Alternative Educational Setting

The student's interim alternative educational setting shall be determined by the student's 504 Team.

6. Procedures for Students Not Yet Eligible for Special Education Services

A student who has not been identified as an individual with disabilities pursuant to the IDEA 2004 and who has violated Charter School's disciplinary procedures may assert the procedural safeguards granted under these Procedures only if Charter School had knowledge that the student had a disability before the behavior occurred.

Charter School shall be deemed to have knowledge that the student had a disability if one of the following conditions exists:

- a. The parent/guardian has expressed concern in writing, or orally if the parent/guardian does not know how to write or has a disability that prevents a written statement, to School Coordinator or the Administrator for Instructional Services, or to one of the child's teachers, that the student is in need of special education or related services.
- b. The parent has requested an evaluation of the child.
- c. The child's teacher, or the special education teacher or the school coordinator, has expressed specific concerns about a pattern of behavior demonstrated by the child, directly to the Special Education Coordinator or to the School Coordinator or to the Administrator for Instructional Services.

If Charter School knew or should have known the student had a disability under any of the three (3) circumstances described above, the student may assert any of the protections available to IDEA 2004-eligible children with disabilities, including the right to stay-put.

If Charter School had no basis for knowledge of the student's disability, it shall proceed with the proposed discipline. Charter School shall conduct an expedited evaluation if requested by the parent/guardian; however, the student shall remain in the education placement determined by Charter School pending the results of the evaluation.

Charter School shall not be deemed to have knowledge of that the student had a disability if the parent has not allowed an evaluation, refused services, or if the student has been evaluated and determined to not be eligible.

### **C. PARENT/STUDENT RIGHTS IN IDENTIFICATION, EVALUATION, ACCOMMODATION AND PLACEMENT**

The following is a description of the rights granted by federal law to students with disabilities. The intent of the law is to keep you fully informed concerning decisions about your child and to inform you of your rights if you disagree with any of these decisions. Please keep this explanation for future reference.

You have the right to:

1. Have your child take part in and receive benefits from public education programs without discrimination because of their disabling condition.
2. Have Charter School advise you of your rights under federal law.
3. Receive notice with respect to Section 504 identification, evaluation and/or placement of your child.
4. Have your child receive a free appropriate public education. This includes the right to be educated with non-disabled students to the maximum extent appropriate. It also includes the right to have Charter School make reasonable accommodations to allow your child an equal opportunity to participate in school and school-related activities.
5. Have your child educated in facilities and receive services comparable to those provided to non-disabled students.
6. Have your child receive special education and related services if your child is found to be eligible under the Individuals with Disabilities Education Improvement Act (IDEA 2004).

11. Obtain a response from Charter School to reasonable requests for explanations and interpretations of your child's records.
12. Request an amendment of your child's educational records if there is

reasonable cause to believe they are inaccurate, misleading, or otherwise in violation of the privacy rights of your child. If Charter School refuses this request for amendment, the Charter School shall notify you within a reasonable time and advise you of your right to an impartial hearing.

13. Request mediation or file a grievance in accordance with Charter School's Section 504 mediation grievance and hearing procedures, outlined above.
14. Request an impartial hearing regarding the Section 504 identification, evaluation, or placement of your child. You and the student may take part in the hearing and have an attorney represent you.

However, no charge shall be made for furnishing (1) up to two transcripts of former students' records or (2) up to two verifications of various records of former students. The charge will not include a fee to search for or to retrieve the education records.

2. Request for Amendment to Education Records

Following the inspection and review of a student's education record, a parent or eligible student may file a written request with the Executive Director to correct or remove any information in the student's education record that is any of the following:

If the Executive Director sustains any or all of the allegations, the Executive Director must order the correction or the removal and destruction of the information. The Executive Director or designee must then inform the parent or eligible student of the amendment in writing.

### 3. Hearing to Challenge Education Record

If Charter School denies a parent or eligible student's request to amend an education record, the parent or eligible student may, within thirty (30) days of the denial, request in writing that the parent or eligible student be given the opportunity for a hearing to challenge the content of the student's education record on the grounds that the information contained in the education record is: inaccurate, misleading, or in violation of the privacy rights of the student.

The Board Chair may convene a hearing panel to assist in making determinations regarding educational record challenges provided that the parent has given written consent to release information from the student's records to the members of the panel convened. The hearing panel shall consist of the following persons:

- a. The Administrator of Instructional Services, School Coordinator, or designee of a public school other than the public school at which the record is on file;

- c. A parent appointed by the Executive Director or by the Board Chair, depending upon who convenes the panel.

The hearing to challenge the education record shall be held within thirty (30) days of the date of the request for a hearing. Notice of the date, time and place of the hearing will be sent by Charter School to the parent or eligible student no later than twenty (20) days before the hearing.

The Administrator for Instructional Services or designee of a public school will serve as the chairman and shall not be required to use formal rules of evidence or procedure. The parent or eligible student will be given a full and fair opportunity to present evidence relevant to the issues relating to the challenge to the education record. The parent or eligible student may also, at their own expense, be assisted or represented by one or more individuals of their choice, including an attorney. The decision of the Board Chair or Executive Director or designee will be based solely on the evidence presented at the hearing and is final. Within thirty (30) days after the conclusion of the hearing, Charter School's decision regarding the challenge will be made in writing and will include a summary of the evidence and the reasons for the decision.

If, as a result of the hearing, Charter School decides that the information is inaccurate,

misleading, or in violation of the privacy rights of the student, it will amend the record accordingly and inform the parent or eligible student of the amendment in writing.

If, as a result of the hearing, Charter School decides that the information in the education record is not inaccurate, misleading, or in violation of the privacy rights of the student, it shall inform the parent or eligible student of the right to place a statement in the record commenting on the contested information in the record or stating why they disagree with the decision of Charter School, or both. If Charter School places a statement by the parent or eligible student in the education records of a student, it will maintain the statement with the contested part of the record for as long as the record is maintained and disclose the statement whenever it discloses the portion of the record to which the statement relates.

#### **Disclosure Of Education Records And Directory Information**

Charter School must have a signed and dated written consent from the parent or eligible student before releasing any non-directory information from a student's education record except as provided below. The written permission must specify the records that may be disclosed, the purpose of the disclosure and the party or class of parties to whom the disclosure may be made. When disclosure is made pursuant to written permission, the parent or eligible student may request a copy of the disclosed records and Charter School shall provide the requestor with a copy of the records disclosed upon request. Signed and dated written consent may include a record and signature in electronic form if it identifies and authenticates a particular person as the source of the electronic consent and indicates such person's approval of the information contained in the electronic consent.

Charter School will only disclose PII on the condition that the receiving party not disclose the information to any party without the prior written consent of the parent or eligible student and that the receiving party use the information for the purposes for which the disclosure was made. This restriction does not apply to disclosures that fall within the disclosure exceptions listed below. Charter School must maintain the appropriate records related to these disclosure exceptions, as described below. Except for disclosures pursuant to a warrant, judicial order or lawfully issued subpoena, or directory information or to parents or eligible students, Charter School will inform a receiving party of the requirement that the party not disclose the information to any other party without the prior written consent of the parent or eligible student and that the receiving party use it for the purpose for which the disclosure was made.   - c. Charter School will not collect entire social security numbers or cards or a statement that the parent or guardian does not possess a Social Security number for the purposes of enrollment, and failure to provide this information will not bar a student from enrolling or attending Charter School. However, the last four digits of an adult household member's Social Security number may be solicited and/or collected if required to establish eligibility for federal benefit programs such as free or reduced-price meals. This Social Security information will only be collected for the limited purpose of establishing eligibility for federal benefit programs and will not affect student enrollment.
6. Charter School will not release information to third parties for immigration-enforcement purposes, except as required by law or court order. Except for investigations of child abuse, child neglect, or child dependency, or when the subpoena served on the Charter School prohibits disclosure, Charter

School shall provide parental or guardian notification of any court orders, warrants, or subpoenas before responding to such requests.

The parent, guardian, or eligible student is not required to sign the consent form. If the parent, guardian or eligible student refuses to provide written consent for the release of student information that this not otherwise subject to release, Charter School shall not release the information. For each request, the record must include the following information: the parties who have requested or received the information and the legitimate interests the parties had in requesting or obtaining the information.

For disclosures of PII to institutions that make disclosures of the information on behalf of Charter School in accordance with 34 C.F.R. § 99.33(b), the record must include the names of the additional parties to which the receiving party may disclose the information on behalf of Charter School and the legitimate interests that each of the additional parties has in requesting or obtaining the information.

These record keeping requirements do not apply to requests from or disclosure to parents or eligible students, Charter School officials with a legitimate purpose of inspecting the records, a party with written consent from the parent or eligible student, a party seeking directory information, or a party seeking or receiving the records as directed by a court order or subpoena.

The records relating to disclosures of PII may be inspected by parents and eligible students, Charter School officials (or their assistants) responsible for the custody of the records, and parties authorized by regulations for the purpose of auditing the recordkeeping procedures of Charter School.

Student cumulative records may not be removed from the premises of Charter School, unless the individual removing the record has a legitimate educational interest, and is authorized by the Executive Director, or by a majority of a quorum of the Board of Directors at a duly agendized meeting. Employees who remove student cumulative records or other student records from the Charter School premises without a legitimate educational interest and authorization may be subject to discipline. ### ***Professional Boundaries: Staff/Student Interaction Policy***

Audeo Charter School III ("Charter School") recognizes its responsibility to make and enforce all rules and regulations governing student and employee behavior to bring about the safest and most learning-conducive environment possible.

#### **I. PURPOSE AND SCOPE**

It is the purpose of this policy to provide additional specificity to the standards of conduct embodied in the Charter School code of ethics-related rules and regulations so that staff members clearly understand the prohibitions and behavior boundaries which must govern their conduct towards students. (For purposes of this Policy, staff includes all school employees—certificated or classified; coaches or advisors; full-time or part-time, and independent contractors and volunteers).

The rules of conduct set forth in this Policy are not intended to serve as an exhaustive delineation of requirements, limitations, or prohibitions on staff conduct and activities established by this school. Rather, the components of this Policy serve to:

- (1) Alert staff about some of the more sensitive and often problematic matters involved in faculty/staff student relationships.
- (2) Specify boundaries related to potentially sexual situations and conduct—the crossing of which is contrary to accepted norms of behavior and in conflict with the duties and responsibilities of staff.

- (3) Provide staff members with clear guidance in conducting themselves in a manner that reflects high standards of professionalism. (It is important for Charter School to maintain a school-wide culture in which students and staff understand their responsibilities to report sexual misconduct without fearing that school leaders will betray them if they do. In order to prevent sexual abuse and exploitation, students and staff must know that the administration will investigate reports about possible misconduct.)
- (4) Clarify that improper action will have significant consequences.
- (5) Provide an environment that empowers students to identify actions that appear to have crossed boundaries.
- (6) Define the process that Charter School will use for addressing potential improper conduct.
- (7) Preserve student and staff privacy rights during any pending investigation.

## II. BACKGROUND AND GENERAL POLICY PROVISIONS

Actions by staff members that are inconsistent or in conflict with the values established by Charter School can harm students, staff members, and the school's operation; therefore, such actions are unacceptable. It is the policy of this school that all school staff conduct themselves at all times in a manner that reflects the ethical standards consistent with the rules contained in this Policy and otherwise proclaimed by this school.

The provisions herein are intended to guide all Charter School staff members toward conduct that reflects the high standards of behavior and professionalism required of school staff while defining interaction boundaries between students and staff members.

Misconduct by a staff member disrupt the education of other students, sidetrack the instructional focus of the school, and harm the school's legitimacy—all of which threaten the school's future ability to recruit skilled professionals and maintain a credible operation in the eyes of the community. It is critical that staff members study this Policy thoroughly and behave in ways to avoid even the appearance of misconduct.

While all boundaries and/or situations cannot be addressed in a single policy, the issues delineated herein are among those that can be most problematic for staff members and among those that can have the greatest potential for a negative impact on this school and its community. Staff members should seek guidance in their daily conduct from established policies, procedures, and directives as well as through the guidance and recommendations of school leadership. Although this Policy gives specific, clear direction, it is each staff member's obligation to avoid situations that could prompt suspicion by parents, students, colleagues, or school leaders.

### III. BOUNDARIES

#### A. Boundaries Defined

For the purposes of this Policy, the term "boundaries" is defined as acceptable professional behavior by staff members while interacting with a student. Trespassing the boundaries of a student/teacher relationship is deemed an abuse of power and a betrayal of trust.

#### B. Acceptable and Unacceptable Behavior

Some activities may seem innocent from a staff member's perspective, but some of these can be perceived as flirtation or sexual insinuation from a student or parent point of view. The purpose of the following lists of acceptable and unacceptable behaviors is not to restrain innocent, positive relationships between staff and students but to prevent relationships that could lead to, or may be perceived as, inappropriate.

Staff members must understand their own responsibilities for ensuring that they do not cross the boundaries as written in this Policy. Disagreeing with the wording or intent of the established boundaries will be considered irrelevant for any required disciplinary purposes. Thus, it is critical that all staff study this Policy thoroughly and apply its spirit and intent in their daily activities. Although sincere, professional interaction with students fosters the charter mission of implementing "personalized, education programs to facilitate student achievement," student/staff interaction has boundaries regarding the activities, locations, and intentions.

#### **Unacceptable Staff/Student Behaviors (Violations of this Policy)**

This list, and any subsequent lists, are not meant to be all-inclusive, but, rather illustrative of the types of behavior addressed by this Policy.

1. Giving gifts to an individual student that are of a personal and intimate nature.
2. Kissing of ANY kind.
3. Any type of unnecessary physical contact with a student in a private situation.
4. Intentionally being alone with a student away from the school.
5. Making, or participating in, sexually inappropriate comments.

8. Listening to or telling stories that are sexually oriented.
9. Discussing inappropriate personal troubles or intimate issues with a student in an attempt to gain their support and understanding.
10. Becoming involved with a student so that a reasonable person may suspect inappropriate behavior.

#### **Unacceptable Staff/Student Behaviors without Parent and Supervisor Permission**

1. Giving students a ride to/from school or school activities without parent permission (only in "emergency" situations).
2. Being alone in a room with a student.
3. Allowing students in your home.

**Cautionary Staff/Student Behaviors**

1. Remarks about the physical attributes or physiological development of anyone.
2. Excessive attention toward a particular student.
3. Sending e-mails, text messages, social media responses, or letters to students if the content is not about school activities.

**Acceptable and Recommended Staff/Student Behaviors**

1. Getting parents' written consent for any after-school activity on or off campus (exclusive of tutorials).
2. Obtaining formal approval (site and parental) to take students off school property for activities such as field trips or competitions.

4. Keeping reasonable space between you and your students.
5. Stopping and correcting students if they cross your own personal boundaries.
6. Keeping parents informed when a significant issue develops about a student.

9. Involving your supervisor if conflict arises with a student.
10. Informing your supervisor and/or Support Team (coordinators and directors) about situations that have the potential to become more severe.
11. Making detailed notes about an incident that could evolve into a more serious situation later.
12. Recognizing the responsibility to stop unacceptable behavior of students and/or co-workers.
13. Asking another staff member to be present if you will be alone with any student who may have severe social or emotional challenges (and you are not the assigned case educator).

14. Asking another staff member to be present, or within close supervisory distance, when you must be alone with a student.
15. Giving students praise and recognition without touching them in questionable areas; giving appropriate pats on the back, high-five's, and handshakes are appropriate.
16. Keeping your professional conduct a high priority during all moments of student contact.
17. Asking yourself if any of your actions which go contrary to these provisions are worth sacrificing your job and career.

#### **IV. CORPORAL PUNISHMENT**

Corporal punishment shall not be used as a disciplinary measure against any student. Corporal punishment includes the willful infliction of, or willfully causing the infliction of, physical pain on a student.

For purposes of this Policy, corporal punishment does not include an employee's use of force that is reasonable and necessary to protect the employee, students, staff or other persons or to prevent damage to property.

For clarification purposes, the following examples are offered for direction and guidance of Charter School personnel:

- A. Examples of PERMITTED actions (NOT corporal punishment)
  1. Stopping a student from fighting with another student;
  2. Preventing a pupil from committing an act of vandalism;
  3. Defending yourself from physical injury or assault by a student;
  4. Forcing a pupil to give up a weapon or dangerous object;
  5. Requiring an athletic team to participate in strenuous physical training activities designed to strengthen or condition team members or improve their coordination, agility, or physical skills;
  6. Engaging in group calisthenics, team drills, or other physical education or voluntary recreational activities.
- B. Examples of PROHIBITED actions (corporal punishment)
  1. Hitting, shoving, pushing, or physically restraining a student as a means of control;
  2. Making unruly students do push-ups, run laps, or perform other physical acts that cause pain or discomfort as a form of punishment;

3. Paddling, swatting slapping, grabbing, pinching, kicking, or otherwise causing physical pain.

#### **V. Reporting**

When any staff member, parent, or student becomes aware of a staff member having crossed the boundaries specified in this Policy, they should report the occurrence or suspected occurrence to a supervisor and/or Support Team member promptly. All reports shall be confidential. Prompt reporting is essential to protect students, the suspected staff member, any witnesses, and the school as a whole. Staff must also report to the administration any awareness of, or concern about, student behavior that crosses boundaries, or any situation in which a student appears to be at risk for sexual abuse. Please note that employees of the Charter School are mandated reporters under California state law, and are thus legally bound to report suspected abuse or neglect of a student.

#### **VI. Investigating**

A supervisor and/or Support Team member will promptly investigate and document the investigation of any allegation of inappropriate conduct per this Policy, using such support staff or outside assistance as he or she deems necessary and appropriate under the circumstances. Throughout this fact-finding process, the investigating administrator, and all others privy to the investigation, shall protect the privacy interests of any affected student(s) and/or staff member(s), including any potential witnesses, to the extent practical and appropriate under the law. The investigating supervisor shall promptly notify the Administrator of Instructional Services that an investigation is in progress; the Administrator of Instructional Services, in turn, shall notify the Executive Director of the existence and status of any investigations. Upon completion of any such investigations, the Administrator of Instructional Services shall direct the investigating administrator to report to the Executive Director any conclusions reached. The investigating administrator may consult with Charter School legal counsel, as appropriate, prior to, during, and after conducting any investigation.

#### **VII. Consequences**

Staff members who have violated this Policy will be subject to appropriate disciplinary action, and, where appropriate, will be reported to authorities for potential legal action.

#### **VIII. Training**

This document shall be discussed with and acknowledged by all Charter School employees as part of their initial employment and again, on an annual basis, as part of on-going training for all Charter School employees. A copy of this acknowledgement will be placed into each Charter School employee's personnel folder. In addition, appropriate portions of this Policy and related information will be incorporated into on-going Charter School communications thrust to underscore the continuing importance that Charter School places on student/staff interaction.

## About Our School

Audeo Valley Charter School is a public school designed for students who seek an alternative option to the traditional approach to education. Students receive a personalized and rigorous

academic experience from a high-quality staff in a safe and supportive environment. As a charter school, Audeo Valley is a school of choice, with open enrollment policies that serve a diverse student community. The flexible scheduling and around-the-year calendar better serves many students who seek a non-traditional environment in which to learn. Audeo Valley serves students in grades 6-12.

### ***Core Competency: Transforming Lives***

#### ***Mission - Why We Exist***

- To implement personalized and individualized educational programs to facilitate student achievement.
- To provide a prototype for changing the way teachers teach and students learn in the future.

#### ***Vision - What We Strive to Be***

- An educational option that offers a personalized and individualized instructional program that demonstrates positive outcomes for each student.
- A prototype for educational reform that creates instructional, service, organizational, and governance role models.
- A collaboration of efforts that improve the quality of life for students, their families, our employees, and the Southern California community-at-large.

#### ***Values - How We Do Our Work***

- Kids come first.
- Education is personalized, individualized and high quality.
- Highly professional individuals are accountable for their work, and are independent, self-motivated, high-energy people who speak for themselves.
- We create a positive, challenging environment that is centered on teaching and learning.
- People-centered teams focus on supporting quality teaching and learning.
- Manage the school with proven business principles focusing on continuous improvement.
- Performance is measured on a variety of indicators that include productivity, credit ratio, auditability, quality, performance, and commitment to the vision of Audeo Valley Charter School.

#### **Focus on Academic Teaching and Learning**

Audeo Charter School II, Audeo Charter School III, Audeo Valley Charter School, Grossmont Secondary School, Mirus Secondary School, and Sweetwater Secondary School (“Altus Schools”) which are operated by Audeo Charter School corporation are solely academic in nature and were originally created as re-directive programs designed for all students seeking a learning approach better suited to their learning style. The development, growth, and expansion of the schools primarily involve the creation of instructional environments. These instructional environments support an individualized and personalized educational template that motivates and engages students. The Altus Schools are designed to be expanded and potentially replicated in a manner consistent with this model sufficiently proven effective.

Extracurricular activities such as sports, proms or other school sponsored dances, yearbooks, class rings, or anything unrelated to academics which may create distractions for students or staff are not a part of the operational design. The schools' sole focus on academics and devotion to nurturing the intrinsic value and confidence gained by the students successfully meeting academic goals that they once thought were beyond their reach, has resulted in notable academic achievements. Such achievements include but are not limited to: exceeding the one-year DASS graduation rates of San Diego County Dashboard Alternative School Status ("DASS")<sup>1</sup> schools and California DASS schools, outperforming comparable DASS schools in California assessments, maintaining a low one-year dropout rate (below 5%), and increasing student confidence within 90 days of enrollment.

The confidence gained by committing time to working directly with Altus instructional staff, coupled with the support of family and community, leaves students better equipped to make good life decisions as they pursue positive self-sufficiency, productivity, and positive social relationships, and it is for these reasons that it is the prerogative of the Board to retain the sole focus on academics. Partners of the Altus Schools support this vision and help collaborate to prepare students to better deal with and overcome personal and social constraints that influence their lives.

## Instructional Program

Our school is accredited by the Western Association of Schools and Colleges ("WASC"). At Audeo Valley, students receive a rigorous curriculum based on the California Common Core standards. We provide University of California ("UC") approved courses for those students planning to attend a UC or California State University ("CSU") school after the completion of high school. Additionally, we offer National Collegiate Athletics Association ("NCAA") - approved courses for students who are interested in pursuing NCAA athletic scholarships. Our "university model" is an excellent preparation for future studies.

The primary method of instruction is independent study supplemented with in-person participation, one-on-one learning with a credentialed teacher, guest speaker events, tutoring, and field trips. These activities are a required part of the curriculum and provide opportunities for basic skills development, career exploration, higher-level thinking skills, interpersonal

---

<sup>1</sup> DASS schools have at least 70% of the school's total enrollment comprised of unduplicated high-risk groups such as: those who have been expelled, credit deficient, highly transient, homeless, pregnant and/or parenting, have gaps in enrollment, recovered dropouts, and/or those who are habitually truant.

relationship skills, and enrichment within the core curriculum. This method of instruction is very similar to university studies in which students take one course at a time and are required to take charge of their education.

Upon enrollment, a credentialed "On-Demand" teacher is assigned to each student who, in collaboration with the student and parents, assesses the student's current needs and goals and creates a plan for rapid advancement, focusing solely on one or two subjects at a time. Assigned to each student for a full year or more, the teacher supervises all subjects studied, and is personally held accountable to inspire and produce self-motivated and self-disciplined students who succeed not only academically, but also socially through teamwork and community service. As a result, On-Demand teachers adjust assignments to align with the goals and interests of the student and also personally act as necessary to ensure achievement. For example, if a student is late to an appointment, teachers contact either the student or the parents within minutes to identify and address any needs and teach accountability.

To further support students working on courses in core subject areas (English, mathematics, sciences, social science, and the fine and practical arts), additional certificated teachers with subject-matter expertise are available to students at their Resource Center, via email or telephone within 24 hours.

Audeo Valley offers a blended learning option for its students. Blended learning is a formal educational program in which a student learns at least in part through online delivery of content with some element of student control over time, place, path, and pace. This option allows students to complete the majority of their academic coursework at home.

Upon enrollment, a Pathways Personalized Education Plan ("PPEP") is prepared by a school counselor that outlines high school graduation requirements. This PPEP is delivered to the teacher. The student, parents/guardians, and teacher complete the planning with a discussion of the student's short and long-term goals, transcripts from previous schools, learning styles, current interests, academic achievement, career interests, skills development, and standardized test scores. The PPEP is reviewed and updated by the parents, student, and teacher on a regular basis throughout the student's enrollment.

Students study one or two subjects/courses at a time and are expected to complete an average of one course every three-to-four weeks. Within these parameters students can progress at an individualized pace, receiving tutoring or enrichment as needed.

Audeo Valley students earn course credits and attendance by successfully completing the prescribed lessons that demonstrate mastery of the state standards.

The student's primary academic support person for student success is the teacher. The teacher becomes fully acquainted with his/her students, their families, and other factors that affect their learning and academic success. In addition to the services provided by staff, Audeo Valley has many partnerships and alliances to provide community resources for students and their families.

### ***Home/School Partnership***

The most important relationship we build is the one between the teacher, student, and the student's family. Audeo Valley encourages parent/guardian involvement through the monitoring of his/her student's regular and required attendance of Resource Center appointments, completion of high-quality work according to scheduled dates, and attendance on testing days and field trips. With parents actively involved in their student's lives, we can create a successful learning environment.

Two-way communication between all staff and parents is a building block for student success. Teachers are available for parent-student conferences, phone calls, interventions and home visits. In addition, there are scheduled opportunities throughout the year for dialogue. These opportunities include Open House nights, master agreement signings, college information meetings, and senior meetings. A climate that continually promotes open communication and dialogue is expected and supported.

### ***Parent Involvement Policy***

The Charter School aims to provide all students in our school significant opportunity to receive a fair, equitable, and high-quality education, and to close educational achievement gaps while abiding by guidelines within the Elementary and Secondary Education Act ("ESEA"). The Charter School staff recognizes a partnership with families is essential to meet this goal. Our Parent and Family Engagement Policy leverages and promotes active involvement of all families as partners with schools to ensure student success.

#### ***Title I Parent Involvement Policy***

[Board Policy #: 6010](#)

[Approved: October 20, 2021](#)

[Amended: June 22, 2023](#)

**Commented [AA1]:** Include most recent copy of Board Policy 6010 (amended 10/20/21)

Audeo Valley Charter School ("Charter School") recognizes the parents/guardians are their children's first and most influential teachers and the sustained parent involvement in the education of their children contributes greatly to student achievement and a positive school environment. The Executive Director or designee shall work with staff and parents/guardians to develop meaningful opportunities at all grade levels for parents/guardians to be involved in school activities to support learning at home.

Parents/guardians shall be notified of their rights to be informed about and to participate in their children's education and of the opportunities available to them to do so.

Each year the Executive Director or designee shall identify objectives of the school's parent involvement. He/she shall ensure that parents/guardians are consulted and participate in the planning, design, implementation, and evaluation of the parent involvement program.

The President or designee shall ensure that the parent involvement strategies are established and implemented.

The Title I Parent Involvement Policy was updated and developed in collaboration with parents of Title I students. Parents participated in the development process through surveys and meetings at the Resource Centers. The data collected from parents yielded important feedback on ways to successfully engage parents and improve the parent involvement practices. Parents expressed the following themes:

- Parents can provide input and receive communication from staff through various programs and activities.
- Parents feel involved in their child's education through various programs and activities.
- Parents report having frequent communication with instructional staff.
- Parents want to continue to access resources and trainings on how they can better support their children's achievement and performance at school and at home.
- Parents want to continue to have safe, supportive, and innovative Resource Centers.

These recommendations above are integrated throughout this Title I Parent Involvement Policy and reinforce the core belief that parents are our equal partners in ensuring the success of all students.

The Title I Parent Involvement Policy will be annually distributed to parents by including the policy in the handbook, making the policy available on the website and at the Resource Centers. This Policy describes the means for carrying out the following Title I parental involvement requirements.

- Parent emails and contacts are responded to in 24 business hours.
- An administrator will meet with parents and teachers during intervention meetings to discuss achievement of Title 1 students.

\*The policy must be updated periodically to meet changing needs of parents and the School. If the School has a process in place for involving parents in planning and designing the School's programs, the school may use that process if it includes adequate representation of parents of Title I children.

### **Home-School Compact**

The Home-School Compact will be distributed to parents of Title I annually. The compact, which has been jointly developed with parents, outlines how parents, the entire school staff, and students will share the responsibility for improved student academic achievement. It describes specific ways the school and families will partner to help children achieve the State's high academic standards. It addresses the following legally required items, as well as other items suggested by parents of Title I students.

- The Schools responsibility to provide high-quality curriculum and instruction to meet the challenging State academic standards.
- The ways parents will be responsible for supporting their children's learning, volunteering in the Resource Center, and participating, as appropriate, in decisions relating to the education of their children and positive use of extracurricular time.
- The importance of ongoing communication between parents and teachers through, at a minimum, annual parent-teacher conferences; frequent reports on student progress; access to staff; opportunities for parents to volunteer and participate in their child's class; and opportunities to observe Resource Center activities and ensuring regular communication between family members and school staff, and, to the extent practicable, in a language that family members can understand.

The Home-School Compact was developed by the School Site Council and is annually updated by the School Site Council.

### **Building Capacity for Involvement**

### ***Attendance, Lessons, and Course Credits***

Unlike traditional schools where attendance is measured by being physically present in a classroom, Audeo Valley measures attendance by completion of a work product, a student's average daily attendance ("ADA") is determined by the professional judgment of the teacher as it relates to the time spent on the successful completion of each lesson. Students are expected to complete an average of 12 courses every 12 months at an acceptable level of competency to demonstrate learning and proficiency of state standards. To meet this expectation at Audeo Valley, students should complete an average of 7 assignments per week and complete 1 semester course in 3-to-4 weeks.

A complete copy of Audeo Valley's Independent Study Policy is available on the school website.

### ***Year-round School Year***

Audeo Valley has a year-round school year that is designed to maximize the amount of days and time that a student is able to earn credits. (See school holiday calendar on your School's website.)

### **Student Assessments**

Students at Audeo Valley are part of the public school system in the State of California. Participating in the state testing system is a requirement. All students must take state mandated assessments which include the California Assessment of Student Performance and Progress ("CAASPP"), English Language Proficiency Assessments for California ("ELPAC"), and Physical Fitness Test scheduled throughout the school year. Additionally, all students who enroll in our Audeo Valley program take the school mandated NWEA Measures of Academic Progress ("MAP"). These tests are very critical. They tell us how students are progressing in their learning.

Audeo Valley staff members are dedicated to making sure students receive the instruction they need to do well on these tests to demonstrate learning. Students are offered many opportunities for special assistance if it is needed. These opportunities include diagnostic assessment and one-to-one tutoring. Please review your student's test results and be sure he or she is working on improving his/her weak areas. It is important that we work together to help your student succeed.

If you have any questions about testing and/or a specific test you may contact your student's teacher. The table below provides basic information about the standardized tests and approximate administration dates. Additional information about state tests is posted on the California Department of Education ("CDE") website at <http://www.cde.ca.gov/ta/tg>.

### **Student Wellness Policy**

[Board Policy: 1710](#)

[Approved: February 22, 2018](#)

[Amended: February 16, 2022, June 22, 2023](#)

Audeo Valley Charter School ("Charter School") adopts this policy to ensure its commitment to the optimal development of every student. Charter School believes that for students to have the opportunity to achieve personal, academic, developmental and social success, we need to create positive, safe and health-promoting learning environments at every level, in every setting, throughout the school year. This policy may be updated from time to time as required to be in compliance with state law, regulation, or administrative directive.

Research shows that two components, good nutrition and physical activity before, during and after the school day, are strongly correlated with positive student outcomes. Conversely, less-than-adequate consumption of specific foods including fruits, vegetables and dairy products, is associated with lower grades among students. In addition, students who are physically active through active transport to and from school, recess, physical activity breaks, high-quality physical education and extracurricular activities – do better academically. Finally, there is evidence that adequate hydration is associated with better cognitive performance.

This Policy outlines Charter School's approach to ensuring environments and opportunities for all students to practice healthy eating and physical activity behaviors throughout the school day while minimizing commercial distractions. Specifically, this Policy establishes goals and procedures to ensure that:

- Students in the Charter School have access to healthy foods throughout the school day—and other foods available throughout the Charter School resource centers—in accordance with Federal and state nutrition standards.
- Students receive quality nutrition education that helps them develop lifelong healthy eating behaviors.
- Students have opportunities to be physically active before, during and after the school day.
- The Charter School engages in nutrition and physical activity promotion and other activities that promote student wellness.

- Charter School staff are encouraged and supported to practice healthy nutrition and physical activity behaviors in and out of school.
- The community is engaged in supporting the work of the Charter School in creating continuity between Charter School and other settings for students and staff to practice lifelong healthy habits.
- The Charter School establishes and maintains an infrastructure for management, oversight, implementation, communication about and monitoring of this Policy and its established goals and objectives.

This Policy applies to all students, faculty, and staff in the Charter School. Specific measurable goals and outcomes are identified within each section below.

#### **I. Wellness Policy Implementation, Monitoring, Accountability and Community Engagement**

##### **Implementation Plan**

Using the steps outlined below, the Charter School will ensure the Charter School meets legal obligations regarding implementation of this Policy.

This Policy and the progress reports can be found on the school's website at [www.audeovalley.com](http://www.audeovalley.com).

##### **Recordkeeping**

The Charter School will retain records to document compliance with the requirements of this policy in the main office. Documentation maintained in this location will include but will not be limited to:

- The written Policy.
- Documentation demonstrating that the Policy has been made available to the public.

### 3. Suspension Time Limits/Recommendation for Expulsion

Suspensions, when not including a recommendation for expulsion, shall not exceed five (5) consecutive school days per suspension. Upon a recommendation of expulsion by the ~~Executive Director~~School Coordinator or designee, the ~~pupil-student~~ and the ~~pupil's student's parent/guardian or representative~~ will be invited to a conference to determine if the suspension for the ~~pupil-student~~ should be extended pending an expulsion hearing. In such instances when the Charter School has determined a suspension period shall be extended, such extension shall be made only after a conference is held with the ~~pupil student~~ or the ~~pupil's student's parent/guardians~~, unless the ~~pupil-student~~ and the ~~pupil's student's parents/guardian~~ fail to attend the conference.

This determination will be made by the ~~Executive Director~~School Coordinator or designee upon either of the following: 1) the ~~pupil's student's~~ presence will be disruptive to the education process; or 2) the ~~pupil-student~~ poses a threat or danger to others. Upon either determination, the ~~pupil's student's~~ suspension will be extended pending the results of an expulsion hearing.

### 4. Homework Assignments During Suspension

In accordance with Education Code Section 47606.2(a), upon the request of a parent, a legal guardian or other person holding the right to make education decisions for the student, or the affected student, a teacher shall provide to a student in any of grades 1 to 12, inclusive, who has been suspended from school for two (2) or more school days, the homework that the student would otherwise have been assigned.

In accordance with Education Code Section 47606.2(b), if a homework assignment that is requested pursuant to Section 47606.2(a) and turned into the teacher by the student either upon the student's return to school from suspension or within the timeframe originally prescribed by the teacher, whichever is later, is not graded before the end of the academic term, that assignment shall not be included in the calculation of the student's overall grade in the class.

## D. Authority to Expel

As required by Education Code Section 47605(c)(5)(J)(ii), students recommended for expulsion are entitled to a hearing adjudicated by a neutral officer to determine whether the student should be expelled. The procedures herein provide for such a hearing and the notice of said hearing, as required by law.

A student may be expelled either by the neutral and impartial Charter School Board of Directors following a hearing before it or by the neutral and impartial Board of Directors upon the recommendation of a neutral and impartial Administrative Panel, to be assigned by the Board of Directors as needed. The Administrative Panel shall consist of at least three (3) members who are certificated and neither a teacher of the ~~pupil-student nor~~ a member of the Board of Directors. Each entity shall be presided over by a designated neutral hearing chairperson. The Administrative Panel may recommend expulsion of any student found to have committed an expellable offense, and the Board of Directors shall make the final determination.

### **E. Expulsion Procedures**

Students recommended for expulsion are entitled to a hearing to determine whether the student should be expelled. Unless postponed for good cause, the hearing shall be held within thirty (30) school days after the ~~Executive Director~~School Coordinator or designee determines that the ~~pupil-student~~ has committed an expellable offense and recommends the student for expulsion.

In the event an Administrative Panel hears the case, it will make a recommendation to the Board for a final decision whether to expel. The hearing shall be held in closed session (complying with all pupil confidentiality rules under the Family Educational Rights and Privacy Act "FERPA") unless the pupil makes a written request for a public hearing in open session three (3) days prior to the date of the scheduled hearing.

Written notice of the hearing shall be forwarded to the student and the student's parent/guardian at least ten (10) calendar days before the date of the hearing. Upon mailing the notice, it shall be deemed served upon the pupil. The notice shall include:

1. The date and place of the expulsion hearing.
2. A statement of the specific facts, charges and offenses upon which the proposed expulsion is based.
3. A copy of AUDEO's disciplinary rules which relate to the alleged violation;
4. Notification of the student's or parent/guardian's obligation to provide information about the student's status at AUDEO to any other school district or school to which the student seeks enrollment.
5. The opportunity for the student and/or the student's parent/guardian to appear in person or to employ and be represented by counsel or a non-attorney advisor.
6. The right to inspect and obtain copies of all documents to be used at the hearing.
7. The opportunity to confront and question all witnesses who testify at the hearing.

8. The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf including witnesses.

#### **F. Special Procedures for Expulsion Hearings Involving Sexual Assault or Battery Offenses**

AUDEO may, upon a finding of good cause, determine that the disclosure of either the identity of the witness or the testimony of that witness at the hearing, or both, would subject the witness to an unreasonable risk of psychological or physical harm. Upon this determination, the testimony of the witness may be presented at the hearing in the form of sworn declarations that shall be examined only by AUDEO or the hearing officer. Copies of these sworn declarations, edited to delete the name and identity of the witness, shall be made available to the pupil.

1. The complaining witness in any sexual assault or battery case must be provided with a copy of the applicable disciplinary rules and advised of his/her/their right to (a) receive five days' notice of his/her/their scheduled testimony, (b) have up to two (2) adult support persons of his/her/their choosing present in the hearing at the time ~~he/she testifies~~ the complaint witness testifies, which may include a parent, guardian, or legal counsel, and (c) elect to have the hearing closed while testifying.
2. AUDEO must also provide the victim a room separate from the hearing room for the complaining witness' use prior to and during breaks in testimony.
3. At the discretion of the entity conducting the expulsion hearing, the complaining witness shall be allowed periods of relief from examination and cross-examination during which he or she may leave the hearing room.
4. The entity conducting the expulsion hearing may also arrange the seating within the hearing room to facilitate a less intimidating environment for the complaining witness.
5. The entity conducting the expulsion hearing may also limit time for taking the testimony of the complaining witness to the hours he/she/the complaining witness is normally in school, if there is no good cause to take the testimony during other hours.
6. Prior to a complaining witness testifying, the support persons must be admonished that the hearing is confidential. Nothing in the law precludes the entity presiding over the hearing from removing a support person whom the presiding person finds is disrupting the hearing. The entity conducting the hearing may permit any one of the support persons for the complaining witness to accompany him or her to the witness stand.
7. If one or both of the support persons is also a witness, AUDEO must present evidence that the witness' presence is both desired by the witness and will be helpful to AUDEO. The person presiding over the hearing shall permit the witness to stay unless it is established that there is a substantial risk that the testimony of the complaining witness

would be influenced by the support person, in which case the presiding official shall admonish the support person or persons not to prompt, sway, or influence the witness in any way. Nothing shall preclude the presiding officer from exercising his or her discretion to remove a person from the hearing whom he or she believes is prompting, swaying, or influencing the witness.

8. The testimony of the support person shall be presented before the testimony of the complaining witness and the complaining witness shall be excluded from the courtroom during that testimony.
9. Especially for charges involving sexual assault or battery, if the hearing is to be conducted in public at the request of the pupil being expelled, the complaining witness shall have the right to have ~~his/her~~ **their** testimony heard in a closed session when testifying at a public meeting would threaten serious psychological harm to the complaining witness and there are no alternative procedures to avoid the threatened harm. The alternative procedures may include videotaped depositions or contemporaneous examination in another place communicated to the hearing room by means of closed-circuit television.
10. Evidence of specific instances of a complaining witness' prior sexual conduct is presumed inadmissible and shall not be heard absent a determination by the entity conducting the hearing that extraordinary circumstances exist requiring the evidence be heard. Before such a determination regarding extraordinary circumstances can be made, the witness shall be provided notice and an opportunity to present opposition to the introduction of the evidence. In the hearing on the admissibility of the evidence, the complaining witness shall be entitled to be represented by a parent, legal counsel, or other support person. Reputation or opinion evidence regarding the sexual behavior of the complaining witness is not admissible for any purpose.

#### **G. Record of Hearing**

A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate and complete written transcription of the proceedings can be made.

#### **H. Presentation of Evidence**

While technical rules of evidence do not apply to expulsion hearings, evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. A recommendation by the Administrative Panel to expel must be supported by substantial evidence that the student committed an expellable offense. Findings of fact shall be based solely on the evidence at the hearing. While hearsay evidence is admissible, no decision to expel shall be based solely on hearsay. Sworn declarations may be admitted as testimony from witnesses of whom the Board or Administrative Panel determines that disclosure

of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm.

If, due to a written request by the expelled pupil, the hearing is held at a public meeting, and the charge is committing or attempting to commit a sexual assault or committing a sexual battery as defined in Education Code Section 48900, a complaining witness shall have the right to have his or her testimony heard in a session closed to the public.

### **I. Expulsion Decision**

The decision of the Administrative Panel shall be in the form of written findings of fact and a written recommendation to the Board who will make a final determination regarding the expulsion. The final decision by the Board shall be made within ten (10) school days following the conclusion of the hearing. The decision of the Board is final.

If the Administrative Panel decides not to recommend expulsion, or the Board of Directors ultimately decides not to expel, the student shall immediately be returned to ~~his/her~~their educational program.

The Board of Directors may also determine to suspend the enforcement of the expulsion order for a period of not more than one (1) calendar year from the date of the expulsion hearing and return the student to the student's previous educational program under a probationary status and rehabilitation plan to be determined by the Board. During the period of the suspension of the expulsion order, the student is deemed to be on probationary status. The Board of Directors may revoke the suspension of an expulsion order under this section if the student commits any of the enumerated offenses listed above or violates any of the Charter School's rules and regulations governing student conduct. If the Board revokes the suspension of an expulsion order, the student may be expelled under the terms of the original expulsion order. The Board of Directors shall apply the criteria for suspending the enforcement of the expulsion order equally to all students, including individuals with exceptional needs as defined in Education Code Section 56026. The Board of Directors shall further comply with the provisions set forth under Education Code Section 48917, except as otherwise expressly set forth herein.

### **J. Written Notice to Expel**

The ~~Executive Director~~School Coordinator or designee, following a decision of the Board to expel shall send written notice of the decision to expel, including the Board's adopted findings of fact, to the student or parent/guardian. This notice shall also include the following: a) Notice of the specific offense committed by the student; and b) Notice of the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of the student's status with AUDEO.

The ~~Executive Director~~School Coordinator or designee shall send a copy of the written notice of the decision to expel to the authorizer. This notice shall include the following: a) The student's

name; and b) The specific expellable offense committed by the student.

#### **K. Disciplinary Records**

AUDEO shall maintain records of all student suspensions and expulsions at AUDEO. Such records shall be made available to the authorizer upon request.

#### **L. No Right to Appeal**

The ~~student~~ ~~pupil~~ shall have no right of appeal from expulsion from AUDEO as the Board of Directors' decision to expel shall be final.

#### **M. Expelled ~~Pupils~~ Students/Alternative Education**

~~Parents/guardians of pupils~~ Students who are expelled shall be responsible for seeking alternative education programs including, but not limited to, programs within the County or their school district of residence. AUDEO shall work cooperatively with parents/guardians as requested by parents/guardians or by the school district of residence to assist with locating alternative placements during expulsion.

#### **N. Rehabilitation Plans**

Students who are expelled from AUDEO shall be given a rehabilitation plan upon expulsion as developed by the Board at the time of the expulsion order, which may include, but is not limited to, periodic review as well as assessment at the time of review for readmission. The rehabilitation plan should include a date not later than one year from the date of expulsion when the pupil may reapply to AUDEO for readmission.

#### **O. Readmission or Admission of Previously Expelled Student**

The decision to readmit a ~~pupil~~ student after the end of the student's expulsion term or to admit a previously expelled ~~pupil~~ student from another school district or AUDEO who has not been readmitted/admitted to another school or school district after the end of the student's expulsion term, shall be in the sole discretion of the Board following a meeting with the ~~Executive Director~~ School Coordinator or designee and the pupil and parent/guardian or representative to determine whether the pupil has successfully completed the rehabilitation plan and to determine whether the pupil poses a threat to others or will be disruptive to the school environment. The ~~Executive Director~~ School Coordinator or designee shall make a recommendation to the Board of Directors following the meeting regarding the ~~Executive Director's~~ School Coordinator or designee's determination. The Board shall then make a final decision regarding readmission or admission of the student during the closed session of a public meeting, reporting out any action taken during closed session consistent with the requirements of the Brown Act. The pupil's readmission is also contingent upon AUDEO's capacity at the time the student seeks readmission or admission to the Charter School.

**P. Notice to Teachers**

The Charter School shall notify teachers of each student who has engaged in or is reasonably suspected to have engaged in any of the acts listed in Education Code Section 49079 and the corresponding enumerated offenses set forth above.

**R. Special Procedures for the Consideration of Suspension and Expulsion or Involuntary Removal of Students with Disabilities**

## 1. Notification of SELPA

AUDEO shall immediately notify the SELPA and coordinate the procedures in this policy with the SELPA of the discipline of any student with a disability or student that AUDEO or the SELPA would be deemed to have knowledge that the student had a disability.

## 2. Services During Suspension

Students suspended for more than ten (10) school days in a school year shall continue to receive services so as to enable the student to continue to participate in the general education curriculum, although in another setting (which could constitute a change of placement and the student's IEP would reflect this change), and to progress toward meeting the goals set out in the child's IEP/504 Plan; and receive, as appropriate, a functional behavioral assessment and behavioral intervention services and modifications, that are designed to address the behavior violation so that it does not recur. These services may be provided in an interim alternative educational setting.

## 3. Procedural Safeguards/Manifestation Determination

Within ten (10) school days of a recommendation for expulsion or any decision to change the placement of a child with a disability because of a violation of a code of student conduct, AUDEO, the parent, and relevant members of the IEP/504 Team shall review all relevant information in the student's file, including the child's IEP/504 Plan, any teacher observations, and any relevant information provided by the parents to determine:

- a. If the conduct in question was caused by, or had a direct and substantial relationship to, the child's disability; or
- b. If the conduct in question was the direct result of the local educational agency's failure to implement the IEP/504 Plan.

If AUDEO, the parent, and relevant members of the IEP/504 Team determine that either of the above is applicable for the child, the conduct shall be determined to be a manifestation of the child's disability.

If AUDEO, the parent, and relevant members of the IEP/504 Team make the determination that the conduct was a manifestation of the child's disability, the IEP/504 Team shall:

- a. Conduct a functional behavioral assessment and implement a behavioral intervention plan for such child, provided that the AUDEO had not conducted such assessment prior to such determination before the behavior that resulted in a change in placement;
- b. If a behavioral intervention plan has been developed, review the behavioral intervention plan if the child already has such a behavioral intervention plan, and modify it, as necessary, to address the behavior; and
- c. Return the child to the placement from which the child was removed, unless the parent/guardian and AUDEO agree to a change of placement as part of the modification of the behavioral intervention plan.

If AUDEO, the parent/guardian, and relevant members of the IEP/504 team determine that the behavior was not a manifestation of the student's disability and that the conduct in question was not a direct result of the failure to implement the IEP/504 Plan, then AUDEO may apply the relevant disciplinary procedures to children with disabilities in the same manner and for the same duration as the procedures would be applied to students without disabilities.

#### 4. Due Process Appeals

The parent/guardian of a child with a disability who disagrees with any decision regarding placement, or the manifestation determination, or AUDEO believes that maintaining the current placement of the child is substantially likely to result in injury to the child or to others, may request an expedited administrative hearing through the Special Education Unit of the Office of Administrative Hearings or by utilizing the dispute provisions of the 504 Policy and Procedures.

When an appeal relating to the placement of the student or the manifestation determination has been requested by either the parent/guardian or AUDEO, the student shall remain in the interim alternative educational setting pending the decision of the hearing officer in accordance with state and federal law, including 20 USC Section 1415(k), until the expiration of the forty-five (45) day time period provided for in an interim alternative educational setting, whichever occurs first, unless the parent and AUDEO agree otherwise.

In accordance with 20 U.S.C. Section 1415(k)(3), if a parent/guardian disagrees with any decision regarding placement, or the manifestation determination, or if the Charter School believes that maintaining the current placement of the child is substantially likely to result in injury to the child or to others, the parent/guardian or Charter School may

request a hearing.

In such an appeal, a hearing officer may: (1) return a child with a disability to the placement from which the child was removed; or (2) order a change in placement of a child with a disability to an appropriate interim alternative educational setting for not more than 45 school days if the hearing officer determines that maintaining the current placement of such child is substantially likely to result in injury to the child or to others.

#### 5. Special Circumstances

AUDEO personnel may consider any unique circumstances on a case-by-case basis when determining whether to order a change in placement for a child with a disability who violates a code of student conduct.

The Executive Director or designee may remove a student to an interim alternative educational setting for not more than forty-five (45) school days without regard to whether the behavior is determined to be a manifestation of the student's disability in cases where a student:

- a. Carries or possesses a weapon, as defined in 18 USC 930, to or at school, on school premises, or to or at a school function;
- b. Knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at school, on school premises, or at a school function;  
or
- c. Has inflicted serious bodily injury, as defined by 20 USC 1415(k)(7)(D), upon a person while at school, on school premises, or at a school function.

#### 6. Interim Alternative Educational Setting

The student's interim alternative educational setting shall be determined by the student's IEP/504 team.

#### 7. Procedures for Students Not Yet Eligible for Special Education Services

A student who has not been identified as an individual with disabilities pursuant to IDEA and who has violated AUDEO's disciplinary procedures may assert the procedural safeguards granted under this administrative regulation only if AUDEO had knowledge that the student was disabled before the behavior occurred.

AUDEO shall be deemed to have knowledge that the student had a disability if one of the following conditions exists:

- a. The parent/guardian has expressed concern in writing, or orally if the parent/guardian does not know how to write or has a disability that prevents a written statement, to AUDEO supervisory or administrative personnel, or to one of the child's teachers, that the student is in need of special education or related services.
- b. The parent/guardian has requested an evaluation of the child.
- c. The child's teacher, or other AUDEO personnel, has expressed specific concerns about a pattern of behavior demonstrated by the child, directly to the director of special education or to other AUDEO supervisory personnel.

If AUDEO knew or should have known the student had a disability under any of the three (3) circumstances described above, the student may assert any of the protections available to IDEA-eligible children with disabilities, including the right to stay-put.

If AUDEO had no basis for knowledge of the student's disability, it shall proceed with the proposed discipline. AUDEO shall conduct an expedited evaluation if requested by the parents; however the student shall remain in the education placement determined by AUDEO pending the results of the evaluation.

AUDEO shall not be deemed to have knowledge that the student had a disability if the parent/guardian has not allowed an evaluation, refused services, or if the student has been evaluated and determined to not be eligible.

### **Cell Phones, Smartphones, Pagers & Other Electronic Signaling Devices Policy**

Board Policy: 3320

Approved: February 16, 2022

Amended: June 22, 2023

The Governing Board of Audeo Charter School corporation hereby adopts this Cell Phones, Smartphones, Pagers & Other Electronic Signaling Devices Policy to apply to Audeo Charter School II, Audeo Charter School III, Audeo Valley Charter School, Grossmont Secondary School, Mirus Secondary School, and Sweetwater Secondary School, hereafter collectively referred to as ("Charter School"). The Board of Directors recognizes the potential for cell phones, smartphones, pagers, and electronic signaling devices (hereinafter collectively referred to as "private devices") to disrupt the learning environment of Audeo Valley Charter School ("Charter School"), and adopts this Policy to permit students to possess, but not use private devices while on site or at the resource center, at school-sponsored activities, or under the supervision of Charter School employees, except as otherwise provided in this Policy. Students who possess any private devices must always keep them turned off and out of view while on school grounds or at school-sponsored activities and functions. Charter School teachers, administrators, and staff will confiscate any private devices used by a student in violation of this Policy.

All students are required to adhere to the following guidelines regarding private devices:

Private devices may be used:

- Off school site before or after school.
- Before or after any Charter School sponsored activity occurring before or after the school's instructional day.
- In the case of an emergency, or in response to a perceived threat of danger.
- When a teacher or administrator of the Charter School grants permission to a student to possess or use a private device, subject to any reasonable limitation imposed by that teacher or administrator.
- When a licensed physician and surgeon determines that the possession or use of a private device is necessary for the health or well-being of the student.
- When the possession or use of a private device is required in a student's individualized education program ("IEP").

Private devices shall be turned off and shall not be used:

- While at the resource center, including workshops, seminars, tutoring and any other school activity, which takes place during the scheduled instructional day on or off site.
- During events sponsored by the Charter School.

- On field trips or excursions sponsored by the Charter School.

Possession of private devices is a privilege, which may be forfeited by any student who fails to abide by the terms of this Policy. All Charter School employees shall remove any private device from the possession of a student found to be violating this Policy. If a private device is heard ringing, beeping, or buzzing from inside a jacket, purse, backpack, or other similar article, whether within the immediate presence of the student or not, a Charter School employee may remove the private device and confiscate the private device. Parents/guardians will be contacted to pick up any confiscated private devices at the end of the instructional time at the resource center or at the conclusion of a Charter School sponsored activity.

In addition to this Policy, all other applicable Charter School student discipline policies and rules shall apply to any student who fails to comply with the requirements of this Policy.

Students who possess any private device(s) shall assume sole responsibility for the maintenance and care of any such private device(s) in accordance with this Policy. ### ***Lost or Damaged School Property***

If a student willfully damages the Charter School's property or the personal property of a Charter School employee, or fails to return a textbook, library book, computer/tablet or other Charter School property that has been loaned to the student, the student's parents/guardians are liable for all damages caused by the student's misconduct not to exceed ten thousand dollars (\$10,000), adjusted annually for inflation. After notifying the student's parent or guardian in writing of the student's alleged misconduct and affording the student due process, Charter School may withhold the student's grades, transcripts, and diploma until the damages have been paid. If the student and the student's parent/guardian are unable to pay for the damages or to return the property, Charter School will provide a program of voluntary work for the minor in lieu of the payment of monetary damages. Upon completion of the voluntary work, the student's grades and diploma will be released.

### ***Parents' Responsibilities***

- Ensure that students get to their scheduled appointment on time. If this is not possible, contact the teacher to arrange an alternate time.
- Hold high expectations for your student, regularly monitor his or her daily work.

- Support school rules and the independent study definition of attendance—students complete school work rather than spending time in the Resource Center.
- Establish a schedule with the student and provide a space for study time at home.
- Arrange for student to attend appropriate field trips and supplemental tutoring sessions.
- Meet with staff when requested, particularly during master agreement signing conferences.
- Participate in decisions related to the education of your student.
- Ensure that students are clothed properly for school and school events.

### **Parents' Role in Discipline and Behavior**

Parents are expected to cooperate with Charter School staff in maintaining and encouraging proper standards of behavior for their children. The following points may prove helpful:

- Instill in your child a sense of responsibility for what he/she says and does.
- Help your child to solve conflicts in a peaceful manner.
- Review your own attitude about discipline and behavior.
- Make sure you communicate with the school to learn necessary facts and expected behavior.
- As a role model for your child, show respect for learning and the necessity for completing an education.

### ***Emergency Procedures and School Safety Plan***

Audeo Valley Resource Centers have plans and preparations for major emergency situations. We believe that the reactions of people in emergencies depend largely upon their training. Our staff has been trained, and drills are held regularly to make certain that the students understand emergency procedures.

Please assure students that they are as safe at school as they are at home in a serious emergency. The safety and welfare of the students is our primary concern in the event of an emergency. Your child should be instructed to obey the directions of their teachers in general and especially in emergency situation.

Audeo Valley defines a crisis as any incident that disrupts the educational program and/or affects the emotional stability of students or staff. In the event of a crisis, such as a natural disaster, we ask the following:

- Please do not telephone the school. Telephone lines will be needed for emergency communications.
- Please do not drive to the Resource Center if possible. Streets should be as open as possible for emergency vehicles.
- Listen to your local radio station and news for information and advice.

In conjunction with the National Association for Search and Rescue, we urge every family to make home emergency plans and preparations.

If you have questions about our emergency preparedness program, please contact your teacher. A complete copy of the Audeo Valley Comprehensive School Safety Plan is available ~~on the school website and~~ at each Resource Center.

### ***School Bus and Passenger Safety***

All students who are transported in a school bus or school student activity bus shall receive instruction in school bus emergency procedures and passenger safety as outlined in the Transportation Safety Plan

### **Transportation Safety Plan**

Because Audeo Valley Charter School ("CHARTER SCHOOL" or the "Charter School") provides transportation to CHARTER SCHOOL activity, the Board of Directors ("Board") approved the following transportation safety plan, which contains procedures for Charter School personnel to follow to ensure the safe transportation of students. A copy of this Plan will be kept at each CHARTER SCHOOL and will be made available upon request to an officer of the Department of the California Highway Patrol. Students shall be informed that any violation of Charter School policies and procedures, including violation of safety procedures on a school bus or school activity bus, could result in discipline pursuant to the CHARTER SCHOOL discipline policy.

#### **Definitions**

- "*School bus*" is any motor vehicle designed, used, or maintained for the transportation of a Charter School student at or below the grade 12 level to or from Charter School Resource Center or to and from Charter School activities. "School bus" does not include a passenger vehicle designed for and when actually carrying not more than 10 persons, including the driver, except any vehicle or truck transporting two or more students who use wheelchairs.

*"School activity bus"* is any motor vehicle, other than the school bus, operated by a common carrier, or by and under the exclusive jurisdiction of a publicly owned or operated transit system, or by a passenger charter-party carrier, used under a contractual agreement between Charter School and carrier to transport Charter School students at or below the grade 12 level to or from a Charter School activity, or used to transport students from residential schools, when the students are received and discharged at off-highway locations where a parent or adult designated by the parent is present to accept the student or place the student on the bus.

- "*Private passenger vehicle*" is any other privately owned or leased vehicle not included in the definitions above, designed for and when not carrying more than 10 persons, and operated by a parent/guardian or staff driver to transport student to and from a Charter School activity.

#### **Determining Whether a Student Requires an Escort**

If the Resource Center or school activity destination is located on the opposite side of the street of the actual bus stop, then Charter School and California Vehicle Code section 22112(d) require the student to be physically escorted by the bus driver across that street and under the bus drivers' direction and supervision. The bus driver will be required to activate the school bus red flashing crossover lights and if so equipped, the stop arm, and physically get out of the bus to assist the students safely across the street. Charter School requires ALL students who cross the street, be physically escorted by the bus driver with crossover lights and signs being activated.

### **Procedures for Kindergarten through Eighth Grade Students Regarding Boarding and Exiting the Bus**

CHARTER SCHOOL has created the following procedures to govern the safe entry and exit of kindergarten through eighth grade students to and from the school bus. Charter School is not required to use the services of an onboard school bus monitor in addition to the driver to ensure these procedures are followed.

Boarding:

1. Students shall board or exit the school bus ONLY at their assigned bus stop or school activity destination.
2. Students shall board in an orderly manner and utilize the handrails for their safety while loading and unloading.
3. Students are to find their seat as quickly as possible and sit down facing the front of the bus.
4. Students are to remain seated at all times while the bus is in motion.
5. Students are to maintain a noise level which will allow the bus driver to hear approaching traffic.
6. Students are to follow the directions of the bus driver while they are aboard the bus.
7. Students are responsible to follow all rules and regulations.

Exiting:

1. Students shall stay seated until the bus comes to a complete stop.
2. Once the driver has stopped the bus completely and opened the door, students are to unload seat by seat starting with the front of the bus and continuing seat by seat until the bus is empty.
3. Students remaining on the bus are to remain seated until the bus stops at their assigned bus stop or school activity destination.
4. Students will unload in an orderly manner using the handrails.
5. Students shall exit the bus only at their assigned bus stop or school activity destination. Exceptions will only be allowed when the student presents the bus driver with a note signed by the student's parent and endorsed by the Executive Director.

6. Students are to move away from the bus as they unload. Students shall not get underneath the bus to retrieve a book, paper or some other article. The student should always tell the bus driver and have the bus driver get the article for them.
7. Students should always use crosswalks and controlled intersections when available and should not cross in the middle of the block.
8. Students must avoid trespassing on other people's property, stay on sidewalks when possible.

**Procedures for All Students to Follow as They Board or Exit a School Bus at CHARTER SCHOOL Resource Center or Other School Activity Location**

CHARTER SCHOOL has created the following procedures to govern the safe entry and exit of all students at Charter School Resource Center or other school activity location.

Boarding Buses at Resource Center or School Activity Location:

1. The school bus driver may not activate the flashing amber warning light system, the flashing red light signal system, and stop signal arm at any school.
2. The driver will monitor the students' entry onto the bus to ensure an orderly and safe entry for all students.
3. The group of students, along with the teacher(s) and any other adult personnel attending a school activity, shall assemble in an area away from the school bus to wait. When the students are ready to load, the Charter School staff shall inform the driver, and the driver will begin the boarding process.
4. Upon completion of the boarding process, the driver will proceed with the bus evacuation and safety presentation, described below. This shall include an explanation and demonstration of all emergency exits, first aid kits, fire extinguishers, etc.
5. Upon completion of the presentation, the driver shall have the Charter School teacher or head chaperone sign a trip sheet, acknowledging the presentation has been given. The driver will then depart when safe to do so.

Exiting Buses at School Site or School Activity Location:

1. Upon arrival at Charter School Resource Center, the driver shall take the bus to the designated student drop off area.
2. Upon reaching the designated area, the driver will park the bus and open the door when it is clear and safe to do so. The flashing red signal lights will not be activated.
3. Upon arrival at the school or school activity destination, the driver will select an area where the bus can be lawfully parked and the boarding/exiting of students can be reasonably controlled.
  - a. The driver will confer with the Charter School teacher/head chaperone regarding the time and location where the group will assemble to reload the bus.
  - b. When it is clear and safe to do so, the driver will have the students disembark the bus. The flashing red signal lights will not be activated.

- c. When the Charter School teacher/head chaperone has confirmed all students are accounted for, the group may proceed to the trip.
- 4. Students exiting the bus at either Charter School Resource Center or a school activity location should do so in an orderly, respectful, and appropriate manner, following all instructions from Charter School staff and the bus driver.

#### **Procedures for School Staff to Ensure a Student is Not Left Unattended on a School Bus or School Activity Bus**

CHARTER SCHOOL staff members should always be involved and active in the supervision of the loading and unloading of students at Charter School Resource Center and on activity trips to ensure no student is left unattended on the school bus or school activity bus.

To do this, CHARTER SCHOOL staff shall adhere to the following procedures:

1. Before leaving the Resource Center for a school activity, the Charter School teacher/head chaperone for the trip shall ensure they have a copy of the class roster with all student names.
2. Once the bus reaches the destination, a Charter School teacher/head chaperone shall be the first person off the bus and will note each student who exits the bus by comparing the exiting students against the class roster.
3. A Charter School staff member/chaperone shall be the last person to exit the bus at each stop to ensure no students are left on board. Before exiting the bus, the staff member/chaperone will walk up the aisle, checking each seat and area on the floor by each seat to ensure no students are present.
4. Once all students and staff/chaperones have exited the bus, but before leaving for the designated activity, the Charter School teacher/head chaperone will conduct another roll call by calling out each student's name and waiting for verbal and visual confirmation from the student of being present.
5. The Charter School teacher/head chaperone will discuss with the bus driver a way to contact each other in the event it is later discovered a student is still on the bus.

#### **Procedures and Standards for Designating an Adult Chaperone, Other than the Bus Driver, to Accompany Students on a School Activity Bus**

CHARTER SCHOOL shall follow its applicable policies and procedures, including its visitor and volunteer policy, for designating an adult chaperone other than the school bus driver to accompany students on a bus or a school activity bus. All appropriate background checks will be conducted on any chaperone prior to the chaperone's attending a school trip or school activity bus.

#### **Instruction in School Bus or School Activity Bus Emergency Procedure and Passenger Safety**

CHARTER SCHOOL shall ensure that all students who are transported in a school bus or school activity bus receive instruction in school bus emergency procedures and passenger safety.

#### **Instruction for Students who were not Previously Transported in a School Bus**

Upon registration, the parents/guardians of students who were not previously transported in a school bus or school activity bus and who are in kindergarten through grade 6, inclusive, shall be provided with written information on school bus safety. This information shall include, but not be limited to, the following:

  - c. Students shall be on the proper side of the street before the bus arrives at the bus stop.
  - d. Students should arrive at their bus stop five minutes prior to the scheduled leaving time.
  - e. If the student is late and needs to cross the street that the bus is stopped on, the student must wait for the bus driver to escort the student across the street.
  - f. Students should not approach the bus until it comes to a complete stop at the stop;
  - g. Students should board and exit the bus in an orderly fashion, with no pushing or shoving.
  - h. Students should understand the bus driver is in charge at all times, and students should follow the bus driver's directions.
  - i. The driver will immediately activate the red flashing crossover lights and stop arm if so equipped.

Parent/guardian or staff may transport students in their private vehicles for field trips. ### **Bullying and Cyberbullying Prevention Procedures**

AUDEO has adopted the following procedures for preventing acts of bullying, including cyberbullying.

#### **1. Cyberbullying Prevention Procedures**

AUDEO advises students:

- a. To never share passwords, personal data, or private photos online.
- b. To think about what they are doing carefully before posting and by emphasizing that comments cannot be retracted once they are posted.
- c. That personal information revealed on social media can be shared with anyone including parents, teachers, administrators, and potential employers. Students should never reveal information that would make them uncomfortable if the world had access to it.
- d. To consider how it would feel receiving such comments before making comments about others online.

AUDEO informs Charter School employees, students, and parents/guardians of AUDEO's policies regarding the use of technology in and out of the classroom. AUDEO encourages parents/guardians to discuss these policies with their children to ensure their children understand and comply with such policies.

#### **2. Education**

AUDEO employees cannot always be present when bullying incidents occur, so educating students about bullying is a key prevention technique to limit bullying from happening. AUDEO advises students that hateful and/or demeaning behavior is inappropriate and unacceptable in our society and at AUDEO and encourages students to practice compassion and respect each other.

Charter School educates students to accept all student peers regardless of protected characteristics (including but not limited to actual or perceived sexual orientation, gender identification, physical or cognitive disabilities, race, ethnicity, religion, and immigration status) and about the negative impact of bullying other students based on protected characteristics.

AUDEO's bullying prevention education also discusses the differences between

appropriate and inappropriate behaviors and includes sample situations to help students learn and practice appropriate behavior and to develop techniques and strategies to respond in a non-aggressive way to bullying-type behaviors. Students will also develop confidence and learn how to advocate for themselves and others, and when to go to an adult for help.

AUDEO informs employees, students, and parents/guardians of this Policy and encourages parents/guardians to discuss this Policy with their children to ensure their children understand and comply with this Policy.

### **3. Professional Development**

AUDEO annually makes available the online training module developed by the California Department of Education pursuant Education Code section 32283.5(a) to its certificated employees and all other AUDEO employees who have regular interaction with students.

AUDEO informs certificated employees about the common signs that a student is a target of bullying including:

- Fear of going to school/practice/games
- Loss of interest in school, activities, or friends
- Trouble sleeping or eating
- Anxious/sick/nervous behavior or distracted appearance
- Self-destructiveness or displays of odd behavior
- Decreased self-esteem

Charter School also informs certificated employees about the groups of students determined by AUDEO, and available research, to be at elevated risk for bullying. These groups include but are not limited to:

- Students who are lesbian, gay, bisexual, transgender, or questioning youth (“LGBTQ”) and those youth perceived as LGBTQ; and
- Students with physical or learning disabilities.

AUDEO encourages its employees to demonstrate effective problem-solving, anger management, and self-confidence skills for AUDEO’s students.

Any student who believes they have been subject to misconduct prohibited by this Policy or has witnessed such prohibited misconduct is encouraged to immediately report such misconduct to the Coordinator:

Tim Tuter  
Executive Director  
858-678-2042  
[ttuter@altussschools.net](mailto:ttuter@altussschools.net)

Complaints regarding such misconduct may also be made to the U.S. Department of Education, Office for Civil Rights. Civil law remedies, including, but not limited to, injunctions, restraining orders, or other remedies or orders may also be available to complainants.

While submission of a written report is not required, the reporting party is encouraged to submit a written report to the Coordinator. AUDEO will investigate and respond to all oral and written reports of misconduct prohibited by this Policy in a manner that is not deliberately indifferent. Reports may be made anonymously, but formal disciplinary action cannot be based solely on an anonymous report.

Students are expected to report all incidents of misconduct prohibited by this Policy or other verbal, or physical abuses. Any student who feels they are a target of such behavior should

immediately contact a teacher, counselor, the Executive Director, [Administrator of Instrucional Services](#), [School Coordinator](#), a staff person or a family member so that the student can get assistance in resolving the issue in a manner that is consistent with this Policy.

The Charter School acknowledges and respects every individual's right to privacy. All reports shall be investigated in a manner that protects the confidentiality of the parties and the integrity of the process to the greatest extent possible. This includes keeping the identity of the reporter confidential, as appropriate, except to the extent necessary to comply with the law, carry out the investigation and/or to resolve the issue, as determined by the Coordinator or administrative designee on a case-by-case basis.

The Charter School prohibits any form of retaliation against any individual who files a report or complaint, testifies, assists, participates, or refuses to participate in any investigation or proceeding related to misconduct prohibited by this Policy. Such participation or lack of participation shall not in any way affect the status, grades, or work assignments of the individual. Individuals alleging retaliation in violation of this Policy may file a grievance using the procedures set forth in this Policy. Knowingly making false statements or knowingly submitting false information during the grievance process is prohibited and may result in disciplinary action.

All supervisors of staff will receive sexual harassment training within six (6) months of their assumption of a supervisory position and will receive further training once every two (2) years thereafter. All staff, and any individual designated as a coordinator, investigator or decision-maker will receive sexual harassment training and/or instruction concerning sexual harassment as required by law.

### **3. Supportive Measures**

Upon the receipt of an informal or formal complaint of sexual harassment, the Coordinator will promptly contact the complainant to discuss the availability of supportive measures. The Coordinator will consider the complainant's wishes with respect to supportive measures, inform the complainant of the availability of supportive measures with or without the filing of a formal complaint of sexual harassment, and explain the process for filing a formal complaint of sexual harassment.

Supportive measures are non-disciplinary, non-punitive individualized services offered as appropriate, as reasonably available, and without fee or charge to the complainant or the respondent before or after the filing of a formal complaint of sexual harassment or where no formal complaint of sexual harassment has been filed. Such measures are designed to restore or preserve equal access to AUDEO's education program or activity without unreasonably burdening the other party, including measures designed to protect the safety of all parties or AUDEO's educational environment, or deter sexual harassment. Supportive measures available to complainants and respondents may include but are not limited to counseling, extensions of deadlines or other course-related adjustments, modifications of work or class schedules, campus escort services, mutual restrictions on contact between the parties, changes in work locations,

leaves of absence, increased security and monitoring of certain areas of the campus, and other similar measures. AUDEO will maintain as confidential any supportive measures provided to the complainant or respondent, to the extent that maintaining such confidentiality would not impair the ability of AUDEO to provide the supportive measures.

#### **4. Investigation and Response**

Upon receipt of a report of misconduct prohibited by this Policy from a student, staff member, parent, volunteer, visitor or affiliate of AUDEO, the Coordinator (or administrative designee) will promptly initiate an investigation. In most cases, a thorough investigation will take no more than twenty-five (25) school days. If the Coordinator (or administrative designee) determines that an investigation will take longer than twenty-five (25) school days and needs to be delayed or extended due to good cause, the Coordinator (or administrative designee) will inform the complainant of the reasons for the delay or extension and provide an approximate date when the investigation will be complete.

At the conclusion of the investigation, the Coordinator (or administrative designee) will meet with the complainant and, to the extent possible with respect to confidentiality laws, to provide the complainant with information about the investigation, including any actions necessary to resolve the incident/situation. However, the Coordinator (or administrative designee) will not reveal confidential information related to other students or employees.

For investigations of and responses to formal complaints of sexual harassment, the following grievance procedures will apply:

- Notice of the Allegations
  - Upon receipt of a formal complaint of sexual harassment, the Coordinator will give all known parties written notice of its grievance process, including any voluntary informal resolution process. The notice will include:
    - A description of the allegations of sexual harassment at issue and to the extent known, the identities of the parties involved in the incident, the conduct allegedly constituting sexual harassment, and the date and location of the alleged incident;
    - A statement that the respondent is presumed not responsible for the alleged conduct until a final decision is reached;
    - A statement that the parties may have an advisor of their choice, who may be an attorney, and may inspect and review evidence;
    - A statement that AUDEO prohibits an individual from knowingly making false statements or knowingly submitting false information during the grievance process.
- Emergency Removal
  - AUDEO may place a non-student employee respondent on administrative leave during the pendency of a formal complaint of sexual harassment grievance process in accordance with AUDEO's policies.
  - AUDEO may remove a respondent from AUDEO education program or activity on an emergency basis, in accordance with AUDEO's policies, provided that AUDEO

undertakes an individualized safety and risk analysis, determines that an immediate threat to the physical health or safety of any student or other individual arising from the allegations of sexual harassment justifies removal, and provides the respondent with notice and an opportunity to challenge the decision immediately following the removal.

- This provision may not be construed to modify any rights under the IDEA, Section 504, or the ADA.
- Informal Resolution
  - If a formal complaint of sexual harassment is filed, AUDEO may offer a voluntary informal resolution process, such as mediation, to the parties at any time prior to reaching a determination regarding responsibility. If AUDEO offers such a process, it will do the following:
    - Provide the parties with advance written notice of:
      - The allegations;
      - The requirements of the voluntary informal resolution process including the circumstances under which the parties are precluded from resuming a formal complaint of sexual harassment arising from the same allegations;
      - The parties' right to withdraw from the voluntary informal resolution process and resume the grievance process at any time prior to agreeing to a resolution; and
      - Any consequences resulting from participating in the voluntary informal resolution process, including the records that will be maintained or could be shared; and
    - Obtain the parties' advance voluntary, written consent to the informal resolution process.
  - AUDEO will not offer or facilitate an informal resolution process to resolve allegations that an employee sexually harassed a student.
- Investigation Process
  - The decision-maker will not be the same person(s) as the Coordinator or the investigator. AUDEO shall ensure that all decision-makers and investigators do not have a conflict of interest or bias for or against complainants or respondents.
  - In most cases, a thorough investigation will take no more than twenty-five (25) school days. If the investigator determines that an investigation will take longer than twenty-five (25) school days and needs to be delayed or extended due to good cause, the investigator will inform the complainant and any respondents in writing of the reasons for the delay or extension and provide an approximate date when the investigation will be complete.
  - The parties will be provided with an equal opportunity to present witnesses, to inspect and review any evidence obtained that is directly related to the allegations raised, and to have an advisor present during any investigative meeting or interview.
  - The parties will not be prohibited from discussing the allegations under investigation or to gather and present relevant evidence.

- A party whose participation is invited or expected at an investigative meeting or interview will receive written notice of the date, time, location, participants, and purpose of the meeting or interview with sufficient time for the party to prepare to participate.
- Prior to completion of the investigative report, AUDEO will send to each party and the party's advisor, if any, a copy of the evidence subject to inspection and review, and the parties will have at least ten (10) days to submit a written response for the investigator's consideration prior to the completion of the investigation report.
- The investigator will complete an investigation report that fairly summarizes relevant evidence and send a copy of the report to each party and the party's advisor, if any, at least ten (10) days prior to the determination of responsibility.
- Dismissal of a Formal Complaint of Sexual Harassment
  - If the investigation reveals that the alleged harassment did not occur in AUDEO's educational program in the United States or would not constitute sexual harassment even if proved, the formal complaint with regard to that conduct must be dismissed. However, such a dismissal does not preclude action under another applicable AUDEO policy.
  - AUDEO may dismiss a formal complaint of sexual harassment if:
    - The complainant provides a written withdrawal of the complaint to the Coordinator;
    - The respondent is no longer employed or enrolled at AUDEO; or
    - The specific circumstances prevent AUDEO from gathering evidence sufficient to reach a decision on the formal complaint or the allegations therein.
  - If a formal complaint of sexual harassment or any of the claims therein are dismissed, AUDEO will promptly send written notice of the dismissal and the reason(s) for the dismissal simultaneously to the parties.
- Determination of Responsibility
  - The standard of evidence used to determine responsibility is the preponderance of the evidence standard.
  - Determinations will be based on an objective evaluation of all relevant evidence and credibility determinations will not be based on a person's status as a complainant, respondent, or witness.
  - AUDEO will send a written decision on the formal complaint to the complainant and respondent simultaneously that describes:
    - The allegations in the formal complaint of sexual harassment;
    - All procedural steps taken including any notifications to the parties, interviews with parties and witnesses, site visits, and methods used to gather other evidence;
    - The findings of facts supporting the determination;
    - The conclusions about the application of AUDEO's code of conduct to the facts;

Formatted: Normal, Space After: 12 pt

- The decision and rationale for each allegation;
- Any disciplinary sanctions the recipient imposes on the respondent, and whether remedies designed to restore or preserve equal access to the education program or activity will be provided to the complainant; and
- The procedures and permissible bases for appeals.

## 5. Consequences

Students or employees who engage in misconduct prohibited by this Policy, knowingly make false statements or knowingly submit false information during the grievance process may be subject to disciplinary action up to and including expulsion from AUDEO or termination of employment. The Coordinator is responsible for effective implementation of any remedies ordered by AUDEO in response to a formal complaint of sexual harassment.

## 6. Right of Appeal

Should the reporting individual find AUDEO's resolution unsatisfactory, the reporting individual may, within five (5) business days of notice of AUDEO's decision or resolution, submit a written appeal to the ~~Chairperson~~-President of the Charter School Board, who will review the investigation and render a final decision.

The following appeal rights and procedures will also apply to formal complaints of sexual harassment:

- The complainant and the respondent shall have the same appeal rights and AUDEO will implement appeal procedures equally for both parties.
- Within five (5) business days of Charter School's written decision or dismissal of the complaint, the complainant or respondent may submit a written appeal to the Coordinator.
- The decision-maker(s) for the appeal will not be the same person(s) as the Coordinator, the investigator or the initial decision-maker(s).
- The complainant and respondent may appeal from a determination regarding responsibility, and from Charter School's dismissal of a formal complaint or any allegations therein, on the following bases:
  - Procedural irregularity that affected the outcome of the matter;
  - New evidence that was not reasonably available at the time the determination regarding responsibility or dismissal was made, that could affect the outcome of the matter; and
  - The Title IX Coordinator, investigator(s), or decision-maker(s) had a conflict of interest or bias for or against complainants or respondents generally or the individual complainant or respondent that affected the outcome of the matter.
- AUDEO will notify the other party in writing when an appeal is filed.
- The decision-maker for the appeal will give both parties a reasonable, equal opportunity to submit a written statement in support of, or challenging, the outcome; issue a written decision describing the result of the appeal and the rationale for the result; and provide the written decision simultaneously to both parties.

Formatted: Normal, Space After: 12 pt

## 7. Recordkeeping

All records related to any investigation of complaints under this Policy are maintained in a secure location.

AUDEO will maintain the following records for at least seven (7) years:

The Policy is inclusive of instances that occur on any area of the school campus, at school-sponsored events and activities, regardless of location, through school-owned technology, and through other electronic means. In accordance with the *Title IX, Harassment, Intimidation, Discrimination, and Bullying Policy* and its *Uniform Complaint Policy and Procedures*, Charter School will promptly and thoroughly investigate any complaint of unlawful harassment, discrimination, intimidation, or bullying that constitute a hate crime or are otherwise based on actual or perceived characteristics listed above, and take appropriate corrective action, if warranted.

Charter School advises students that hateful and/or demeaning behavior is inappropriate and unacceptable in our society and at Charter School and encourages students to practice compassion and respect each other. Charter School educates students to accept all student peers regardless of protected characteristics (including but not limited to actual or perceived religion, immigration status, or citizenship) and about the negative impact of bullying other students based on these protected characteristics.

Charter School shall train teachers, staff, and personnel to ensure that they are aware of their legal duty to take reasonable steps to eliminate a hostile environment and respond to any incidents of harassment based on the actual or perceived characteristics noted above.

Charter School shall inform students who are victims of hate crimes of their right to report such crimes.

Complete copies of the *Uniform Complaint Policy and Procedures* and the *Title IX, Harassment, Discrimination, Intimidation, and Bullying Policy* are available for review at the administration office.

### **Gathering and Managing Student and Family Information**

School has adopted an *Educational Records and Student Information Policy* to apply to all educational records and student information maintained by Charter School and provides annual notice of same to all families. Appropriate personnel shall receive training regarding those policies and procedures.

Additionally, Charter School shall observe the following:

- Except as required by state or federal law or as required to administer a state or federally supported education program, Charter School officials and employees will not collect information or documents regarding citizenship or immigration status of pupils or their family members.
- If Charter School possesses information that could indicate immigration status, citizenship status, or national origin information, Charter School will not use the acquired information to discriminate against any student or families or bar children from enrolling in or attending school.
- If parents or guardians choose not to provide information that could indicate their or their children's immigration status, citizenship status, or national origin, Charter School will not use such actions as a basis to discriminate against any students or families or bar children from enrolling or attending school.
- Charter School will not allow school resources or data to be used to create a registry based on race, gender, sexual orientation, religion, ethnicity, or national origin.
- Charter School will not inquire specifically about a student's citizenship or immigration status or the citizenship or immigration status of a student's parents or guardians; nor shall personnel seek or require, to the exclusion of other permissible documentation or information, documentation or information that may indicate a student's immigration status, such as a green card, voter registration, a passport, or citizenship papers.

### *Admissions and Enrollment*

As a charter school, Charter School is open to all students who wish to attend, regardless of residency. Notwithstanding this and where permitted by law, Charter School shall accept alternative means to establish residency, age, or other eligibility criteria for enrollment or programs, and those alternative means shall include among them documentation or information that are available to persons regardless of immigration status, citizenship status, or national origin, and that do not reveal information related to citizenship or immigration status.

Documents, information, or proof relating to citizenship or immigration status of students will never be requested for the enrollment process. Where any law requires submission of national origin related information to satisfy the requirements of a special program, Charter School personnel will solicit that documentation or information separately from the enrollment process.

*Social Security Information:*

Charter School will not collect entire social security numbers or cards or a statement that the parent or guardian does not possess a Social Security number for the purposes of enrollment, and failure to provide this information will not bar a student from enrolling or attending Charter School. However, the last four digits of an adult household member's Social Security number may be solicited and/or collected if required to establish eligibility for federal benefit programs such as free or reduced-price meals. This Social Security information will only be collected for the limited purpose of establishing eligibility for federal benefit programs and will not affect student enrollment. If no adult household member has a Social Security number, the student still can qualify for free or reduced-price meals, if the family meets the income eligibility requirements.

**Sharing Student and Family Information**

Charter School will avoid the disclosure of information that might indicate a student's or family's citizenship or immigration status if the disclosure is not authorized by the Family Educational Rights and Privacy Act (FERPA). Charter School requires written parental or guardian consent for release of student information unless the information is relevant for a legitimate education interest or includes directory information only.

Neither exception permits disclosing information to immigration authorities for immigration-enforcement purposes; no student information shall be disclosed to immigration authorities for immigration-enforcement purposes without a court order or judicial subpoena. A copy of the complete *Education Records and Student Information Policy* is available for review in the administration office.

Charter School will permanently keep the consent notice with the record file.

Charter School personnel shall take the following steps upon receiving an information request related to a student's or family's immigration or citizenship status:

- (a) Notify a designated Charter School official about the information request.
- (b) Provide students and families with appropriate notice and a description of the immigration officer's request.
- (c) Document any verbal or written request for information by immigration authorities.
- (d) Unless prohibited, provide students and parents/guardians with any documents issued by the immigration-enforcement officer.

Charter School will not release information to third parties for immigration-enforcement purposes, except as required by law or court order. Charter School shall encourage that families and students have and know their emergency phone numbers and know where to find important documentation, including birth certificates, passports, Social Security cards, doctors' contact information, medication lists, lists of allergies, etc., which will allow them to be prepared in the event that a family member is detained or deported.

Charter School shall permit students and families to update students' emergency contact information as needed throughout the school year, and provide alternative contacts if no parent or guardian is available. Charter School shall communicate to families that information provided within the emergency cards will only be used in response to specified emergency situations, and not for any other purpose.

In the event a student's parent/guardian has been detained or deported by federal immigration authorities, Charter School shall use the student's emergency card contact information and release the student to the person(s) designated as emergency contacts. #### A. Distribution of Circulars, Un-Official Newspapers, and Other Printed Matter

Free inquiry and exchange of ideas are essential parts of a democratic education. Students shall be allowed to distribute circulars, leaflets, newspapers, and pictorial or other printed matter, and to circulate petitions, subject to the following specific limitations:

1. Leaflets, pictorial and other printed matter to be distributed shall be submitted to the Executive Director or designee at least one (1) school day prior to distribution. 4. The solicitation of signatures must not take place in school offices, nor be substantially disruptive to resource center activities (as determined by the School Coordinator or the school's administrator, including but not limited to tutoring and group study).

#### B. Official School Publications

As a small independent student learning environment, the Charter School does not currently have school publications. Should the Charter School begin utilizing a pupil-operated publication in the future, Student editors of official school publications shall be responsible for assigning and editing the news, editorial, and feature content of their publications subject to the limitations of this Policy. However, it shall be the responsibility of the journalism staff adviser(s) of student publications to supervise the production of the student staff, to maintain professional standards of English and journalism, and to maintain the provisions of this Policy.<sup>2</sup> The journalism staff adviser(s) shall help the student editors judge the literary value, newsworthiness and propriety of materials submitted for publication.

There shall be no prior restraint of material prepared for official school publications except insofar as it violates this Policy. Charter School officials shall have the burden of showing justification without undue delay prior to a limitation of student expression under this Policy. If the journalism staff adviser(s) consider material submitted for publication to violate this Policy, he or she will notify the student without undue delay and give specific reasons why the submitted material may not be published. The student should be given the opportunity to modify the material or appeal the decision of the journalism staff adviser to the Executive Director.

distribution of materials and prohibited speech. Students may not post or distribute materials regarding the meetings of non-curricular student-initiated groups.

#### E. Organized Demonstrations

Students have the right to lawful organized resource center demonstrations, subject to the provisions of this Policy and applicable law. Demonstrations that incite students to create a clear and present danger of the commission of unlawful acts on school premises or the violation of lawful school regulations, or demonstrations that substantially disrupt the orderly operation of the school are prohibited.

No organized demonstrations by school groups may take place off-site during school hours unless sanctioned by school authorities and supervised by a designated school authority. No individual student may demonstrate in the name of the Charter School or as an official school group at any time unless authorized by the Charter School to participate in the activity.

No student may participate in an organized demonstration that occurs during the hours of mandatory school attendance unless sanctioned by the Charter School and supervised by a designated Charter School employee. Missing school to attend an organized demonstration is not an excused absence. The Charter School will follow its Attendance Policy when determining consequences for students which may include but are not limited to detention, a low grade for a missed test, or receiving a truancy letter. The Charter School will follow its Suspension and Expulsion Policy when determining consequences for students if Charter School policy is violated.

If unprotected speech is included, the student will be given the opportunity to revise the speech or deliver a modified speech. If not revised or removed, the student will not be permitted to speak at the Charter School sponsored event.

##### *Off- Site Expression*

Off-site student expression, including but not limited to student expression on offsite internet web sites not accessed from the resource centers, is generally constitutionally protected but shall be subject to discipline when ~~such expression poses there is sufficient nexus between the speech and the school. a threat to the safety of other students, staff, or Charter School property, or substantially disrupts the educational program.~~

Relevant considerations include:

1. The degree and likelihood of harm to the Charter School (staff, students, volunteers, and/or property) caused or augured by the expression.
2. Whether it is reasonably foreseeable that the expression would reach and impact the Charter School, and
3. The relation between the content and/or context of the expression and the Charter School. There is always a sufficient nexus between the expression and the Charter School when the Charter School reasonably concludes that it faces a credible, identifiable threat of school violence.

The Charter School Executive Director or designee shall document the impact the expression had or could be expected to have on the educational program. Off-site expression that results in the material disruption of classwork or involves substantial disorder or invasion of the rights of others may be subject to discipline.

Off-site expression may result in discipline if the expression involves but is not limited to:

- a. Serious or severe bullying or harassment targeting particular individuals;
- b. Threats aimed at teachers or other students;
- c. The failure to follow rules concerning lessons, the writing of papers, the use of computers, or participation in other online school activities; or
- d. Breaches of school security devices.

### **Enforcement**

1. Upon learning that students are considering actions in the areas covered by this Policy they will be informed of the possible consequences of their action under each specific circumstance. The Executive Director shall ensure that due process is followed when resolving disputes regarding student freedom of expression.
2. This Policy does not prohibit or prevent the Charter School Governing Board from adopting otherwise valid rules and regulations relating to oral communications by students upon the resource center premises.
3. No Charter School employee shall be dismissed, suspended, disciplined, reassigned, transferred, or otherwise retaliated against solely for acting to protect a student engaged in the conduct authorized under this Policy, or refusing to infringe upon conduct that is authorized under this Policy, the First Amendment to the United States Constitution, or Section 2 of Article I of the California Constitution.
4. Charter School shall not make or enforce a rule subjecting a student to disciplinary sanctions solely on the basis of conduct that is speech or other communication that, when engaged in outside of a resource center, is protected from governmental

restriction by the First Amendment to the United States Constitution or Section 2 of Article I of the California Constitution.

### **Complaints and Appeals**

The following procedures shall be used to address general disputes regarding student freedom of speech and expression:

1. The student and faculty member shall first attempt to resolve the problem internally.
2. If the student and faculty member are unable to resolve the dispute, the student and/or faculty member may bring the matter to the Charter School Executive Director or designee, who shall hear both sides and strive to resolve the dispute as quickly as possible.
3. Any student or faculty member may appeal the decision of the Charter School Executive Director or designee to the Board who shall render a decision within a reasonable period of time after receipt of the appeal. The appeal by the student must be made within five (5) school days from the time the unsatisfactory decision was rendered.

A student who feels their freedom of expression was unconstitutionally limited and/or limited on the basis of discrimination may file a complaint by contacting the Charter School's Executive Director.

### ***Teacher Qualifications***

Our school focuses on delivering a strong standards-based and personalized educational program. Professional development for teachers, communication with parents, and opportunities for tutoring have always been common practice at the school.

We have a rigorous selection process and we believe our teachers are outstanding. We not only hire teachers who are strong academically, we choose people:

- who will work with both the family and the student,
- who will go above and beyond in helping your child develop workplace skills like responsibility and dependability,
- who will assess your child's strengths and build on them,
- who will provide support for their areas of weakness, and
- who will help your child succeed both personally and academically.

Your child is attending a school receiving Title I federal funds through the Elementary and Secondary Education Act (ESEA). At the beginning of each school year, local educational agencies receiving Title I funds are required to notify parents whose student(s) attend a Title I school that they may request, and the agency will provide the parents on request (and in a

timely manner), information regarding the professional qualifications of the student's classroom teachers, including at a minimum:

1. Whether the student's teacher:
  - Has met State qualification and licensing criteria for the grade levels and subject areas in which the teacher provides instruction;
  - Is teaching under emergency or other provisional status through which State qualification or licensing criteria have been waived; and
  - Is teaching in the field of discipline of the certification of the teacher.
2. Whether the child is provided services by paraprofessionals and, if so, their qualifications.

Parents are invited to seek further information on their specific teacher's or paraprofessional's professional qualifications.

### **Communication**

Audeo Valley seeks to convey the most current, accurate information possible to our parents and students. This includes the use of surveys and periodic [Parent Square AlertNow](#)-automated messages to your contact numbers. These messages will contain timely, important information. In addition, please "Like" our Facebook page ([www.facebook.com/Altus4U](http://www.facebook.com/Altus4U)) to keep up-to-date on all Audeo Valley information.

As we encourage our students to succeed and be accountable for their work, we expect the same for our organization and our employees. If you have suggestions, ideas, or concerns, please feel free to discuss it with your student's teacher.

Charter School cannot guarantee anonymity of the complainant. This includes keeping the identity of the complainant confidential. However, the Charter School will attempt to do so as appropriate. Charter School may find it necessary to disclose information regarding the complaint/complainant to the extent required by law or necessary to carry out the investigation or proceedings, as determined by the Chief of Staff and Compliance Officer ("COSCO") or designee on a case-by-case basis. 11.A statement that copies of Audeo’s UCP shall be available free of charge.

#### Procedures

The following procedures shall be used to address all complaints, which allege that the Charter School has violated federal or state laws or regulations enumerated in the section “Scope”, above. The compliance officer shall maintain a record of each complaint and subsequent related actions for at least three (3) calendar years.

All parties named shall be notified when a complaint is filed, when a complaint meeting or hearing is scheduled, and when a decision or ruling is made.

- Step 1: Filing of Complaint

Any individual, including a person’s duly authorized representative or an interested third party, public agency or organization may file a written complaint of alleged noncompliance of unlawful discrimination, harassment, intimidation or bullying pursuant to this Policy. A complaint of unlawful discrimination, harassment, intimidation or bullying may be filed by an individual who alleges that individual has personally suffered unlawful discrimination, harassment, intimidation or bullying or by one who believes any specific class of individuals has been subjected to unlawful discrimination, harassment, intimidation or bullying, or by a duly authorized representative who alleges that an individual student has been subjected to discrimination, harassment, intimidation, or bullying. An investigation of alleged unlawful discrimination, harassment, intimidation or bullying shall be initiated by filing a complaint no later than six (6) months from the date the alleged discrimination, harassment, intimidation or bullying occurred, or the complainant first obtained knowledge of the facts of the alleged discrimination, harassment, intimidation or bullying unless the time for filing is extended by the COSCO or designee, upon written request by the complainant setting forth the reasons for the extension. Such extension by the COSCO or designee shall be made in writing. The period for filing may be extended by the COSCO or designee for good cause for a period not to exceed ninety (90) calendar days following the expiration of the six-month time period. The School Coordinator shall respond immediately upon a receipt of a request for extension.

All other complaints under this Policy shall be filed not later than one (1) year from the date the alleged violation occurred. For complaints relating to the LCAP, the date of the alleged violation is the date on which the Audeo Board of Directors approved the LCAP or the annual update was adopted by the Audeo.

The complaint shall be presented to the compliance officer who shall maintain a log of complaints received, providing each with a code number and date stamp.

Complaints filed pursuant to this Policy must be in writing and signed. A signature may be handwritten, typed (including in an email) or electronically generated. Only complaints regarding pupil fees or LCAP compliance may be filed anonymously as set forth in this Policy. If a complainant is unable to put a complaint in writing due to conditions such as a disability or illiteracy, the Charter School staff shall assist the complainant in the filing of the complaint.

#### Step 2: Mediation

Within three (3) business days of receiving the complaint, the compliance officer may informally discuss with the complainant the possibility of using mediation. If the complainant agrees to mediation, the compliance officer shall make arrangements for this process.

Before initiating the mediation of an unlawful discrimination, harassment, intimidation or bullying complaint, the compliance officer shall ensure that all parties agree to make the mediator a party to related confidential information.

If the mediation process does not resolve the complaint to the satisfaction of the complainant, the compliance officer shall proceed with the investigation of the complaint.

The use of mediation shall not extend the Charter School's timelines for investigating and resolving the complaint unless the complainant agrees in writing to such an extension of time.

#### Step 3: Investigation of Complaint

The compliance officer is encouraged to hold an investigative meeting within five (5) business days of receiving the complaint or an unsuccessful attempt to mediate the complaint. This meeting shall provide an opportunity for the complainant and/or the complainant's representative to repeat the complaint orally.

The complainant and/or the complainant's representative shall have an opportunity to present the complaint and evidence or information leading to evidence to support the allegations in the complaint.

A complainant's refusal to provide the compliance officer with documents or other evidence related to the allegations in the complaint, or complainant's failure or refusal to cooperate in the investigation or the complainant's engagement in any other obstruction of the investigation, may result in the dismissal of the complaint because of a lack of evidence to support the allegation.

The Charter School's refusal to provide the compliance officer with access to records and/or other information related to the allegation in the complaint, or its failure or refusal to cooperate in the investigation or its engagement in any other obstruction of the investigation, may result in a finding, based on evidence collected, that a violation has occurred and may result in the imposition of a remedy in favor of the complainant.

- Final Written Decision

Audeo shall issue an investigation report (the "Decision") based on the evidence. Audeo's decision shall be in writing and sent to the complainant within sixty (60) calendar days of Audeo's receipt unless the timeframe is extended with the written agreement of the complainant. Audeo's Decision shall be written in English and in the language of the complainant whenever feasible or as required by law.

The Decision shall include:

1. The findings of fact based on evidence gathered.
2. The conclusion providing a clear determination for each allegation as to whether Audeo is in compliance with the relevant law.
3. Corrective actions, if Audeo finds merit in the complaint and any are warranted or required by law.
4. Notice of the complainant's right to appeal Audeo's decision within thirty (30) calendar days to the CDE, except when Audeo has used its UCP to address complaints that are not subject to the UCP requirements
5. Procedures to be followed for initiating such an appeal.

If an employee is disciplined as a result of the complaint, the Decision shall simply state that effective action was taken and that the employee was informed of the Charter School's expectations. The Decision shall not give any further information as to the nature of the disciplinary action except as required by applicable law.

#### Appeals to the California Department of Education

If dissatisfied with the Decision, the complainant may appeal in writing to the CDE within thirty (30) days of receiving the Decision. The appeal shall be accompanied by a copy of the complaint

filed with Audeo and a copy of the Decision. When appealing to the CDE, the complainant must specify and explain the basis for the appeal, including at least one of the following:

1. Audeo failed to follow its complaint procedures.
2. Relative to all allegations of the complaint, Audeo's Decision lacks material findings of fact necessary to reach a conclusion of law.
3. The material findings of fact in Audeo's Decision are not supported by substantial evidence.
4. The legal conclusion in Audeo's Decision is inconsistent with the law.
5. In a case in which Audeo's Decision found noncompliance, the corrective actions fail to provide a proper remedy.

Upon notification by the CDE, that the complainant has appealed the Decision, the COSCO or designee shall forward the following documents to the CDE within ten (10) calendar days of the date of notification:

1. A copy of the original complaint.
2. A copy of the Decision.
3. A copy of the investigation file, including but not limited to all notes, interviews, and documents submitted by the parties or gathered by the investigator.
4. A report of any action taken to resolve the complaint.
5. A copy of the Charter School's complaint procedures.
6. Other relevant information requested by the CDE.

If the CDE determines the appeal raises issues not contained in the local complaint, the CDE will refer those new issues back to Audeo for resolution as a new complaint. If the CDE notifies the Charter School that its Decision failed to address an allegation raised by the complaint and subject to the UCP process, the Charter School will investigate and address such allegation(s) in accordance with the UCP requirements and provide the CDE and the appellant with an amended Decision addressing such allegation(s) within twenty (20) calendar days of the CDE's notification. The amended Decision will inform the appellant of the right to separately appeal the amended Decision with respect to the complaint allegation(s) not addressed in the original Decision.

Within thirty (30) calendar days of the date of the CDE's appeal Decision pursuant to 5 C.C.R. section 4633(f)(2) or (3), either party may request reconsideration by the State Superintendent of Public Instruction ("SSPI") or the SSPI's designee. The request for reconsideration shall specify

and explain the reason(s) for contesting the findings of fact, conclusion of law, or corrective actions in the CDE's appeal Decision. The SSPI will not consider any information not previously submitted to the CDE by a party during the appeal unless such information was unknown to the party at the time of the appeal and, with due diligence, could not have become known to the party. Pending the SSPI's response to a request for reconsideration, the CDE appeal Decisions remains in effect and enforceable, unless stayed by a court.

The CDE may directly intervene in the complaint without waiting for action by the Charter School when one of the conditions listed in C.C.R. section 4650 exists, including but not limited to cases in which through no fault of the complainant, Charter School has not taken action within sixty (60) calendar days of the date of the complaint was filed with the Charter School.

#### Civil Law Remedies

A complainant may pursue available civil law remedies outside of the Charter School's complaint procedures. Complainants may seek assistance from mediation centers or public/private interest attorneys. Civil law remedies that may be imposed by a court include, but are not limited to, injunctions and restraining orders. For unlawful discrimination, complaints arising under state law, however, a complainant must wait until sixty (60) calendar days have elapsed from the filing of an appeal with the CDE before pursuing civil law remedies. The moratorium does not apply to injunctive relief and is applicable only if the Charter School has appropriately, and in a timely manner, apprised the complainant of their right to file a complaint.

A copy of the UCP shall be available upon request free of charge on the school website. For further information on any part of the complaint procedures, including filing a complaint or requesting a copy of the UCP, please contact the Executive Director.

[This Policy applies to Audeo Valley Charter School \("Audeo" or "Charter School"\).](#)

#### **I. General Statement of Policy**

No student enrolled in Charter School shall be required to pay a student fee for participation in Charter School 's educational activity unless specifically authorized by law.

## **II. Definitions**

Pursuant to Education Code section 49010, prohibited student fees include, but are not limited to, the following:

- (a) fees charged as a condition for registering for school or classes, or as a condition for participation in a class or any extracurricular activity, regardless of whether the class or activity is elective or compulsory, or is for credit;
- (b) a security deposit, or other payment, that a student is required to make to obtain a book, class apparatus, laptop, I-Pad, e-reader or other materials or equipment;

Charter School does not offer course credit or privileges related to educational activities in exchange for money or donations of goods or services from a student, and Charter School does not remove course credit or privileges related to educational activities, or otherwise discriminate against any student who does not or will not provide money or donations of goods or services to the school.
5. No fees shall be charged for inter district transfers, tuition or diplomas, mandatory caps and gowns, or admissions charges, whether for instruction or extracurricular, if part of the

educational program. A cap and gown will be provided free of charge by the Charter School to graduating students and must be returned to the Charter School after the Graduation ceremony. Charter School may solicit voluntary donations of funds from students and parents of students to help cover the cost of cap and gown, but all students are provided access to a cap and gown, regardless of student or parent donation. The Board of Directors of Audeo Charter School, Inc. hereby adopts this Policy to apply to The Governing Board of Audeo Charter School II, Audeo Charter School III, Audeo Valley Charter School, Grossmont Secondary School, Mirus Secondary School and Sweetwater Secondary School ("Charter School").

The Board recognizes that suicide is a major cause of death among youth and should be taken seriously. ~~In order to~~To attempt to reduce suicidal behavior and its impact on students and families, the Governing Board has developed prevention strategies and intervention procedures.

In compliance with Education Code section 215, this policy has been developed in consultation with Charter School and community stakeholders, Charter School school-employed mental health professionals (e.g., school counselors, psychologists, social workers, nurses), administrators, other school staff members, parents/guardians/caregivers, students, local health agencies and professionals, the county mental health plan, law enforcement, and community organizations in planning, implementing, and evaluating Charter School's strategies for suicide prevention and intervention. Charter School must work in conjunction with local government agencies, community-based organizations, and other community supports to identify additional resources.

The policy shall be developed in consultation with school and community stakeholders, school-employed mental health professionals, the county mental health plan and suicide prevention experts and shall, at a minimum, address procedures relating to suicide prevention, intervention, and post-vention.

To ensure the policies regarding suicide are properly adopted, implemented, and updated, The Charter School shall appoint an individual (or team) to serve as the suicide prevention point of contact. The suicide prevention point of contact for Charter School and the Executive Director shall ensure proper coordination and consultation with the county mental health plan if a referral is made for mental health or related services on behalf of a student who is a Medi-Cal

beneficiary. This policy shall be reviewed and revised as indicated, at least annually in conjunction with the previously mentioned community stakeholders.  
Charter School shall ensure that measures and strategies for students in grades K-6 are age-appropriate and delivered and discussed in a manner that is sensitive to the needs of young students.

### **Suicide Prevention Crisis Team**

To ensure the policies regarding suicide prevention are properly adopted, implemented, and updated, Charter School created an in-house Suicide Prevention Crisis Team ("SPCT") consisting of administrators, mental health professionals, relevant staff, parents, and middle and high school students.

Charter School designates the following administrators to act as the primary and secondary suicide prevention liaisons to lead the SPCT:

1. School Psychologist

The functions of the SPCT are to:

- Review mental health related school policies and procedures;
- Provide annual updates on school and district data and trends;
- Review and revise school prevention policies;
- Review and select general and specialized mental health and suicide prevention training;
- Review and oversee staff, parent/guardian, and student trainings;
- Ensuring the suicide prevention policy, protocols, and resources are posted on the district and school websites;

- Help inform and build skills among law enforcement and other relevant partners, and
- Collaborate to build community response.

### **Staff Development**

Charter School, along with its partners, has carefully reviewed available staff training to ensure it promotes the mental health model of suicide prevention and does not encourage the use of the stress model to explain suicide.

Training shall be provided for all school staff members. It may also be provided, when appropriate, for other adults on campus (such as substitutes and intermittent staff, volunteers, interns, tutors, coaches, and afterschool staff). Training shall include the following:

1. All suicide prevention trainings shall be offered under the direction of mental health professionals (e.g., school counselors, school psychologists, healthy youth school therapist, other public entity professionals, such as psychologists or social workers) who have received advanced training specific to suicide. Charter School has collaborated with [Insert Names of One Or More County and/or Community Mental Health Agencies] to review the training materials and content to ensure it is evidence-based, evidence-informed, and aligned with best practices.
2. Staff training may be adjusted year-to-year based on previous professional development activities and emerging best practices.
3. Charter School shall ensure that training is available for new hires during the school year.
4. At least annually, all staff shall receive training on the risk factors and warning signs of suicide, suicide prevention, intervention, referral, and postvention.
5. At a minimum, all staff shall participate in training on the core components of suicide prevention (identification of suicide risk factors and warning signs, prevention, intervention, referral, and postvention) at the beginning of their employment or annually. Core components of the general suicide prevention training shall include:
  - a. Suicide risk factors, warning signs, and protective factors.

  - e. Emphasis on reducing stigma associated with mental illness and that early prevention and intervention can drastically reduce the risk of suicide.
  - f. Reviewing the data annually to look for any patterns or trends of the prevalence or occurrence of suicide ideation, attempts, or death. Data from the California School Climate, Health, and Learning Survey (Cal-SCHLS) should also be analyzed to identify school climate deficits and drive program development. See the Cal-SCHLS Web site at <http://cal-schls.wested.org/>.
  - g. Information regarding groups of students judged by the school, and available research, to be at elevated risk for suicide. These groups include, but are not limited to, the following:
    - i. Youth affected by suicide.
    - ii. Youth with a history of suicide ideation or attempts.
    - iii. Youth with disabilities, mental illness, or substance abuse disorders.
    - iv. Lesbian, gay, bisexual, transgender, or questioning youth.

- v. Youth experiencing homelessness or in out-of-home settings, such as foster care.
- vi. Youth who have suffered traumatic experiences.
- vii. [Charter School may Insert other Local Youth Populations Vulnerable to Depression and Suicide].

6. In addition to initial orientations to the core components of suicide prevention, ongoing annual staff professional development for all staff may include the following components:

- a. The impact of traumatic stress on emotional and mental health.
- b. Common misconceptions about suicide.
- c. Charter School and community suicide prevention resources.
- d. Appropriate messaging about suicide (correct terminology, safe messaging guidelines).
- e. The factors associated with suicide (risk factors, warning signs, protective factors).
- f. How to identify youth who may be at risk of suicide.
- g. Appropriate ways to interact with a youth who is demonstrating emotional distress or is suicidal. Specifically, how to talk with a student about their thoughts of suicide and (based on Charter School guidelines) how to respond to such thinking; how to talk with a student about thoughts of suicide and appropriately respond and provide support based on Charter School guidelines.
- h. Charter School-approved procedures for responding to suicide risk (including multi-tiered systems of support and referrals). Such procedures should emphasize that the suicidal student should be constantly supervised until a suicide risk assessment is completed.
- i. Charter School-approved procedures for responding to the aftermath of suicidal behavior (suicidal behavior postvention).
- j. Responding after a suicide occurs (suicide postvention).
- k. Resources regarding youth suicide prevention.
- l. Emphasis on stigma reduction and the fact that early prevention and intervention can drastically reduce the risk of suicide.
- m. Emphasis that any student who is identified to be at risk of suicide is to be immediately referred (same day) for assessment while being constantly monitored by a staff member.

#### **Specialized Professional Development for School-based Mental Health Staff (Screening and/or Assessment)**

Additional professional development in suicide risk assessment (SRA) and crisis intervention is provided to designated student mental health professionals, including but not limited to school counselors, psychologists, healthy youth school therapist, social workers, administrators, and nurses employed by Charter School. Training for these staff is specific to conducting SRAs,

Formatted: Indent: Left: 1", No bullets or numbering

intervening during a crisis, de-escalating situations, interventions specific to preventing suicide, making referrals, safety planning, and re-entry. Specialized Professional Training for targeted School-based mental health staff includes the following components:

- Best practices and skill building on how to conduct an effective suicide risk screening/SRA using an evidence-based, Charter-approved tool; Patient Health Questionnaire 9 (PHQ-9) Depression Scale; BSS Beck Scale for Suicide Ideation ; National Institute of Mental Health (NIMH)'s Ask Suicide-Screening Questions (ASQ) Toolkit; and the Adolescent Suicide Assessment Protocol – 20.
- Best practices on approaching and talking with a student about their thoughts of suicide and how to respond to such thinking, based on district guidelines and protocols.
- Best practices on how to talk with a student about thoughts of suicide and appropriately respond and provide support based on district guidelines and protocols.
- Best practices on follow up with parents/caregivers.
- Best practices on re-entry.

#### **Virtual Screenings for Suicide Risk**

Virtual suicide prevention efforts include checking in with all students, promoting access to school and community-based resources that support mental wellbeing and those that address mental illness and give specific guidance on suicide prevention.

Charter School has established a protocol for assigning school staff to connect with students during distance learning and school closures. In the event of a school closure, Charter School has determined a process and protocols to establish daily or regular contact with all students. Staff understand that any concern about a student's emotional wellbeing and/or safety must be communicated to the appropriate school staff, according to Charter School protocols.

Charter School has determined a process and protocols for school-based mental health professionals to establish regular contact with high-risk students, students who are on their caseloads, and those who are identified by staff as demonstrating need. When connecting with students, staff are directed to begin each conversation by identifying the location of the student and the availability of parents or caregivers. This practice allows for the staff member to ensure the safety of the student, particularly if they have expressed suicidal thoughts.

#### **Employee Qualifications and Scope of Services**

Employees of the Charter School must act only within the authorization and scope of their credential or license. While it is expected that school professionals are able to identify suicide risk factors and warning signs, and to prevent the immediate risk of a suicidal behavior, treatment of suicidal ideation is typically beyond the scope of services offered in the school setting. In addition, treatment of the mental health challenges often associated with suicidal thinking typically requires mental health resources beyond what schools are able to provide.

#### **Parents, Guardians, and Caregivers Participation and Education**

1. Parents/guardians/caregivers may be included in suicide prevention efforts. At a minimum, the Charter School shall share this Policy with parents/guardians/caregivers by notifying them where a complete copy of the policy is available.

This Suicide Prevention Policy shall be easily accessible and prominently displayed on the Charter School Web page and included in the parent handbook.

2. Parents/guardians/caregivers should be invited to provide input on the development and implementation of this policy.

3. Charter School shall establish and widely disseminate a referral process to all parents/guardians/caregivers/families, so they are aware of how to respond to a crisis and are knowledgeable about protocols and school, community-based, and crisis resources.

4. Community-based organizations that provide evidence-based suicide-specific treatments shall be highlighted on the Charter School's website with treatment referral options marked accordingly.

5. Staff autoreplies during vacations or absences shall include links to resources and phone/text numbers so parents and students have information readily available.

6. All parents/guardians/caregivers may have access to suicide prevention training that addresses the following:

- a. Suicide risk factors, warning signs, and protective factors.
- b. How to talk with a student about thoughts of suicide.

How to respond appropriately to the student who has suicidal thoughts. Such responses shall include constant supervision of any student judged to be at risk for suicide and referral for an immediate suicide risk assessment.

- c. Charter School's referral processes and how they or their children can reach out for help, etc.

7. Parents/guardians/caregivers are reminded that the Family Educational Rights and Privacy Act ("FERPA") generally protects the confidentiality of student records, which may sometimes include counseling or crisis intervention records. However, FERPA's health or safety emergency provision permits the disclosure of personally identifiable information from a student's education records, to appropriate parties, in order to address a health or safety emergency when the disclosure is necessary to protect the health or safety of the student or other individuals.

## **Student Participation and Education**

Messaging about suicide has an effect on suicidal thinking and behaviors. Consequently, Charter School along with its partners has carefully reviewed and will continue to review all materials and resources used in awareness efforts to ensure they align with best practices for safe messaging about suicide. Suicide prevention strategies may include, but not be limited to, efforts to promote a positive school climate that enhances students' feelings of connectedness with Charter School and is characterized by caring staff and harmonious interrelationships among students.

Charter School's instructional and student support program shall promote the healthy mental, emotional, and social development of students including, but not limited to, the development of problem-solving skills, coping skills, and resilience. The instruction shall not use the stress model to explain suicide.

Charter School's instructional curriculum may include information about suicide prevention, as appropriate or needed. If suicide prevention is included in the Charter School's instructional curriculum, it shall consider the grade level and age of the students and be delivered and discussed in a manner that is sensitive to the needs of young students. Under the supervision of an appropriately trained individual acting within the scope of her/his credential or license, students shall:

1. Receive developmentally appropriate, student-centered education about the warning signs of mental health challenges and emotional distress. The content of the education may include:
  - a. Coping strategies for dealing with stress and trauma.
  - b. How to recognize behaviors (warning signs) and life issues (risk factors) associated with suicide and mental health issues in oneself and others.
  - c. Help-seeking strategies for oneself and others, including how to engage school-based and community resources and refer peers for help.
  - d. Emphasis on reducing the stigma associated with mental illness and the fact that early prevention and intervention can drastically reduce the risk of suicide.
2. Receive developmentally appropriate guidance regarding Charter School's suicide prevention, intervention, and referral procedures.

Student-focused suicide prevention education can be incorporated into classroom curricula (e.g., health classes, orientation classes, science, and physical education).

Charter School will support the creation and implementation of programs and/or activities on campus that raise awareness about mental wellness and suicide prevention (e.g., Mental Health Awareness Week, Peer Counseling, Freshman Success, and National Alliance on Mental Illness on Campus High School Clubs).

Charter School maintains a list of current student trainings and is available upon request. Charter School has shared school-based supports and self-reporting procedures, so students are able to seek help if they are experiencing thoughts of suicide or if they recognize signs with peers. Although confidentiality and privacy are important, students should understand safety is a priority and if there is a risk of suicide, school staff are required to report. Charter-based mental health professionals are legally and ethically required to report suicide risk. **When reporting suicidal ideation or an attempt, school staff must maintain confidentiality and only share information limited to the risk or attempt.**

Charter School shall establish and widely disseminate a referral process to all students, so they know how to access support through school, community-based, and crisis services. Students shall be encouraged to notify a staff member when they are experiencing emotional distress or suicidal ideation, or when they have knowledge or concerns of another student's emotional distress, suicidal ideation, or attempt.

#### **Intervention and Emergency Procedures**

Whenever a staff member suspects or has knowledge of a student's suicidal intentions, they shall promptly notify the primary designated suicide prevention liaison. If this primary suicide prevention liaison is unavailable, the staff shall promptly notify the secondary suicide prevention liaison.

The suicide prevention liaison shall immediately notify the Executive Director or designee, who shall then notify the student's parent/guardian as soon as possible if appropriate and in the best interest of the student. Determination of notification to parents/guardians/caregivers should follow a formal initial assessment to ensure that the student is not endangered by parental notification.

The suicide prevention liaison shall also refer the student to mental health resources at Charter School or in the community.

When a student is in imminent danger (has access to a gun, is on a rooftop, or in other unsafe conditions), a call shall be made to 911. The call shall NOT be made in the presence of the student and the student shall not be left unsupervised. Staff shall NOT physically restrain or block an exit.

When a suicide attempt or threat is reported on campus or at a school-related activity, the suicide prevention liaison shall, at a minimum:

1. Ensure the student's physical safety by one or more of the following, as appropriate:
  - a. Securing immediate medical treatment if a suicide attempt has occurred.
  - b. Securing law enforcement and/or other emergency assistance if a suicidal act is being actively threatened.

- c. Keeping the student under continuous adult supervision until the parent/guardian and/or appropriate support agent or agency can be contacted and has the opportunity to intervene.
  - d. Remaining calm, keeping in mind the student is overwhelmed, confused, and emotionally distressed.
  - e. Moving all other students out of the immediate area.
  - f. Not sending the student away or leaving him/her alone, even to go to the restroom.
  - g. Providing comfort to the student, listening and allowing the student to talk and being comfortable with moments of silence.
  - h. Promising privacy and help, but not promising confidentiality.
2. Document the incident in writing as soon as feasible.
  3. Follow up with the parent/guardian and student in a timely manner to provide referrals to appropriate services as needed and coordinate and consult with the county mental health plan if a referral is made for mental health or related services on behalf of a student who is a Medi-Cal beneficiary. **Determination of notification to parents/guardians/caregivers should follow a formal initial assessment to ensure that the student is not endangered by parental notification.**
  4. After a referral is made, Charter School shall verify with the parent/guardian that the follow up treatment has been accessed. Parents/guardians will be required to provide documentation of care for the student. If parents/guardians refuse or neglect to access treatment for a student who has been identified to be at risk for suicide or in emotional distress, the suicide prevention liaisons shall meet with the parent to identify barriers to treatment (e.g., cultural stigma, financial issues) and work to rectify the situation and build understanding of care. If follow up care is still not provided, Charter School may contact Child Protective Services.
  5. Provide access to counselors or other appropriate personnel to listen to and support students and staff who are directly or indirectly involved with the incident at Charter School.
  6. Provide an opportunity for all who respond to the incident to debrief, evaluate the effectiveness of the strategies used, and make recommendations for future actions.

In the event a suicide occurs or is attempted on the Charter School campus, the suicide prevention liaison shall follow the crisis intervention procedures contained in Charter School's safety plan. After consultation with the Executive Director or designee and the student's parent/guardian about facts that may be divulged in accordance with the laws governing confidentiality of student record information, the Executive Director or designee may provide students, parents/guardians, and staff with information, counseling, and/or referrals to community agencies as needed. Charter School staff may receive assistance from Charter School

counselors or other mental health professionals in determining how best to discuss the suicide or attempted suicide with students.

In the event a suicide occurs or is attempted off the Charter School campus and unrelated to school activities, the Executive Director or designee shall take the following steps to support the student:

1. Contact the parent/guardian and offer support to the family.
2. Discuss with the family how they would like Charter School to respond to the attempt while minimizing widespread rumors among teachers, staff, and students.
3. Obtain permission from the parent/guardian to share information to ensure the facts regarding the crisis are correct.
4. The suicide prevention liaisons shall handle any media requests.
5. Provide care and determine appropriate support to affected students.
6. Offer to the student and parent/guardian steps for re-integration to school. Re-integration may include obtaining a written release from the parent/guardian to speak with any health care providers; conferring with the student and parent/guardian about any specific requests on how to handle the situation; informing the student's teachers about possible days of absences; allowing accommodations for make-up work (being understanding that missed assignments may add stress to the student); appropriate staff maintaining ongoing contact with the student to monitor the student's actions and mood; and working with the parent/guardian to involve the student in an aftercare plan; providing parent's/guardians/caregivers/families local emergency numbers for after school and weekend emergency contacts.

Whenever a staff member suspects or has knowledge of a student's suicidal intentions, he/she shall promptly notify the Executive Director or designee. The Executive Director or designee shall then notify the student's parent/guardian as soon as possible and may also refer the student to mental health resources at the Charter School or in the community.

When a suicide attempt or threat is reported, the Executive Director or designee shall, at a minimum:

1. Ensure the student's physical safety by one of the following, as appropriate:
  - a. Securing immediate medical treatment if a suicide attempt has occurred;
  - b. Securing law enforcement and/or other emergency assistance if a suicidal act is being actively threatened;
  - c. Keeping the student under continuous adult supervision until the parent/guardian and/or appropriate support agent or agency can be contacted and has the opportunity to intervene.

2. Designate specific individuals to be promptly contacted, for example the school counselor, psychologist, nurse, Executive Director, and/or the student's parent/guardian, and, as necessary, local law enforcement or mental health agencies.

3. Document the incident in writing as soon as feasible.

4. Follow up with the parent/guardian and student in a timely manner to provide referrals to appropriate services as needed, and coordinate and consult with the county mental health plan if a referral is made for mental health or related services on behalf of a student who is a Medi-Cal beneficiary.

5. Provide access to counselors or other appropriate personnel to listen to and support students and staff who are directly or indirectly involved with the incident at the school.

6. Provide an opportunity for all who respond to the incident to debrief, evaluate the effectiveness of the strategies used, and make recommendations for future actions.

In the event a suicide occurs or is attempted on the Charter School campus, the Executive Director or designee shall follow the crisis intervention procedures contained in the Charter School's safety plan. After consultation with the Executive Director or designee and the student's parent/guardian about facts that may be divulged in accordance with the laws governing confidentiality of student record information, the Executive Director or designee may provide students, parents/guardians, and staff with information, counseling, and/or referrals to community agencies as needed. Charter School staff may receive assistance from school

~~counselors or other mental health professionals in determining how best to discuss the suicide or attempted suicide with students. Students shall be encouraged through the education program and in school activities to notify a teacher, Executive Director, another school administrator, psychologist, school counselor, or other adult when they are experiencing thoughts of suicide or when they suspect or have knowledge of another student's suicidal intentions.~~

### **Supporting Students during or after a Mental Health Crisis**

~~Students shall be encouraged through the education program and in Charter School activities to notify a teacher, the Executive Director, another Charter School administrator, psychologist, Charter School counselor, suicide prevention liaisons, or other adult when they are experiencing thoughts of suicide or when they suspect or have knowledge of another student's suicidal intentions. Charter School staff should treat each report seriously, calmly, and with active listening and support. Staff should be non-judgmental to students and discuss with the student, and parent/guardian, about additional resources to support the student.~~

The housing questionnaire shall be available in paper form. The housing questionnaire shall be available in the primary language other than English spoken by fifteen (15) percent or more of the students enrolled at Charter School and shall be translated into other languages upon request of a student's parent/guardian or an unaccompanied youth. If the Charter School does not otherwise provide transportation services to all Charter School students, Charter School shall ensure that transportation is provided for homeless students to and from Charter School, at the request of the parent or guardian (or Charter School Liaison), if Charter School is the student's school of origin. (42 U.S.C. § 11432(g)(1)(J).) (1) Charter School's homeless education program policies; and  
(2) Recognition of signs that pupils are experiencing, or are at risk of experiencing, homelessness.

The Charter School Liaison shall inform such employees of the availability of training and the services the Charter School Liaison provides to aid in the identification and provision of services to students who are experiencing, or are at risk of experiencing, homelessness.

### **High School Graduation Requirements**

Homeless students who transfer to the Charter School any time after the completion of their second year of high school shall be exempt from any of the Charter School's graduation requirements that are in excess of the California minimum graduation requirements specified in Education Code section 51225.3 ("additional graduation requirements") unless Charter School makes a finding that the student is reasonably able to complete the Charter School's graduation requirements by the end of the student's fourth year of high school.

To determine whether a homeless student is in their third or fourth year of high school, either the number of credits the student has earned to the date of transfer or the length of the student's school enrollment may be used, whichever will qualify the student for the exemption.

Within thirty (30) calendar days of the date that a student who may qualify for exemption under the above requirements transfers into the Charter School, the Charter School shall notify the student, the student's educational rights holder, and the Charter School Liaison of the availability of the exemption and whether the student qualifies for an exemption.

The Charter School shall notify students who are exempted from the Charter School's additional graduation requirements and the student's educational rights holder of how any of the requirements that are waived will affect the student's ability to gain admission to a postsecondary educational institution and provide information about transfer opportunities available through the California Community Colleges.

The Charter School shall not require any student who would otherwise be entitled to remain in attendance at the Charter School to accept the exemption from the Charter School's additional graduation requirements or deny the student enrollment in, or the ability to complete, courses for which the student is otherwise eligible. The Charter School shall not revoke an exemption

and shall grant an eligible student's request for the exemption at any time if the student qualifies, regardless of whether the student previously declined the exemption. An eligible student's exemption from the Charter School's additional graduation requirements will continue to apply while the student is enrolled in the Charter School or if the student transfers to another school even after the student no longer meets the definition of a homeless child.

The Charter School shall not require or request that a student transfer schools in order to qualify the student for the exemption. Nor shall a student, a student's parent/guardian or educational rights holder, or a student's social worker or probation officer request a transfer solely to qualify for an exemption from the Charter School's additional graduation requirements.

If a student who is exempted from the Charter School's additional graduation requirements completes the California minimum coursework requirements specified in Education Code section 51225.3 before the end of the student's fourth year of high school and would otherwise be entitled to remain in attendance at the Charter School, the Charter School shall not require or request that the student graduate before the end of the student's fourth year of high school.

If the Charter School determines the student is reasonably able to complete the Charter School's graduation requirements by the end of the student's fifth year of high school, the Charter School shall do the following:

1. Inform the student of the student's option to remain at the Charter School for a fifth year to complete the Charter School's graduation requirements.
2. Inform the student, and the educational rights holder for the student, about how remaining in school for a fifth year to complete the Charter School's graduation requirements will affect the student's ability to gain admission to a postsecondary educational institution.
3. Provide information to the student about transfer opportunities available through the California Community Colleges.
4. Permit the student to stay at the Charter School for a fifth year to complete the Charter School's graduation requirements upon agreement with the student, if the student is 18 years of age or older, or, if the student is under 18 years of age, upon agreement with the educational rights holder for the student.

#### **Acceptance of Course Work**

The Charter School will accept any coursework satisfactorily completed at any public school, a juvenile court school, a school in a country other than the United States, and/or a nonpublic, nonsectarian school or agency by a homeless student.

The Charter School will provide homeless students credit for the partial completion of courses taken while attending a public school, a juvenile court school, a school in a country other than the United States, and/or a nonpublic, nonsectarian school or agency. If the student did not complete the entire course, the Charter School shall not require the student to retake the portion of the course the student completed unless the Charter School, in consultation with the holder of educational rights for the student, finds that the student is reasonably able to complete the requirements in time to graduate from high school. When partial credit is awarded in a particular course, the homeless student shall be enrolled in the same or equivalent course, if applicable, so that the student may continue and complete the entire course. These students shall not be prevented from taking or retaking a course to meet California State University or the University of California admission eligibility requirements.

### **Notice**

For any homeless student who seeks enrollment at the Charter School, written notice will be provided to the parent/guardian at the time of enrollment and while the student is enrolled at the Charter School in alignment with the law. (42 U.S.C. § 11432(e)(3)(C).)

### **Annual Policy Review**

The Charter School shall annually review and revise any policies that may act as barriers to the identification of homeless children and youths or the enrollment of homeless children and youths at the Charter School. In reviewing and revising such policies, consideration shall be given to issues concerning transportation, immunization, residency, birth certificates, school records and other documentation, and guardianship. Special attention shall be given to ensuring the identification, enrollment, and attendance of homeless children and youths who are not currently attending school. [Charter School's review of its homeless education program policies shall use resources developed by the CDE and posted on the CDE's internet website and resources developed by homeless education technical assistance centers established using funding from the American Rescue Plan Act of 2021.](#)

Foster youth, currently migratory children, and children of military families have the right to remain in their school of origin if it is their best interest. At the initial detention or placement, or any subsequent change in placement, a foster youth may continue in their school of origin for the duration of the court's jurisdiction. A currently migratory child or child of a military family may continue in their school of origin as long as the student meets the definition of a currently migratory child or child of a military family as described above. Foster youth, currently migratory children, and children of military families have the right to remain in their school of origin following the termination of the court's jurisdiction or termination of the child's status as a currently migratory child or child of a military family, as follows:

1. For students in Kindergarten through eighth grade, inclusive, the student will be allowed to continue in the school of origin through the duration of the academic year in which the student's status changed.
2. For students enrolled in high school, the student will be allowed to continue in the school of origin through graduation.

If the foster youth, currently migratory child or child of a military family is transitioning between school grade levels, the youth shall be allowed to continue in the district of origin in the same attendance area to provide the youth the benefit of matriculating with their peers in accordance with the established feeder patterns of school districts. A student who is transitioning to a middle school or high school shall be allowed to enroll in the school designated for matriculation in another school district.

The Foster and Mobile Youth Liaison may, in consultation with and with the agreement of the foster youth and the ERH for the foster youth, recommend that the foster youth's right to attend the school of origin be waived and the student be enrolled in any district school that the student would otherwise be eligible to attend as a resident of the school district or in the Charter School consistent with current enrollment procedures. All decisions shall be made in accordance with the foster youth's best interests.

Prior to making any recommendation to move a foster youth from their school of origin, the Foster and Mobile Youth Liaison shall provide the foster youth and the foster youth's ERH with a written explanation of the basis for the recommendation and how the recommendation serves the foster youth's best interests.

If any dispute arises regarding a foster youth's request to remain in the Charter School as the foster youth's school of origin, the foster youth has the right to remain in the Charter School pending resolution of the dispute. The dispute shall be resolved in accordance with the existing Charter School dispute resolution process.

#### Transportation

The Charter School shall not be responsible for providing transportation to allow a foster youth to attend school, unless there is an agreement with a local child welfare agency that the Charter School assumes part or all of the transportation costs in accordance with Section 6312(c)(5) of Title 20 of the United States Code, or unless required by federal law. The Charter School is not prohibited from providing transportation, at its discretion, to allow a foster youth to attend school.

In accordance with Section 6312(c)(5) of Title 20 of the United States Code, the Charter School shall collaborate with local child welfare agencies to develop and implement clear written procedures to address the transportation needs of foster youth to maintain them in their school of origin, when it is in the best interest of the youth.

For any student who has an individualized education program ("IEP"), the student's IEP team will determine if the student requires special education transportation as a related service regardless of the student's status.

#### Effect of Absences on Grades

The grades of a foster youth shall not be lowered for any absence from the Charter School that is due to either of the following circumstances:

- a. A decision by a court or placement agency to change the student's placement, in which case the student's grades shall be calculated as of the date the student left school.

- b. A verified court appearance or related court-ordered activity.

### **Transfer of Coursework and Credits**

The Charter School shall accept coursework satisfactorily completed by a Foster and Mobile Youth while attending another public school<sup>4</sup>, a juvenile court school, a charter school, a school in a country other than the United States, or a nonpublic, nonsectarian school or agency even if the student did not complete the entire course and shall issue that student full or partial credit for the coursework completed. The credits accepted pursuant to this paragraph shall be applied for enrollment purposes to the same or equivalent course, if applicable, as the coursework completed in the prior public school, juvenile court school, charter school, school in a country other than the United States, or nonpublic, nonsectarian school. For purposes of the official transcript, the credits accepted pursuant to this paragraph shall be added to the credits earned from the same or equivalent course for purposes of calculating the total credits earned for the course but shall separately identify the school and local educational agency in which the credits were earned.

If a Foster and Mobile Youth transfers in or out of Charter School, Charter School shall issue the full and partial credits on an official transcript for the pupil and shall ensure the transcript includes all of the following:

- a. All full and partial credits and grades earned based on any measure of full or partial coursework being satisfactorily completed, including a determination of the days of enrollment or seat time, or both, if applicable, at a school of that local educational agency or a prior local educational agency, or any other public school, juvenile court school, charter school, school in a country other than the United States, or nonpublic, nonsectarian school.
- b. The credits and grades for each school and local educational agency listed separately so it is clear where they were earned.
- c. A complete record of the pupil's seat time, including both period attendance and days of enrollment.

If Charter School has knowledge that the transcript from the transferring local educational agency may not include certain credits or grades for the pupil, it shall contact the prior local educational agency within two business days to request that the prior local educational agency issue full or partial credits pursuant to this paragraph. The prior local educational agency shall issue appropriate credits and provide all academic and other records to Charter School within two business days of the request.

If the Foster and Mobile Youth did not complete the entire course, the student shall be issued partial credit for the coursework completed and shall not be required to retake the portion of the course that the student completed at another school unless the Charter School, in consultation with the student's ERH, finds that the student is reasonably able to complete the requirements in time to graduate from high school. Whenever partial credit is issued to a Foster and Mobile Youth in any particular course, the student shall be enrolled in the same or equivalent course, if applicable, so that the student may continue and complete the entire course.

---

<sup>4</sup> For purposes of coursework completed by a student who is a child of a military family, "public school" includes schools operated by the United States Department of Defense.

In no event shall the Charter School prevent a Foster and Mobile Youth from taking or retaking a course to meet the eligibility requirements for admission to the California State University or the University of California.

#### Applicability of Graduation Requirements

To obtain a high school diploma from the Charter School, a student must complete all courses required by the Charter School and fulfill any additional graduation requirements prescribed by the Board. However, Foster and Mobile Youth who transfer to the Charter School any time after the completion of their second year of high school, and pupils participating in a newcomer program who are in their third or fourth year of high school, shall be exempt from any of the Charter School's graduation requirements that are in excess of the California minimum graduation requirements specified in Education Code section 51225.3 ("additional graduation requirements") unless the Charter School makes a finding that the student is reasonably able to complete the Charter School's graduation requirements by the end of the student's fourth year of high school.

To determine whether a Foster and Mobile Youth is in their third or fourth year of high school, either the number of credits the student has earned to the date of transfer, or the length of the student's school enrollment may be used, whichever will qualify the student for the exemption. For a student participating in a newcomer program, enrollment in grade 11 or 12 [based on the average age of students in the third or fourth year of high school](#) may be used to determine whether the student is in their third or fourth year of high school.

Within thirty (30) calendar days of the date that a student who may qualify for exemption under the above requirements transfers into the Charter School, the Charter School shall notify the student, the ERH, and where applicable, the student's social worker or probation officer, of the availability of the exemption and whether the student qualifies for the exemption. If the Charter School fails to provide timely notice of the availability of the exemption, the Foster and Mobile Youth shall be eligible for the exemption from the additional graduation requirements once notified, even if that notification occurs after the termination of the court's jurisdiction over the student, if the foster youth otherwise qualifies for the exemption.

If a student is exempted from the Charter School's additional graduation requirements pursuant to this Policy and completes the statewide coursework requirements specified in Educational Code section 51225.3 before the end of their fourth year of high school and that student would otherwise be entitled to remain in attendance at the Charter School, the Charter School shall not require or request that the student graduate before the end of their fourth year of high school.

The Equity and Inclusion Administrator or designee shall notify a Foster and Mobile Youth and their ERH if the Charter School grants an exemption from the additional graduation requirements, ~~how any requirements that are waived will affect the student's ability to gain admission to a postsecondary educational institution, and shall provide information about transfer opportunities~~

~~available through the California Community Colleges and shall consult with the Foster and Mobile Youth and their ERH. The consultation shall include all of the following:~~

- ~~1. Discussion regarding how any of the requirements that are waived may affect the pupil's postsecondary education or vocation plans, including the ability to gain admission to a postsecondary educational institution.~~
- ~~2. Discussion and information about other options available to the pupil, including, but not limited to, a fifth year of high school, possible credit recovery, and any transfer opportunities available through the California Community Colleges.~~
- ~~3. Consideration of the pupil's academic data and any other information relevant to making an informed decision on whether to accept the exemption.~~

A Foster and Mobile Youth who would otherwise be entitled to remain in attendance at the Charter School shall not be required to accept the exemption from additional graduation requirements or be denied enrollment in, or the ability to complete, courses for which the student is otherwise eligible, including courses necessary to attend an institution of higher education, regardless of whether those courses are required for statewide graduation requirements.

~~If an eligible student a Foster and Mobile Youth who was eligible for an exemption and 1) was not properly notified of the availability of the exemption, or 2) is not exempted from additional graduation requirements or has~~ previously declined the exemption pursuant to this Policy, the Charter School shall exempt the student ~~at any time~~ within thirty (30) days of the exemption request, if an exemption is requested by the youth and the youth ~~qualifies at one time~~ qualified for the exemption, ~~even if the pupil is no longer a Foster and Mobile Youth or the court's jurisdiction of the pupil has terminated.~~ Likewise, if the youth is exempted, the Charter School may not revoke the exemption.

If a Foster and Mobile Youth is exempted from additional graduation requirements pursuant to this section, the exemption shall continue to apply after the termination of the court's jurisdiction over the student or after the termination of circumstances which make the Student eligible while he or she is enrolled in school or if the student transfers to another school, including a charter school, or school district.

The Charter School shall not require or request a Foster and Mobile Youth to transfer schools in order to qualify for an exemption from additional graduation requirements, and no Foster and Mobile Youth or any person acting on behalf of a Foster and Mobile Youth may request a transfer solely to qualify for an exemption from the Charter School's additional graduation requirements.

Upon making a finding that a Foster and Mobile Youth is reasonably able to complete the Charter School's additional graduation requirements within the student's fifth year of high school, the Equity and Inclusion Officer or designee shall:

1. ~~Inform~~ Consult with the student and the student's ERH of the student's option to remain

in school for a fifth year to complete the Charter School's graduation requirements, consistent with the laws regarding continuous enrollment and satisfactory progress for Charter School students over age 19.

2. Inform-Consult with the student and the student's ERH how remaining in school for a fifth year will affect the student's ability to gain admission to a postsecondary educational institution.
3. Provide-Consult with and provide information to the student about transfer opportunities available through the California Community Colleges.
4. Upon agreement with the student or, if the student is under 18 years of age, the ERH, permit the student to stay in school for a fifth year to complete the Charter School's graduation requirements.

Through January 1, 2028, upon making a finding that a Foster and Mobile Youth is not reasonably able to complete the Charter School's additional graduation requirements but is reasonably able to complete state coursework requirements specified in Education Code Section 51225.3 within the student's fifth year of high school, the Executive Director or designee shall exempt the pupil from Charter School's graduation requirements and provide pupil the option of remaining in school for a fifth (5<sup>th</sup>) year to complete the statewide coursework requirements. Charter School shall consult with the Foster and Mobile Youth and the ERH regarding all of the following:

1. The pupil's option to remain in school for a fifth year to complete the statewide coursework requirements.
2. How waiving the local educational requirements and remaining in school for a fifth year may affect the pupil's postsecondary education or vocation plans, including the ability to gain admission to a institution of higher education.
3. Whether any other options are available to the pupil, including, but not limited to, possible credit recovery, and any transfer opportunities available through the California Community Colleges.
4. The pupil's academic data and any other information relevant to making an informed decision on whether to accept the exemption and option to remain in school for a fifth year to complete the statewide coursework requirements.

If a Foster and Mobile Youth is not eligible for an exemption in the year in which the pupil transfers between schools, because Charter School makes a finding that the pupil is reasonably able to complete Charter School's additional graduation requirements in time to graduate from high school by the end of the pupil's fourth year of high school, then Charter School shall do the

following:

- 1) Within the first 30 calendar days of the following academic year, Charter School shall reevaluate eligibility;
- 2) Provide written notice to the pupil, the ERH, and the pupil's social worker or probation officer, if applicable, whether the pupil qualifies for an exemption, based on the course completion status of the pupil at the time of reevaluation, to determine if the pupil continues to be reasonably able to complete Charter School's additional graduation requirements in time to graduate from high school by the end of the pupil's fourth year of high school.
- 3) If, given their course completion status at that time the reevaluation is conducted, the pupil is not reasonably able to complete Charter School additional graduation requirements in time to graduate from high school by the end of the pupil's fourth year of high school, the Charter School shall:
  - i. provide the pupil with the option to receive an exemption from all coursework and other requirements adopted by the governing board body of Charter School that are in addition to the statewide coursework requirements specified in Section 51225.3, or
  - ii. to stay in school for a fifth year to complete the Charter School's additional graduation requirements.

Charter School shall provide notification of the availability of these options. The pupil (if not a minor) or the ERH shall have sole discretion whether to accept the exemption, based on the pupil's best educational interests.

If a juvenile court youth satisfies the requirements for high school graduation while enrolled at a juvenile court school but has elected to decline the issuance of the diploma for the purpose of taking additional coursework, the Charter School will not prevent the juvenile court youth from enrolling in the Charter School and pursuing additional coursework if requested by the youth or by the youth's ERH.

#### **Eligibility for Extracurricular Activities**

A student who is in foster care whose residence changes pursuant to a court order or decision of a child welfare worker shall be immediately deemed to meet all residency requirements for participation in interscholastic sports or other extracurricular activities.

#### **Waiver of Fees for Afterschool Programs**

The Charter School shall not charge any student who the Charter School knows is currently in foster care any family fees associated with an After-School Education and Safety (“ASES”) Program operated by the Charter School.

### **Student Records**

When the Charter School receives a transfer request and/or student records request for the educational information and records of a foster youth from a new LEA, the Charter School shall provide these student records within two (2) business days. The Charter School shall compile the complete educational record of the student, including but not limited to a determination of seat time, full or partial credits earned, current classes and grades, immunization, and other records, and, if applicable, a copy of the student’s special education records including assessments, IEPs, and/or 504 plans. All requests for student records will be shared with the Foster and Mobile Youth Liaison, who shall be aware of the specific educational record keeping needs of Foster and Mobile Youth.

In accordance with the Charter School’s Educational Records and Student Information Policy, under limited circumstances, the Charter School may disclose student records or personally identifiable information contained in those records to certain requesting parties including but not limited to a foster family agency and state and local authorities within a juvenile justice system, without parental consent.

### **Complaints of Noncompliance**

Complaints of noncompliance with this Policy shall be governed by the Charter School’s Uniform Complaint Procedures. A copy of the Uniform Complaint Policy and Procedures is available upon request.

### **Reporting Requirements**

Charter School shall report to the California Department of Education (“CDE”) annually on the number of pupils who, for the prior school year, graduated with an exemption from the Charter School’s graduation requirements that are in addition to the statewide coursework requirements. This data shall be reported for pupils graduating in the fourth year and fifth year cohorts, and shall be disaggregated by cohort, pupil category, race, and disability status. The CDE shall make this data publicly available on an annual basis aligned with other reporting timelines for the California dashboard graduation data. For purposes of this subdivision, “pupil category” means the categories of pupils identified in the “Definitions” section of this Policy, above.

\*\*\*\*

### **Availability of Complete Policy**

For any Foster and Mobile Youth who enrolls at the Charter School, a copy of the Charter School’s complete foster youth policy shall be provided at the time of enrollment. A copy of the complete Policy is available on the school website.

## ***Section 504: Policy, Procedures, and Parent Rights Regarding Identification, Evaluation, and Education***

**Board Policy: 3325**  
**Approved: February 16, 2022**

Amended: June 22, 2023

#### **A. SECTION 504 POLICY**

The Board of Directors of Audeo Charter School hereby adopts the Section 504: Policy, Procedures, and Parent Rights Regarding Identification, Evaluation and Education to apply to Audeo Charter School II, Audeo Charter School III, Audeo Valley Charter School, Grossmont Secondary School, Mirus Secondary School, and Sweetwater Secondary School hereafter collectively referred to as ("Charter School").

Audeo Valley Charter School ("Charter School") recognizes the need to identify and evaluate students with disabilities in order to provide them with a free, appropriate public education and its legal responsibility to ensure that "no qualified person with a disability shall, solely by reason of their disability, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance." This Policy and the related administrative regulation has been developed to ensure the implementation of Section 504 of the Rehabilitation Act of 1973 ("Section 504"), and its implementing regulations as amended, which pertains to public schools. The intent is to ensure that all students with disabilities, who are eligible under Section 504, are identified and evaluated and have access to a free, appropriate public education ("FAPE").

Under Section 504, individuals with physical or mental impairments that substantially limit one or more major life activities, including learning, are entitled to receive regular or special education and/or related aids and services designed to meet their individual needs as adequately as the needs of nondisabled students are met. Major Life Activities include functions such as caring for oneself, performing manual tasks, seeing, hearing, eating, sleeping, walking, standing, lifting, bending, speaking, breathing, learning, reading, concentrating, thinking, communicating, and working, as well as the operation of a major bodily functions, including functions of the immune system, normal cell growth, digestive, bowel, bladder, neurological, brain, respiratory, circulatory, endocrine, and reproductive functions. Students may be disabled and entitled to services under Section 504 even though they are not eligible for services pursuant to the Individuals with Disabilities Education Act Improvement Act of 2004 ("IDEA").

The Charter School's Executive Director or designee shall ensure that this policy and set of procedures is implemented and followed. Whenever there is reason to believe that, because of a disability, a student needs regular or special education and/or related aids and services (and the student has not been found eligible under IDEA) that student will be evaluated under this policy's corresponding procedures.

A Section 504 Team will be convened to determine the student's need for regular or special education and/or related aids and services. The 504 Team will include persons knowledgeable about the Section 504 standards, the student's individual needs and school history, the meaning of evaluation data, and placement options. The student's parent/guardian shall be invited to

participate in this 504 Team and shall receive notice of procedural safeguards guaranteed by law.

If Charter School does not assess a student after a parent has requested an assessment, the Charter School shall provide notice of the parent's/guardian's procedural safeguards. Charter School shall not retaliate in any way against parents/guardians or students who exercise any rights under the procedural safeguards and/or Section 504.

If the student, due to disability, is found to require regular or special education and/or related aids and services under Section 504, the Section 504 Team shall develop a 504 plan for the provision of such services to the student. The student shall be educated with nondisabled students to the maximum extent appropriate to the student's individual needs. The student's parent/guardian shall be provided a copy of the 504 plan and shall receive notice of procedural safeguards guaranteed by law. Charter School shall periodically review the student's progress and placement.

The Charter School does not discriminate on the basis of disability or any other characteristic protected under law. Charter School will implement this policy through its corresponding procedures.

## **B. SECTION 504 PROCEDURES**

### **A. Definitions**

1. **Academic Setting** – the regular, educational environment operated by Charter School.
2. **Individual with a Disability under Section 504** – An individual who:
  - a. has a physical or mental impairment that substantially limits one or more major life activities;
  - b. has a record of such an impairment; or
  - c. is regarded as having such an impairment.
3. **Evaluation** – procedures used to determine whether a student has a disability as defined within these Procedures, and the nature and extent of the services that the student needs. The term means procedures used selectively with an individual student and does not include basic tests administered to, or procedures used with, all students in a school, grade or class.

4. **504 Plan** – is a plan developed to identify and document the student’s needs for regular or special education and related aids and services for participation in educational programs, activities, and school–sponsored events.
5. **Free Appropriate Public Education (“FAPE”)** – the provision of regular or special education and related aids and services that are designed to meet the individual needs of persons with disabilities as adequately as the needs of persons without disabilities are met.
6. **Major Life Activities** - Functions such as caring for oneself, performing manual tasks, seeing, hearing, eating, sleeping, walking, standing, sitting, reaching, lifting, bending, speaking, breathing, learning, reading, concentrating, thinking, communicating, interacting with others, and working. A major life activity also includes the operation of a major bodily function, including but not limited to, functions of the immune system, special sense organs and skin, normal cell growth, digestive, genitourinary, bowel, bladder, neurological, brain, respiratory, circulatory, endocrine, hemic, lymphatic, musculoskeletal, and reproductive functions.
7. **Physical or Mental Impairment** –
  - a. Any physiological disorder or condition, cosmetic disfigurement, or anatomical loss affecting one or more of the following body systems: neurological; musculoskeletal; special sense organs; respiratory; including speech organs; cardiovascular; reproductive; digestive; genitor-urinary; hemic and lymphatic; skin; and endocrine; or
  - b. Any mental or psychological disorder, such as intellectual disability, organic brain syndrome, emotional or mental illness, and specific learning disabilities.
8. **504 Coordinator** – The Special Education Coordinator shall serve as the Charter School’s Section 504 Coordinator. The parents or guardians may request a Section 504 due process hearing from or direct any questions or concerns to the Section 504 Coordinator at (619) 393-2270.

9. **Has a record of such an impairment** - means has a history of, or has been misclassified as having, a mental or physical impairment that substantially limits one or more major life activities.
10. **Is regarded as having an impairment** - means
  - a. An individual meets the requirement of 'being regarded as having such an impairment' if the individual establishes that they have been subjected to an action prohibited under this Act because of an actual or perceived physical or mental impairment whether or not the impairment limits or is perceived to limit a major life activity.
  - b. Being regarded as having an impairment shall not apply to impairments that are transitory and minor. A transitory impairment is an impairment with an actual or expected duration of 6 months or less.

**B. Referral, Assessment and Evaluation Procedures**

1. Charter School will evaluate any student who, because of disability, needs or is believed to need regular or special education and/or related aids and services.
2. A student may be referred by anyone, including a parent/guardian, teacher, other school employee or community agency, for consideration as to whether the student qualifies as a student with disabilities under Section 504. Requests for evaluation shall be made in writing, and a copy of said request will remain in the student's file regardless of the final determination. This referral should be made to the Section 504 Coordinator who will convene a 504 Team. Any requests made to another Charter School employee will be forwarded to the Section 504 Coordinator.
3. The Charter School has the responsibility to ensure that students with disabilities are evaluated. Therefore, it is important that students who have or may have a disability are referred to the Section 504 Coordinator so that the assessment process is initiated.
4. The 504 Team convened by the Section 504 Coordinator will be composed of the student's parents/guardians and other persons knowledgeable about the student (such as the student's regular education teachers), the student's school history, the student's individual needs (such as a person knowledgeable about the student's disabling condition), the meaning of evaluation data, the options for placement and services, and the legal requirements for least restrictive environment and comparable facilities.
5. The 504 Team shall promptly consider the referral and determine what assessments are needed in all suspected areas of disability to evaluate whether the student is a student with a disability under Section 504 and what special needs the student may have. The decision regarding what assessments shall be undertaken shall be based on a review of the student's school records (including academic, social and behavioral records), any relevant medical records, and the

student's needs. Students requiring assessment shall be provided appropriate assessments administered by qualified assessment specialists.

6. The 504 Team will consider the following information in its evaluation of the student:
  - a. Tests and other evaluation materials that have been validated for the specific purpose for which they are used and are administered by trained personnel;
  - b. Tests and other evaluation materials including those tailored to assess specific areas of educational need and not merely those which are designed to provide a single general intelligence quotient; and
  - c. Tests are selected and administered so as to best ensure that, when a test is administered to a student with impaired sensory, manual, or speaking skills, the test results accurately reflect the student's aptitude or achievement level or whatever factor the test purports to measure, rather than reflecting the student's impaired sensory, manual, or speaking skills (except where those skills are the factors that the test purports to measure.)
7. The evaluation of the student must be sufficient for the 504 Team to accurately and completely describe: (a) the nature and extent of the disabilities; (b) the student's special needs; (c) the impact upon the student's education; and (d) what regular or special education and/or related aids and services are appropriate to ensure that the student receives a free appropriate public education. All significant factors relating to the learning process for that student, including adaptive behavior and cultural and language background, must be considered. The evaluation may include, but is not limited to, classroom and playground observation, performance-based testing, academic assessment information, and data offered by the student's teachers and parent/guardian.
8. Mitigating measures cannot be considered when evaluating whether or not a student has a substantially limiting impairment. Mitigating measures could include medications, prosthetic devices, assistive devices, or learned behavioral or adaptive neurological modifications a student uses to eliminate or reduce the effects of an impairment.

9. The parents/guardians shall be given an opportunity in advance of 504 Team meetings to examine assessment results and all other relevant records.
10. If a request for evaluation is denied, the 504 Team shall inform the parents/guardians in writing of this decision and of their procedural rights as described below.

C. **504 Plan**

1. When a student is identified as having a disability within the meaning of Section 504, the 504 Team shall determine what, if any, services are needed to ensure that the student receives a FAPE.
2. The 504 Team responsible for making the placement decision shall include the parents/guardians and other persons knowledgeable about the child, the meaning of the evaluation data, and the placement options.
3. For each identified eligible student, the 504 Team will develop a 504 Plan describing the student's disability and the regular or special education and/or related aids and services needed. The Plan will specify how the special education and/or related aids and services will be provided to the eligible student and by whom. The 504 Plan will also identify the person responsible for ensuring that all the components of the Plan are implemented.
4. The student's teacher and any other staff who are to provide services to the student or who are to make modifications in the classroom for the student shall be informed of the services or modifications necessary for the student and, if appropriate, provided a copy of the 504 Plan. A copy of this plan shall be kept in the student's cumulative file in a manner that limits access to those persons involved in the 504 process and/or the provision of services and modifications.
5. The eligible student shall be placed in the regular education environment unless it is demonstrated that the student's needs cannot be met in the regular education environment with supplementary aids and services. The student shall be educated with students who are not disabled to the maximum extent appropriate to their individual needs.
6. The referral, assessment, evaluation and placement process will be completed within a reasonable time. It is generally not reasonable to exceed fifty (50) school days in completing this process.
7. The parents/guardians shall be notified in writing of the final decision concerning the student's identification as a person with disabilities, the educational program

and services to be provided, if any, and of the Section 504 procedural safeguards, as described below, including the right to an impartial hearing to challenge the decision.

8. If the 504 Team determines that the student has a disability but that no special services are necessary for the student, the 504 Plan shall reflect the identification of the student as a person with a disability under Section 504 and shall state the basis for the decision that no special services are presently needed.
9. The 504 Plan shall include a schedule for annual review of the student's needs and indicate that this review may occur more frequently at the request of the parent/guardian or school staff.
10. Charter School shall immediately implement a student's prior 504 Plan, when a student enrolls at the Charter School. Within thirty (30) calendar days of starting school, Charter School shall schedule a 504 Team meeting to review the existing 504 Plan. Charter School shall request a copy of the prior 504 plan from both the prior school and the parent/guardian.

**D. Review of the Student's Progress**

1. The 504 Team shall monitor the progress of the eligible student and the effectiveness of the student's 504 Plan. According to the review schedule set out in the student's 504 Plan, the 504 Team shall annually determine whether the services and modifications are appropriate.
2. A reevaluation of the student's needs shall be conducted before any subsequent significant change in placement.

**E. Procedural Safeguards**

1. Parents/guardians shall be notified in writing of all decisions regarding the identification, evaluation or educational placement of students with disabilities or suspected disabilities. Notifications shall include a statement of their rights to:
  - Examine relevant records
  - Have an impartial hearing with an opportunity for participation by the parents/guardians and their counsel
  - Have the right to file a Uniform Complaint pursuant to Charter School policy
  - Seek review in federal court if the parents/guardians disagree with the hearing decision.

2. Notifications shall also set forth the procedures for requesting an impartial hearing. Requests shall be made to the following:

Kirsten Ramirez Henderson  
10170 Huennekens Street, San Diego, CA 92121  
(619)-393-2270  
khenderson@altusschools.net

Notifications shall also advise that reimbursement for attorney's fees is available only as authorized by law.

3. The Executive Director or designee shall maintain a list of impartial hearing officers who are qualified and willing to conduct Section 504 hearings. To ensure impartiality, such officers shall not be employed by or under contract with Charter School or any district within the El Dorado Charter SELPA or the San Diego County Office of Education in any capacity other than that of hearing officer and shall not have any professional or personal involvement that would affect their impartiality or objectivity in the matter.
4. If a parent/guardian disagrees with the identification, evaluation or educational placement of a student with disabilities under Section 504, the parent/guardian may request a hearing to initiate due process procedures. The parent/guardian shall set forth in writing their request for a hearing. A request for hearing should include:
  - The specific decision or action with which the parent/guardian disagrees.
  - The changes to the 504 Plan the parent/guardian seeks.
  - Any other information the parent/guardian believes is pertinent.
5. Within five (5) calendar days of receiving the parent/guardian's request for a hearing, the Charter School may offer the parent/guardian an optional alternative dispute resolution process. However, the timeline for the hearing shall remain in effect unless it is extended by mutual written agreement of the parent/guardian and the Charter School. Alternative dispute resolution options include:
  - Mediation by a neutral third party.
  - Review of the 504 Plan by the Executive Director or designee.
6. Within ten (10) calendar days of receiving the parent/guardian's request, the Executive Director or designee shall select an impartial hearing officer. These 10 days may be extended for good cause or by mutual agreement of the parent/guardian and Executive Director.

7. Within thirty-five (35) calendar days of the selection of the hearing officer, the due process hearing shall be conducted. These thirty-five (35) calendar days may be extended for good cause or by mutual agreement of the parent/guardian and Executive Director.
8. The parent/guardian and the School shall be afforded the rights to:
  - Be accompanied and advised by counsel and by individuals with special knowledge or training related to the individual needs of students who are qualified as having a disability under Section 504.
  - Present written and oral evidence.
  - Question and cross-examine witnesses.
  - Receive written findings by the hearing officer.
9. The hearing officer shall issue a written decision within ten (10) calendar days of the hearing.
10. If desired, either party may seek a review of the hearing officer's decision by a federal court. The decision shall be implemented unless the decision is stayed, modified or overturned by a court.
11. Charter School shall not retaliate in any way against parents/guardians or students who exercise any rights under the procedural safeguards and/or Section 504.

F. **Suspension and Expulsion, Special Procedures for Students with Disabilities**

Charter School shall follow the suspension and expulsion policy and procedures as set forth in the charter. A student who is qualified for services under Section 504 of the Rehabilitation Act of 1973 is subject to the same grounds for disciplinary action, including suspension and expulsion, and is accorded the same due process procedures applicable to general education students except when federal and state law mandates additional or different procedures. Charter School will follow Section 504 and all applicable federal and state laws when imposing any form of discipline on a student identified as an individual with disabilities or for whom the Charter School has a basis of knowledge of a suspected disability or who is otherwise qualified for such services or

protections in accordance to due process to such students. The following procedures shall be followed when a student with a disability is considered for suspension or expulsion. These procedures will be updated if there is a change in the law.

1. Services During Suspension

Students suspended for more than ten (10) school days in a school year shall continue to receive services so as to enable the student to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the child's 504 Plan; and receive, as appropriate, a functional behavioral assessment ("FBA") and behavioral intervention services and modifications, that are designed to address the behavior violation so that it does not recur. These services may be provided in an interim alternative educational setting.

2. Procedural Safeguards/Manifestation Determination

Within ten (10) school days of a recommendation for expulsion or any decision to change the placement of a child with a disability because of a violation of a code of student conduct, Charter School, the parent, and relevant members of the 504 Team shall review all relevant information in the student's file, including the child's 504 Plan, any teacher observations, and any relevant information provided by the parents to determine:

- a. If the conduct in question was caused by, or had a direct and substantial relationship to, the child's disability; or
- b. If the conduct in question was the direct result of the local educational agency's failure to implement the 504 Plan.

If Charter School, the parent, and relevant members of the 504 Team determine that either of the above is applicable for the child, the conduct shall be determined to be a manifestation of the child's disability.

If Charter School, the parent, and relevant members of the 504 Team make the determination that the conduct was a manifestation of the child's disability, the 504 Team shall:

- a. Conduct an FBA and implement a behavioral intervention plan ("BIP") for such child, provided that Charter School had not conducted such assessment prior to such determination before the behavior that resulted in a change in placement;

- b. If the child has a BIP, review the BIP and modify it, as necessary, to address the behavior; and
- c. Return the child to the placement from which the child was removed, unless the parent and Charter School agree to a change of placement as part of the modification of the BIP.

If Charter School, the parent, and relevant members of the 504 team determine that the behavior was not a manifestation of the student's disability and that the conduct in question was not a result of the failure to implement the 504 Plan, then Charter School may apply the relevant disciplinary procedures to children with disabilities in the same manner and for the same duration as the procedures would be applied to students without disabilities.

### 3. Appeals

The parent/guardian of a child with a disability under a 504 Plan who disagrees with any decision regarding placement, or the manifestation determination, or if the Charter School believes that maintaining the current placement of the child is substantially likely to result in injury to the child or to others, either party may request to utilize the appeal process outlined in the Procedural Safeguards section of these Procedures.

When an appeal relating to the placement of the student or the manifestation determination has been requested by either the parent or Charter School, the student shall remain in the interim alternative educational setting pending the decision of the hearing officer in accordance with state and federal law, including 20 U.S.C. Section 1415(k), until the expiration of the forty-five (45) day time period provided for in an interim alternative educational setting, unless the parent and Charter School agree otherwise.

### 4. Special Circumstances

Charter School personnel may consider any unique circumstances on a case-by-case basis when determining whether to order a change in placement for a child with a disability who violates a code of student conduct.

The Executive Director or designee may remove a student to an interim alternative educational setting for not more than forty-five (45) days without regard to whether the behavior is determined to be a manifestation of the student's disability in cases where a student:

- a. Carries or possesses a weapon, as defined in 18 U.S.C. § 930, to or at school, on school premises, or to or at a school function;
- b. Knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at school, on school premises, or at a school function; or
- c. Has inflicted serious bodily injury, as defined by 20 U.S.C. § 1415(k)(7)(D), upon a person while at school, on school premises, or at a school function.

5. Interim Alternative Educational Setting

The student's interim alternative educational setting shall be determined by the student's 504 Team.

6. Procedures for Students Not Yet Eligible for Special Education Services

A student who has not been identified as an individual with disabilities pursuant to the IDEA 2004 and who has violated Charter School 's disciplinary procedures may assert the procedural safeguards granted under these Procedures only if Charter School had knowledge that the student had a disability before the behavior occurred.

Charter School shall be deemed to have knowledge that the student had a disability if one of the following conditions exists:

- a. The parent/guardian has expressed concern in writing, or orally if the parent/guardian does not know how to write or has a disability that prevents a written statement, to School Coordinator or the Administrator for Instructional Services, or to one of the child's teachers, that the student is in need of special education or related services.
- b. The parent has requested an evaluation of the child.
- c. The child's teacher, or the special education teacher or the school coordinator, has expressed specific concerns about a pattern of behavior demonstrated by the child, directly to the Special Education Coordinator or to the School Coordinator or to the Administrator for Instructional Services.

If Charter School knew or should have known the student had a disability under any of the three (3) circumstances described above, the student may assert any of

the protections available to IDEA 2004-eligible children with disabilities, including the right to stay-put.

If Charter School had no basis for knowledge of the student's disability, it shall proceed with the proposed discipline. Charter School shall conduct an expedited evaluation if requested by the parent/guardian; however, the student shall remain in the education placement determined by Charter School pending the results of the evaluation.

Charter School shall not be deemed to have knowledge of that the student had a disability if the parent has not allowed an evaluation, refused services, or if the student has been evaluated and determined to not be eligible.

If the Executive Director sustains any or all of the allegations, the Executive Director must order the correction or the removal and destruction of the information. The Executive Director or designee must then inform the parent or eligible student of the amendment in writing.

### 3. Hearing to Challenge Education Record

If Charter School denies a parent or eligible student's request to amend an education record, the parent or eligible student may, within thirty (30) days of the denial, request in writing that the parent or eligible student be given the opportunity for a hearing to challenge the content of the student's education record on the grounds that the information contained in the education record is: inaccurate, misleading, or in violation of the privacy rights of the student.

The hearing to challenge the education record shall be held within thirty (30) days of the date of the request for a hearing. Notice of the date, time and place of the hearing will be sent by Charter School to the parent or eligible student no later than twenty (20) days before the hearing.

The Administrator for Instructional Services or designee of a public school will serve as the chairman and shall not be required to use formal rules of evidence or procedure. The parent or eligible student will be given a full and fair opportunity to present evidence relevant to the issues relating to the challenge to the education record. The parent or eligible student may also, at their own expense, be assisted or represented by one or more

individuals of their choice, including an attorney. The decision of the Board Chair or Executive Director or designee will be based solely on the evidence presented at the hearing and is final. Within thirty (30) days after the conclusion of the hearing, Charter School 's decision regarding the challenge will be made in writing and will include a summary of the evidence and the reasons for the decision.

If, as a result of the hearing, Charter School decides that the information is inaccurate, misleading, or in violation of the privacy rights of the student, it will amend the record accordingly and inform the parent or eligible student of the amendment in writing.

If, as a result of the hearing, Charter School decides that the information in the education record is not inaccurate, misleading, or in violation of the privacy rights of the student, it shall inform the parent or eligible student of the right to place a statement in the record commenting on the contested information in the record or stating why they disagree with the decision of Charter School, or both. If Charter School places a statement by the parent or eligible student in the education records of a student, it will maintain the statement with the contested part of the record for as long as the record is maintained and disclose the statement whenever it discloses the portion of the record to which the statement relates.

#### **Disclosure Of Education Records And Directory Information**

Charter School must have a signed and dated written consent from the parent or eligible student before releasing any non-directory information from a student's education record except as provided below. The written permission must specify the records that may be disclosed, the purpose of the disclosure and the party or class of parties to whom the disclosure may be made. When disclosure is made pursuant to written permission, the parent or eligible student may request a copy of the disclosed records and Charter School shall provide the requestor with a copy of the records disclosed upon request. Signed and dated written consent may include a record and signature in electronic form if it identifies and authenticates a particular person as the source of the electronic consent and indicates such person's approval of the information contained in the electronic consent.

Charter School will only disclose PII on the condition that the receiving party not disclose the information to any party without the prior written consent of the parent or eligible student and that the receiving party use the information for the purposes for which the disclosure was made. Charter School will make a reasonable attempt to notify the parent or eligible student of the request for records at their last known address, unless the disclosure is initiated by the parent or eligible student. #### Solicitation and Disclosure of Student Information for Immigration Purposes

Charter School shall observe the following:

1. Except as required by state or federal law or as required to administer a state or federally supported education program, Charter School officials and employees will not collect information or documents regarding citizenship or immigration status of students or their family members.
2. If Charter School possesses information that could indicate immigration status, citizenship status, or national origin information, Charter School will not use the acquired information to discriminate against any student or families or bar children from enrolling in or attending school.
3. If parents or guardians choose not to provide information that could indicate their or their children's immigration status, citizenship status, or national origin, Charter School will not use such actions as a basis to discriminate against any students or families or bar children from enrolling or attending school.
4. Charter School will not allow school resources or data to be used to create a registry based on race, gender, sexual orientation, religion, ethnicity, or national origin.
5. During the enrollment process:
  - a. Where permitted by law, Charter School shall accept alternative means to establish residency, age, or other eligibility criteria for enrollment or programs, and those alternative means shall include among them documentation or information that are available to persons regardless of immigration status, citizenship status, or national origin, and that do not reveal information related to citizenship or immigration status.
  - b. Charter School will not inquire specifically about a student's citizenship or immigration status or the citizenship or immigration status of a student's parents or guardians; nor shall personnel seek or require, to the exclusion of other permissible documentation or information, documentation or information that may indicate a student's immigration status, such as a green card, voter registration, a passport, or citizenship papers.
  - c. Charter School will not collect entire social security numbers or cards or a statement that the parent or guardian does not possess a Social Security number for the purposes of enrollment, and failure to provide this information will not bar a student from enrolling or attending Charter School. However, the last four digits of an adult household member's Social Security number may be solicited and/or collected if required to establish eligibility for federal benefit programs such as free or reduced-price meals. This Social Security information will only be collected for the limited

purpose of establishing eligibility for federal benefit programs and will not affect student enrollment.

6. Charter School will not release information to third parties for immigration-enforcement purposes, except as required by law or court order. Except for investigations of child abuse, child neglect, or child dependency, or when the subpoena served on the Charter School prohibits disclosure, Charter School shall provide parental or guardian notification of any court orders, warrants, or subpoenas before responding to such requests.

The parent, guardian, or eligible student is not required to sign the consent form. If the parent, guardian or eligible student refuses to provide written consent for the release of student information that this not otherwise subject to release, Charter School shall not release the information. Charter School will permanently keep the consent notice with the record file.

Charter School personnel shall take the following steps upon receiving an information request related to a student's or family's immigration or citizenship status:

1. Notify a designated Charter School official about the information request.
2. Provide students and families with appropriate notice and a description of the immigration officer's request.
3. Document any verbal or written request for information by immigration authorities.
4. Unless prohibited, provide students and parents/guardians with any documents issued by the immigration-enforcement officer.

Contract for Digital Storage, Management, and Retrieval of Student Records

The Charter School may enter into a contract with a third party for the digital storage, management, and retrieval of student records and/or to authorize a third party provider of digital software to access, store, and use student records, provided that the contract meets the requirements of Education Code section 49073.1 and other applicable state and federal laws.

### **Record Keeping Requirements**

Charter School will maintain a record of each request for access to and each disclosure of PII from the education records of each student for as long as the records are maintained. For each request, the record must include the following information: the parties who have requested or received the information and the legitimate interests the parties had in requesting or obtaining the information.

For disclosures of PII to institutions that make disclosures of the information on behalf of Charter School in accordance with 34 C.F.R. § 99.33(b), the record must include the names of the additional parties to which the receiving party may disclose the information on behalf of Charter School and the legitimate interests that each of the additional parties has in requesting or obtaining the information.

These record keeping requirements do not apply to requests from or disclosure to parents or eligible students, Charter School officials with a legitimate purpose of inspecting the records, a party with written

consent from the parent or eligible student, a party seeking directory information, or a party seeking or receiving the records as directed by a court order or subpoena.

The records relating to disclosures of PII may be inspected by parents and eligible students, Charter School officials (or their assistants) responsible for the custody of the records, and parties authorized by regulations for the purpose of auditing the recordkeeping procedures of Charter School.

Student cumulative records may not be removed from the premises of Charter School, unless the individual removing the record has a legitimate educational interest, and is authorized by the Executive Director, or by a majority of a quorum of the Board of Directors at a duly agendized meeting. Employees who remove student cumulative records or other student records from the Charter School premises without a legitimate educational interest and authorization may be subject to discipline. Employees are permitted to take student work-product, or other appropriate student records, off premises without authorization for legitimate academic purposes (e.g. grading work-product, assigning credit, reviewing materials for classroom discussion, etc.).

### **Complaints**

Parents and eligible students have the right to file a complaint with the U.S. Department of Education concerning alleged failures by Charter School to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is:

Student Privacy Policy Office  
U.S. Department of Education  
400 Maryland Avenue, S.W.  
Washington, D.C. 20202-[59208520](tel:59208520)

### ***Professional Boundaries: Staff/Student Interaction Policy***

Audeo Valley Charter School (“Charter School”) recognizes its responsibility to make and enforce all rules and regulations governing student and employee behavior to bring about the safest and most learning-conducive environment possible.

#### **I. PURPOSE AND SCOPE**

It is the purpose of this policy to provide additional specificity to the standards of conduct embodied in the Charter School code of ethics-related rules and regulations so that staff members clearly understand the prohibitions and behavior boundaries which must govern their conduct towards students. (For purposes of this Policy, staff includes all school employees—certificated or classified; coaches or advisors; full-time or part-time, and independent contractors and volunteers).

The rules of conduct set forth in this Policy are not intended to serve as an exhaustive delineation of requirements, limitations, or prohibitions on staff conduct and activities established by this school. Rather, the components of this Policy serve to:

- (1) Alert staff about some of the more sensitive and often problematic matters involved in faculty/staff student relationships.
- (2) Specify boundaries related to potentially sexual situations and conduct—the crossing of which is contrary to accepted norms of behavior and in conflict with the duties and responsibilities of staff.

- (3) Provide staff members with clear guidance in conducting themselves in a manner that reflects high standards of professionalism. (It is important for Charter School to maintain a school-wide culture in which students and staff understand their responsibilities to report sexual misconduct without fearing that school leaders will betray them if they do. In order to prevent sexual abuse and exploitation, students and staff must know that the administration will investigate reports about possible misconduct.)
- (4) Clarify that improper action will have significant consequences.
- (5) Provide an environment that empowers students to identify actions that appear to have crossed boundaries.
- (6) Define the process that Charter School will use for addressing potential improper conduct.
- (7) Preserve student and staff privacy rights during any pending investigation.

## II. BACKGROUND AND GENERAL POLICY PROVISIONS

Actions by staff members that are inconsistent or in conflict with the values established by Charter School can harm students, staff members, and the school's operation; therefore, such actions are unacceptable. It is the policy of this school that all school staff conduct themselves at all times in a manner that reflects the ethical standards consistent with the rules contained in this Policy and otherwise proclaimed by this school.

The provisions herein are intended to guide all Charter School staff members toward conduct that reflects the high standards of behavior and professionalism required of school staff while defining interaction boundaries between students and staff members.

Misconduct by a staff member disrupt the education of other students, sidetrack the instructional focus of the school, and harm the school's legitimacy—all of which threaten the school's future ability to recruit skilled professionals and maintain a credible operation in the eyes of the community. It is critical that staff members study this Policy thoroughly and behave in ways to avoid even the appearance of misconduct.

While all boundaries and/or situations cannot be addressed in a single policy, the issues delineated herein are among those that can be most problematic for staff members and among those that can have the greatest potential for a negative impact on this school and its community. Staff members should seek guidance in their daily conduct from established policies, procedures, and directives as well as through the guidance and recommendations of school leadership. Although this Policy gives specific, clear direction, it is each staff member's obligation to avoid situations that could prompt suspicion by parents, students, colleagues, or school leaders.

### III. BOUNDARIES

#### A. Boundaries Defined

For the purposes of this Policy, the term "boundaries" is defined as acceptable professional behavior by staff members while interacting with a student. Trespassing the boundaries of a student/teacher relationship is deemed an abuse of power and a betrayal of trust.

#### B. Acceptable and Unacceptable Behavior

Some activities may seem innocent from a staff member's perspective, but some of these can be perceived as flirtation or sexual insinuation from a student or parent point of view. The purpose of the following lists of acceptable and unacceptable behaviors is not to restrain innocent, positive relationships between staff and students but to prevent relationships that could lead to, or may be perceived as, inappropriate.

Staff members must understand their own responsibilities for ensuring that they do not cross the boundaries as written in this Policy. Disagreeing with the wording or intent of the established boundaries will be considered irrelevant for any required disciplinary purposes. Thus, it is critical that all staff study this Policy thoroughly and apply its spirit and intent in their daily activities. Although sincere, professional interaction with students fosters the charter mission of implementing "personalized, education programs to facilitate student achievement," student/staff interaction has boundaries regarding the activities, locations, and intentions.

#### **Unacceptable Staff/Student Behaviors (Violations of this Policy)**

This list, and any subsequent lists, are not meant to be all-inclusive, but, rather illustrative of the types of behavior addressed by this Policy.

1. Giving gifts to an individual student that are of a personal and intimate nature.
2. Kissing of ANY kind.
3. Any type of unnecessary physical contact with a student in a private situation.
4. Intentionally being alone with a student away from the school.
5. Making, or participating in, sexually inappropriate comments.
6. Sexual jokes, or jokes/comments with sexual double-entendre.
7. Seeking emotional involvement (which can include intimate attachment) with a student beyond the normative care and concern required of an educator.
8. Listening to or telling stories that are sexually oriented.
9. Discussing inappropriate personal troubles or intimate issues with a student in an attempt to gain their support and understanding.
10. Becoming involved with a student so that a reasonable person may suspect inappropriate behavior.

#### **Unacceptable Staff/Student Behaviors without Parent and Supervisor Permission**

1. Giving students a ride to/from school or school activities without parent permission (only in "emergency" situations).
2. Being alone in a room with a student.
3. Allowing students in your home.

**Cautionary Staff/Student Behaviors**

1. Remarks about the physical attributes or physiological development of anyone.
2. Excessive attention toward a particular student.
3. Sending e-mails, text messages, social media responses, or letters to students if the content is not about school activities.

**Acceptable and Recommended Staff/Student Behaviors**

1. Getting parents' written consent for any after-school activity on or off campus (exclusive of tutorials).
2. Obtaining formal approval (site and parental) to take students off school property for activities such as field trips or competitions.
3. E-mails, text-messages, phone conversations, and other communications to and with students must be professional and pertain to school activities or classes. (Communication should be initiated via school-based technology and equipment.)
4. Keeping reasonable space between you and your students.
5. Stopping and correcting students if they cross your own personal boundaries.
6. Keeping parents informed when a significant issue develops about a student.
7. Keeping all discussions with students professional.
8. Asking for advice from senior staff or administrators if you find yourself in a difficult situation related to boundaries.
9. Involving your supervisor if conflict arises with a student.
10. Informing your supervisor and/or Support Team (coordinators and directors) about situations that have the potential to become more severe.
11. Making detailed notes about an incident that could evolve into a more serious situation later.
12. Recognizing the responsibility to stop unacceptable behavior of students and/or co-workers.
13. Asking another staff member to be present if you will be alone with any student who may have severe social or emotional challenges (and you are not the assigned case educator).

14. Asking another staff member to be present, or within close supervisory distance, when you must be alone with a student.
15. Giving students praise and recognition without touching them in questionable areas; giving appropriate pats on the back, high-five's, and handshakes are appropriate.
16. Keeping your professional conduct a high priority during all moments of student contact.
17. Asking yourself if any of your actions which go contrary to these provisions are worth sacrificing your job and career.

#### **IV. CORPORAL PUNISHMENT**

Corporal punishment shall not be used as a disciplinary measure against any student. Corporal punishment includes the willful infliction of, or willfully causing the infliction of, physical pain on a student.

For purposes of this Policy, corporal punishment does not include an employee's use of force that is reasonable and necessary to protect the employee, students, staff or other persons or to prevent damage to property.

For clarification purposes, the following examples are offered for direction and guidance of Charter School personnel:

- A. Examples of PERMITTED actions (NOT corporal punishment)
  1. Stopping a student from fighting with another student;
  2. Preventing a pupil from committing an act of vandalism;
  3. Defending yourself from physical injury or assault by a student;
  4. Forcing a pupil to give up a weapon or dangerous object;
  5. Requiring an athletic team to participate in strenuous physical training activities designed to strengthen or condition team members or improve their coordination, agility, or physical skills;
  6. Engaging in group calisthenics, team drills, or other physical education or voluntary recreational activities.
- B. Examples of PROHIBITED actions (corporal punishment)
  1. Hitting, shoving, pushing, or physically restraining a student as a means of control;
  2. Making unruly students do push-ups, run laps, or perform other physical acts that cause pain or discomfort as a form of punishment;

3. Paddling, swatting slapping, grabbing, pinching, kicking, or otherwise causing physical pain.

#### **V. Reporting**

When any staff member, parent, or student becomes aware of a staff member having crossed the boundaries specified in this Policy, they should report the occurrence or suspected occurrence to a supervisor and/or Support Team member promptly. All reports shall be confidential. Prompt reporting is essential to protect students, the suspected staff member, any witnesses, and the school as a whole. Staff must also report to the administration any awareness of, or concern about, student behavior that crosses boundaries, or any situation in which a student appears to be at risk for sexual abuse. Please note that employees of the Charter School are mandated reporters under California state law, and are thus legally bound to report suspected abuse or neglect of a student.

#### **VI. Investigating**

A supervisor and/or Support Team member will promptly investigate and document the investigation of any allegation of inappropriate conduct per this Policy, using such support staff or outside assistance as he or she deems necessary and appropriate under the circumstances. Throughout this fact-finding process, the investigating administrator, and all others privy to the investigation, shall protect the privacy interests of any affected student(s) and/or staff member(s), including any potential witnesses, to the extent practical and appropriate under the law. The investigating supervisor shall promptly notify the Administrator of Instructional Services that an investigation is in progress; the Administrator of Instructional Services, in turn, shall notify the Executive Director of the existence and status of any investigations. Upon completion of any such investigations, the Administrator of Instructional Services shall direct the investigating administrator to report to the Executive Director any conclusions reached. The investigating administrator may consult with Charter School legal counsel, as appropriate, prior to, during, and after conducting any investigation.

#### **VII. Consequences**

Staff members who have violated this Policy will be subject to appropriate disciplinary action, and, where appropriate, will be reported to authorities for potential legal action.

#### **VIII. Training**

This document shall be discussed with and acknowledged by all Charter School employees as part of their initial employment and again, on an annual basis, as part of on-going training for all Charter School employees. A copy of this acknowledgement will be placed into each Charter School employee's personnel folder. In addition, appropriate portions of this Policy and related information will be incorporated into on-going Charter School communications thrust to underscore the continuing importance that Charter School places on student/staff interaction.

## About Our School

Grossmont Secondary School (GSS) is a public school designed for students who seek an alternative option to the traditional approach to education. Students receive a personalized and rigorous academic experience from a high-quality staff in a safe and supportive environment. As a charter school, GSS is a school of choice, with open enrollment policies that serve a diverse student community. The flexible scheduling and around-the-year calendar better serves many students who seek a non-traditional environment in which to learn. Grossmont Secondary School serves students in grades 7-12.

### ***Core Competency: Transforming Lives***

#### ***Mission - Why We Exist***

- To implement personalized educational programs to facilitate student achievement.
- To provide a prototype for changing the way teachers teach and students learn in the future.

#### ***Vision - What We Strive to Be***

- An educational option that offers a personalized instructional program that demonstrates positive outcomes for each student.

- A prototype for educational reform that creates instructional, service, organizational, and governance role models.
- A collaboration of efforts that improve the quality of life for students, their families, our employees, and the Southern California community-at-large.

### **Values - How We Do Our Work**

- Kids come first.
- Education is personalized, individualized and high quality.
- Highly professional individuals are accountable for their work, and are independent, self-motivated, high-energy people who speak for themselves.
- We create a positive, challenging environment that is centered on teaching and learning.
- People-centered teams focus on supporting quality teaching and learning.
- Manage the school with proven business principles focusing on continuous improvement.
- Performance is measured on a variety of indicators that include productivity, credit ratio, auditability, quality, performance, and commitment to the vision of Grossmont Secondary School.

### **Focus on Academic Teaching and Learning**

Audeo Charter School II, Audeo Charter School III, Audeo Valley Charter School, Grossmont Secondary School, Mirus Secondary School, and Sweetwater Secondary School (“Altus Schools”) which are operated by Audeo Charter School corporation are solely academic in nature and were originally created as re-directive programs designed for all students seeking a learning approach better suited to their learning style. The development, growth, and expansion of the schools primarily involve the creation of instructional environments. These instructional environments support an individualized and personalized educational template that motivates and engages students. The Altus Schools are designed to be expanded and potentially replicated in a manner consistent with this model sufficiently proven effective.

Extracurricular activities such as sports, proms or other school sponsored dances, yearbooks, class rings, or anything unrelated to academics which may create distractions for students or staff are not a part of the operational design. The schools’ sole focus on academics and devotion to nurturing the intrinsic value and confidence gained by the students’ successfully meeting academic goals that they once thought were beyond their reach, has resulted in notable academic achievements. Such achievements include but are not limited to: exceeding the one-year DASS graduation rates of San Diego County Dashboard Alternative School Status (“DASS”)<sup>1</sup> schools and California DASS schools, outperforming comparable DASS schools in California assessments, maintaining a low one-year dropout rate (below 5%), and increasing student confidence within 90 days of enrollment.

The confidence gained by committing time to working directly with Altus instructional staff, coupled with the support of family and community, leaves students better equipped to make good life decisions as they pursue positive self-sufficiency, productivity, and positive social relationships, and it is for these reasons that it is the prerogative of the Board to retain the sole focus on academics. Partners of the Altus Schools support this vision and help collaborate to prepare students to better deal with and overcome personal and social constraints that influence their lives.

<sup>1</sup> DASS schools have at least 70% of the school’s total enrollment comprised of unduplicated high-risk groups such as: those who have been expelled, credit deficient, highly transient, homeless, pregnant and/or parenting, have gaps in enrollment, recovered dropouts, and/or those who are habitually truant.

## Instructional Program

Our school is accredited by the Western Association of Schools and Colleges ("WASC"). At GSS, students receive a rigorous curriculum based on the California Common Core standards. We provide University of California ("UC") approved courses for those students planning to attend a UC or California State University ("CSU") school after the completion of high school. Additionally, we offer National Collegiate Athletics Association ("NCAA") - approved courses for students who are interested in pursuing NCAA athletic scholarships. Our "university model" is an excellent preparation for future studies.

The primary method of instruction is independent study supplemented with in-person participation at one of our Resource Centers. Each GSS Resource Center location provides a professional, quiet environment for one-on-one learning with a credentialed teacher who is available on-demand. Resource Centers are located at major retail centers or office buildings and may include work-study employment opportunities. Guest speaker events, tutoring, and field trips are also available. These activities are a required part of the curriculum and provide opportunities for basic skills development, career exploration, higher-level thinking skills, interpersonal relationship skills, and enrichment within the core curriculum. This method of instruction is very similar to university studies in which students take one course at a time and are required to take charge of their education.

Upon enrollment, a credentialed "On-Demand" teacher is assigned to each student who, in collaboration with the student and parents, assesses the student's current needs and goals and creates a plan for rapid advancement, focusing solely on one or two subjects at a time. Assigned to each student for a full year or more, the teacher supervises all subjects studied, and is personally held accountable to inspire and produce self-motivated and self-disciplined students who succeed not only academically, but also socially through teamwork and community service. As a result, On-Demand teachers adjust assignments to align with the goals and interests of the student and also personally act as necessary to ensure achievement. For example, if a student is late to an appointment, teachers contact either the student or the parents within minutes to identify and address any needs and teach accountability.

To further support students working on courses in core subject areas (English, mathematics, sciences, social science, and the fine and practical arts), additional certificated teachers with subject-matter expertise are available to students at their assigned Resource Center, via email or telephone within 24 hours.

GSS also offers a blended learning option for its students. Blended learning is a formal educational program in which a student learns at least in part through online delivery of content with some element of student control over time, place, path, and pace. This option allows students to complete the majority of their academic coursework at home.

Upon enrollment, a Pathways Personalized Education Plan ("PPEP") is prepared by a school counselor that outlines high school graduation requirements. This PPEP is delivered to the teacher. The student, parents/guardians, and teacher complete the planning with a discussion of the student's short and long-term goals, transcripts from previous schools, learning styles, current interests, academic achievement, career interests, skills development, and standardized test scores. The PPEP is reviewed and updated by the parents, student, and teacher on a regular basis throughout the student's enrollment.

Students study one or two subjects/courses at a time and are expected to complete an average of one course every three-to-four weeks. Within these parameters students can progress at an individualized pace, receiving tutoring or enrichment as needed.

GSS students earn course credits and attendance by successfully completing the prescribed lessons that demonstrate mastery of the state standards.

The student's primary academic support person for student success is the teacher. The teacher becomes fully acquainted with his/her students, their families, and other factors that affect their learning and academic success. In addition to the services provided by staff, GSS has many partnerships and alliances to provide community resources for students and their families.

### ***Home/School Partnership***

The most important relationship we build is the one between the teacher, student, and the student's family. GSS encourages parent/guardian involvement through the monitoring of his/her student's regular and required attendance of Resource Center appointments, completion of high-quality work according to scheduled dates, and attendance on testing days and field trips. With parents actively involved in their student's lives, we can create a successful learning environment.

Two-way communication between all staff and parents is a building block for student success. Teachers are available for parent-student conferences, phone calls, interventions and home visits. In addition, there are scheduled opportunities throughout the year for dialogue. These opportunities include Open House nights, master agreement signings, college information meetings, and senior meetings. A climate that continually promotes open communication and dialogue is expected and supported.

### ***Parent Involvement Policy***

The Charter School aims to provide all students in our school significant opportunity to receive a fair, equitable, and high-quality education, and to close educational achievement gaps while abiding by guidelines within the Elementary and Secondary Education Act ("ESEA"). The Charter School staff recognizes a partnership with families is essential to meet this goal. Our Parent and Family Engagement Policy leverages and promotes active involvement of all families as partners with schools to ensure student success.

#### ***Title I Parent Involvement Policy***

**Board Policy #: 6010**

**Approved: February 22, 2018**

**Amended: October 20, 2021, June 22, 2023**

**Commented [AA1]:** Include most recent copy of Board Policy 6010 (amended 10/20/21)

Grossmont Secondary School ("Charter School") recognizes the parents/guardians are their children's first and most influential teachers and the sustained parent involvement in the education of their children contributes greatly to student achievement and a positive school environment. The Executive Director or designee shall work with staff and parents/guardians to develop meaningful opportunities at all grade levels for parents/guardians to be involved in school activities to support learning at home.

Parents/guardians shall be notified of their rights to be informed about and to participate in their children's education and of the opportunities available to them to do so.

Each year the Executive Director or designee shall identify objectives of the school's parent involvement. He/she shall ensure that parents/guardians are consulted and participate in the planning, design, implementation, and evaluation of the parent involvement program .

The President or designee shall ensure that the parent involvement strategies are established and implemented.

The Title I Parent Involvement Policy was updated and developed in collaboration with parents of Title I students. Parents participated in the development process through surveys and meetings at the Resource Centers. The data collected from parents yielded important feedback on ways to successfully engage parents and improve the parent involvement practices. Parents expressed the following themes:

- Parents can provide input and receive communication from staff through various programs and activities.
- Parents feel involved in their child's education through various programs and activities.
- Parents report having frequent communication with instructional staff.
- Parents want to continue to access resources and trainings on how they can better support their children's achievement and performance at school and at home.
- Parents want to continue to have safe, supportive, and innovative Resource Centers.

These recommendations above are integrated throughout this Title I Parent Involvement Policy and reinforce the core belief that parents are our equal partners in ensuring the success of all students.

The Title I Parent Involvement Policy will be annually distributed to parents by including the policy in the handbook, making the policy available on the website and at the Resource Centers. This Policy describes the means for carrying out the following Title I parental involvement requirements.

#### **Home-School Compact**

The Home-School Compact will be distributed to parents of Title I annually. The compact, which has been jointly developed with parents, outlines how parents, the entire school staff, and students will share the responsibility for improved student academic achievement. ### ***Attendance, Lessons, and Course Credits***

Unlike traditional schools where attendance is measured by being physically present in a classroom, GSS measures attendance by completion of a work product, a student's average daily attendance ("ADA") is determined by the professional judgment of the teacher as it relates to the time spent on the successful completion of each lesson. Students are expected to complete an average of 12 courses every 12 months at an acceptable level of competency to demonstrate learning and proficiency of state standards. To meet this expectation at GSS, students should complete an average of 7 assignments per week and complete 1 semester course in 3-to-4 weeks.

A complete copy of GSS's Independent Study Policy is available on the school website.

### ***Year-round School Year***

GSS has a year-round school year that is designed to maximize the amount of days and time that a student is able to earn credits. (See school holiday calendar on the School's website.)

### ***Student Assessments***

Students at GSS are part of the public school system in the State of California. Participating in the state testing system is a requirement. All students must take state mandated assessments which include the California Assessment of Student Performance and Progress ("CAASPP"), English Language Proficiency Assessments for California ("ELPAC"), and Physical Fitness Test scheduled throughout the school year. Additionally, all students who enroll in our GSS program take the school mandated NWEA Measures of Academic Progress ("MAP"). These tests are very critical. They tell us how students are progressing in their learning.

GSS staff members are dedicated to making sure students receive the instruction they need to do well on these tests to demonstrate learning. Students are offered many opportunities for special assistance if it is needed. These opportunities include diagnostic assessment and one-to-one tutoring. Please review your student's test results and be sure he or she is working on improving his/her weak areas. It is important that we work together to help your student succeed.

If you have any questions about testing and/or a specific test you may contact your student's teacher. The table below provides basic information about the standardized tests and approximate administration dates. Additional information about state tests is posted on the California Department of Education ("CDE") website at <http://www.cde.ca.gov/ta/tg>.

### **California Assessment of Student Performance and Progress (“CAASPP”)**

The School shall annually administer required state testing to the applicable grades (e.g., the CAASPP).

Pursuant to California Education Code Section 60615, parents/guardians may annually submit to the school a written request to excuse their child from any or all the CAASPP assessments. This exemption does not exist for the ELPAC or Physical Fitness Test.

### ***Student Wellness Policy***

[Board Policy: 1710](#)

[Approved: February 22, 2018](#)

[Amended: February 16, 2022, June 22, 2023](#)

Grossmont Secondary School ("Charter School") adopts this policy to ensure its commitment to the optimal development of every student. Charter School believes that for students to have the opportunity to achieve personal, academic, developmental and social success, we need to create positive, safe and health-promoting learning environments at every level, in every setting, throughout the school year. This policy may be updated from time to time as required to be in compliance with state law, regulation, or administrative directive.

Research shows that two components, good nutrition and physical activity before, during and after the school day, are strongly correlated with positive student outcomes. Conversely, less-than-adequate consumption of specific foods including fruits, vegetables and dairy products, is associated with lower grades among students. In addition, students who are physically active through active transport to and from school, recess, physical activity breaks, high-quality physical education and extracurricular activities – do better academically. Finally, there is evidence that adequate hydration is associated with better cognitive performance.

This Policy outlines Charter School's approach to ensuring environments and opportunities for all students to practice healthy eating and physical activity behaviors throughout the school day while minimizing commercial distractions. Specifically, this Policy establishes goals and procedures to ensure that:

- Students in the Charter School have access to healthy foods throughout the school day—and other foods available throughout the Charter School resource centers—in accordance with Federal and state nutrition standards.
- Students receive quality nutrition education that helps them develop lifelong healthy eating behaviors.
- Students have opportunities to be physically active before, during and after the school day.
- The Charter School engages in nutrition and physical activity promotion and other activities that promote student wellness.
- Charter School staff are encouraged and supported to practice healthy nutrition and physical activity behaviors in and out of school.
- The community is engaged in supporting the work of the Charter School in creating continuity between Charter School and other settings for students and staff to practice lifelong healthy habits.
- The Charter School establishes and maintains an infrastructure for management, oversight, implementation, communication about and monitoring of this Policy and its established goals and objectives.

This Policy applies to all students, faculty, and staff in the Charter School. Specific measurable goals and outcomes are identified within each section below.

## **I. Wellness Policy Implementation, Monitoring, Accountability and Community Engagement**

### **Implementation Plan**

The Charter School will make this information available via the Charter School website and/or Charter School-wide communications. The Charter School will provide as much information as possible about the Charter School nutrition environment. This will include a summary of Charter School's events or activities related to Policy implementation.

#### **Triennial Progress Assessments**

This Policy will be assessed and updated as indicated at least every three (3) years, following the triennial assessment.

#### **Community Involvement, Outreach and Communications**

The Charter School is committed to being responsive to community input, which begins with awareness of the Policy. Charter School will actively communicate ways in which representatives of the Charter School and others can participate in the development, implementation and periodic review and update of this Policy through a variety of means. The Charter School will also inform parents of the improvements that have been made to school meals and compliance with school meal standards, availability of child nutrition programs and how to apply, and a description of and compliance with Smart Snacks in Charter School nutrition standards.

The Charter School will use electronic mechanisms, such as email or displaying notices on the Charter School's website, as well as non-electronic mechanisms, such as newsletters, presentations to parents, or sending information home to parents, to ensure that all families are actively notified of the content of, implementation of, and updates to this Policy, as well as how to get involved and support the Policy. The Charter School will ensure that communications are culturally and linguistically appropriate to the community and accomplished through means similar to other ways that other local schools are communicating important school information with parents.

The Charter School will actively notify the public about the content of, the implementation of, and any updates to the Policy annually, at a minimum. The Charter School will also use these mechanisms to inform the community about the availability of the annual and triennial reports.

Before a student is authorized to use the Charter School's technological resources, the student and the student's parent/guardian shall sign and return the Acceptable Use Agreement specifying user obligations and responsibilities. In that agreement, the student and the student's parent/guardian shall agree not to hold the Charter School or any Charter School staff responsible for the failure of any technology protection measures, violations of copyright restrictions, or user mistakes or negligence. They shall also agree to indemnify and hold harmless the Charter School and Charter School personnel for any damages or costs incurred.

### **Safety**

The Charter School shall ensure that all Charter School computers with Internet access have a technology protection measure that blocks or filters Internet access to websites that have no educational purpose and/or contain visual depictions that are obscene, constitute child pornography, or that are harmful to minors. While the Charter School is able exercise reasonable control over content created and purchased by the Charter School, it has limited control over content accessed via the internet and no filtering system is 100% effective. Neither the Charter School nor its staff shall be responsible for the failure of any technology protection measures, violations of copyright restrictions, or user mistakes, misuse or negligence.

To reinforce these measures, the Executive Director or designee shall implement rules and procedures designed to restrict students' access to harmful or inappropriate matter on the Internet and to ensure that students do not engage in unauthorized or unlawful online activities. Staff shall monitor students while they are using Charter School computers, laptops, or tablets to access the internet or online services on a Charter School resource center and may have teacher, certificated teacher resource, student aides, and volunteers assist in this monitoring. Parents/guardians are required to supervise and monitor their child's use of Charter School equipment including but not limited to their child's access to the internet and any online services through such equipment any and all times during which any Charter School equipment is being used by their child outside school facilities or school hours to ensure compliance with this policy.

The Executive Director or designee also shall establish regulations to address the safety and security of students and student information when using email, chat rooms, and other forms of direct electronic communication.

The Executive Director or designees shall provide age-appropriate instruction regarding safe and appropriate behavior on social networking sites, chat rooms, and other Internet services. - 1) "Bullying" means any severe or pervasive physical or verbal act or conduct, including communications made in writing or by means of an electronic act, and including one or more acts committed by a pupil or group of pupils, directed toward one or more pupils that has or can be reasonably predicted to have one or more of the following effects:

A photograph or other visual recording, as described above, shall include the depiction of a nude, semi-nude, or sexually explicit photograph or other visual recording of a minor where the minor is identifiable from the photograph, visual recording, or other electronic act. The term "cyber sexual bullying" does not include a depiction, portrayal, or image that has any serious literary, artistic, educational, political, or scientific value or that involves athletic events or school-sanctioned activities.

Students are expected to follow safe practices when using Charter School technology.

Charter School advises students:

1. To never share passwords, personal data, or private photos online.
2. To think about what they are doing carefully before posting and by emphasizing that comments cannot be retracted once they are posted.
3. That personal information revealed on social media can be shared with anyone including parents, teachers, administrators, and potential employers. Students should never reveal information that would make them uncomfortable if the world had access to it.

Students shall not use the Internet to perform any illegal act or to help others perform illegal acts. Illegal acts include, but are not limited to, any activities in violation of local, state, and federal law and/or accessing information designed to further criminal or dangerous activities. Such information includes, but is not limited to, information that if acted upon could cause damage, present a danger, or cause disruption to the Charter School, other students, or the community. Damaging, debilitating or disabling computers, computer networks or systems through the intentional or overuse of electronic distribution or the spreading of computer viruses or other harmful programs shall be prohibited. Any unauthorized online access to other computers by means of hacking into other computers, downloading hacker tools such as port scanners and password crackers designed to evade restrictions shall also be strictly prohibited.

Student use of Charter School computers to access social networking sites is not prohibited, but access is limited to educational purposes only. To the extent possible, the Executive Director or designee shall block access to such sites on Charter School computers with Internet access.

The Executive Director or designee shall oversee the maintenance of the Charter School's technological resources and may establish guidelines and limits on their use.

All employees shall receive a copy of this policy and the accompanying Acceptable Use Agreement describing expectations for appropriate use of the system and shall also be provided with information about the role of staff in supervising student use of technological resources. ~~All employees shall comply with this policy and the Acceptable Use Agreement, in addition to any separate policies governing employee use of technology.~~

Student use of Charter School's computers, networks, and Internet services is a privilege, not a right. Compliance with the Charter School's policies and rules concerning computer use is mandatory. Students who violate these policies and rules may have their computer privileges limited and may be subject to discipline, including but not limited to suspension or expulsion per school policy.

The Charter School may require staff to monitor and supervise all access to computer equipment, Internet access networks, and email accounts. To facilitate monitoring of activities, computer screens may be positioned so that they are visible to the staff member supervising the students. I understand that computer use is a privilege and not a right. I understand that students who violate this policy in any way will be subject to a referral and possible suspension or expulsion. I understand that if a student willfully damages Charter School's property, including but not limited to Charter School's technology, equipment and networks, or fails to return Charter School's property that has been loaned to the student, the student's parents/guardians are liable for all damages caused by the student's misconduct up to an amount not to exceed ten thousand dollars (\$10,000), adjusted annually for inflation. ### ***Suspension and Expulsion Policy***

[Board Policy: 3110](#)

[Amended: May 5, 2009, February 16, 2022, December 7, 2022, June 22, 2023](#)

#### **Policy**

The Suspension and Expulsion Policy and Procedures have been established in order to promote learning and protect the safety and wellbeing of all students at Grossmont Secondary School ("GSS" or "Charter School"). In ~~creating-adopting~~ this policy, GSS has reviewed Education Code Section 48900 *et seq.* which describe the offenses for which students at noncharter schools may be suspended or expelled and the procedures governing those suspensions and expulsions in order to establish its list of offenses and procedures for suspensions, expulsions and involuntary removal. ~~describes the non-charter schools' list of offenses and procedures to establish its list of offenses and procedures for suspensions, expulsions and involuntary removal.~~ The language ~~that follows closely mirrors~~ is largely consistent with the language of Education Code Section 48900 *et seq.* GSS is committed to annual review of policies and procedures surrounding suspensions, expulsions, and involuntary removals, and, as necessary, modification of the lists of offenses for which students are subject to suspension or expulsion.

~~Consistent with this Policy~~When the policy is violated, it may be necessary to suspend or expel a student from regular classroom instruction. This policy shall serve as GSS's policy and procedures for student suspension, expulsion, and involuntary removal, and it may be amended from time to time without the need to ~~amend~~ ~~seek a material revision of~~ the charter so long as the amendments comport with legal requirements. GSS staff shall enforce disciplinary ~~rules-policies~~ and procedures fairly and consistently among all students. This policy and its procedures will be ~~printed and~~ distributed annually as part of the student handbook ~~and which~~ will clearly describe discipline expectations.

Corporal punishment shall not be used as a disciplinary measure against any student. Corporal punishment includes the willful infliction of or willfully causing the infliction of physical pain on a student. For purposes of this policy, corporal punishment does not include an employee's use of force that is reasonable and necessary to protect the employee, students, staff or other persons or to prevent damage to school property.

The GSS administration shall ensure that students and their parents/guardians are notified in writing upon enrollment of all discipline and involuntary removal policies and procedures. The notice shall state that this policy and procedures are available upon request at the ~~School Coordinator's Executive Director's~~ office.

Suspended or expelled students shall be excluded from all school and school-related activities unless otherwise agreed during the period of suspension or expulsion.

A student identified as an individual with disabilities or for whom GSS has a basis of knowledge of a suspected disability pursuant to the Individuals with Disabilities Education Improvement Act of 2004 ("IDEA") or who is qualified for services under Section 504 of the Rehabilitation Act of 1973 ("Section 504") is subject to the same grounds for suspension and expulsion and is accorded the same due process procedures applicable to general education students except when federal and state law mandates additional or different procedures. GSS will follow all applicable federal and state laws including but not limited to the applicable provisions of the California Education Code, when imposing any form of discipline on a student identified as an individual with disabilities or for whom GSS has a basis of knowledge of a suspected disability or who is otherwise qualified for such services or protections in according to due process to such students.

No student shall be involuntarily removed by the Charter School for any reason unless the parent/guardian of the student has been provided written notice of intent to remove the student no less than five (5) school days before the effective date of the action. The written notice shall be in the native language of the student or the student's parent/guardian ~~or, if the student is a foster child or youth or a homeless child or youth, the student's educational rights holder,~~ and shall inform the student, the student's parent/guardian, ~~or educational rights holder~~ of the basis for which the student is being involuntarily removed and the student's parent/guardian, ~~or educational rights holder's~~ right to request a hearing to challenge the involuntary removal. If a student's parent, guardian, ~~or educational rights holder~~ requests a hearing, the Charter School shall utilize the same hearing procedures specified below for expulsions, before the effective date of the action to involuntarily remove the student. If the student's parent, guardian, ~~or educational rights holder~~ requests a hearing, the student shall remain enrolled and shall not be removed until the Charter School issues a final decision. As used herein, "involuntarily removed" includes disenrolled, dismissed, transferred, or terminated, but does not include removals for misconduct which may be grounds for suspension or expulsion as enumerated below. Students may be involuntarily removed for reasons including, but not limited to, failure to comply with the terms of the student's independent study Master Agreement pursuant to Education Code Section 51747(c)(4).

<sup>1</sup> The Charter School shall ensure that a homeless child or youth's educational rights holder; a foster child or youth's educational rights holder, attorney, and county social worker; and an Indian child's tribal social worker and, if applicable, county social worker have the same rights as a parent or guardian to receive a suspension notice, expulsion notice, manifestation determination notice, involuntary transfer notice, involuntary removal notice, and other documents and related information. For purposes of this Policy and its Procedures, the term "parent/guardian" shall include these parties.

  - ii. Causing a reasonable student to experience a substantially detrimental effect on their physical or mental health.
  - iii. Causing a reasonable student to experience substantial interference with their academic performance.

    - (a) For purposes of this policy, "cyber sexual bullying" means the dissemination of, or the solicitation or incitement to disseminate, a photograph or other visual recording by a student to another student or to school personnel by means of an electronic act that has or can be reasonably predicted to have one or more of the effects described in subparagraphs (i) to (iv), inclusive, of paragraph (1). A photograph or other visual recording, as described above, shall include the depiction of a nude, semi-nude, or sexually explicit photograph or other visual recording of a minor where the minor is identifiable from the photograph, visual recording, or other electronic act.

(b) For purposes of this policy, "cyber sexual bullying" does not include a depiction, portrayal, or image that has any serious literary, artistic, educational, political, or scientific value or that involves athletic events or school-sanctioned activities.

4. Non-Discretionary Expellable Offenses: Students must be recommended for expulsion for any of the following acts when it is determined pursuant to the procedures below that the pupil:

If it is determined by the Administrative Panel and/or the Board of Directors that a student has brought a firearm or destructive device, as defined in Section 921 of Title 18 of the United States Code, on to campus or to have possessed a firearm or destructive device on campus, the student shall be expelled for one year, pursuant to the Federal Gun Free Schools Act of 1994. ### C. Suspension Procedure

Suspensions shall be initiated according to the following procedures:

#### 1. Conference

Suspension shall be preceded, if possible, by a conference conducted by the ~~Executive Director~~ School Coordinator or designee with the student and his or her parent/guardian and, whenever practical, the teacher, supervisor or GSS employee who referred the student to the ~~School Coordinator~~ Executive Director or designee.

The conference may be omitted if the ~~School Coordinator~~ Executive Director or designee determines that an emergency situation exists. An “emergency situation” involves a clear and present danger to the lives, safety or health of students or GSS personnel. If a student is suspended without this conference, both the parent/guardian and student shall be notified of the student’s right to return to school for the purpose of a conference.

At the conference, the ~~pupil~~ student shall be informed of the reason for the disciplinary action and the evidence against him or her and shall be given the opportunity to present his or her version and evidence in his or her defense, in accordance with Education Code Section 47605(c)(5)(J)(i). This conference shall be held within two (2) school days, unless the ~~student~~ pupil waives this right or is physically unable to attend for any reason including, but not limited to, incarceration or hospitalization. No penalties may be imposed on a ~~student~~ pupil for failure of the pupil’s parent or guardian to attend a conference with GSS officials. Reinstatement of the suspended ~~student~~ pupil shall not be contingent upon attendance by the pupil’s parent or guardian at the conference.

#### 2. Notice to Parents/Guardians

At the time of the suspension, an administrator or designee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension and the date of return following suspension. This notice shall state the specific offense(s) committed by the student. In addition, the notice may also state the date and time when the student may return to school. If GSS officials wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice may request that the parent/guardian respond to such requests without delay.

#### 3. Suspension Time Limits/Recommendation for Expulsion

Suspensions, when not including a recommendation for expulsion, shall not exceed five (5) consecutive school days per suspension. Upon a recommendation of expulsion by the ~~School Coordinator~~ Executive Director or designee, the ~~student~~ pupil and the pupil’s guardian or representative will be invited to a

conference to determine if the suspension for the ~~student pupil~~ should be extended pending an expulsion hearing. In such instances when the Charter School has determined a suspension period shall be extended, such extension shall be made only after a conference is held with the ~~student pupil~~ or the pupil's parents, unless the ~~student pupil~~ and the pupil's parents fail to attend the conference.

This determination will be made by the ~~School Coordinator~~~~Executive Director~~ or designee upon either of the following: 1) the pupil's presence will be disruptive to the education process; or 2) the ~~student pupil~~ poses a threat or danger to others. Upon either determination, the pupil's suspension will be extended pending the results of an expulsion hearing.

#### 4. Homework Assignments During Suspension

In accordance with Education Code Section 47606.2(a), upon the request of a parent, a legal guardian or other person holding the right to make education decisions for the student, or the affected student, a teacher shall provide to a student in any of grades 1 to 12, inclusive, who has been suspended from school for two (2) or more school days, the homework that the student would otherwise have been assigned.

In accordance with Education Code Section 47606.2(b), if a homework assignment that is requested pursuant to Section 47606.2(a) and turned into the teacher by the student either upon the student's return to school from suspension or within the timeframe originally prescribed by the teacher, whichever is later, is not graded before the end of the academic term, that assignment shall not be included in the calculation of the student's overall grade in the class.

### D. Authority to Expel

As required by Education Code Section 47605(c)(5)(J)(ii), students recommended for expulsion are entitled to a hearing adjudicated by a neutral officer to determine whether the student should be expelled. The procedures herein provide for such a hearing and the notice of said hearing, as required by law.

A student may be expelled either by the neutral and impartial Charter School Board of Directors following a hearing before it or by the ~~neutral and impartial~~ Board of Directors upon the recommendation of a neutral and impartial Administrative Panel, to be assigned by the Board of Directors as needed. The Administrative Panel shall consist of at least three (3) members who are certificated and neither a teacher of the ~~student pupil or nor~~ a member of the Board of Directors. Each entity shall be presided over by a designated neutral hearing chairperson. The Administrative Panel may recommend expulsion of any student found to have committed an expellable offense, and the Board of Directors shall make the final determination.

### E. Expulsion Procedures

Students recommended for expulsion are entitled to a hearing to determine whether the student should be expelled. Unless postponed for good cause, the hearing shall be held within thirty (30) school days after the ~~School Coordinator~~~~Executive Director~~ or designee determines that the ~~student pupil~~ has committed an expellable offense and recommends the student for expulsion.

In the event an Administrative Panel hears the case, it will make a recommendation to the Board for a final decision whether to expel. The hearing shall be held in closed session (complying with all ~~student pupil~~ confidentiality rules under the Family Educational Rights and Privacy Act "FERPA") unless the ~~student pupil~~ makes a written request for a public hearing in open session three (3) days prior to the date of the scheduled

hearing.

Written notice of the hearing shall be forwarded to the student and the student's parent/guardian at least ten (10) calendar days before the date of the hearing. Upon mailing the notice, it shall be deemed served upon the pupil. The notice shall include:

1. The date and place of the expulsion hearing.
2. A statement of the specific facts, charges and offenses upon which the proposed expulsion is based.
3. A copy of GSS's disciplinary rules which relate to the alleged violation;
4. Notification of the student's or parent/guardian's obligation to provide information about the student's status at GSS to any other school district or school to which the student seeks enrollment.
5. The opportunity for the student and/or the student's parent/guardian to appear in person or to employ and be represented by counsel or a non-attorney advisor.
6. The right to inspect and obtain copies of all documents to be used at the hearing.
7. The opportunity to confront and question all witnesses who testify at the hearing.
8. The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf including witnesses.

#### **F. Special Procedures for Expulsion Hearings Involving Sexual Assault or Battery Offenses**

GSS may, upon a finding of good cause, determine that the disclosure of either the identity of the witness or the testimony of that witness at the hearing, or both, would subject the witness to an unreasonable risk of psychological or physical harm. Upon this determination, the testimony of the witness may be presented at the hearing in the form of sworn declarations that shall be examined only by GSS or the hearing officer. Copies of these sworn declarations, edited to delete the name and identity of the witness, shall be made available to the pupil.

1. The complaining witness in any sexual assault or battery case must be provided with a copy of the applicable disciplinary rules and advised of ~~their his/her~~ right to (a) receive five days' notice of ~~their his/her~~ scheduled testimony, (b) have up to two (2) adult support persons of ~~their his/her~~ choosing present in the hearing at the time ~~the complaining witness testifies, he/she testifies~~, which may include a parent, guardian, or legal counsel, and (c) elect to have the hearing closed while testifying.
2. GSS must also provide the victim a room separate from the hearing room for the complaining witness' use prior to and during breaks in testimony.
3. At the discretion of the entity conducting the expulsion hearing, the complaining witness shall be allowed periods of relief from examination and cross-examination during which he or she may leave the hearing room.
4. The entity conducting the expulsion hearing may also arrange the seating within the hearing room to facilitate a less intimidating environment for the complaining witness.
5. The entity conducting the expulsion hearing may also limit time for taking the testimony of the complaining witness to the hours ~~the complaining witness he/she~~ is normally in school, if there is no good cause to take the testimony during other hours.
6. Prior to a complaining witness testifying, the support persons must be admonished that the hearing is

confidential. Nothing in the law precludes the entity presiding over the hearing from removing a support person whom the presiding person finds is disrupting the hearing. The entity conducting the hearing may permit any one of the support persons for the complaining witness to accompany him or her to the witness stand.

7. If one or both of the support persons is also a witness, GSS must present evidence that the witness' presence is both desired by the witness and will be helpful to GSS. The person presiding over the hearing shall permit the witness to stay unless it is established that there is a substantial risk that the testimony of the complaining witness would be influenced by the support person, in which case the presiding official shall admonish the support person or persons not to prompt, sway, or influence the witness in any way. Nothing shall preclude the presiding officer from exercising his or her discretion to remove a person from the hearing whom he or she believes is prompting, swaying, or influencing the witness.
8. The testimony of the support person shall be presented before the testimony of the complaining witness and the complaining witness shall be excluded from the courtroom during that testimony.
9. Especially for charges involving sexual assault or battery, if the hearing is to be conducted in public at the request of the ~~student/pupil~~ being expelled, the complaining witness shall have the right to have ~~their/his/her~~ testimony heard in a closed session when testifying at a public meeting would threaten serious psychological harm to the complaining witness and there are no alternative procedures to avoid the threatened harm. The alternative procedures may include videotaped depositions or contemporaneous examination in another place communicated to the hearing room by means of closed-circuit television.
10. Evidence of specific instances of a complaining witness' prior sexual conduct is presumed inadmissible and shall not be heard absent a determination by the entity conducting the hearing that extraordinary circumstances exist requiring the evidence be heard. Before such a determination regarding extraordinary circumstances can be made, the witness shall be provided notice and an opportunity to present opposition to the introduction of the evidence. In the hearing on the admissibility of the evidence, the complaining witness shall be entitled to be represented by a parent, legal counsel, or other support person. Reputation or opinion evidence regarding the sexual behavior of the complaining witness is not admissible for any purpose.

#### **G. Record of Hearing**

A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate and complete written transcription of the proceedings can be made.

#### **H. Presentation of Evidence**

While technical rules of evidence do not apply to expulsion hearings, evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. A recommendation by the Administrative Panel to expel must be supported by substantial evidence that the student committed an expellable offense. Findings of fact shall be based solely on the evidence at the hearing. While hearsay evidence is admissible, no decision to expel shall be based solely on hearsay. Sworn declarations may be admitted as testimony from witnesses of whom the Board or Administrative Panel determines that disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm.

If, due to a written request by the expelled pupil, the hearing is held at a public meeting, and the charge is committing or attempting to commit a sexual assault or committing a sexual battery as defined in Education Code Section 48900, a complaining witness shall have the right to have his or her testimony heard in a session closed to the public.

### **I. Expulsion Decision**

The decision of the Administrative Panel shall be in the form of written findings of fact and a written recommendation to the Board who will make a final determination regarding the expulsion. The final decision by the Board shall be made within ten (10) school days following the conclusion of the hearing. The decision of the Board is final.

If the Administrative Panel decides not to recommend expulsion, or the Board of Directors ultimately decides not to expel, the student shall immediately be returned to ~~their~~his/her educational program.

The Board of Directors may also determine to suspend the enforcement of the expulsion order for a period of not more than one (1) calendar year from the date of the expulsion hearing and return the student to the student's previous educational program under a probationary status and rehabilitation plan to be determined by the Board. During the period of the suspension of the expulsion order, the student is deemed to be on probationary status. The Board of Directors may revoke the suspension of an expulsion order under this section if the student commits any of the enumerated offenses listed above or violates any of the Charter School's rules and regulations governing student conduct. If the Board revokes the suspension of an expulsion order, the student may be expelled under the terms of the original expulsion order. The Board of Directors shall apply the criteria for suspending the enforcement of the expulsion order equally to all students, including individuals with exceptional needs as defined in Education Code Section 56026. The Board of Directors shall further comply with the provisions set forth under Education Code Section 48917, except as otherwise expressly set forth herein.

### **J. Written Notice to Expel**

The ~~School Coordinator~~Executive Director or designee, following a decision of the Board to expel shall send written notice of the decision to expel, including the Board's adopted findings of fact, to the student or parent/guardian. This notice shall also include the following: a) Notice of the specific offense committed by the student; and b) Notice of the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of the student's status with GSS.

The ~~School Coordinator~~Executive Director or designee shall send a copy of the written notice of the decision to expel to the authorizer. This notice shall include the following: a) The student's name; and b) The specific expellable offense committed by the student.

### **K. Disciplinary Records**

GSS shall maintain records of all student suspensions and expulsions at GSS. Such records shall be made available to the authorizer upon request.

### **L. No Right to Appeal**

The ~~student~~pupil shall have no right of appeal from expulsion from GSS as the Board of Directors' decision to

expel shall be final.

#### **M. Expelled ~~Pupils~~Students/Alternative Education**

~~Parents/guardians of pupils~~Students who are expelled shall be responsible for seeking alternative education programs including, but not limited to, programs within the County or their school district of residence. GSS shall work cooperatively with parents/guardians as requested by parents/guardians or by the school district of residence to assist with locating alternative placements during expulsion.

#### **N. Rehabilitation Plans**

Students who are expelled from GSS shall be given a rehabilitation plan upon expulsion as developed by the Board at the time of the expulsion order, which may include, but is not limited to, periodic review as well as assessment at the time of review for readmission. The rehabilitation plan should include a date not later than one year from the date of expulsion when the ~~student pupil~~ may reapply to GSS for readmission.

#### **O. Readmission or Admission of Previously Expelled Student**

The decision to readmit a ~~student pupil~~ after the end of the student's expulsion term or to admit a previously expelled ~~student pupil~~ from another school district or GSS who has not been readmitted/admitted to another school or school district after the end of the student's expulsion term, shall be in the sole discretion of the Board following a meeting with the ~~School Coordinator~~Executive Director or designee and the ~~student pupil~~ and parent/guardian or representative to determine whether the ~~student pupil~~ has successfully completed the rehabilitation plan and to determine whether the ~~student pupil~~ poses a threat to others or will be disruptive to the school environment. The ~~School Coordinator~~Executive Director or designee shall make a recommendation to the Board of Directors following the meeting regarding the ~~School Coordinator~~Executive Director's or designee's determination. The Board shall then make a final decision regarding readmission or admission of the student during the closed session of a public meeting, reporting out any action taken during closed session consistent with the requirements of the Brown Act. The pupil's readmission is also contingent upon GSS's capacity at the time the student seeks readmission or admission to the Charter School.

#### **P. Notice to Teachers**

The Charter School shall notify teachers of each student who has engaged in or is reasonably suspected to have engaged in any of the acts listed in Education Code Section 49079 and the corresponding enumerated offenses set forth above.

#### **R. Special Procedures for the Consideration of Suspension and Expulsion or Involuntary Removal of Students with Disabilities**

##### 1. Notification of SELPA

GSS shall immediately notify the SELPA and coordinate the procedures in this policy with the SELPA of the discipline of any student with a disability or student that GSS or the SELPA would be deemed to have knowledge that the student had a disability.

##### 2. Services During Suspension

Students suspended for more than ten (10) school days in a school year shall continue to receive services so as to enable the student to continue to participate in the general education curriculum,

although in another setting (which could constitute a change of placement and the student's IEP would reflect this change), and to progress toward meeting the goals set out in the child's IEP/504 Plan; and receive, as appropriate, a functional behavioral assessment and behavioral intervention services and modifications, that are designed to address the behavior violation so that it does not recur. These services may be provided in an interim alternative educational setting.

### 3. Procedural Safeguards/Manifestation Determination

Within ten (10) school days of a recommendation for expulsion or any decision to change the placement of a child with a disability because of a violation of a code of student conduct, GSS, the parent, and relevant members of the IEP/504 Team shall review all relevant information in the student's file, including the child's IEP/504 Plan, any teacher observations, and any relevant information provided by the parents to determine:

- a. If the conduct in question was caused by, or had a direct and substantial relationship to, the child's disability; or
- b. If the conduct in question was the direct result of the local educational agency's failure to implement the IEP/504 Plan.

If GSS, the parent, and relevant members of the IEP/504 Team determine that either of the above is applicable for the child, the conduct shall be determined to be a manifestation of the child's disability.

If GSS, the parent, and relevant members of the IEP/504 Team make the determination that the conduct was a manifestation of the child's disability, the IEP/504 Team shall:

- a. Conduct a functional behavioral assessment and implement a behavioral intervention plan for such child, provided that the GSS had not conducted such assessment prior to such determination before the behavior that resulted in a change in placement;
- b. If a behavioral intervention plan has been developed, review the behavioral intervention plan if the child already has such a behavioral intervention plan, and modify it, as necessary, to address the behavior; and
- c. Return the child to the placement from which the child was removed, unless the parent/guardian and GSS agree to a change of placement as part of the modification of the behavioral intervention plan.

If GSS, the parent/guardian, and relevant members of the IEP/504 team determine that the behavior was not a manifestation of the student's disability and that the conduct in question was not a direct result of the failure to implement the IEP/504 Plan, then GSS may apply the relevant disciplinary procedures to children with disabilities in the same manner and for the same duration as the procedures would be applied to students without disabilities.

### 4. Due Process Appeals

The parent/guardian of a child with a disability who disagrees with any decision regarding placement, or the manifestation determination, or GSS believes that maintaining the current placement of the child is substantially likely to result in injury to the child or to others, may request an expedited administrative hearing through the Special Education Unit of the Office of Administrative Hearings or by utilizing the dispute provisions of the 504 Policy and Procedures.

When an appeal relating to the placement of the student or the manifestation determination has been requested by either the parent/guardian or GSS, the student shall remain in the interim alternative educational setting pending the decision of the hearing officer in accordance with state and federal law, including 20 USC Section 1415(k), until the expiration of the forty-five (45) day time period provided for in an interim alternative educational setting, whichever occurs first, unless the parent and GSS agree otherwise.

In accordance with 20 U.S.C. Section 1415(k)(3), if a parent/guardian disagrees with any decision regarding placement, or the manifestation determination, or if the Charter School believes that maintaining the current placement of the child is substantially likely to result in injury to the child or to others, the parent/guardian or Charter School may request a hearing.

In such an appeal, a hearing officer may: (1) return a child with a disability to the placement from which the child was removed; or (2) order a change in placement of a child with a disability to an appropriate interim alternative educational setting for not more than 45 school days if the hearing officer determines that maintaining the current placement of such child is substantially likely to result in injury to the child or to others.

#### 5. Special Circumstances

GSS personnel may consider any unique circumstances on a case-by-case basis when determining whether to order a change in placement for a child with a disability who violates a code of student conduct.

The ~~School Coordinator~~ ~~Executive Director~~ or designee may remove a student to an interim alternative educational setting for not more than forty-five (45) school days without regard to whether the behavior is determined to be a manifestation of the student's disability in cases where a student:

- a. Carries or possesses a weapon, as defined in 18 USC 930, to or at school, on school premises, or to or at a school function;
- b. Knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at school, on school premises, or at a school function; or
- c. Has inflicted serious bodily injury, as defined by 20 USC 1415(k)(7)(D), upon a person while at school, on school premises, or at a school function.

#### 6. Interim Alternative Educational Setting

The student's interim alternative educational setting shall be determined by the student's IEP/504 team.

#### 7. Procedures for Students Not Yet Eligible for Special Education Services

A student who has not been identified as an individual with disabilities pursuant to IDEA and who has violated GSS's disciplinary procedures may assert the procedural safeguards granted under this administrative regulation only if GSS had knowledge that the student was disabled before the behavior occurred.

GSS shall be deemed to have knowledge that the student had a disability if one of the following

conditions exists:

- a. The parent/guardian has expressed concern in writing, or orally if the parent/guardian does not know how to write or has a disability that prevents a written statement, to GSS supervisory or administrative personnel, or to one of the child's teachers, that the student is in need of special education or related services.
- b. The parent/guardian has requested an evaluation of the child.
- c. The child's teacher, or other GSS personnel, has expressed specific concerns about a pattern of behavior demonstrated by the child, directly to the director of special education or to other GSS supervisory personnel.

If GSS knew or should have known the student had a disability under any of the three (3) circumstances described above, the student may assert any of the protections available to IDEA-eligible children with disabilities, including the right to stay-put.

If GSS had no basis for knowledge of the student's disability, it shall proceed with the proposed discipline. GSS shall conduct an expedited evaluation if requested by the parents; however the student shall remain in the education placement determined by GSS pending the results of the evaluation.

GSS shall not be deemed to have knowledge that the student had a disability if the parent/guardian has not allowed an evaluation, refused services, or if the student has been evaluated and determined to not be eligible.

[Board Policy: 3320](#)

Approved: February 16, 2022

Amended: June 22, 2023

The Governing Board of Audeo Charter School corporation hereby adopts this Cell Phones, Smartphones, Pagers & Other Electronic Signaling Devices Policy to apply to Audeo Charter School II, Audeo Charter School III, Audeo Valley Charter School, Grossmont Secondary School, Mirus Secondary School, and Sweetwater Secondary School, hereafter collectively referred to as ("Charter School"). The Board of Directors recognizes the potential for cell phones, smartphones, pagers, and electronic signaling devices (hereinafter collectively referred to as "private devices") to disrupt the learning environment of Grossmont Secondary School ("Charter School"), and adopts this Policy to permit students to possess, but not use private devices while on site or at the resource center, at school-sponsored activities, or under the supervision of Charter School employees, except as otherwise provided in this Policy. Students who possess any private devices must always keep them turned off and out of view while on school grounds or at school-sponsored activities and functions. Charter School teachers, administrators, and staff will confiscate any private devices used by a student in violation of this Policy.

All students are required to adhere to the following guidelines regarding private devices:

Private devices may be used:

- Off school site before or after school.
- Before or after any Charter School sponsored activity occurring before or after the school's instructional day.
- In the case of an emergency, or in response to a perceived threat of danger.
- When a teacher or administrator of the Charter School grants permission to a student to possess or use a private device, subject to any reasonable limitation imposed by that teacher or administrator.
- When a licensed physician and surgeon determines that the possession or use of a private device is necessary for the health or well-being of the student.
- When the possession or use of a private device is required in a student's individualized education program ("IEP").

Private devices shall be turned off and shall not be used:

- While at the resource center, including workshops, seminars, tutoring and any other school activity, which takes place during the scheduled instructional day on or off site.
- During events sponsored by the Charter School.
- On field trips or excursions sponsored by the Charter School.

Possession of private devices is a privilege, which may be forfeited by any student who fails to abide by the terms of this Policy. All Charter School employees shall remove any private device from the possession of a student found to be violating this Policy. If a private device is heard ringing, beeping, or buzzing from inside a jacket, purse, backpack, or other similar article, whether within the immediate presence of the student or not, a Charter School employee may remove the private device and confiscate the private device. Parents/guardians will be contacted to pick up any confiscated private devices at the end of the instructional time at the resource center or at the conclusion of a Charter School sponsored activity.

In addition to this Policy, all other applicable Charter School student discipline policies and rules shall apply to any student who fails to comply with the requirements of this Policy.

Students who possess any private device(s) shall assume sole responsibility for the maintenance and care of any such private device(s) in accordance with this Policy. At no time shall the Charter School be responsible for preventing theft, loss or damage to any private devices brought onto campus or at Charter School sponsored activities.

### ***Lost or Damaged School Property***

If a student willfully damages the Charter School's property or the personal property of a Charter School employee, or fails to return a textbook, library book, computer/tablet or other Charter School property that has been loaned to the student, the student's parents/guardians are liable for all damages caused by the student's misconduct not to exceed ten thousand dollars (\$10,000), adjusted annually for inflation. After notifying the student's parent or guardian in writing of the student's alleged misconduct and affording the student due process, Charter School may withhold the student's grades, transcripts, and diploma until the damages have been paid. If the student and the student's parent/guardian are unable to pay for the damages or to return the property, Charter School will provide a program of voluntary work for the minor in lieu of the payment of monetary damages. Upon completion of the voluntary work, the student's grades and diploma will be released.

### ***Parents' Responsibilities***

- Ensure that students get to their scheduled appointment on time. If this is not possible, contact the teacher to arrange an alternate time.
- Hold high expectations for your student, regularly monitor his or her daily work.
- Support school rules and the independent study definition of attendance—students complete school work rather than spending time in the Resource Center.
- Establish a schedule with the student and provide a space for study time at home.
- Arrange for student to attend appropriate field trips and supplemental tutoring sessions.
- Meet with staff when requested, particularly during master agreement signing conferences.
- Participate in decisions related to the education of your student.
- Ensure that students are clothed properly for school and school events.

### ***Parents' Role in Discipline and Behavior***

Parents are expected to cooperate with Charter School staff in maintaining and encouraging proper standards of behavior for their children. The following points may prove helpful:

- Instill in your child a sense of responsibility for what he/she says and does.
- Help your child to solve conflicts in a peaceful manner.
- Review your own attitude about discipline and behavior.
- Make sure you communicate with the school to learn necessary facts and expected behavior.
- As a role model for your child, show respect for learning and the necessity for completing an education.

### ***Emergency Procedures and School Safety Plan***

GSS Resource Centers have plans and preparations for major emergency situations. We believe that the reactions of people in emergencies depend largely upon their training. Our staff has been trained, and drills are held regularly to make certain that the students understand emergency procedures.

Please assure students that they are as safe at school as they are at home in a serious emergency. The safety and welfare of the students is our primary concern in the event of an emergency. Your child should be instructed to obey the directions of their teachers in general and especially in emergency situation.

GSS defines a crisis as any incident that disrupts the educational program and/or affects the emotional stability of students or staff. In the event of a crisis, such as a natural disaster, we ask the following:

- Please do not telephone the school. Telephone lines will be needed for emergency communications.
- Please do not drive to the Resource Center if possible. Streets should be as open as possible for emergency vehicles.
- Listen to your local radio station and news for information and advice.

In conjunction with the National Association for Search and Rescue, we urge every family to make home emergency plans and preparations.

If you have questions about our emergency preparedness program, please contact your teacher. A complete copy of the GSS Comprehensive School Safety Plan is available ~~on the school website and~~ at each Resource Center.

### ***School Bus and Passenger Safety***

All students who are transported in a school bus or school student activity bus shall receive instruction in school bus emergency procedures and passenger safety as outlined in the Transportation Safety Plan.

### **Transportation Safety Plan**

Because Audeo Charter School II, Audeo Charter School III, Audeo Valley Charter School, Grossmont Secondary School and Sweetwater Secondary School ("CHARTER SCHOOL" or the "Charter School") provides transportation to CHARTER SCHOOL activity, the Board of Directors ("Board") approved the following transportation safety plan, which contains procedures for Charter School personnel to follow to ensure the safe transportation of students. A copy of this Plan will be kept at each CHARTER SCHOOL and will be made available upon request to an officer of the Department of the California Highway Patrol. Students shall be informed that any violation of Charter School policies and procedures, including violation of safety procedures on a school bus or school activity bus, could result in discipline pursuant to the CHARTER SCHOOL discipline policy.

### **Definitions**

- "*School bus*" is any motor vehicle designed, used, or maintained for the transportation of a Charter School student at or below the grade 12 level to or from Charter School Resource Center or to and from Charter School activities. "*School bus*" does not include a passenger vehicle designed for and when actually carrying not more than 10 persons, including the driver, except any vehicle or truck transporting two or more students who use wheelchairs.

*"School activity bus"* is any motor vehicle, other than the school bus, operated by a common carrier, or by and under the exclusive jurisdiction of a publicly owned or operated transit

system, or by a passenger charter-party carrier, used under a contractual agreement between Charter School and carrier to transport Charter School students at or below the grade 12 level to or from a Charter School activity, or used to transport students from residential schools, when the students are received and discharged at off-highway locations where a parent or adult designated by the parent is present to accept the student or place the student on the bus.

- *“Private passenger vehicle”* is any other privately owned or leased vehicle not included in the definitions above, designed for and when not carrying more than 10 persons, and operated by a parent/guardian or staff driver to transport student to and from a Charter School activity.

### **Determining Whether a Student Requires an Escort**

If the Resource Center or school activity destination is located on the opposite side of the street of the actual bus stop, then Charter School and California Vehicle Code section 22112(d) require the student to be physically escorted by the bus driver across that street and under the bus drivers' direction and supervision. The bus driver will be required to activate the school bus red flashing crossover lights and if so equipped, the stop arm, and physically get out of the bus to assist the students safely across the street. Charter School requires ALL students who cross the street, be physically escorted by the bus driver with crossover lights and signs being activated.

### **Procedures for Kindergarten through Eighth Grade Students Regarding Boarding and Exiting the Bus**

CHARTER SCHOOL has created the following procedures to govern the safe entry and exit of kindergarten through eighth grade students to and from the school bus. Charter School is not required to use the services of an onboard school bus monitor in addition to the driver to ensure these procedures are followed.

8. Students must avoid trespassing on other people's property, stay on sidewalks when possible.

**Procedures for All Students to Follow as They Board or Exit a School Bus at CHARTER SCHOOL Resource Center or Other School Activity Location**

CHARTER SCHOOL has created the following procedures to govern the safe entry and exit of all students at Charter School Resource Center or other school activity location.

Boarding Buses at Resource Center or School Activity Location:

1. The school bus driver may not activate the flashing amber warning light system, the flashing red light signal system, and stop signal arm at any school.
2. The driver will monitor the students' entry onto the bus to ensure an orderly and safe entry for all students.
3. The group of students, along with the teacher(s) and any other adult personnel attending a school activity, shall assemble in an area away from the school bus to wait. When the students are ready to load, the Charter School staff shall inform the driver, and the driver will begin the boarding process.
4. Upon completion of the boarding process, the driver will proceed with the bus evacuation and safety presentation, described below. This shall include an explanation and demonstration of all emergency exits, first aid kits, fire extinguishers, etc.

Exiting Buses at School Site or School Activity Location:

1. Upon arrival at Charter School Resource Center, the driver shall take the bus to the designated student drop off area.
2. Upon reaching the designated area, the driver will park the bus and open the door when it is clear and safe to do so. The flashing red signal lights will not be activated.

3. Upon arrival at the school or school activity destination, the driver will select an area where the bus can be lawfully parked and the boarding/exiting of students can be reasonably controlled.
  - a. The driver will confer with the Charter School teacher/head chaperone regarding the time and location where the group will assemble to reload the bus.
  - b. When it is clear and safe to do so, the driver will have the students disembark the bus. The flashing red signal lights will not be activated.
  - c. When the Charter School teacher/head chaperone has confirmed all students are accounted for, the group may proceed to the trip.
4. Students exiting the bus at either Charter School Resource Center or a school activity location should do so in an orderly, respectful, and appropriate manner, following all instructions from Charter School staff and the bus driver.

**Procedures for School Staff to Ensure a Student is Not Left Unattended on a School Bus or School Activity Bus**

CHARTER SCHOOL staff members should always be involved and active in the supervision of the loading and unloading of students at Charter School Resource Center and on activity trips to ensure no student is left unattended on the school bus or school activity bus.

To do this, CHARTER SCHOOL staff shall adhere to the following procedures:

1. Before leaving the Resource Center for a school activity, the Charter School teacher/head chaperone for the trip shall ensure they have a copy of the class roster with all student names.
2. Once the bus reaches the destination, a Charter School teacher/head chaperone shall be the first person off the bus and will note each student who exits the bus by comparing the exiting students against the class roster.
3. A Charter School staff member/chaperone shall be the last person to exit the bus at each stop to ensure no students are on left board. Before exiting the bus, the staff member/chaperone will walk up the aisle, checking each seat and area on the floor by each seat to ensure no students are present.
4. Once all students and staff/chaperones have exited the bus, but before leaving for the designated activity, the Charter School teacher/head chaperone will conduct another roll call by calling out each student's name and waiting for verbal and visual confirmation from the student of being present.
5. The Charter School teacher/head chaperone will discuss with the bus driver a way to contact each other in the event it is later discovered a student is still on the bus.

**Procedures and Standards for Designating an Adult Chaperone, Other than the Bus Driver, to Accompany Students on a School Activity Bus**

CHARTER SCHOOL shall follow its applicable policies and procedures, including its visitor and volunteer policy, for designating an adult chaperone other than the school bus driver to accompany students on a bus or a school activity bus. All appropriate background checks will be conducted on any chaperone prior to the chaperone's attending a school trip or school activity bus.

This information shall include, but not be limited to, the following:

1. A list of school bus stops near the student's home.

The length of time for the suspension or delay of school bus services shall be at the discretion of the Executive Director.

#### **School Employees and Parent/Guardian as Chaperones and Drivers (Private Passenger Vehicles)**

As field trips and excursions are an integral part of the Charter School learning experience, parents are encouraged to participate in an assisting role with students. The parent or guardian will notify the coordinating teacher, in advance of the field trip or excursion, should he/she be under a physician's orders and using medications.

Parent/guardian or staff may transport students in their private vehicles for field trips. Parents may decline permission for their child to be transported by a staff member/other parent or guardian in a private passenger vehicle, in which case that student will be responsible for his/her own transportation.

All adults taking out-of-state field trips or excursions (including athletics meets and games), and all parents or guardians of pupils taking out-of-state field trips or excursions (including athletics meets and games) are required to sign a statement waiving all claims against Charter School, its employees, and the State of California for injury, accident, illness or death occurring during or by reason of the field trip or excursion (including athletics meets and games).

At all times during the field trip or excursion, employee and volunteer drivers will use the safest mode of transportation and the safest and most direct routes of travel. If travel is not by bus, the legal occupancy limit of ten (10) occupants (including the driver) must not be exceeded, all speed notices must be strictly adhered to and students are to be seated with individual seatbelts at all times.

### **Bullying and Cyberbullying Prevention Procedures**

GSS has adopted the following procedures for preventing acts of bullying, including cyberbullying.

#### **1. Cyberbullying Prevention Procedures**

GSS advises students:

- a. To never share passwords, personal data, or private photos online.
- b. To think about what they are doing carefully before posting and by emphasizing that comments cannot be retracted once they are posted.
- c. That personal information revealed on social media can be shared with anyone including parents, teachers, administrators, and potential employers. Students should never reveal information that would make them uncomfortable if the world had access to it.
- d. To consider how it would feel receiving such comments before making comments about others online.

GSS informs Charter School employees, students, and parents/guardians of GSS's policies regarding the use of technology in and out of the classroom. GSS encourages parents/guardians to discuss these policies with their children to ensure their children understand and comply with such policies.

## 2. Education

GSS employees cannot always be present when bullying incidents occur, so educating students about bullying is a key prevention technique to limit bullying from happening. GSS advises students that hateful and/or demeaning behavior is inappropriate and unacceptable in our society and at GSS and encourages students to practice compassion and respect each other.

Charter School educates students to accept all student peers regardless of protected characteristics (including but not limited to actual or perceived sexual orientation, gender identification, physical or cognitive disabilities, race, ethnicity, religion, and immigration status) and about the negative impact of bullying other students based on protected characteristics.

GSS's bullying prevention education also discusses the differences between appropriate and inappropriate behaviors and includes sample situations to help students learn and practice appropriate behavior and to develop techniques and strategies to respond in a non-aggressive way to bullying-type behaviors. Students will also develop confidence and learn how to advocate for themselves and others, and when to go to an adult for help.

GSS informs employees, students, and parents/guardians of this Policy and encourages parents/guardians to discuss this Policy with their children to ensure their children understand and comply with this Policy.

## 3. Professional Development

GSS annually makes available the online training module developed by the California Department of Education pursuant Education Code section 32283.5(a) to its certificated employees and all other GSS employees who have regular interaction with students.

GSS informs certificated employees about the common signs that a student is a target of bullying including:

- Physical cuts or injuries
- Lost or broken personal items
- Fear of going to school/practice/games
- Loss of interest in school, activities, or friends
- Trouble sleeping or eating
- Anxious/sick/nervous behavior or distracted appearance
- Self-destructiveness or displays of odd behavior
- Decreased self-esteem

Charter School also informs certificated employees about the groups of students determined by GSS, and available research, to be at elevated risk for bullying. These groups include but are not limited to:

- Students who are lesbian, gay, bisexual, transgender, or questioning youth ("LGBTQ") and those youth perceived as LGBTQ; and

- Students with physical or learning disabilities.

GSS encourages its employees to demonstrate effective problem-solving, anger management, and self-confidence skills for GSS's students.

## **Grievance Procedures**

### **1. Scope of Grievance Procedures**

GSS will comply with its Uniform Complaint Procedures ("UCP") policy when investigating and responding to complaints alleging unlawful harassment, discrimination, intimidation or bullying against a protected group or on the basis of a person's association with a person or group with one or more of the protected characteristics set forth in the UCP that:

- Are written and signed;
- Filed by an individual who alleges that that individual has personally suffered unlawful discrimination, harassment, intimidation or bullying, or by one who believes any specific class of individuals has been subjected to discrimination, harassment, intimidation or bullying prohibited by this part, or by a duly authorized representative who alleges that an individual student has been subjected to discrimination, harassment, intimidation, or bullying; and
- Submitted to the GSS UCP Compliance Officer not later than six (6) months from the date the alleged unlawful discrimination, harassment, intimidation or bullying occurred, or the date the complainant first obtained knowledge of the facts of the alleged discrimination, harassment, intimidation or bullying.

The following grievance procedures shall be utilized for reports of misconduct prohibited by this Policy that do not comply with the writing, timeline, or other formal filing requirements of a uniform complaint. For formal complaints of sexual harassment, GSS will utilize the following grievance procedures in addition to its UCP when applicable.

### **2. Reporting**

All staff are expected to provide appropriate supervision to enforce standards of conduct and, if they observe or become aware of misconduct prohibited by this Policy, to intervene when safe to do so, call for assistance, and report such incidents. The Board requires staff to follow the procedures in this policy for reporting alleged acts of misconduct prohibited by this Policy.

Any student who believes they have been subject to misconduct prohibited by this Policy or has witnessed such prohibited misconduct is encouraged to immediately report such misconduct to the Coordinator:

Tim Tuter  
Executive Director  
858-678-2042  
[ttuter@altusschools.net](mailto:ttuter@altusschools.net)

Complaints regarding such misconduct may also be made to the U.S. Department of Education, Office for Civil Rights. Civil law remedies, including, but not limited to, injunctions, restraining orders, or other remedies or orders may also be available to complainants.

While submission of a written report is not required, the reporting party is encouraged to submit a written report to the Coordinator. GSS will investigate and respond to all oral and written reports of misconduct

prohibited by this Policy in a manner that is not deliberately indifferent. Reports may be made anonymously, but formal disciplinary action cannot be based solely on an anonymous report.

Students are expected to report all incidents of misconduct prohibited by this Policy or other verbal, or physical abuses. Any student who feels they are a target of such behavior should immediately contact a teacher, counselor, the Executive Director, [Administrator of Instructional Services](#), School Coordinator, a staff person or a family member so that the student can get assistance in resolving the issue in a manner that is consistent with this Policy.

The Charter School acknowledges and respects every individual's right to privacy. All reports shall be investigated in a manner that protects the confidentiality of the parties and the integrity of the process to the greatest extent possible. This includes keeping the identity of the reporter confidential, as appropriate, except to the extent necessary to comply with the law, carry out the investigation and/or to resolve the issue, as determined by the Coordinator or administrative designee on a case-by-case basis.

The Charter School prohibits any form of retaliation against any individual who files a report or complaint, testifies, assists, participates, or refuses to participate in any investigation or proceeding related to misconduct prohibited by this Policy. Such participation or lack of participation shall not in any way affect the status, grades, or work assignments of the individual. Individuals alleging retaliation in violation of this Policy may file a grievance using the procedures set forth in this Policy. Knowingly making false statements or knowingly submitting false information during the grievance process is prohibited and may result in disciplinary action.

All supervisors of staff will receive sexual harassment training within six (6) months of their assumption of a supervisory position and will receive further training once every two (2) years thereafter. All staff, and any individual designated as a coordinator, investigator or decision-maker will receive sexual harassment training and/or instruction concerning sexual harassment as required by law.

### **3. Supportive Measures**

Upon the receipt of an informal or formal complaint of sexual harassment, the Coordinator will promptly contact the complainant to discuss the availability of supportive measures. The Coordinator will consider the complainant's wishes with respect to supportive measures, inform the complainant of the availability of supportive measures with or without the filing of a formal complaint of sexual harassment, and explain the process for filing a formal complaint of sexual harassment.

Supportive measures are non-disciplinary, non-punitive individualized services offered as appropriate, as reasonably available, and without fee or charge to the complainant or the respondent before or after the filing of a formal complaint of sexual harassment or where no formal complaint of sexual harassment has been filed. Such measures are designed to restore or preserve equal access to GSS's education program or activity without unreasonably burdening the other party, including measures designed to protect the safety of all parties or GSS's educational environment, or deter sexual harassment. Supportive measures available to complainants and respondents may include but are not limited to counseling, extensions of deadlines or other course-related adjustments, modifications of work or class schedules, campus escort services, mutual restrictions on contact between the parties, changes in work locations, leaves of absence, increased security and monitoring of certain areas of the campus, and other similar measures. GSS will maintain as confidential any supportive measures provided to the complainant or respondent, to the extent that maintaining such confidentiality would not impair the ability of GSS to provide the supportive measures.

### **4. Investigation and Response**

Upon receipt of a report of misconduct prohibited by this Policy from a student, staff member, parent, volunteer, visitor or affiliate of GSS, the Coordinator (or administrative designee) will promptly initiate an investigation. In most cases, a thorough investigation will take no more than twenty-five (25) school days. If the Coordinator (or administrative designee) determines that an investigation will take longer than twenty-five (25) school days and needs to be delayed or extended due to good cause, the Coordinator (or administrative designee) will inform the complainant of the reasons for the delay or extension and provide an approximate date when the investigation will be complete.

At the conclusion of the investigation, the Coordinator (or administrative designee) will meet with the complainant and, to the extent possible with respect to confidentiality laws, to provide the complainant with information about the investigation, including any actions necessary to resolve the incident/situation. However, the Coordinator (or administrative designee) will not reveal confidential information related to other students or employees.

For investigations of and responses to formal complaints of sexual harassment, the following grievance procedures will apply:

- Notice of the Allegations
  - Upon receipt of a formal complaint of sexual harassment, the Coordinator will give all known parties written notice of its grievance process, including any voluntary informal resolution process. The notice will include:
    - A description of the allegations of sexual harassment at issue and to the extent known, the identities of the parties involved in the incident, the conduct allegedly constituting sexual harassment, and the date and location of the alleged incident;
    - A statement that the respondent is presumed not responsible for the alleged conduct until a final decision is reached;
    - A statement that the parties may have an advisor of their choice, who may be an attorney, and may inspect and review evidence;
    - A statement that GSS prohibits an individual from knowingly making false statements or knowingly submitting false information during the grievance process.
- Emergency Removal
  - GSS may place a non-student employee respondent on administrative leave during the pendency of a formal complaint of sexual harassment grievance process in accordance with GSS's policies.
  - GSS may remove a respondent from GSS education program or activity on an emergency basis, in accordance with GSS's policies, provided that GSS undertakes an individualized safety and risk analysis, determines that an immediate threat to the physical health or safety of any student or other individual arising from the allegations of sexual harassment justifies removal, and provides the respondent with notice and an opportunity to challenge the decision immediately following the removal.
  - This provision may not be construed to modify any rights under the IDEA, Section 504, or the ADA.
- Informal Resolution
  - If a formal complaint of sexual harassment is filed, GSS may offer a voluntary informal resolution process, such as mediation, to the parties at any time prior to reaching a determination regarding responsibility. If GSS offers such a process, it will do the following:
    - Provide the parties with advance written notice of:
      - The allegations;

- The requirements of the voluntary informal resolution process including the circumstances under which the parties are precluded from resuming a formal complaint of sexual harassment arising from the same allegations;
  - The parties' right to withdraw from the voluntary informal resolution process and resume the grievance process at any time prior to agreeing to a resolution; and
  - Any consequences resulting from participating in the voluntary informal resolution process, including the records that will be maintained or could be shared; and
  - Obtain the parties' advance voluntary, written consent to the informal resolution process.
- GSS will not offer or facilitate an informal resolution process to resolve allegations that an employee sexually harassed a student.
- Investigation Process
  - The decision-maker will not be the same person(s) as the Coordinator or the investigator. GSS shall ensure that all decision-makers and investigators do not have a conflict of interest or bias for or against complainants or respondents.
  - In most cases, a thorough investigation will take no more than twenty-five (25) school days. If the investigator determines that an investigation will take longer than twenty-five (25) school days and needs to be delayed or extended due to good cause, the investigator will inform the complainant and any respondents in writing of the reasons for the delay or extension and provide an approximate date when the investigation will be complete.
  - The parties will be provided with an equal opportunity to present witnesses, to inspect and review any evidence obtained that is directly related to the allegations raised, and to have an advisor present during any investigative meeting or interview.
  - The parties will not be prohibited from discussing the allegations under investigation or to gather and present relevant evidence.
  - A party whose participation is invited or expected at an investigative meeting or interview will receive written notice of the date, time, location, participants, and purpose of the meeting or interview with sufficient time for the party to prepare to participate.
  - Prior to completion of the investigative report, GSS will send to each party and the party's advisor, if any, a copy of the evidence subject to inspection and review, and the parties will have at least ten (10) days to submit a written response for the investigator's consideration prior to the completion of the investigation report.
  - The investigator will complete an investigation report that fairly summarizes relevant evidence and send a copy of the report to each party and the party's advisor, if any, at least ten (10) days prior to the determination of responsibility.
- Dismissal of a Formal Complaint of Sexual Harassment
  - If the investigation reveals that the alleged harassment did not occur in GSS's educational program in the United States or would not constitute sexual harassment even if proved, the formal complaint with regard to that conduct must be dismissed. However, such a dismissal does not preclude action under another applicable GSS policy.
  - GSS may dismiss a formal complaint of sexual harassment if:
    - The complainant provides a written withdrawal of the complaint to the Coordinator;
    - The respondent is no longer employed or enrolled at GSS; or
    - The specific circumstances prevent GSS from gathering evidence sufficient to reach a decision on the formal complaint or the allegations therein.
  - If a formal complaint of sexual harassment or any of the claims therein are dismissed, GSS will promptly send written notice of the dismissal and the reason(s) for the dismissal simultaneously to the parties.
- Determination of Responsibility

- The standard of evidence used to determine responsibility is the preponderance of the evidence standard.
- Determinations will be based on an objective evaluation of all relevant evidence and credibility determinations will not be based on a person's status as a complainant, respondent, or witness.
- GSS will send a written decision on the formal complaint to the complainant and respondent simultaneously that describes:
  - The allegations in the formal complaint of sexual harassment;
  - All procedural steps taken including any notifications to the parties, interviews with parties and witnesses, site visits, and methods used to gather other evidence;
  - The findings of facts supporting the determination;
  - The conclusions about the application of GSS's code of conduct to the facts;
  - The decision and rationale for each allegation;
  - Any disciplinary sanctions the recipient imposes on the respondent, and whether remedies designed to restore or preserve equal access to the education program or activity will be provided to the complainant; and
  - The procedures and permissible bases for appeals.

## 5. Consequences

Students or employees who engage in misconduct prohibited by this Policy, knowingly make false statements or knowingly submit false information during the grievance process may be subject to disciplinary action up to and including expulsion from GSS or termination of employment. The Coordinator is responsible for effective implementation of any remedies ordered by GSS in response to a formal complaint of sexual harassment.

## 6. Right of Appeal

Should the reporting individual find GSS's resolution unsatisfactory, the reporting individual may, within five (5) business days of notice of GSS's decision or resolution, submit a written appeal to the ~~Chairperson of the Board~~ President of the Charter School Board, who will review the investigation and render a final decision.

The following appeal rights and procedures will also apply to formal complaints of sexual harassment:

- The complainant and the respondent shall have the same appeal rights and GSS will implement appeal procedures equally for both parties.
- Within five (5) business days of Charter School's written decision or dismissal of the complaint, the complainant or respondent may submit a written appeal to the Coordinator.
- The decision-maker(s) for the appeal will not be the same person(s) as the Coordinator, the investigator or the initial decision-maker(s).
- The complainant and respondent may appeal from a determination regarding responsibility, and from Charter School's dismissal of a formal complaint or any allegations therein, on the following bases:
  - Procedural irregularity that affected the outcome of the matter;
  - New evidence that was not reasonably available at the time the determination regarding responsibility or dismissal was made, that could affect the outcome of the matter; and
  - The Title IX Coordinator, investigator(s), or decision-maker(s) had a conflict of interest or bias for or against complainants or respondents generally or the individual complainant or respondent that affected the outcome of the matter.
- GSS will notify the other party in writing when an appeal is filed.

Formatted: Normal, Space After: 12 pt

- The decision-maker for the appeal will give both parties a reasonable, equal opportunity to submit a written statement in support of, or challenging, the outcome; issue a written decision describing the result of the appeal and the rationale for the result; and provide the written decision simultaneously to both parties.

## **7. Recordkeeping**

All records related to any investigation of complaints under this Policy are maintained in a secure location.

GSS will maintain the following records for at least seven (7) years:

- Records of each sexual harassment investigation, including any determination of responsibility; any audio or audiovisual recording or transcript; any disciplinary sanctions imposed on the respondent; and any remedies provided to the complainant.
- Records of any appeal of a formal sexual harassment complaint and the results of that appeal.
- Records of any informal resolution of a sexual harassment complaint and the results of that informal resolution.
- All materials used to train Title IX coordinators, investigators, decision-makers, and any person who facilitates an informal resolution process.
- Records of any actions, including any supportive measures, taken in response to a report or formal complaint of sexual harassment.

Charter School defines sensitive or safe locations to include its schools, official activities of its schools, including those occurring in public places and adjacent areas, and all of Charter School property, included but not limited to, facilities owned, controlled by, or leased by Charter School. Where outside contractors or service providers (particularly school resource officers) are regularly present at sensitive or safe locations or have access to student information, Charter School shall seek commitments from those parties not to facilitate immigration enforcement at any of the Charter School's sensitive or safe locations unless required by law.

Information about children's rights to a free education regardless of immigration status or religious beliefs and the Attorney General's *Know Your Rights* handout will be provided to students and parents upon enrollment to Charter School.

All notices provided to parents pursuant to AB 699 shall be language-accessible in compliance with state and federal laws. Enrollment, registration, and uniform complaint procedures information provided on the Charter School website shall be language-accessible in compliance with state and federal laws.

### **Responding to Hate Crimes and Bullying**

Charter School has adopted and publicized a *Title IX, Harassment, Intimidation, Discrimination, and Bullying Policy* and provides annual notice of same to families. The Policy expressly prohibits discrimination, harassment, intimidation, and bullying based on the actual or perceived characteristics set forth in Section 422.55 of the Penal Code, including immigration status, and Section 220 of AB 699, and disability, gender, gender identity, gender expression, nationality, race or ethnicity, immigration or citizenship status, religion, religious affiliation, creed, color, citizenship, national origin or ancestry, physical or mental disability, medical condition, marital status, age, sexual orientation, pregnancy, childbirth or related medical conditions, association with a person or group with one or more of these actual or perceived characteristics, or any other basis protected by federal, state, local law, ordinance, or regulation. The Policy is inclusive of instances that occur on any area of the school campus, at school-sponsored events and activities, regardless of location, through school-owned technology, and through other electronic means. In accordance with the *Title IX, Harassment, Intimidation, Discrimination, and Bullying Policy* and its *Uniform Complaint Policy and Procedures*, Charter School will promptly and thoroughly investigate any complaint of unlawful harassment, discrimination, intimidation, or bullying that constitute a hate crime or are otherwise based on actual or perceived characteristics listed above, and take appropriate corrective action, if warranted.

Charter School advises students that hateful and/or demeaning behavior is inappropriate and unacceptable in our society and at Charter School and encourages students to practice compassion and respect each other. Charter School educates students to accept all student peers regardless of protected characteristics (including but not limited to actual or perceived religion, immigration status, or citizenship) and about the negative impact of bullying other students based on these protected characteristics.

Charter School shall train teachers, staff, and personnel to ensure that they are aware of their legal duty to take reasonable steps to eliminate a hostile environment and respond to any incidents of harassment based on the actual or perceived characteristics noted above.

Charter School shall inform students who are victims of hate crimes of their right to report such crimes.

Complete copies of the *Uniform Complaint Policy and Procedures* and the *Title IX, Harassment, Discrimination, Intimidation, and Bullying Policy* are available for review at the administration office.

### **Gathering and Managing Student and Family Information**

School has adopted an *Educational Records and Student Information Policy* to apply to all educational records and student information maintained by Charter School and provides annual notice of same to all families. Appropriate personnel shall receive training regarding those policies and procedures.

Additionally, Charter School shall observe the following:

- Except as required by state or federal law or as required to administer a state or federally supported education program, Charter School officials and employees will not collect information or documents regarding citizenship or immigration status of pupils or their family members.
- If Charter School possesses information that could indicate immigration status, citizenship status, or national origin information, Charter School will not use the acquired information to discriminate against any student or families or bar children from enrolling in or attending school.
- If parents or guardians choose not to provide information that could indicate their or their children's immigration status, citizenship status, or national origin, Charter School will not use such actions as a basis to discriminate against any students or families or bar children from enrolling or attending school.
- Charter School will not allow school resources or data to be used to create a registry based on race, gender, sexual orientation, religion, ethnicity, or national origin.
- Charter School will not inquire specifically about a student's citizenship or immigration status or the citizenship or immigration status of a student's parents or guardians; nor shall personnel seek or require, to the exclusion of other permissible documentation or information, documentation or information that may indicate a student's immigration status, such as a green card, voter registration, a passport, or citizenship papers.

#### *Admissions and Enrollment*

As a charter school, Charter School is open to all students who wish to attend, regardless of residency. Notwithstanding this and where permitted by law, Charter School shall accept alternative means to establish residency, age, or other eligibility criteria for enrollment or programs, and those alternative means shall include among them documentation or information that are available to persons regardless of immigration status, citizenship status, or national origin, and that do not reveal information related to citizenship or immigration status.

However, please note: (1) that parents and guardians are not required to provide each and every document listed and that (2) in accordance with the McKinney-Vento Homeless Assistance Act, Charter School will immediately enroll a homeless child or youth even if he or she is unable to provide proof of residency or age or other documentation normally required for enrollment.

Documents, information, or proof relating to citizenship or immigration status of students will never be requested for the enrollment process. Where any law requires submission of national origin related information to satisfy the requirements of a special program, Charter School personnel will solicit that documentation or information separately from the enrollment process.

*Social Security Information:*

Charter School will not collect entire social security numbers or cards or a statement that the parent or guardian does not possess a Social Security number for the purposes of enrollment, and failure to provide this information will not bar a student from enrolling or attending Charter School. However, the last four digits of an adult household member's Social Security number may be solicited and/or collected if required to establish eligibility for federal benefit programs such as free or reduced-price meals. This Social Security information will only be collected for the limited purpose of establishing eligibility for federal benefit programs and will not affect student enrollment. If no adult household member has a Social Security number, the student still can qualify for free or reduced-price meals, if the family meets the income eligibility requirements.

**Sharing Student and Family Information**

Charter School will avoid the disclosure of information that might indicate a student's or family's citizenship or immigration status if the disclosure is not authorized by the Family Educational Rights and Privacy Act (FERPA). Charter School requires written parental or guardian consent for release of student information unless the information is relevant for a legitimate education interest or includes directory information only.

Neither exception permits disclosing information to immigration authorities for immigration-enforcement purposes; no student information shall be disclosed to immigration authorities for immigration-enforcement purposes without a court order or judicial subpoena. A copy of the

complete *Education Records and Student Information Policy* is available for review in the administration office.

Charter School's request for written parental or guardian consent for release of student information must include:

The parent, guardian, or eligible student is not required to sign the consent form. If the parent, guardian or eligible student refuses to provide written consent for the release of student information that this not otherwise subject to release, Charter School shall not release the information. Charter School will permanently keep the consent notice with the record file.

Charter School personnel shall take the following steps upon receiving an information request related to a student's or family's immigration or citizenship status:

- (a) Notify a designated Charter School official about the information request.
- (b) Provide students and families with appropriate notice and a description of the immigration officer's request.
- (c) Document any verbal or written request for information by immigration authorities.
- (d) Unless prohibited, provide students and parents/guardians with any documents issued by the immigration-enforcement officer.

Charter School will not release information to third parties for immigration-enforcement purposes, except as required by law or court order. Our school focuses on delivering a strong standards-based and personalized educational program. Professional development for teachers, communication with parents, and opportunities for tutoring have always been common practice at the school.

We have a rigorous selection process and we believe our teachers are outstanding. We not only hire teachers who are strong academically, we choose people:

11. A statement that copies of Audeo's UCP shall be available free of charge.

### Procedures

The following procedures shall be used to address all complaints, which allege that the Charter School has violated federal or state laws or regulations enumerated in the section "Scope", above. The compliance officer shall maintain a record of each complaint and subsequent related actions for at least three (3) calendar years.

All parties named shall be notified when a complaint is filed, when a complaint meeting or hearing is scheduled, and when a decision or ruling is made.

#### • Step 1: Filing of Complaint

Any individual, including a person's duly authorized representative or an interested third party, public agency or organization may file a written complaint of alleged noncompliance of unlawful discrimination, harassment, intimidation or bullying pursuant to this Policy. A complaint of unlawful discrimination, harassment, intimidation or bullying may be filed by an individual who alleges that individual has personally suffered unlawful discrimination, harassment, intimidation or bullying or by one who believes any specific class of individuals has been subjected to unlawful discrimination, harassment, intimidation or bullying, or by a duly authorized representative who alleges that an individual student has been subjected to discrimination, harassment, intimidation, or bullying. An investigation of alleged unlawful discrimination, harassment, intimidation or bullying shall be initiated by filing a complaint no later than six (6) months from the date the alleged discrimination, harassment, intimidation or bullying occurred, or the

complainant first obtained knowledge of the facts of the alleged discrimination, harassment, intimidation or bullying unless the time for filing is extended by the CBO or designee, upon written request by the complainant setting forth the reasons for the extension. Such extension by the CBO or designee shall be made in writing. The period for filing may be extended by the CBO or designee for good cause for a period not to exceed ninety (90) calendar days following the expiration of the six-month time period. The School Coordinator shall respond immediately upon a receipt of a request for extension.

All other complaints under this Policy shall be filed not later than one (1) year from the date the alleged violation occurred. For complaints relating to the LCAP, the date of the alleged violation is the date on which the Audeo Board of Directors approved the LCAP or the annual update was adopted by the Audeo.

The complaint shall be presented to the compliance officer who shall maintain a log of complaints received, providing each with a code number and date stamp.

Complaints filed pursuant to this Policy must be in writing and signed. A signature may be handwritten, typed (including in an email) or electronically generated. Only complaints regarding pupil fees or LCAP compliance may be filed anonymously as set forth in this Policy. If a complainant is unable to put a complaint in writing due to conditions such as a disability or illiteracy, the Charter School staff shall assist the complainant in the filing of the complaint.

- **Step 2: Mediation**

Within three (3) business days of receiving the complaint, the compliance officer may informally discuss with the complainant the possibility of using mediation. If the complainant agrees to mediation, the compliance officer shall make arrangements for this process.

Before initiating the mediation of an unlawful discrimination, harassment, intimidation or bullying complaint, the compliance officer shall ensure that all parties agree to make the mediator a party to related confidential information.

If the mediation process does not resolve the complaint to the satisfaction of the complainant, the compliance officer shall proceed with the investigation of the complaint.

The use of mediation shall not extend the Charter School's timelines for investigating and resolving the complaint unless the complainant agrees in writing to such an extension of time.

- **Step 3: Investigation of Complaint**

The compliance officer is encouraged to hold an investigative meeting within five (5) business days of receiving the complaint or an unsuccessful attempt to mediate the complaint. This meeting shall provide an opportunity for the complainant and/or the complainant's representative to repeat the complaint orally.

The complainant and/or the complainant's representative shall have an opportunity to present the complaint and evidence or information leading to evidence to support the allegations in the complaint. A complainant's refusal to provide the compliance officer with documents or other evidence related to the allegations in the complaint, or complainant's failure or refusal to cooperate in the investigation or the complainant's engagement in any other obstruction of the investigation, may result in the dismissal of the complaint because of a lack of evidence to support the allegation.

The Charter School's refusal to provide the compliance officer with access to records and/or other information related to the allegation in the complaint, or its failure or refusal to cooperate in the investigation or its engagement in any other obstruction of the investigation, may result in a finding, based on evidence collected, that a violation has occurred and may result in the imposition of a remedy in favor of the complainant.

- **Final Written Decision**

Audeo shall issue an investigation report (the "Decision") based on the evidence. Audeo's decision shall be in writing and sent to the complainant within sixty (60) calendar days of Audeo's receipt unless the timeframe is extended with the written agreement of the complainant. Audeo's Decision shall be written in English and in the language of the complainant whenever feasible or as required by law.

The Decision shall include:

1. The findings of fact based on evidence gathered.
2. The conclusion providing a clear determination for each allegation as to whether Audeo is in compliance with the relevant law.
3. Corrective actions, if Audeo finds merit in the complaint and any are warranted or required by law.
4. Notice of the complainant's right to appeal Audeo's decision within thirty (30) calendar days to the CDE, except when Audeo has used its UCP to address complaints that are not subject to the UCP requirements
5. Procedures to be followed for initiating such an appeal.

If an employee is disciplined as a result of the complaint, the Decision shall simply state that effective action was taken and that the employee was informed of the Charter School's expectations. The Decision shall not give any further information as to the nature of the disciplinary action except as required by applicable law.

### **Appeals to the California Department of Education**

If dissatisfied with the Decision, the complainant may appeal in writing to the CDE within thirty (30) days of receiving the Decision. The appeal shall be accompanied by a copy of the complaint filed with Audeo and a copy of the Decision. When appealing to the CDE, the complainant must specify and explain the basis for the appeal, including at least one of the following:

1. Audeo failed to follow its complaint procedures.
2. Relative to all allegations of the complaint, Audeo's Decision lacks material findings of fact necessary to reach a conclusion of law.
3. The material findings of fact in Audeo's Decision are not supported by substantial evidence.
4. The legal conclusion in Audeo's Decision is inconsistent with the law.
5. In a case in which Audeo's Decision found noncompliance, the corrective actions fail to provide a proper remedy.

Upon notification by the CDE, that the complainant has appealed the Decision, the CBO or designee shall forward the following documents to the CDE within ten (10) calendar days of the date of notification:

1. A copy of the original complaint.
2. A copy of the Decision.
3. A copy of the investigation file, including but not limited to all notes, interviews, and documents submitted by the parties or gathered by the investigator.
4. A report of any action taken to resolve the complaint.
5. A copy of the Charter School's complaint procedures.
6. Other relevant information requested by the CDE.

If the CDE determines the appeal raises issues not contained in the local complaint, the CDE will refer those new issues back to Audeo for resolution as a new complaint. If the CDE notifies the Charter School that its Decision failed to address an allegation raised by the complaint and subject to the UCP process, the Charter School will investigate and address such allegation(s) in accordance with the UCP requirements and provide the CDE and the appellant with an amended Decision addressing such allegation(s) within twenty (20) calendar days of the CDE's notification. The amended Decision will inform the appellant of the right to separately appeal the amended Decision with respect to the complaint allegation(s) not addressed in the original Decision.

Within thirty (30) calendar days of the date of the CDE's appeal Decision pursuant to 5 C.C.R. section 4633(f)(2) or (3), either party may request reconsideration by the State Superintendent of Public Instruction ("SSPI") or the SSPI's designee. The request for reconsideration shall specify and explain the reason(s) for contesting the findings of fact, conclusion of law, or corrective actions in the CDE's appeal Decision. The SSPI will not consider any information not previously submitted to the CDE by a party during the appeal unless such information was unknown to the party at the time of the appeal and, with due diligence, could not have become known to the party. Pending the SSPI's response to a request for reconsideration, the CDE appeal Decisions remains in effect and enforceable, unless stayed by a court.

The CDE may directly intervene in the complaint without waiting for action by the Charter School when one of the conditions listed in C.C.R. section 4650 exists, including but not limited to cases in which through no fault of the complainant, Charter School has not taken action within sixty (60) calendar days of the date of the complaint was filed with the Charter School.

### **Civil Law Remedies**

A complainant may pursue available civil law remedies outside of the Charter School's complaint procedures. Complainants may seek assistance from mediation centers or public/private interest attorneys. Civil law remedies that may be imposed by a court include, but are not limited to, injunctions and restraining orders. For unlawful discrimination, complaints arising under state law, however, a complainant must wait until sixty (60) calendar days have elapsed from the filing of an appeal with the CDE before pursuing civil law remedies. The moratorium does not apply to injunctive relief and is applicable only if the Charter School has appropriately, and in a timely manner, apprised the complainant of their right to file a complaint.

**Commented [AA3]:** Replace with clean copy of Audeo Corp policy 1500 amended on 3/1/23

A copy of the UCP shall be available upon request free of charge on the school website. For further information on any part of the complaint procedures, including filing a complaint or requesting a copy of the UCP, please contact the Executive Director.

Inc. to apply to Audeo II, Audeo III, Audeo Valley Charter School, Grossmont Secondary School, Mirus Secondary School, and Sweetwater Secondary School, all hereafter collectively referred to as "Charter School." This student fees policy has been adopted by the Board of Directors. This Policy is adopted in compliance with the provisions of Article IX, section 5 of the California Constitution, and Assembly Bill 1575 ("AB 1575") (effective January 1, 2013), which prohibit the charging of any student fees for participation in an educational activity at a public school. This Policy applies to Audeo Charter School II, Audeo Charter School III, Audeo Valley Charter School, Grossmont Secondary School, and Sweetwater Secondary School ("Audeo" or "Charter School").

### **General Statement of Policy**

No student enrolled in Charter School shall be required to pay a student fee for participation in Charter School 's educational activity unless specifically authorized by law.

#### **I. Definitions**

"Educational activity" means any activity offered by the Charter School that constitutes an integral fundamental part of a student's education, including, but not limited to, curricular and extracurricular activities.

"Pupil fee" means a fee, deposit, or other charge imposed on students, or a student's parents or guardians, in violation of Section 49011 and Section 5 of Article IX of the California Constitution, which require educational activities to be provided free of charge to all students without regard to their families' ability or willingness to pay fees or request special waivers. Pursuant to Education Code section 49010, prohibited student fees include, but are not limited to, the following:

- (a) fees charged as a condition for registering for school or classes, or as a condition for participation in a class or any extracurricular activity, regardless of whether the class or activity is elective or compulsory, or is for credit;
- (b) a security deposit, or other payment, that a student is required to make to obtain a book, class apparatus, laptop, I-Pad, e-reader or other materials or equipment;
- (c) purchase that a pupil is required to make to obtain materials, supplies,

Charter School does not offer course credit or privileges related to educational activities in exchange for money or donations of goods or services from a student, and Charter School does not remove course credit or privileges related to educational activities, or otherwise discriminate against any student who does not or will not provide money or donations of goods or services to the school.
5. No fees shall be charged for inter district transfers, tuition or diplomas, mandatory caps and gowns, or admissions charges, whether for instruction or extracurricular, if part of the educational program. A cap and gown will be provided free of charge by the Charter School to graduating students and must be returned to the Charter School after the Graduation ceremony. Charter School may solicit voluntary donations of funds from students and parents of students to help cover the cost of cap and gown, but all students are provided access to a cap and gown, regardless of student or parent donation. Alternatively, students have the option to purchase their own cap and gown, which does not need to be returned to Charter School after the graduation ceremony.

### ***Suicide Prevention Policy***

[Board Policy: 3191](#)

[Approved: June 22, 2017](#)

[Amended: October 21, 2020, March 18, 2022, June 22, 2023](#)

[The Board of Directors of Audeo Charter School, Inc. hereby adopts this Policy to apply to Audeo Charter School II, Audeo Charter School III, Audeo Valley Charter School, Grossmont Secondary School, Mirus Secondary School and Sweetwater Secondary School \("Charter School"\).](#)

[The Governing Board of Grossmont Secondary School \("Charter School"\)](#) [The Board](#) recognizes that suicide is a major cause of death among youth and should be taken seriously. In order to

Formatted: Default

attempt to reduce suicidal behavior and its impact on students and families, the Governing Board has developed prevention strategies and intervention procedures.

In compliance with Education Code section 215, this policy has been developed in consultation with Charter School and community stakeholders, Charter School school-employed mental health professionals (e.g., school counselors, psychologists, social workers, nurses), administrators, other school staff members, parents/guardians/caregivers, students, local health agencies and professionals, the county mental health plan, law enforcement, and community organizations in planning, implementing, and evaluating Charter School's strategies for suicide prevention and intervention. Charter School must work in conjunction with local government agencies, community-based organizations, and other community supports to identify additional resources.

~~The policy shall be developed in consultation with school and community stakeholders, school-employed mental health professionals, and suicide prevention experts and shall, at a minimum, address procedures relating to suicide prevention, intervention, and post-vention.~~

To ensure the policies regarding suicide prevention are properly adopted, implemented, and updated, the Charter School shall appoint an individual (or team) to serve as the suicide prevention point of contact. The suicide prevention point of contact for Charter School and the Executive Director shall ensure proper coordination and consultation with the county mental health plan if a referral is made for mental health or related services on behalf of a student who is a Medi-Cal beneficiary. This policy shall be reviewed and revised as indicated, at least annually in conjunction with the previously mentioned community stakeholders.

### **Suicide Prevention Crisis Team**

To ensure the policies regarding suicide prevention are properly adopted, implemented, and updated, Charter School created an in-house Suicide Prevention Crisis Team ("SPCT") consisting of administrators, mental health professionals, relevant staff, parents, and middle and high school students.

Charter School designates the following administrators to act as the primary and secondary suicide prevention liaisons to lead the SPCT:

1. School Psychologist
2. Executive Director

The functions of the SPCT are to:

- Review mental health related school policies and procedures;
- Provide annual updates on school and district data and trends;
- Review and revise school prevention policies;
- Review and select general and specialized mental health and suicide prevention training;

- Review and oversee staff, parent/guardian, and student trainings;
- Ensuring the suicide prevention policy, protocols, and resources are posted on the district and school websites;
- Collaborate with community mental health organizations,
- Identify resources and agencies that provide evidence-based or evidence-informed treatment,
- Help inform and build skills among law enforcement and other relevant partners, and
- Collaborate to build community response.

### **Staff Development**

Charter School, along with its partners, has carefully reviewed available staff training to ensure it promotes the mental health model of suicide prevention and does not encourage the use of the stress model to explain suicide.

Training shall be provided for all school staff members. It may also be provided, when appropriate, for other adults on campus (such as substitutes and intermittent staff, volunteers, interns, tutors, coaches, and afterschool staff). Training shall include the following:

1. All suicide prevention trainings shall be offered under the direction of mental health professionals (e.g., school counselors, school psychologists, healthy youth school therapist, other public entity professionals, such as psychologists or social workers) who have received advanced training specific to suicide. Charter School has collaborated with [Insert Names of One Or More County and/or Community Mental Health Agencies] to review the training materials and content to ensure it is evidence-based, evidence-informed, and aligned with best practices.
2. Staff training may be adjusted year-to-year based on previous professional development activities and emerging best practices.
3. Charter School shall ensure that training is available for new hires during the school year.
4. At least annually, all staff shall receive training on the risk factors and warning signs of suicide, suicide prevention, intervention, referral, and postvention.
5. At a minimum, all staff shall participate in training on the core components of suicide prevention (identification of suicide risk factors and warning signs, prevention, intervention, referral, and postvention) at the beginning of their employment or annually. Core components of the general suicide prevention training shall include:
  - a. Suicide risk factors, warning signs, and protective factors.
  - b. How to talk with a student about thoughts of suicide.
  - c. How to respond appropriately to the youth who has suicidal thoughts. Such responses shall include constant supervision of any student judged to be at risk for suicide and an immediate referral for a suicide risk assessment.

- d. Emphasis on immediately referring (same day) any student who is identified to be at risk of suicide for assessment while staying under constant monitoring by staff member.
  - e. Emphasis on reducing stigma associated with mental illness and that early prevention and intervention can drastically reduce the risk of suicide.
  - f. Reviewing the data annually to look for any patterns or trends of the prevalence or occurrence of suicide ideation, attempts, or death. Data from the California School Climate, Health, and Learning Survey (Cal-SCHLS) should also be analyzed to identify school climate deficits and drive program development. See the Cal-SCHLS Web site at <http://cal-schls.wested.org/>.
  - g. Information regarding groups of students judged by the school, and available research, to be at elevated risk for suicide. These groups include, but are not limited to, the following:
    - i. Youth affected by suicide.
    - ii. Youth with a history of suicide ideation or attempts.
    - iii. Youth with disabilities, mental illness, or substance abuse disorders.
    - iv. Lesbian, gay, bisexual, transgender, or questioning youth.
    - v. Youth experiencing homelessness or in out-of-home settings, such as foster care.
    - vi. Youth who have suffered traumatic experiences.
    - vii. [Charter School may Insert other Local Youth Populations Vulnerable to Depression and Suicide].
6. In addition to initial orientations to the core components of suicide prevention, ongoing annual staff professional development for all staff may include the following components:
- a. The impact of traumatic stress on emotional and mental health.
  - b. Common misconceptions about suicide.
  - c. Charter School and community suicide prevention resources.
  - d. Appropriate messaging about suicide (correct terminology, safe messaging guidelines).
  - e. The factors associated with suicide (risk factors, warning signs, protective factors).
  - f. How to identify youth who may be at risk of suicide.
  - g. Appropriate ways to interact with a youth who is demonstrating emotional distress or is suicidal. Specifically, how to talk with a student about their thoughts of suicide and (based on Charter School guidelines) how to respond to such thinking; how to talk with a student about thoughts of suicide and appropriately respond and provide support based on Charter School guidelines.
  - h. Charter School-approved procedures for responding to suicide risk (including multi-tiered systems of support and referrals). Such procedures should emphasize that the suicidal student should be constantly supervised until a suicide risk assessment is completed.

- i. Charter School-approved procedures for responding to the aftermath of suicidal behavior (suicidal behavior postvention).
- j. Responding after a suicide occurs (suicide postvention).
- k. Resources regarding youth suicide prevention.
- l. Emphasis on stigma reduction and the fact that early prevention and intervention can drastically reduce the risk of suicide.
- m. Emphasis that any student who is identified to be at risk of suicide is to be immediately referred (same day) for assessment while being constantly monitored by a staff member.

### **Specialized Professional Development for School-based Mental Health Staff (Screening and/or Assessment)**

Additional professional development in suicide risk assessment (SRA) and crisis intervention is provided to designated student mental health professionals, including but not limited to school counselors, psychologists, healthy youth school therapist, social workers, administrators, and nurses employed by Charter School. Training for these staff is specific to conducting SRAs, intervening during a crisis, de-escalating situations, interventions specific to preventing suicide, making referrals, safety planning, and re-entry.

Specialized Professional Training for targeted School-based mental health staff includes the following components:

- Best practices and skill building on how to conduct an effective suicide risk screening/SRA using an evidence-based, Charter-approved tool; Patient Health Questionnaire 9 (PHQ-9) Depression Scale; BSS Beck Scale for Suicide Ideation ; National Institute of Mental Health (NIMH)'s Ask Suicide-Screening Questions (ASQ) Toolkit; and the Adolescent Suicide Assessment Protocol – 20.
- Best practices on approaching and talking with a student about their thoughts of suicide and how to respond to such thinking, based on district guidelines and protocols.
- Best practices on how to talk with a student about thoughts of suicide and appropriately respond and provide support based on district guidelines and protocols.
- Best practices on follow up with parents/caregivers.
- Best practices on re-entry.

### **Virtual Screenings for Suicide Risk**

Virtual suicide prevention efforts include checking in with all students, promoting access to school and community-based resources that support mental wellbeing and those that address mental illness and give specific guidance on suicide prevention.

Charter School has established a protocol for assigning school staff to connect with students during distance learning and school closures. In the event of a school closure, Charter School has determined a process and protocols to establish daily or regular contact with all students. Staff understand that any concern about a student's emotional wellbeing and/or safety must be communicated to the appropriate school staff, according to Charter School protocols.

Charter School has determined a process and protocols for school-based mental health professionals to establish regular contact with high-risk students, students who are on their caseloads, and those who are identified by staff as demonstrating need. When connecting with students, staff are directed to begin each conversation by identifying the location of the student and the availability of parents or caregivers. This practice allows for the staff member to ensure the safety of the student, particularly if they have expressed suicidal thoughts.

#### **Employee Qualifications and Scope of Services**

Employees of the Charter School must act only within the authorization and scope of their credential or license. While it is expected that school professionals are able to identify suicide risk factors and warning signs, and to prevent the immediate risk of a suicidal behavior, treatment of suicidal ideation is typically beyond the scope of services offered in the school setting. In addition, treatment of the mental health challenges often associated with suicidal thinking typically requires mental health resources beyond what schools are able to provide.

#### **Parents, Guardians, and Caregivers Participation and Education**

1. Parents/guardians/caregivers may be included in suicide prevention efforts. At a minimum, the Charter School shall share this Policy with parents/guardians/caregivers by notifying them where a complete copy of the policy is available.

This Suicide Prevention Policy shall be easily accessible and prominently displayed on the Charter School Web page and included in the parent handbook.

2. Parents/guardians/caregivers should be invited to provide input on the development and implementation of this policy.
3. Charter School shall establish and widely disseminate a referral process to all parents/guardians/caregivers/families, so they are aware of how to respond to a crisis and are knowledgeable about protocols and school, community-based, and crisis resources.
4. Community-based organizations that provide evidence-based suicide-specific treatments shall be highlighted on the Charter School's website with treatment referral options marked accordingly.
5. Staff autoreplies during vacations or absences shall include links to resources and phone/text numbers so parents and students have information readily available.
6. All parents/guardians/caregivers may have access to suicide prevention training that addresses the following:
  - a. Suicide risk factors, warning signs, and protective factors.

b. How to talk with a student about thoughts of suicide.

How to respond appropriately to the student who has suicidal thoughts. Such responses shall include constant supervision of any student judged to be at risk for suicide and referral for an immediate suicide risk assessment.

c. Charter School's referral processes and how they or their children can reach out for help, etc.

7. Parents/guardians/caregivers are reminded that the Family Educational Rights and Privacy Act ("FERPA") generally protects the confidentiality of student records, which may sometimes include counseling or crisis intervention records. However, FERPA's health or safety emergency provision permits the disclosure of personally identifiable information from a student's education records, to appropriate parties, in order to address a health or safety emergency when the disclosure is necessary to protect the health or safety of the student or other individuals.

### **Student Participation and Education**

Messaging about suicide has an effect on suicidal thinking and behaviors. Consequently, Charter School along with its partners has carefully reviewed and will continue to review all materials and resources used in awareness efforts to ensure they align with best practices for safe messaging about suicide. Suicide prevention strategies may include, but not be limited to, efforts to promote a positive school climate that enhances students' feelings of connectedness with Charter School and is characterized by caring staff and harmonious interrelationships among students.

Charter School's instructional and student support program shall promote the healthy mental, emotional, and social development of students including, but not limited to, the development of problem-solving skills, coping skills, and resilience. The instruction shall not use the stress model to explain suicide.

Charter School's instructional curriculum may include information about suicide prevention, as appropriate or needed. If suicide prevention is included in the Charter School's instructional curriculum, it shall consider the grade level and age of the students and be delivered and discussed in a manner that is sensitive to the needs of young students. Under the supervision of an appropriately trained individual acting within the scope of her/his credential or license, students shall:

1. Receive developmentally appropriate, student-centered education about the warning signs of mental health challenges and emotional distress. The content of the education may include:
  - a. Coping strategies for dealing with stress and trauma.
  - b. How to recognize behaviors (warning signs) and life issues (risk factors) associated with suicide and mental health issues in oneself and others.

- c. Help-seeking strategies for oneself and others, including how to engage school-based and community resources and refer peers for help.
- d. Emphasis on reducing the stigma associated with mental illness and the fact that early prevention and intervention can drastically reduce the risk of suicide.

2. Receive developmentally appropriate guidance regarding Charter School's suicide prevention, intervention, and referral procedures.

Student-focused suicide prevention education can be incorporated into classroom curricula (e.g., health classes, orientation classes, science, and physical education).

Charter School will support the creation and implementation of programs and/or activities on campus that raise awareness about mental wellness and suicide prevention (e.g., Mental Health Awareness Week, Peer Counseling, Freshman Success, and National Alliance on Mental Illness on Campus High School Clubs).

Charter School maintains a list of current student trainings and is available upon request. Charter School has shared school-based supports and self-reporting procedures, so students are able to seek help if they are experiencing thoughts of suicide or if they recognize signs with peers. Although confidentiality and privacy are important, students should understand safety is a priority and if there is a risk of suicide, school staff are required to report. Charter-based mental health professionals are legally and ethically required to report suicide risk. **When reporting suicidal ideation or an attempt, school staff must maintain confidentiality and only share information limited to the risk or attempt.**

Charter School shall establish and widely disseminate a referral process to all students, so they know how to access support through school, community-based, and crisis services. Students shall be encouraged to notify a staff member when they are experiencing emotional distress or suicidal ideation, or when they have knowledge or concerns of another student's emotional distress, suicidal ideation, or attempt.

**Intervention and Emergency Procedures**

Whenever a staff member suspects or has knowledge of a student's suicidal intentions, they shall promptly notify the primary designated suicide prevention liaison. If this primary suicide prevention liaison is unavailable, the staff shall promptly notify the secondary suicide prevention liaison.

The suicide prevention liaison shall immediately notify the Executive Director or designee, who shall then notify the student's parent/guardian as soon as possible if appropriate and in the best interest of the student. Determination of notification to parents/guardians/caregivers should follow a formal initial assessment to ensure that the student is not endangered by parental notification.

The suicide prevention liaison shall also refer the student to mental health resources at Charter School or in the community.

When a student is in imminent danger (has access to a gun, is on a rooftop, or in other unsafe conditions), a call shall be made to 911. The call shall NOT be made in the presence of the student and the student shall not be left unsupervised. Staff shall NOT physically restrain or block an exit.

When a suicide attempt or threat is reported on campus or at a school-related activity, the suicide prevention liaison shall, at a minimum:

1. Ensure the student's physical safety by one or more of the following, as appropriate:
  - a. Securing immediate medical treatment if a suicide attempt has occurred.
  - b. Securing law enforcement and/or other emergency assistance if a suicidal act is being actively threatened.
  - c. Keeping the student under continuous adult supervision until the parent/guardian and/or appropriate support agent or agency can be contacted and has the opportunity to intervene.
  - d. Remaining calm, keeping in mind the student is overwhelmed, confused, and emotionally distressed.
  - e. Moving all other students out of the immediate area.
  - f. Not sending the student away or leaving him/her alone, even to go to the restroom.
  - g. Providing comfort to the student, listening and allowing the student to talk and being comfortable with moments of silence.
  - h. Promising privacy and help, but not promising confidentiality.
2. Document the incident in writing as soon as feasible.
3. Follow up with the parent/guardian and student in a timely manner to provide referrals to appropriate services as needed and coordinate and consult with the county mental health plan if a referral is made for mental health or related services on behalf of a student who is a Medi-Cal beneficiary. **Determination of notification to parents/guardians/caregivers should follow a formal initial assessment to ensure that the student is not endangered by parental notification.**
4. After a referral is made, Charter School shall verify with the parent/guardian that the follow up treatment has been accessed. Parents/guardians will be required to provide documentation of care for the student. If parents/guardians refuse or neglect to access treatment for a student who has been identified to be at risk for suicide or in emotional distress, the suicide prevention liaisons shall meet with the parent to identify barriers to treatment (e.g., cultural stigma, financial issues) and work to rectify the

situation and build understanding of care. If follow up care is still not provided, Charter School may contact Child Protective Services.

5. Provide access to counselors or other appropriate personnel to listen to and support students and staff who are directly or indirectly involved with the incident at Charter School.
6. Provide an opportunity for all who respond to the incident to debrief, evaluate the effectiveness of the strategies used, and make recommendations for future actions.

In the event a suicide occurs or is attempted on the Charter School campus, the suicide prevention liaison shall follow the crisis intervention procedures contained in Charter School's safety plan. After consultation with the Executive Director or designee and the student's parent/guardian about facts that may be divulged in accordance with the laws governing confidentiality of student record information, the Executive Director or designee may provide students, parents/guardians, and staff with information, counseling, and/or referrals to community agencies as needed. Charter School staff may receive assistance from Charter School counselors or other mental health professionals in determining how best to discuss the suicide or attempted suicide with students.

In the event a suicide occurs or is attempted off the Charter School campus and unrelated to school activities, the Executive Director or designee shall take the following steps to support the student:

1. Contact the parent/guardian and offer support to the family.
2. Discuss with the family how they would like Charter School to respond to the attempt while minimizing widespread rumors among teachers, staff, and students.
3. Obtain permission from the parent/guardian to share information to ensure the facts regarding the crisis are correct.
4. The suicide prevention liaisons shall handle any media requests.
5. Provide care and determine appropriate support to affected students.
6. Offer to the student and parent/guardian steps for re-integration to school. Re-integration may include obtaining a written release from the parent/guardian to speak with any health care providers; conferring with the student and parent/guardian about any specific requests on how to handle the situation; informing the student's teachers about possible days of absences; allowing accommodations for make-up work (being understanding that missed assignments may add stress to the student); appropriate staff maintaining ongoing contact with the student to monitor the student's actions and mood; and working with the parent/guardian to involve the student in an aftercare plan;

providing parent's/guardians/caregivers/families local emergency numbers for after school and weekend emergency contacts.

### **Supporting Students during or after a Mental Health Crisis**

Students shall be encouraged through the education program and in Charter School activities to notify a teacher, the Executive Director, another Charter School administrator, psychologist, Charter School counselor, suicide prevention liaisons, or other adult when they are experiencing thoughts of suicide or when they suspect or have knowledge of another student's suicidal intentions. Charter School staff should treat each report seriously, calmly, and with active listening and support. Staff should be non-judgmental to students and discuss with the student, and parent/guardian, about additional resources to support the student.

### **Responding After a Suicide Death (Postvention)**

A death by suicide in the school community (whether by a student or staff member) can have devastating consequences on the school community, including students and staff. Charter School shall follow the below action plan for responding to a suicide death, which incorporates both immediate and long-term steps and objectives:

The suicide prevention liaison shall:

1. Coordinate with the Executive Director to conduct an initial meeting of the Suicide Prevention Crisis Team to:
 
  - a. Confirm death and cause.
  - b. Identify a staff member to contact deceased's family (within 24 hours).
  - c. Enact the Suicide Postvention Response.
  - d. Notify all staff members (ideally in-person or via phone, not via e-mail or mass notification).
2. Coordinate an all-staff meeting, to include:
 
  - a. Notification (if not already conducted) to staff about suicide death.
  - b. Emotional support and resources available to staff.
  - c. Notification to students about suicide death and the availability of support services (if this is the protocol that is decided by administration).
  - d. Share information that is relevant and that which you have permission to disclose.
3. Prepare staff to respond to needs of students regarding the following:
 
  - a. Review of protocols for referring students for support/assessment.
  - b. Talking points for staff to notify students.
  - c. Resources available to students (on and off campus).

4. Identify students significantly affected by suicide death and other students at risk of imitative behavior, and refer them to a school-based mental health professional.
5. Identify students affected by suicide death but not at risk of imitative behavior.
6. Communicate with the larger school community about the suicide death. Staff shall not share explicit, graphic, or dramatic content, including the manner of death.
7. Consider funeral arrangements for family and school community.
8. Respond to memorial requests in respectful and non-harmful manner; responses should be handled in a thoughtful way and their impact on other students should be considered.
9. Identify media spokesperson if needed.
10. Ensure that all communications, documents, materials related to messaging about suicide avoid discussing details about method of suicide, avoid oversimplifying (i.e. identifying singular cause of suicide), avoid sensational language, and only includes clear, respectful, people-first language that encourages an environment free of stigma. As part of safe messaging for suicide, we use specific terminology when referring to actions related to suicide or suicidal behavior:

<b>Use</b>	<b>Do Not Use</b>
<b><u>"Died by suicide"</u></b> <b>or</b> <b><u>"Took their own life"</u></b>	<b><u>"Committed suicide"</u></b> <b>Note:</b> Use of the word "commit" can imply crime/sin
<b><u>"Attempted suicide"</u></b>	<b><u>"Successful" or "unsuccessful"</u></b> <b>Note:</b> There is no success, or lack of success, when dealing with suicide

11. Include long-term suicide postvention responses:
  - a. Consider important dates (i.e., anniversary of death, deceased birthday, graduation, or other significant event) and how these will be addressed.
  - b. Support siblings, close friends, teachers, and/or students of deceased.
  - c. Consider long-term memorials and how they may impact students who are emotionally vulnerable and at risk of suicide.

**Student Identification Cards**

Charter School will include the telephone numbers on all student identification cards:

- National Suicide Prevention Lifeline/Suicide Crisis Lifeline:

- Call or Text "988"

### **Prevention and Instruction**

Suicide prevention strategies may include, but not be limited to, efforts to promote a positive school climate that enhances students' feelings of connectedness with the Charter School and is characterized by caring staff and harmonious interrelationships among students.

The Charter School's instructional and student support program shall promote the healthy mental, emotional, and social development of students including, but not limited to, the development of problem-solving skills, coping skills, and resilience.

The Executive Director or designee may offer parents/guardians education or information which describes the severity of the youth suicide problem, the Charter School's suicide prevention efforts, risk factors and warning signs of suicide, basic steps for helping suicidal youth, reducing the stigma of mental illness, and/or school and community resources that can help youth in crisis. California Department of Education youth suicide prevention information can be found at: <http://www.cde.ca.gov/lr/cg/mh/suicideprevres.asp>

This Suicide Prevention Policy shall be easily accessible and prominently displayed on the Charter School Web page.

The Charter School's instructional curriculum may include information about suicide prevention, as appropriate or needed, taking into consideration the grade level and age of the students. If offered or included in the Charter School's instructional curriculum, suicide prevention instruction shall be designed to help students:

1. Identify and analyze signs of depression and self-destructive behaviors and understand how feelings of depression, loss, isolation, inadequacy, and anxiety can lead to thoughts of suicide.
2. Identify alternatives to suicide and develop coping and resiliency skills.
3. Learn to listen, be honest, share feelings, and get help when communicating with friends who show signs of suicidal intent.
4. Identify trusted adults, school resources, and/or community crisis intervention resources where youth can get help and recognize that there is no stigma associated with seeking mental health, substance abuse, gender identity, or other support services.

### **Staff Development**

Suicide prevention training for staff may be designed to help staff identify and find help for students at risk of suicide. Materials approved by the Charter School for training shall include how to identify appropriate mental health services, at school facilities and within the larger community, and when and how to refer youth and their families to those services. The training may be offered under the discretion of the Executive Director and/or Governing Board and/or in cooperation with one or more community mental health agencies and may include information on:

1. Research identifying risk factors, such as previous suicide attempt(s), history of depression or mental illness, substance abuse problems, family history of suicide or violence, feelings of isolation, interpersonal conflicts, a recent severe stressor or loss, family instability, and other factors.
2. Warning signs that may indicate suicidal intentions, including changes in students' appearance, personality, or behavior.
3. Research-based instructional strategies for teaching the suicide prevention curriculum and promoting mental and emotional health.
4. School and community resources and services for students and families in crisis and ways to access them.
5. Charter School procedures for intervening when a student attempts, threatens, or discloses the desire to die by suicide.

### **Intervention and Emergency Procedures**

Whenever a staff member suspects or has knowledge of a student's suicidal intentions, he/she shall promptly notify the Executive Director or designee. The Executive Director or designee shall then notify the student's parent/guardian as soon as possible and may also refer the student to mental health resources at the Charter School or in the community.

When a suicide attempt or threat is reported, the Executive Director or designee shall, at a minimum:

1. Ensure the student's physical safety by one of the following, as appropriate:
  - a. Securing immediate medical treatment if a suicide attempt has occurred;
  - b. Securing law enforcement and/or other emergency assistance if a suicidal act is being actively threatened;
  - c. Keeping the student under continuous adult supervision until the parent/guardian and/or appropriate support agent or agency can be contacted and has the opportunity to intervene.

2. Designate specific individuals to be promptly contacted, for example the school counselor, psychologist, nurse, Executive Director, and/or the student's parent/guardian, and, as necessary, local law enforcement or mental health agencies.
3. Document the incident in writing as soon as feasible.
4. Follow up with the parent/guardian and student in a timely manner to provide referrals to appropriate services as needed.
5. Provide access to counselors or other appropriate personnel to listen to and support students and staff who are directly or indirectly involved with the incident at the school.
6. Provide an opportunity for all who respond to the incident to debrief, evaluate the effectiveness of the strategies used, and make recommendations for future actions.

In the event a suicide occurs or is attempted on the Charter School campus, the Executive Director or designee shall follow the crisis intervention procedures contained in the Charter School's safety plan. After consultation with the Executive Director or designee and the student's parent/guardian about facts that may be divulged in accordance with the laws governing confidentiality of student record information, the Executive Director or designee may provide students, parents/guardians, and staff with information, counseling, and/or referrals to community agencies as needed. Charter School staff may receive assistance from school counselors or other mental health professionals in determining how best to discuss the suicide or attempted suicide with students.

Students shall be encouraged through the education program and in school activities to notify a teacher, Executive Director, another school administrator, psychologist, school counselor, or other adult when they are experiencing thoughts of suicide or when they suspect or have knowledge of another student's suicidal intentions.

#### **Employee Qualifications and Scope of Services**

Employees of the Charter School must act only within the authorization and scope of their credential or license. While it is expected that school professionals are able to identify suicide risk factors and warning signs, and to prevent the immediate risk of a suicidal behavior, treatment of suicidal ideation is typically beyond the scope of services offered in the school setting. In addition, treatment of the mental health challenges often associated with suicidal thinking typically requires mental health resources beyond what schools are able to provide.

A complete copy of the Suicide Prevention Policy is available on the school website.

A homeless youth who is enrolled will have the right to attend classes and participate fully in school activities, including extracurricular activities.

The youth shall be immediately enrolled even if the student lacks records normally required for enrollment (such as previous academic records, records of immunizations, other required health records, proof of residency) or has missed application or enrollment deadlines during any period of homelessness. Records will immediately be requested from the previous school. (42 U.S.C. § 11432(g)(3)(C); Education Code Section 48850(a)(3)(A).)

If the student needs to obtain immunizations or does not possess immunization or other medical records, the Executive Director or designee shall refer the parent/guardian to the Charter School Liaison. Charter School shall ensure that the housing questionnaire is based on the best practices developed by the CDE. Charter School shall annually provide the housing questionnaire to all parents/guardians of students and to all unaccompanied youths at Charter School. The housing questionnaire shall include an explanation of the rights and protections a student has as a homeless child or youth or as an unaccompanied youth. The housing questionnaire shall be available in paper form. The housing questionnaire shall be available in the primary language other than English spoken by fifteen (15) percent or more of the students enrolled at Charter School and shall be translated into other languages upon request of a student's parent/guardian or an unaccompanied youth. Charter School shall collect the completed housing questionnaires and annually report to the CDE the number of homeless children and youths and unaccompanied youths enrolled. (Education Code Section 48851.)

### **Comparable Services**

Each homeless child or youth shall promptly be provided services comparable to services offered to other students in Charter School such as (42 U.S.C. § 11432(g)(4)):

- Educational services for which the child or youth meets eligibility criteria, such as educational programs for students with disabilities and educational programs for students with limited English proficiency
- Programs in ~~career~~-vocational and technical education
- Programs for gifted and talented students
- Charter School nutrition programs

### **Transportation**

In the event that Charter School provides transportation services to all Charter School students, Charter School shall provide comparable transportation services to each homeless child or youth attending Charter School, as noted above. (42 U.S.C. § 11432(g)(4).)

If the Charter School does not otherwise provide transportation services to all Charter School students, Charter School shall ensure that transportation is provided for homeless students to and from Charter School, at the request of the parent or guardian (or Charter

School Liaison), if Charter School is the student's school of origin. (42 U.S.C. § 11432(g)(1)(J).) Transportation provided by Charter School will be adequate and appropriate for the Student's situation, but Charter School does not commit to any one method of transportation for all youth.

### **Professional Development**

All administrators, teachers and employees of Charter School including the Charter School Liaison, will be provided professional development on the identification, services, and sensitivity necessary when dealing with homeless children and youth. The Charter School Liaison will verify that the Charter School is providing the required training to school personnel providing services to youth experiencing homelessness at least annually through the CDE's verification system. (Education Code Section 48852.5(c)(2).)

The Charter School Liaison shall offer training to Charter School certificated and classified employees providing services to students experiencing homelessness, including, but not limited to, teachers, support staff, and other school staff who work with pupils, at least annually relating to:

- (1) Charter School's homeless education program policies; and
- (2) Recognition of signs that pupils are experiencing, or are at risk of experiencing, homelessness.

The Charter School Liaison shall inform such employees of the availability of training and the services the Charter School Liaison provides to aid in the identification and provision of services to students who are experiencing, or are at risk of experiencing, homelessness.

(42 U.S.C. § 11433(d)(3).) All identified or suspected homeless children and youth will be referred to the Charter School Liaison.

### **High School Graduation Requirements**

Homeless students who transfer to the Charter School any time after the completion of their second year of high school shall be exempt from any of the Charter School's graduation requirements that are in excess of the California minimum graduation requirements specified in Education Code section 51225.3 ("additional graduation requirements") unless Charter School makes a finding that the student is reasonably able to complete the Charter School's graduation requirements by the end of the student's fourth year of high school.

To determine whether a homeless student is in their third or fourth year of high school, either the number of credits the student has earned to the date of transfer or the length of the student's school enrollment may be used, whichever will qualify the student for the exemption.

Within thirty (30) calendar days of the date that a student who may qualify for exemption under

the above requirements transfers into the Charter School, the Charter School shall notify the student, the student's educational rights holder, and the Charter School Liaison of the availability of the exemption and whether the student qualifies for an exemption.

The Charter School shall notify students who are exempted from the Charter School's additional graduation requirements and the student's educational rights holder of how any of the requirements that are waived will affect the student's ability to gain admission to a postsecondary educational institution and provide information about transfer opportunities available through the California Community Colleges.

The Charter School shall not require any student who would otherwise be entitled to remain in attendance at the Charter School to accept the exemption from the Charter School's additional graduation requirements or deny the student enrollment in, or the ability to complete, courses for which the student is otherwise eligible. The Charter School shall not revoke an exemption and shall grant an eligible student's request for the exemption at any time if the student qualifies, regardless of whether the student previously declined the exemption. An eligible student's exemption from the Charter School's additional graduation requirements will continue to apply while the student is enrolled in the Charter School or if the student transfers to another school even after the student no longer meets the definition of a homeless child.

The Charter School shall not require or request that a student transfer schools in order to qualify the student for the exemption. Nor shall a student, a student's parent/guardian or educational rights holder, or a student's social worker or probation officer request a transfer solely to qualify for an exemption from the Charter School's additional graduation requirements.

If a student who is exempted from the Charter School's additional graduation requirements completes the California minimum coursework requirements specified in Education Code section 51225.3 before the end of the student's fourth year of high school and would otherwise be entitled to remain in attendance at the Charter School, the Charter School shall not require or request that the student graduate before the end of the student's fourth year of high school.

If the Charter School determines the student is reasonably able to complete the Charter School's graduation requirements by the end of the student's fifth year of high school, the Charter School shall do the following:

1. Inform the student of the student's option to remain at the Charter School for a fifth year to complete the Charter School's graduation requirements.
2. Inform the student, and the educational rights holder for the student, about how remaining in school for a fifth year to complete the Charter School's graduation requirements will affect the student's ability to gain admission to a postsecondary educational institution.
3. Provide information to the student about transfer opportunities available through the

California Community Colleges.

4. Permit the student to stay at the Charter School for a fifth year to complete the Charter School's graduation requirements upon agreement with the student, if the student is 18 years of age or older, or, if the student is under 18 years of age, upon agreement with the educational rights holder for the student.

#### **Acceptance of Course Work**

The Charter School will accept any coursework satisfactorily completed at any public school, a juvenile court school, a school in a country other than the United States, and/or a nonpublic, nonsectarian school or agency by a homeless student.

The Charter School will provide homeless students credit for the partial completion of courses taken while attending a public school, a juvenile court school, a school in a country other than the United States, and/or a nonpublic, nonsectarian school or agency. If the student did not complete the entire course, the Charter School shall not require the student to retake the portion of the course the student completed unless the Charter School, in consultation with the holder of educational rights for the student, finds that the student is reasonably able to complete the requirements in time to graduate from high school. When partial credit is awarded in a particular course, the homeless student shall be enrolled in the same or equivalent course, if applicable, so that the student may continue and complete the entire course. These students shall not be prevented from taking or retaking a course to meet California State University or the University of California admission eligibility requirements.

#### **Notice**

For any homeless student who seeks enrollment at the Charter School, written notice will be provided to the parent/guardian at the time of enrollment and while the student is enrolled at the Charter School in alignment with the law. (42 U.S.C. § 11432(e)(3)(C).)

#### **Annual Policy Review**

The Charter School shall annually review and revise any policies that may act as barriers to the identification of homeless children and youths or the enrollment of homeless children and youths at the Charter School. In reviewing and revising such policies, consideration shall be given to issues concerning transportation, immunization, residency, birth certificates, school records and other documentation, and guardianship. Special attention shall be given to ensuring the identification, enrollment, and attendance of homeless children and youths who are not currently attending school. [Charter School's review of its homeless education program policies shall use resources developed by the CDE and posted on the CDE's internet website and resources developed by homeless education technical assistance centers established using funding from the American Rescue Plan Act of 2021.](#)

**School Website Posting**

Charter School shall ensure that the following information is posted, and updated as necessary, on its internet website:

- The name and contact information of the Charter School Liaison(s) for homeless children and youths.
- The contact information of any employee or contractor that assists the Charter School Liaison in completing the Liaison's duties.
- Specific information regarding the educational rights and resources available to persons experiencing homelessness.

### **Foster and Mobile Youth Liaison**

In order to help facilitate the enrollment, placement, and transfer of Foster and Mobile Youth to the Charter School, the Governing Board shall designate a Foster and Mobile Youth liaison. The Governing Board designates the following position as the Charter School’s liaison for Foster and Mobile Youth:

Ana Maria Rojas  
Equity and Inclusion Administrator  
[arojos@altusschools.net](mailto:arojos@altusschools.net)  
858-678-4818

The Foster and Mobile Youth Liaison shall be responsible for the following:

1. Ensure and facilitate the proper educational placement, enrollment in the Charter School, and checkout from the Charter School foster youth.
2. Ensure proper transfer of credits, records, and grades when ~~Foster and Mobile Youth~~ [foster youth](#) transfer to or from the Charter School.
3. When a foster youth is enrolling in the Charter School, the Foster and Mobile Youth Liaison shall

contact the school last attended by the student within two (2) business days to obtain all academic and other records. The last school attended by the foster youth shall provide all required records to the new school regardless of any outstanding fees, fines, textbooks, or other items or moneys owed to the school last attended. When a foster youth is transferring to a new school, the Foster and Mobile Youth Liaison shall provide the student's records to the new school within two (2) business days of receiving the new school's request, regardless of any outstanding fees, fines, textbooks, or other items or moneys owed to the Charter School.

4. When required by law, notify the foster youth's attorney and the appropriate representative of the county child welfare agency at least ten (10) calendar days preceding the date of the following:
  - a. An expulsion hearing for a discretionary act under the Charter School's charter.

5. As needed, make appropriate referrals to ensure that students in foster care receive necessary special education services and services under Section 504 of the federal Rehabilitation Act of 1973.
6. As needed, ensure that students in foster care receive appropriate school-based services, such as counseling and health services, supplemental instruction, and after-school services.
7. Develop protocols and procedures for creating awareness for Charter School staff, including but not limited to Administrator of Instructional Services, School Coordinator and Student Services Coordinator of the requirements for the proper enrollment, placement, and transfer of foster youth.
8. Collaborate with the county placing agency, social services, probation officers, juvenile court officers, and other appropriate agencies to help coordinate services for the Charter School's foster youth.

9. Monitor the educational progress of foster youth and provide reports to the Equity and Inclusion Officer or designee and the Governing Board based on indicators identified in the Charter School's local control and accountability plan.

This Policy does not grant the Foster and Mobile Youth Liaison authority that supersedes the authority granted under state and federal law to a parent or legal guardian retaining educational rights, a responsible person appointed by the court to represent the child pursuant to Welfare and Institutions Code sections 319, 361 or 726, a surrogate parent, or a foster parent exercising authority under Education Code section 56055. The role of the Foster and Mobile Youth Liaison is advisory with respect to placement options and determination of the school of origin.

### **School Stability and Enrollment**

The Charter School will work with foster youth and their ERH to ensure that each foster youth is placed in the least restrictive educational programs and has access to the academic resources, services, and extracurricular and enrichment activities that are available to all students, including, but not limited to, interscholastic sports. All decisions regarding a foster youth's education and placement will be based on the best interest of the child and shall consider, among other factors, educational stability and the opportunity to be educated in the least restrictive educational setting necessary to achieve academic progress.

Foster youth, currently migratory children, and children of military families have the right to remain in their school of origin if it is their best interest. The Charter School will immediately enroll a foster youth, a currently migratory child, or child of a military family seeking reenrollment in the Charter School as their school of origin.

A foster youth, currently migratory child, or child of a military family who seeks to transfer to the Charter School will be immediately enrolled (subject to the Charter School's capacity, if the Charter School is not the student's school of origin, and pursuant to the procedures stated in the Charter School's charter and Board policy) even if the student has outstanding fees, fines, textbooks, or other items or monies due to the school last attended or is unable to meet normal enrollment documentation or school uniform requirements (e.g. producing medical records or academic records from a previous school).

At the initial detention or placement, or any subsequent change in placement, a foster youth may continue in their school of origin for the duration of the court's jurisdiction. A currently migratory child or child of a military family may continue in their school of origin as long as the student meets the definition of a currently migratory child or child of a military family as described above. Foster youth, currently migratory children, and children of military families have the right to remain in their school of origin following the termination of the court's jurisdiction or termination of the child's status as a currently migratory child or child of a military family, as follows:

1. For students in kindergarten through eighth grade, inclusive, the student will be allowed to continue

in the school of origin through the duration of the academic year in which the student's status changed.

2. For students enrolled in high school, the student will be allowed to continue in the school of origin through graduation.

If the foster youth, currently migratory child or child of a military family is transitioning between school grade levels, the youth shall be allowed to continue in the district of origin in the same attendance area to provide the youth the benefit of matriculating with their peers in accordance with the established feeder patterns of school districts. A student who is transitioning to a middle school or high school shall be allowed to enroll in the school designated for matriculation in another school district.

The Foster and Mobile Youth Liaison may, in consultation with and with the agreement of the foster youth and the ERH for the foster youth, recommend that the foster youth's right to attend the school of origin be waived and the student be enrolled in any district school that the student would otherwise be eligible to attend as a resident of the school district or in the Charter School consistent with current enrollment procedures. All decisions shall be made in accordance with the foster youth's best interests.

Prior to making any recommendation to move a foster youth from their school of origin, the Foster and Mobile Youth Liaison shall provide the foster youth and the foster youth's ERH with a written explanation of the basis for the recommendation and how the recommendation serves the foster youth's best interests.

If any dispute arises regarding a foster youth's request to remain in the Charter School as the foster youth's school of origin, the foster youth have the right to remain in the Charter School pending resolution of the dispute. The dispute shall be resolved in accordance with the existing Charter School dispute resolution process.

### **Transportation**

The Charter School shall not be responsible for providing transportation to allow a foster youth to attend school, unless there is an agreement with a local child welfare agency that the Charter School assumes part or all of the transportation costs in accordance with Section 6312(c)(5) of Title 20 of the United States Code, or unless required by federal law. The Charter School is not prohibited from providing transportation, at its discretion, to allow a foster youth to attend school.

In accordance with Section 6312(c)(5) of Title 20 of the United States Code, the Charter School shall collaborate with local child welfare agencies to develop and implement clear written procedures to address the transportation needs of foster youth to maintain them in their school of origin, when it is in the best interest of the youth.

For any student who has an individualized education program ("IEP"), the student's IEP team will determine if the student requires special education transportation as a related service regardless of the student's status.

### **Effect of Absences on Grades**

The grades of a foster youth shall not be lowered for any absence from the Charter School that is due to either of the following circumstances:

- a. A decision by a court or placement agency to change the student's placement, in which case the student's grades shall be calculated as of the date the student left school.
- b. A verified court appearance or related court-ordered activity.

### **Transfer of Coursework and Credits**

The Charter School shall accept coursework satisfactorily completed by a Foster and Mobile Youth while attending another public school<sup>4</sup>, a juvenile court school, a charter school, a school in a country other than the United States, or a nonpublic, nonsectarian school or agency even if the student did not complete the entire course and shall issue that student full or partial credit for the coursework completed. The credits accepted pursuant to this paragraph shall be applied for enrollment purposes to the same or equivalent course, if applicable, as the coursework completed in the prior public school, juvenile court school, charter school, school in a country other than the United States, or nonpublic, nonsectarian school. For purposes of the official transcript, the credits accepted pursuant to this paragraph shall be added to the credits earned from the same or equivalent course for purposes of calculating the total credits earned for the course but shall separately identify the school and local educational agency in which the credits were earned.

If a Foster and Mobile Youth transfers in or out of Charter School, Charter School shall issue the full and partial credits on an official transcript for the pupil and shall ensure the transcript includes all of the following:

- a. All full and partial credits and grades earned based on any measure of full or partial coursework being satisfactorily completed, including a determination of the days of enrollment or seat time, or both, if applicable, at a school of that local educational agency or a prior local educational agency, or any other public school, juvenile court school, charter school, school in a country other than the United States, or nonpublic, nonsectarian school.
- b. The credits and grades for each school and local educational agency listed separately so it is clear where they were earned.
- c. A complete record of the pupil's seat time, including both period attendance and days of enrollment.

If Charter School has knowledge that the transcript from the transferring local educational agency may not include certain credits or grades for the pupil, it shall contact the prior local educational agency within two business days to request that the prior local educational agency issue full or partial credits pursuant to this

<sup>4</sup> For purposes of coursework completed by a student who is a child of a military family, "public school" includes schools operated by the United States Department of Defense.

paragraph. The prior local educational agency shall issue appropriate credits and provide all academic and other records to Charter School within two business days of the request.

If the Foster and Mobile Youth did not complete the entire course, the student shall be issued partial credit for the coursework completed and shall not be required to retake the portion of the course that the student completed at another school unless the Charter School, in consultation with the student's ERH, finds that the student is reasonably able to complete the requirements in time to graduate from high school. Whenever partial credit is issued to a Foster and Mobile Youth in any particular course, the student shall be enrolled in the same or equivalent course, if applicable, so that the student may continue and complete the entire course.

In no event shall the Charter School prevent a Foster and Mobile Youth from taking or retaking a course to meet the eligibility requirements for admission to the California State University or the University of California.

#### Applicability of Graduation Requirements

To obtain a high school diploma from the Charter School, a student must complete all courses required by the Charter School and fulfill any additional graduation requirements prescribed by the Board. However, Foster and Mobile Youth who transfer to the Charter School any time after the completion of their second year of high school, and students participating in a newcomer program who are in their third or fourth year of high school, shall be exempt from any of the Charter School's graduation requirements that are in excess of the California minimum graduation requirements specified in Education Code section 51225.3 ("additional graduation requirements") unless the Charter School makes a finding that the student is reasonably able to complete the Charter School's graduation requirements by the end of the student's fourth year of high school.

To determine whether a Foster and Mobile Youth is in their third or fourth year of high school, either the number of credits the student has earned to the date of transfer, or the length of the student's school enrollment may be used, whichever will qualify the student for the exemption. For a student participating in a newcomer program, enrollment in grade 11 or 12 based on the average age of students in the third or fourth year of high school may be used to determine whether the student is in their third or fourth year of high school.

Within thirty (30) calendar days of the date that a student who may qualify for exemption under the above requirements transfers into the Charter School, the Charter School shall notify the student, the ERH, and where applicable, the student's social worker or probation

officer, of the availability of the exemption and whether the student qualifies for the exemption. If the Charter School fails to provide timely notice of the availability of the exemption, the Foster and Mobile Youth shall be eligible for the exemption from the additional graduation requirements once notified, even if that notification occurs after the termination of the court's jurisdiction over the student, if the foster youth otherwise qualifies for the exemption.

If a student is exempted from the Charter School's additional graduation requirements pursuant to this Policy and completes the statewide coursework requirements specified in Educational Code section 51225.3 before the end of their fourth year of high school and that student would otherwise be entitled to remain in attendance at the Charter School, the Charter School shall not require or request that the student graduate before the end of their fourth year of high school.

The Equity and Inclusion Officer or designee shall notify a Foster and Mobile Youth and their ERH if the Charter School grants an exemption from the additional graduation requirements, ~~how any requirements that are waived will affect the student's ability to gain admission to a postsecondary educational institution, and shall provide information about transfer opportunities available through the California Community Colleges, and shall consult with the Foster and Mobile Youth and their ERH. The consultation shall include all of the following:~~

- ~~1. Discussion regarding how any of the requirements that are waived may affect the pupil's postsecondary education or vocation plans, including the ability to gain admission to a postsecondary educational institution.~~
- ~~2. Discussion and information about other options available to the pupil, including, but not limited to, a fifth year of high school, possible credit recovery, and any transfer opportunities available through the California Community Colleges.~~
- ~~3. Consideration of the pupil's academic data and any other information relevant to making an informed decision on whether to accept the exemption.~~

A Foster and Mobile Youth who would otherwise be entitled to remain in attendance at the Charter School shall not be required to accept the exemption from additional graduation requirements or be denied enrollment in, or the ability to complete, courses for which the student is otherwise eligible, including courses necessary to attend an institution of higher education, regardless of whether those courses are required for statewide graduation requirements.

~~If an eligible student a Foster and Mobile Youth who was eligible for an exemption and 1) was not properly notified of the availability of the exemption, or 2) is not exempted from additional graduation requirements or has previously declined the exemption~~

pursuant to this Policy, the Charter School shall exempt the student ~~at any time within thirty (30) days of the exemption request~~, if an exemption is requested by the youth and the youth ~~qualifies at one time qualified~~ for the exemption, ~~even if the pupil is no longer a Foster and Mobile Youth or the court's jurisdiction of the pupil has terminated~~. Likewise, if the youth is exempted, the Charter School may not revoke the exemption.

If a Foster and Mobile Youth is exempted from additional graduation requirements pursuant to this section, the exemption shall continue to apply after the termination of the court's jurisdiction over the student or after the termination of circumstances which make the Student eligible while he or she is enrolled in school or if the student transfers to another school, including a charter school, or school district.

The Charter School shall not require or request a Foster and Mobile Youth to transfer schools in order to qualify for an exemption from additional graduation requirements, and no Foster and Mobile Youth or any person acting on behalf of a Foster and Mobile Youth may request a transfer solely to qualify for an exemption from the Charter School's additional graduation requirements.

Upon making a finding that a Foster and Mobile Youth is reasonably able to complete the Charter School's additional graduation requirements within the student's fifth year of high school, the Equity and Inclusion Officer or designee shall:

1. ~~Inform-Consult with~~ the student and the student's ERH of the student's option to remain in school for a fifth year to complete the Charter School's graduation requirements, consistent with the laws regarding continuous enrollment and satisfactory progress for Charter School students over age 19.
2. ~~Inform-Consult with~~ the student and the student's ERH how remaining in school for a fifth year will affect the student's ability to gain admission to a postsecondary educational institution.
3. ~~Provide-Consult with and provide~~ information to the student about transfer opportunities available through the California Community Colleges.
4. Upon agreement with the student or, if the student is under 18 years of age, the ERH, permit the student to stay in school for a fifth year to complete the Charter School's graduation requirements.

Through January 1, 2028, upon making a finding that a Foster and Mobile Youth is not reasonably able to complete the Charter School's additional graduation requirements but is reasonably able to complete state coursework requirements specified in Education

Code Section 51225.3 within the student's fifth year of high school, the Executive Director or designee shall exempt the pupil from Charter School's graduation requirements and provide pupil the option of remaining in school for a fifth (5<sup>th</sup>) year to complete the statewide coursework requirements. Charter School shall consult with the Foster and Mobile Youth and the ERH regarding all of the following:

1. The pupil's option to remain in school for a fifth year to complete the statewide coursework requirements.
2. How waiving the local educational requirements and remaining in school for a fifth year may affect the pupil's postsecondary education or vocation plans, including the ability to gain admission to a institution of higher education.
3. Whether any other options are available to the pupil, including, but not limited to, possible credit recovery, and any transfer opportunities available through the California Community Colleges.
4. The pupil's academic data and any other information relevant to making an informed decision on whether to accept the exemption and option to remain in school for a fifth year to complete the statewide coursework requirements.

If a Foster and Mobile Youth is not eligible for an exemption in the year in which the pupil transfers between schools, because Charter School makes a finding that the pupil is reasonably able to complete Charter School's additional graduation requirements in time to graduate from high school by the end of the pupil's fourth year of high school, then Charter School shall do the following:

- 1) Within the first 30 calendar days of the following academic year, Charter School shall reevaluate eligibility;
- 2) Provide written notice to the pupil, the ERH, and the pupil's social worker or probation officer, if applicable, whether the pupil qualifies for an exemption, based on the course completion status of the pupil at the time of reevaluation, to determine if the pupil continues to be reasonably able to complete Charter School's additional graduation requirements in time to graduate from high school by the end of the pupil's fourth year of high school.
- 3) If, given their course completion status at that time the reevaluation is

conducted, the pupil is not reasonably able to complete Charter School additional graduation requirements in time to graduate from high school by the end of the pupil's fourth year of high school, the Charter School shall:

- i. provide the pupil with the option to receive an exemption from all coursework and other requirements adopted by the governing board body of Charter School that are in addition to the statewide coursework requirements specified in Section 51225.3, or
- ii. to stay in school for a fifth year to complete the Charter School's additional graduation requirements.

Charter School shall provide notification of the availability of these options. The pupil (if not a minor) or the ERH shall have sole discretion whether to accept the exemption, based on the pupil's best educational interests.

If a juvenile court youth satisfies the requirements for high school graduation while enrolled at a juvenile court school but has elected to decline the issuance of the diploma for the purpose of taking additional coursework, the Charter School will not prevent the juvenile court youth from enrolling in the Charter School and pursuing additional coursework if requested by the youth or by the youth's ERH.

#### **Eligibility for Extracurricular Activities**

A student who is in foster care whose residence changes pursuant to a court order or decision of a child welfare worker shall be immediately deemed to meet all residency requirements for participation in interscholastic sports or other extracurricular activities.

#### **Waiver of Fees for Afterschool Programs**

The Charter School shall not charge any student who the Charter School knows is currently in foster care any family fees associated with an After-School Education and Safety ("ASES") Program operated by the Charter School.

#### **Student Records**

When the Charter School receives a transfer request and/or student records request for the educational information and records of a foster youth from a new LEA, the Charter School shall provide these student records within two (2) business days. The Charter School shall compile the complete educational record of the student, including but not limited to a determination of seat time, full or partial credits earned, current classes and grades, immunization, and other records, and, if applicable, a copy of the student's special education records including assessments, IEPs, and/or 504 plans. All requests for student records will be

shared with the Foster and Mobile Youth Liaison, who shall be aware of the specific educational record keeping needs of Foster and Mobile Youth.

In accordance with the Charter School's Educational Records and Student Information Policy, under limited circumstances, the Charter School may disclose student records or personally identifiable information contained in those records to certain requesting parties including but not limited to a foster family agency and state and local authorities within a juvenile justice system, without parental consent.

### **Complaints of Noncompliance**

Complaints of noncompliance with this Policy shall be governed by the Charter School's Uniform Complaint Procedures. A copy of the Uniform Complaint Policy and Procedures is available upon request.

### **Reporting Requirements**

Charter School shall report to the California Department of Education ("CDE") annually on the number of pupils who, for the prior school year, graduated with an exemption from the Charter School's graduation requirements that are in addition to the statewide coursework requirements. This data shall be reported for pupils graduating in the fourth year and fifth year cohorts, and shall be disaggregated by cohort, pupil category, race, and disability status. The CDE shall make this data publicly available on an annual basis aligned with other reporting timelines for the California dashboard graduation data. For purposes of this subdivision, "pupil category" means the categories of pupils identified in the "Definitions" section of this Policy, above.

\*\*\*\*

### **Availability of Complete Policy**

For any Foster and Mobile Youth who enrolls at the Charter School, a copy of the Charter School's complete foster youth policy shall be provided at the time of enrollment. A copy of the complete Policy is available on the school website.

## ***Section 504: Policy, Procedures, and Parent Rights Regarding Identification, Evaluation, and Education***

**Board Policy: 3325**  
**Approved: February 16, 2022**  
**Amended: June 22, 2023**

### **A. SECTION 504 POLICY**

The Board of Directors of Audeo Charter School hereby adopts the Section 504: Policy, Procedures, and Parent Rights Regarding Identification, Evaluation and Education to apply to Audeo Charter School II, Audeo Charter School III, Audeo Valley Charter School, Grossmont Secondary School, Mirus Secondary School and Sweetwater Secondary School hereafter collectively referred to as ("Charter School"). The Governing Board of the Charter School recognizes the need to identify and evaluate students with disabilities in

order to provide them with a free, appropriate public education and its legal responsibility to ensure that “no qualified person with a disability shall, solely by reason of their disability, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.” This Policy and the related administrative regulation has been developed to ensure the implementation of Section 504 of the Rehabilitation Act of 1973 (“Section 504”), and its implementing regulations as amended, which pertains to public schools. The intent is to ensure that all students with disabilities, who are eligible under Section 504, are identified and evaluated and have access to a free, appropriate public education (“FAPE”).

Under Section 504, individuals with physical or mental impairments that substantially limit one or more major life activities, including learning, are entitled to receive regular or special education and/or related aids and services designed to meet their individual needs as adequately as the needs of nondisabled students are met. Major Life Activities include functions such as caring for oneself, performing manual tasks, seeing, hearing, eating, sleeping, walking, standing, lifting, bending, speaking, breathing, learning, reading, concentrating, thinking, communicating, and working, as well as the operation of a major bodily functions, including functions of the immune system, normal cell growth, digestive, bowel, bladder, neurological, brain, respiratory, circulatory, endocrine, and reproductive functions. Students may be disabled and entitled to services under Section 504 even though they are not eligible for services pursuant to the Individuals with Disabilities Education Act Improvement Act of 2004 (“IDEA”).

The Charter School’s Executive Director or designee shall ensure that this policy and set of procedures is implemented and followed. Whenever there is reason to believe that, because of a disability, a student needs regular or special education and/or related aids and services (and the student has not been found eligible under IDEA) that student will be evaluated under this policy’s corresponding procedures.

A Section 504 Team will be convened to determine the student’s need for regular or special education and/or related aids and services. The 504 Team will include persons knowledgeable about the Section 504 standards, the student’s individual needs and school history, the meaning of evaluation data, and placement options. The student’s parent/guardian shall be invited to participate in this 504 Team and shall receive notice of procedural safeguards guaranteed by law.

If Charter School does not assess a student after a parent has requested an assessment, the Charter School shall provide notice of the parent’s/guardian’s procedural safeguards. Charter School shall not retaliate in any way against parents/guardians or students who exercise any rights under the procedural safeguards and/or Section 504.

If the student, due to disability, is found to require regular or special education and/or related aids and services under Section 504, the Section 504 Team shall develop a 504 plan for the provision of such services to the student. The student shall be educated with nondisabled students to the maximum extent appropriate to the student's individual needs. The student's parent/guardian shall be provided a copy of the 504 plan and shall receive notice of procedural safeguards guaranteed by law. Charter School shall periodically review the student's progress and placement.

The Charter School does not discriminate on the basis of disability, or any other characteristic protected under law. Charter School will implement this policy through its corresponding procedures.

Any physiological disorder or condition, cosmetic disfigurement, or anatomical loss affecting one or more of the following body systems: neurological; musculoskeletal; special sense organs; respiratory; including speech organs; cardiovascular; reproductive; digestive; genitor-urinary; hemic and lymphatic; skin; and endocrine; or
  - b. Any mental or psychological disorder, such as intellectual disability, organic brain syndrome, emotional or mental illness, and specific learning disabilities.
8. **504 Coordinator** – The Special Education Coordinator shall serve as the Charter School’s Section 504 Coordinator. The parents or guardians may request a Section 504 due process hearing from or direct any questions or

concerns to the Section 504 Coordinator at (619) 393-2270.

9. **Has a record of such an impairment** - means has a history of, or has been misclassified as having, a mental or physical impairment that substantially limits one or more major life activities.
10. **Is regarded as having an impairment** - means
  - a. An individual meets the requirement of 'being regarded as having such an impairment' if the individual establishes that they have been subjected to an action prohibited under this Act because of an actual or perceived physical or mental impairment whether or not the impairment limits or is perceived to limit a major life activity.
  - b. Being regarded as having an impairment shall not apply to impairments that are transitory and minor. A transitory impairment is an impairment with an actual or expected duration of 6 months or less.

B. Referral, Assessment and Evaluation Procedures

1. Charter School will evaluate any student who, because of disability, needs or is believed to need regular or special education and/or related aids and services.
2. A student may be referred by anyone, including a parent/guardian, teacher, other school employee or community agency, for consideration as to whether the student qualifies as a student with disabilities under Section 504. Requests for evaluation shall be made in writing, and a copy of said request will remain in the student's file regardless of the final determination. This referral should be made to the Section 504 Coordinator who will convene a 504 Team. Any requests made to another Charter School employee will be forwarded to the Section 504 Coordinator.
3. The Charter School has the responsibility to ensure that students with disabilities are evaluated. Therefore, it is important that students who have or may have a disability are referred to the Section 504 Coordinator so that the assessment process is initiated.
4. The 504 Team convened by the Section 504 Coordinator will be composed of the student's parents/guardians and other persons knowledgeable about the student (such as the student's regular education teachers), the student's school history, the student's individual needs (such as a person

knowledgeable about the student's disabling condition), the meaning of evaluation data, the options for placement and services, and the legal requirements for least restrictive environment and comparable facilities.

5. The 504 Team shall promptly consider the referral and determine what assessments are needed in all suspected areas of disability to evaluate whether the student is a student with a disability under Section 504 and what special needs the student may have. The decision regarding what assessments shall be undertaken shall be based on a review of the student's school records (including academic, social and behavioral records), any relevant medical records, and the student's needs. Students requiring assessment shall be provided appropriate assessments administered by qualified assessment specialists.
6. The 504 Team will consider the following information in its evaluation of the student:
  - a. Tests and other evaluation materials that have been validated for the specific purpose for which they are used and are administered by trained personnel;
  - b. Tests and other evaluation materials including those tailored to assess specific areas of educational need and not merely those which are designed to provide a single general intelligence quotient; and
  - c. Tests are selected and administered so as to best ensure that, when a test is administered to a student with impaired sensory, manual, or speaking skills, the test results accurately reflect the student's aptitude or achievement level or whatever factor the test purports to measure, rather than reflecting the student's impaired sensory, manual, or speaking skills (except where those skills are the factors that the test purports to measure.)
7. The evaluation of the student must be sufficient for the 504 Team to accurately and completely describe: (a) the nature and extent of the disabilities; (b) the student's special needs; (c) the impact upon the student's education; and (d) what regular or special education and/or related aids and services are appropriate to ensure that the student receives a free appropriate public education. All significant factors relating to the learning

process for that student, including adaptive behavior and cultural and language background, must be considered. The evaluation may include, but is not limited to, classroom and playground observation, performance-based testing, academic assessment information, and data offered by the student's teachers and parent/guardian.

8. Mitigating measures cannot be considered when evaluating whether or not a student has a substantially limiting impairment. Mitigating measures could include medications, prosthetic devices, assistive devices, or learned behavioral or adaptive neurological modifications a student uses to eliminate or reduce the effects of an impairment.
9. The parents/guardians shall be given an opportunity in advance of 504 Team meetings to examine assessment results and all other relevant records.
10. If a request for evaluation is denied, the 504 Team shall inform the parents/guardians in writing of this decision and of their procedural rights as described below.

C. 504 Plan

1. When a student is identified as having a disability within the meaning of Section 504, the 504 Team shall determine what, if any, services are needed to ensure that the student receives a FAPE.
2. The 504 Team responsible for making the placement decision shall include the parents/guardians and other persons knowledgeable about the child, the meaning of the evaluation data, and the placement options.
3. For each identified eligible student, the 504 Team will develop a 504 Plan describing the student's disability and the regular or special education and/or related aids and services needed. The Plan will specify how the special education and/or related aids and services will be provided to the eligible student and by whom. The 504 Plan will also identify the person responsible for ensuring that all the components of the Plan are implemented.
4. The student's teacher and any other staff who are to provide services to the

student or who are to make modifications in the classroom for the student shall be informed of the services or modifications necessary for the student and, if appropriate, provided a copy of the 504 Plan. A copy of this plan shall be kept in the student's cumulative file in a manner that limits access to those persons involved in the 504 process and/or the provision of services and modifications.

5. The eligible student shall be placed in the regular education environment unless it is demonstrated that the student's needs cannot be met in the regular education environment with supplementary aids and services. The student shall be educated with students who are not disabled to the maximum extent appropriate to their individual needs.
6. The referral, assessment, evaluation, and placement process will be completed within a reasonable time. It is generally not reasonable to exceed fifty (50) school days in completing this process.
7. The parents/guardians shall be notified in writing of the final decision concerning the student's identification as a person with disabilities, the educational program and services to be provided, if any, and of the Section 504 procedural safeguards, as described below, including the right to an impartial hearing to challenge the decision.
8. If the 504 Team determines that the student has a disability but that no special services are necessary for the student, the 504 Plan shall reflect the identification of the student as a person with a disability under Section 504 and shall state the basis for the decision that no special services are presently needed.
9. The 504 Plan shall include a schedule for annual review of the student's needs and indicate that this review may occur more frequently at the request of the parent/guardian or school staff.
10. Charter School shall immediately implement a student's prior 504 Plan, when a student enrolls at the Charter School. Within thirty (30) calendar days of starting school, Charter School shall schedule a 504 Team meeting to review the existing 504 Plan. Charter School shall request a copy of the prior 504 plan from both the prior school and the parent/guardian.

D. Review of the Student's Progress

1. The 504 Team shall monitor the progress of the eligible student and the effectiveness of the student's 504 Plan. According to the review schedule

set out in the student's 504 Plan, the 504 Team shall annually determine whether the services and modifications are appropriate.

2. A reevaluation of the student's needs shall be conducted before any subsequent significant change in placement.

E. Procedural Safeguards

1. Parents/guardians shall be notified in writing of all decisions regarding the identification, evaluation or educational placement of students with disabilities or suspected disabilities. Notifications shall include a statement of their rights to:

- Examine relevant records
- Have an impartial hearing with an opportunity for participation by the parents/guardians and their counsel
- Have the right to file a Uniform Complaint pursuant to Charter School policy
- Seek review in federal court if the parents/guardians disagree with the hearing decision.

2. Notifications shall also set forth the procedures for requesting an impartial hearing. Requests shall be made to the following:

Kirsten Ramirez Henderson  
111 Fletcher Parkway, El Cajon, CA 92020  
(619)-393-2270  
khenderson@altusschools.net

Notifications shall also advise that reimbursement for attorney's fees is available only as authorized by law.

3. The Executive Director or designee shall maintain a list of impartial hearing officers who are qualified and willing to conduct Section 504 hearings. To ensure impartiality, such officers shall not be employed by or under contract with Charter School or any district within the El Dorado Charter SELPA or

the San Diego County Office of Education in any capacity other than that of hearing officer and shall not have any professional or personal involvement that would affect their impartiality or objectivity in the matter.

4. If a parent/guardian disagrees with the identification, evaluation or educational placement of a student with disabilities under Section 504, the parent/guardian may request a hearing to initiate due process procedures. The parent/guardian shall set forth in writing their request for a hearing. A request for hearing should include:
  - The specific decision or action with which the parent/guardian disagrees.
  - The changes to the 504 Plan the parent/guardian seeks.
  - Any other information the parent/guardian believes is pertinent.
5. Within five (5) calendar days of receiving the parent/guardian's request for a hearing, the Charter School may offer the parent/guardian an optional alternative dispute resolution process. However, the timeline for the hearing shall remain in effect unless it is extended by mutual written agreement of the parent/guardian and the Charter School. Alternative dispute resolution options include:
  - Mediation by a neutral third party.
  - Review of the 504 Plan by the Executive Director or designee.
6. Within ten (10) calendar days of receiving the parent/guardian's request, the Executive Director or designee shall select an impartial hearing officer. These 10 days may be extended for good cause or by mutual agreement of the parent/guardian and Executive Director.
7. Within thirty-five (35) calendar days of the selection of the hearing officer, the due process hearing shall be conducted. These thirty-five (35) calendar days may be extended for good cause or by mutual agreement of the parent/guardian and Executive Director.

8. The parent/guardian and the School shall be afforded the rights to:
  - Be accompanied and advised by counsel and by individuals with special knowledge or training related to the individual needs of students who are qualified as having a disability under Section 504.
  - Present written and oral evidence.
  - Question and cross-examine witnesses.
  - Receive written findings by the hearing officer.
9. The hearing officer shall issue a written decision within ten (10) calendar days of the hearing.
10. If desired, either party may seek a review of the hearing officer's decision by a federal court. The decision shall be implemented unless the decision is stayed, modified or overturned by a court.
11. Charter School shall not retaliate in any way against parents/guardians or students who exercise any rights under the procedural safeguards and/or Section 504.

F. Suspension and Expulsion, Special Procedures for Students with Disabilities

Charter School shall follow the suspension and expulsion policy and procedures as set forth in the charter. A student who is qualified for services under Section 504 of the Rehabilitation Act of 1973 is subject to the same grounds for disciplinary action, including suspension and expulsion, and is accorded the same due process procedures applicable to general education students except when federal and state law mandates additional or different procedures. Charter School will follow Section 504 and all applicable federal and state laws when imposing any form of discipline on a student identified as an individual with disabilities or for whom the Charter School has a basis of knowledge of a suspected disability or who is otherwise qualified for such services or protections in accordance to due process to such students. The following procedures shall be followed when a student with a

disability is considered for suspension or expulsion. These procedures will be updated if there is a change in the law.

1. Services During Suspension

Students suspended for more than ten (10) school days in a school year shall continue to receive services so as to enable the student to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the child's 504 Plan; and receive, as appropriate, a functional behavioral assessment ("FBA") and behavioral intervention services and modifications, that are designed to address the behavior violation so that it does not recur. These services may be provided in an interim alternative educational setting.

2. Procedural Safeguards/Manifestation Determination

Within ten (10) school days of a recommendation for expulsion or any decision to change the placement of a child with a disability because of a violation of a code of student conduct, Charter School, the parent, and relevant members of the 504 Team shall review all relevant information in the student's file, including the child's 504 Plan, any teacher observations, and any relevant information provided by the parents to determine:

- a. If the conduct in question was caused by, or had a direct and substantial relationship to, the child's disability; or
- b. If the conduct in question was the direct result of the local educational agency's failure to implement the 504 Plan.

If Charter School, the parent, and relevant members of the 504 Team determine that either of the above is applicable for the child, the conduct shall be determined to be a manifestation of the child's disability.

If Charter School, the parent, and relevant members of the 504 Team make the determination that the conduct was a manifestation of the child's disability, the 504 Team shall:

- a. Conduct an FBA and implement a behavioral intervention plan ("BIP") for such child, provided that Charter School had not conducted such assessment prior to such determination before the behavior that resulted in a change in placement;

- b. If the child has a BIP, review the BIP and modify it, as necessary, to address the behavior; and
- c. Return the child to the placement from which the child was removed, unless the parent and Charter School agree to a change of placement as part of the modification of the BIP.

If Charter School, the parent, and relevant members of the 504 team determine that the behavior was not a manifestation of the student's disability and that the conduct in question was not a result of the failure to implement the 504 Plan, then Charter School may apply the relevant disciplinary procedures to children with disabilities in the same manner and for the same duration as the procedures would be applied to students without disabilities.

3. Appeals

The parent/guardian of a child with a disability under a 504 Plan who disagrees with any decision regarding placement, or the manifestation determination, or if the Charter School believes that maintaining the current placement of the child is substantially likely to result in injury to the child or to others, either party may request to utilize the appeal process outlined in the Procedural Safeguards section of these Procedures.

When an appeal relating to the placement of the student or the manifestation determination has been requested by either the parent or Charter School, the student shall remain in the interim alternative educational setting pending the decision of the hearing officer in accordance with state and federal law, including 20 U.S.C. Section 1415(k), until the expiration of the forty-five (45) day time period provided for in an interim alternative educational setting, unless the parent and Charter School agree otherwise.

4. Special Circumstances

Charter School personnel may consider any unique circumstances on a case-by-case basis when determining whether to order a change in

placement for a child with a disability who violates a code of student conduct.

The Executive Director or designee may remove a student to an interim alternative educational setting for not more than forty-five (45) days without regard to whether the behavior is determined to be a manifestation of the student's disability in cases where a student:

- a. Carries or possesses a weapon, as defined in 18 U.S.C. § 930, to or at school, on school premises, or to or at a school function;
- b. Knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at school, on school premises, or at a school function; or
- c. Has inflicted serious bodily injury, as defined by 20 U.S.C. § 1415(k)(7)(D), upon a person while at school, on school premises, or at a school function.

5. Interim Alternative Educational Setting

The student's interim alternative educational setting shall be determined by the student's 504 Team.

6. Procedures for Students Not Yet Eligible for Special Education Services

A student who has not been identified as an individual with disabilities pursuant to the IDEA 2004 and who has violated Charter School 's disciplinary procedures may assert the procedural safeguards granted under these Procedures only if Charter School had knowledge that the student had a disability before the behavior occurred.

Charter School shall be deemed to have knowledge that the student had a disability if one of the following conditions exists:

- a. The parent/guardian has expressed concern in writing, or orally if the parent/guardian does not know how to write or has a disability that prevents a written statement, to School Coordinator or the Administrator for Instructional Services, or

to one of the child's teachers, that the student is in need of special education or related services.

- b. The parent has requested an evaluation of the child.
- c. The child's teacher, or the special education teacher or the school coordinator, has expressed specific concerns about a pattern of behavior demonstrated by the child, directly to the Special Education Coordinator or to the School Coordinator or to the Administrator for Instructional Services.

If Charter School knew or should have known the student had a disability under any of the three (3) circumstances described above, the student may assert any of the protections available to IDEA 2004-eligible children with disabilities, including the right to stay-put.

If Charter School had no basis for knowledge of the student's disability, it shall proceed with the proposed discipline. Charter School shall conduct an expedited evaluation if requested by the parent/guardian; however, the student shall remain in the education placement determined by Charter School pending the results of the evaluation.

Charter School shall not be deemed to have knowledge of that the student had a disability if the parent has not allowed an evaluation, refused services, or if the student has been evaluated and determined to not be eligible.

If the Executive Director sustains any or all of the allegations, the Executive Director must order the correction or the removal and destruction of the information. The Executive Director or designee must then inform the parent or eligible student of the amendment in writing.

- f. The student's corrected and former names and/or genders.

Charter School shall immediately update a former student's records to include the student's updated legal name or gender if the Charter School receives government-issued documentation demonstrating that the former student's legal name or gender has been changed. ### 3. Hearing to Challenge Education Record

If Charter School denies a parent or eligible student's request to amend an education record, the parent or eligible student may, within thirty (30) days of the denial, request in writing that the parent or eligible student be given the opportunity for a hearing to challenge the content of the student's education record on the grounds that the information contained in the education record is: inaccurate, misleading, or in violation of the privacy rights of the student.

The Board Chair may convene a hearing panel to assist in making determinations regarding educational record challenges provided that the parent has given written consent to release information from the student's records to the members of the panel convened. The hearing panel shall consist of the following persons:

- a. The Administrator of Instructional Services, School Coordinator, or designee of a public school other than the public school at which the record is on file;
- b. A certificated Charter School employee; and
- c. A parent appointed by the Executive Director or by the Board Chair, depending upon who convenes the panel.

The hearing to challenge the education record shall be held within thirty (30) days of the date of the request for a hearing. Notice of the date, time and place of the hearing will be sent by Charter School to the parent or eligible student no later than twenty (20) days before the hearing.

The Administrator for Instructional Services or designee of a public school will serve as the chairman and shall not be required to use formal rules of evidence or procedure. The parent or eligible student will be given a full and fair opportunity to present evidence relevant to the issues relating to the challenge to the education record. The parent or eligible student may also, at their own expense, be assisted or represented by one or more individuals of their choice, including an attorney. The decision of the Board Chair or Executive Director or designee will be based solely on the evidence presented at the hearing and is final. Within thirty (30) days after the conclusion of the hearing, Charter School's decision regarding the challenge will be made in writing and will include a summary of the evidence and the reasons for the decision.

If, as a result of the hearing, Charter School decides that the information is inaccurate, misleading, or in violation of the privacy rights of the student, it will amend the record accordingly and inform the parent or eligible student of the amendment in writing.

If, as a result of the hearing, Charter School decides that the information in the education record is not inaccurate, misleading, or in violation of the privacy rights of the student, it shall inform the parent or eligible student of the right to place a statement in the record commenting on the contested information in the record or stating why they disagree with the decision of Charter School, or both. If Charter School places a statement by the parent

or eligible student in the education records of a student, it will maintain the statement with the contested part of the record for as long as the record is maintained and disclose the statement whenever it discloses the portion of the record to which the statement relates.

**Disclosure Of Education Records And Directory Information**

Charter School must have a signed and dated written consent from the parent or eligible student before releasing any non-directory information from a student's education record except as provided below. The written permission must specify the records that may be disclosed, the purpose of the disclosure and the party or class of parties to whom the disclosure may be made. When disclosure is made pursuant to written permission, the parent or eligible student may request a copy of the disclosed records and Charter School shall provide the requestor with a copy of the records disclosed upon request. Signed and dated written consent may include a record and signature in electronic form if it identifies and authenticates a particular person as the source of the electronic consent and indicates such person's approval of the information contained in the electronic consent.

Charter School will only disclose PII on the condition that the receiving party not disclose the information to any party without the prior written consent of the parent or eligible student and that the receiving party use the information for the purposes for which the disclosure was made. This restriction does not apply to disclosures that fall within the disclosure exceptions listed below. Charter School must maintain the appropriate records related to these disclosure exceptions, as described below. Except for disclosures pursuant to a warrant, judicial order or lawfully issued subpoena, or directory information or to parents or eligible students, Charter School will inform a receiving party of the requirement that the party not disclose the information to any other party without the prior written consent of the parent or eligible student and that the receiving party use it for the purpose for which the disclosure was made. Charter School will make a reasonable attempt to notify the parent or eligible student of the request for records at their last known address, unless the disclosure is initiated by the parent or eligible student. Additionally, Charter School will give the parent or eligible student, upon request, a copy of the record that was disclosed and give the parent or eligible student, upon request, an opportunity for hearing pursuant to Section (IV)(3) above;

4. Certain government officials listed in 20 U.S.C. § 1232g(b)(1) in order to carry out lawful functions;

#### **Solicitation and Disclosure of Student Information for Immigration Purposes**

4. Charter School will not allow school resources or data to be used to create a registry based on race, gender, sexual orientation, religion, ethnicity, or national origin.
5. During the enrollment process:

  - b. Charter School will not inquire specifically about a student's citizenship or immigration status or the citizenship or immigration status of a student's parents or guardians; nor shall personnel seek or require, to the exclusion of other permissible documentation or information, documentation or information that may indicate a student's immigration status, such as a green card, voter registration, a passport, or citizenship papers.
  - c. Charter School will not collect entire social security numbers or cards or a statement that the parent or guardian does not possess a Social Security number for the purposes of enrollment, and failure to provide this information will not bar a student from enrolling or attending Charter School. However, the last four digits of an adult household member's Social Security number may be solicited and/or collected if required to establish eligibility for federal benefit programs such as free or reduced-price meals. This Social Security information will only be collected for the limited purpose of establishing eligibility for federal benefit programs and will not affect student enrollment.
6. Charter School will not release information to third parties for immigration-enforcement purposes, except as required by law or court order. Except for investigations of child abuse, child neglect, or child dependency, or when the subpoena served on the Charter School prohibits disclosure, Charter School shall provide parental or guardian notification of any court orders, warrants, or subpoenas before responding to such requests.

The parent, guardian, or eligible student is not required to sign the consent form. The Charter School may enter into a contract with a third party for the digital storage, management, and retrieval of student records and/or to authorize a third party provider of digital software to access, store, and use student records, provided that the contract meets the requirements of Education Code section 49073.1 and other applicable state and federal laws.

**Record Keeping Requirements**

Charter School will maintain a record of each request for access to and each disclosure of PII from the education records of each student for as long as the records are maintained. For each request, the record must include the following information: the parties who have requested or received the information and the legitimate interests the parties had in requesting or obtaining the information.

For disclosures of PII to institutions that make disclosures of the information on behalf of Charter School in accordance with 34 C.F.R. § 99.33(b), the record must include the names of the additional parties to which the receiving party may disclose the information on behalf of Charter School and the legitimate interests that each of the additional parties has in requesting or obtaining the information.

These record keeping requirements do not apply to requests from or disclosure to parents or eligible students, Charter School officials with a legitimate purpose of inspecting the records, a party with written consent from the parent or eligible student, a party seeking directory information, or a party seeking or receiving the records as directed by a court order or subpoena.

The records relating to disclosures of PII may be inspected by parents and eligible students, Charter School officials (or their assistants) responsible for the custody of the records, and parties authorized by regulations for the purpose of auditing the recordkeeping procedures of Charter School.

Student cumulative records may not be removed from the premises of Charter School, unless the individual removing the record has a legitimate educational interest, and is authorized by the Executive Director, or by a majority of a quorum of the Board of Directors at a duly agendaized meeting. Employees who remove student cumulative records or other student records from the Charter School premises without a legitimate educational interest and authorization may be subject to discipline. Employees are permitted to take student work-product, or other appropriate student records, off premises without authorization for legitimate academic purposes (e.g. grading work-product, assigning credit, reviewing materials for classroom discussion, etc.).

### ***Professional Boundaries: Staff/Student Interaction Policy***

The Board of Directors of Audeo Charter School hereby adopts this Staff/Student Interaction Policy to apply to Audeo Charter School II, Audeo Charter School III, Audeo Valley Charter School, Grossmont Secondary School, and Sweetwater Secondary School, hereafter collectively referred to as "Charter School."

The Governing Board recognizes its responsibility to make and enforce all rules and regulations governing student and employee behavior to bring about the safest and most learning-conducive environment possible.

#### **I. PURPOSE AND SCOPE**

It is the purpose of this policy to provide additional specificity to the standards of conduct embodied in the Charter School code of ethics-related rules and regulations so that staff members clearly understand the prohibitions and behavior boundaries which must govern their conduct towards students. (For purposes of this Policy, staff includes all school employees—certificated or classified; coaches or advisors; full-time or part-time, and independent contractors and volunteers).

The rules of conduct set forth in this Policy are not intended to serve as an exhaustive delineation of requirements, limitations, or prohibitions on staff conduct and activities established by this school. Rather, the components of this Policy serve to:

- (1) Alert staff about some of the more sensitive and often problematic matters involved in faculty/staff student relationships.
- (2) Specify boundaries related to potentially sexual situations and conduct—the crossing of which is contrary to accepted norms of behavior and in conflict with the duties and responsibilities of staff.
- (3) Provide staff members with clear guidance in conducting themselves in a manner that reflects high standards of professionalism. (It is important for Charter School to maintain a school-wide culture in which students and staff understand their responsibilities to report sexual misconduct without fearing that school leaders will betray them if they do. In order to prevent sexual abuse and exploitation, students and staff must know that the administration will investigate reports about possible misconduct.)
- (4) Clarify that improper action will have significant consequences.
- (5) Provide an environment that empowers students to identify actions that appear to have crossed boundaries.

- (6) Define the process that Charter School will use for addressing potential improper conduct.
- (7) Preserve student and staff privacy rights during any pending investigation.

## II. BACKGROUND AND GENERAL POLICY PROVISIONS

Actions by staff members that are inconsistent or in conflict with the values established by Charter School can harm students, staff members, and the school's operation; therefore, such actions are unacceptable. It is the policy of this school that all school staff conduct themselves at all times in a manner that reflects the ethical standards consistent with the rules contained in this Policy and otherwise proclaimed by this school.

The provisions herein are intended to guide all Charter School staff members toward conduct that reflects the high standards of behavior and professionalism required of school staff while defining interaction boundaries between students and staff members.

Misconduct by a staff member disrupt the education of other students, sidetrack the instructional focus of the school, and harm the school's legitimacy—all of which threaten the school's future ability to recruit skilled professionals and maintain a credible operation in the eyes of the community. It is critical that staff members study this Policy thoroughly and behave in ways to avoid even the appearance of misconduct.

While all boundaries and/or situations cannot be addressed in a single policy, the issues delineated herein are among those that can be most problematic for staff members and among those that can have the greatest potential for a negative impact on this school and its community. Staff members should seek guidance in their daily conduct from established policies, procedures, and directives as well as through the guidance and recommendations of school leadership. Although this Policy gives specific, clear direction, it is each staff member's obligation to avoid situations that could prompt suspicion by parents, students, colleagues, or school leaders.

## III. BOUNDARIES

### A. Boundaries Defined

For the purposes of this Policy, the term "boundaries" is defined as acceptable professional behavior by staff members while interacting with a student. Trespassing the boundaries of a student/teacher relationship is deemed an abuse of power and a betrayal of trust.

### B. Acceptable and Unacceptable Behavior

Some activities may seem innocent from a staff member's perspective, but some of these can be perceived as flirtation or sexual insinuation from a student or parent point of view. The purpose of the following lists of acceptable and unacceptable behaviors is not to restrain innocent,

positive relationships between staff and students but to prevent relationships that could lead to, or may be perceived as, inappropriate.

Staff members must understand their own responsibilities for ensuring that they do not cross the boundaries as written in this Policy. Disagreeing with the wording or intent of the established boundaries will be considered irrelevant for any required disciplinary purposes. Thus, it is critical that all staff study this Policy thoroughly and apply its spirit and intent in their daily activities. Although sincere, professional interaction with students fosters the charter mission of implementing "personalized, education programs to facilitate student achievement," student/staff interaction has boundaries regarding the activities, locations, and intentions.

#### **Unacceptable Staff/Student Behaviors (Violations of this Policy)**

This list, and any subsequent lists, are not meant to be all-inclusive, but, rather illustrative of the types of behavior addressed by this Policy.

1. Giving gifts to an individual student that are of a personal and intimate nature.
2. Kissing of ANY kind.
3. Any type of unnecessary physical contact with a student in a private situation.
4. Intentionally being alone with a student away from the school.
5. Making, or participating in, sexually inappropriate comments.
6. Sexual jokes, or jokes/comments with sexual double-entendre.
7. Seeking emotional involvement (which can include intimate attachment) with a student beyond the normative care and concern required of an educator.
8. Listening to or telling stories that are sexually oriented.
9. Discussing inappropriate personal troubles or intimate issues with a student in an attempt to gain their support and understanding.
10. Becoming involved with a student so that a reasonable person may suspect inappropriate behavior.

#### **Unacceptable Staff/Student Behaviors without Parent and Supervisor Permission**

1. Giving students a ride to/from school or school activities without parent permission (only in "emergency" situations).
2. Being alone in a room with a student.
3. Allowing students in your home.

#### **Cautionary Staff/Student Behaviors**

1. Remarks about the physical attributes or physiological development of anyone.
2. Excessive attention toward a particular student.
3. Sending e-mails, text messages, social media responses, or letters to students if the

content is not about school activities.

#### **Acceptable and Recommended Staff/Student Behaviors**

1. Getting parents' written consent for any after-school activity on or off campus (exclusive of tutorials).
2. Obtaining formal approval (site and parental) to take students off school property for activities such as field trips or competitions.
3. E-mails, text-messages, phone conversations, and other communications to and with students must be professional and pertain to school activities or classes. (Communication should be initiated via school-based technology and equipment.)
4. Keeping reasonable space between you and your students.
5. Stopping and correcting students if they cross your own personal boundaries.

9. Involving your supervisor if conflict arises with a student.
10. Informing your supervisor and/or Support Team (coordinators and directors) about situations that have the potential to become more severe.
11. Making detailed notes about an incident that could evolve into a more serious situation later.
12. Recognizing the responsibility to stop unacceptable behavior of students and/or co-workers.
13. Asking another staff member to be present if you will be alone with any student who may have severe social or emotional challenges (and you are not the assigned case educator).
14. Asking another staff member to be present, or within close supervisory distance, when you must be alone with a student.
15. Giving students praise and recognition without touching them in questionable areas; giving appropriate pats on the back, high-five's, and handshakes are appropriate.
16. Keeping your professional conduct a high priority during all moments of student contact.
17. Asking yourself if any of your actions which go contrary to these provisions are worth sacrificing your job and career.

#### **IV. CORPORAL PUNISHMENT**

Corporal punishment shall not be used as a disciplinary measure against any student. Corporal punishment includes the willful infliction of, or willfully causing the infliction of, physical pain on a student.

For purposes of this Policy, corporal punishment does not include an employee's use of force that is reasonable and necessary to protect the employee, students, staff or other persons or to prevent damage to property.

For clarification purposes, the following examples are offered for direction and guidance of Charter School personnel:

A. Examples of PERMITTED actions (NOT corporal punishment)

3. Paddling, swatting, slapping, grabbing, pinching, kicking, or otherwise causing physical pain.

## V. Reporting

When any staff member, parent, or student becomes aware of a staff member having crossed the boundaries specified in this Policy, they should report the occurrence or suspected occurrence to a supervisor and/or Support Team member promptly. All reports shall be confidential. Prompt reporting is essential to protect students, the suspected staff member, any witnesses, and the school as a whole. Staff must also report to the administration any awareness of, or concern about, student behavior that crosses boundaries, or any situation in which a student appears to be at risk for sexual abuse. Please note that employees of the

Charter School are mandated reporters under California state law, and are thus legally bound to report suspected abuse or neglect of a student.

#### **VI. Investigating**

A supervisor and/or Support Team member will promptly investigate and document the investigation of any allegation of inappropriate conduct per this Policy, using such support staff or outside assistance as he or she deems necessary and appropriate under the circumstances. Throughout this fact-finding process, the investigating administrator, and all others privy to the investigation, shall protect the privacy interests of any affected student(s) and/or staff member(s), including any potential witnesses, to the extent practical and appropriate under the law. The investigating supervisor shall promptly notify the Administrator of Instructional Services that an investigation is in progress; the Administrator of Instructional Services, in turn, shall notify the Executive Director of the existence and status of any investigations. Upon completion of any such investigations, the Administrator of Instructional Services shall direct the investigating administrator to report to the Executive Director any conclusions reached. The investigating administrator may consult with Charter School legal counsel, as appropriate, prior to, during, and after conducting any investigation.

#### **VII. Consequences**

Staff members who have violated this Policy will be subject to appropriate disciplinary action, and, where appropriate, will be reported to authorities for potential legal action.

#### **VIII. Training**

This document shall be discussed with and acknowledged by all Charter School employees as part of their initial employment and again, on an annual basis, as part of on-going training for all Charter School employees. A copy of this acknowledgement will be placed into each Charter School employee's personnel folder. In addition, appropriate portions of this Policy and related information will be incorporated into on-going Charter School communications thrust to underscore the continuing importance that Charter School places on student/staff interaction.

## About Our School

Mirus Secondary School (MIRUS) is a public school designed for students who seek an alternative option to the traditional approach to education. Students receive a personalized and rigorous academic experience from a high-quality staff in a safe and supportive environment. As a charter school, MIRUS is a school of choice, with open enrollment policies that serve a diverse student community. The flexible scheduling and around-the-year calendar better serves many students who seek a non-traditional environment in which to learn. Mirus Secondary School serves students in grades 7-12.

### ***Core Competency: Transforming Lives***

#### ***Mission - Why We Exist***

- To implement personalized educational programs to facilitate student achievement.
- To provide a prototype for changing the way teachers teach and students learn in the future.

#### ***Vision - What We Strive to Be***

- An educational option that offers a personalized instructional program that demonstrates positive outcomes for each student.
- A prototype for educational reform that creates instructional, service, organizational, and governance role models.
- A collaboration of efforts that improve the quality of life for students, their families, our employees, and the Southern California community-at-large.

#### ***Values - How We Do Our Work***

- Kids come first.
- Education is personalized, individualized and high quality.
- Highly professional individuals are accountable for their work, and are independent, self-motivated, high-energy people who speak for themselves.
- We create a positive, challenging environment that is centered on teaching and learning.
- People-centered teams focus on supporting quality teaching and learning.
- Manage the school with proven business principles focusing on continuous improvement.
- Performance is measured on a variety of indicators that include productivity, credit ratio, auditability, quality, performance, and commitment to the vision of Mirus Secondary School.

#### **Focus on Academic Teaching and Learning**

Audeo Charter School II, Audeo Charter School III, Audeo Valley Charter School, Grossmont Secondary School, Mirus Secondary School, and Sweetwater Secondary School (“Altus Schools”) which are operated by Audeo Charter School corporation are solely academic in

nature and were originally created as re-directive programs designed for all students seeking a learning approach better suited to their learning style. The development, growth, and expansion of the schools primarily involve the creation of instructional environments. These instructional environments support an individualized and personalized educational template that motivates and engages students. The Altus Schools are designed to be expanded and potentially replicated in a manner consistent with this model sufficiently proven effective.

Extracurricular activities such as sports, proms or other school sponsored dances, yearbooks, class rings, or anything unrelated to academics which may create distractions for students or staff are not a part of the operational design. The schools' sole focus on academics and devotion to nurturing the intrinsic value and confidence gained by the students successfully meeting academic goals that they once thought were beyond their reach, has resulted in notable academic achievements. Such achievements include but are not limited to: exceeding the one-year DASS graduation rates of San Diego County Dashboard Alternative School Status ("DASS")<sup>1</sup> schools and California DASS schools, outperforming comparable DASS schools in California assessments, maintaining a low one-year dropout rate (below 5%), and increasing student confidence within 90 days of enrollment.

The confidence gained by committing time to working directly with Altus instructional staff, coupled with the support of family and community, leaves students better equipped to make good life decisions as they pursue positive self-sufficiency, productivity, and positive social relationships, and it is for these reasons that it is the prerogative of the Board to retain the sole focus on academics. Partners of the Altus Schools support this vision and help collaborate to prepare students to better deal with and overcome personal and social constraints that influence their lives.

## Instructional Program

Our school is accredited by the Western Association of Schools and Colleges ("WASC"). At MIRUS, students receive a rigorous curriculum based on the California Common Core standards. We provide University of California ("UC") approved courses for those students planning to attend a UC or California State University ("CSU") school after the completion of high school. Additionally, we offer National Collegiate Athletics Association ("NCAA") - approved courses for students who are interested in pursuing NCAA athletic scholarships. Our "university model" is an excellent preparation for future studies.

---

<sup>1</sup> DASS schools have at least 70% of the school's total enrollment comprised of unduplicated high-risk groups such as: those who have been expelled, credit deficient, highly transient, homeless, pregnant and/or parenting, have gaps in enrollment, recovered dropouts, and/or those who are habitually truant.

The primary method of instruction is independent study supplemented with in-person participation at one of our Resource Centers. Each MIRUS Resource Center location provides a professional, quiet environment for one-on-one learning with a credentialed teacher who is available on-demand. Resource Centers are located at major retail centers or office buildings and may include work-study employment opportunities. Guest speaker events, tutoring, and field trips are also available. These activities are a required part of the curriculum and provide opportunities for basic skills development, career exploration, higher-level thinking skills, interpersonal relationship skills, and enrichment within the core curriculum. This method of instruction is very similar to university studies in which students take one course at a time and are required to take charge of their education.

Upon enrollment, a credentialed "On-Demand" teacher is assigned to each student who, in collaboration with the student and parents, assesses the student's current needs and goals and creates a plan for rapid advancement, focusing solely on one or two subjects at a time. Assigned to each student for a full year or more, the teacher supervises all subjects studied, and is personally held accountable to inspire and produce self-motivated and self-disciplined students who succeed not only academically, but also socially through teamwork and community service. As a result, On-Demand teachers adjust assignments to align with the goals and interests of the student and also personally act as necessary to ensure achievement. For example, if a student is late to an appointment, teachers contact either the student or the parents within minutes to identify and address any needs and teach accountability.

To further support students working on courses in core subject areas (English, mathematics, sciences, social science, and the fine and practical arts), additional certificated teachers with subject-matter expertise are available to students at their assigned Resource Center, via email or telephone within 24 hours.

MIRUS also offers a blended learning option for its students. Blended learning is a formal educational program in which a student learns at least in part through online delivery of content with some element of student control over time, place, path, and pace. This option allows students to complete the majority of their academic coursework at home.

Upon enrollment, a Pathways Personalized Education Plan ("PPEP") is prepared by a school counselor that outlines high school graduation requirements. This PPEP is delivered to the teacher. The student, parents/guardians, and teacher complete the planning with a discussion of the student's short and long-term goals, transcripts from previous schools, learning styles, current interests, academic achievement, career interests, skills development, and standardized test scores. The PPEP is reviewed and updated by the parents, student, and teacher on a regular basis throughout the student's enrollment.

Students study one or two subjects/courses at a time and are expected to complete an average of one course every three-to-four weeks. Within these parameters students can progress at an individualized pace, receiving tutoring or enrichment as needed.

MIRUS students earn course credits and attendance by successfully completing the prescribed lessons that demonstrate mastery of the state standards.

The student's primary academic support person for student success is the teacher. The teacher becomes fully acquainted with his/her students, their families, and other factors that affect their learning and academic success. In addition to the services provided by staff, MIRUS has many partnerships and alliances to provide community resources for students and their families.

### ***Home/School Partnership***

The most important relationship we build is the one between the teacher, student, and the student's family. MIRUS encourages parent/guardian involvement through the monitoring of his/her student's regular and required attendance of Resource Center appointments, completion of high-quality work according to scheduled dates, and attendance on testing days and field trips. With parents actively involved in their student's lives, we can create a successful learning environment.

Two-way communication between all staff and parents is a building block for student success. Teachers are available for parent-student conferences, phone calls, interventions and home visits. In addition, there are scheduled opportunities throughout the year for dialogue. These opportunities include Open House nights, master agreement signings, college information meetings, and senior meetings. A climate that continually promotes open communication and dialogue is expected and supported.

### ***Parent Involvement Policy***

The Charter School aims to provide all students in our school significant opportunity to receive a fair, equitable, and high-quality education, and to close educational achievement gaps while abiding by guidelines within the Elementary and Secondary Education Act ("ESEA"). The Charter School staff recognizes a partnership with families is essential to meet this goal. Our Parent and Family Engagement Policy leverages and promotes active involvement of all families as partners with schools to ensure student success.

#### ***Title I Parent Involvement Policy***

Board Policy #: 6010

Approved: February 22, 2018

Amended: October 20, 2021, June 22, 2023

**Commented [AA1]:** Include most recent copy of Board Policy 6010 (amended 10/20/21)

Mirus Secondary School ("Charter School") recognizes the parents/guardians are their children's first and most influential teachers and the sustained parent involvement in the education of their children contributes greatly to student achievement and a positive school environment. The Executive Director or designee shall work with staff and parents/guardians to develop

meaningful opportunities at all grade levels for parents/guardians to be involved in school activities to support learning at home.

Parents/guardians shall be notified of their rights to be informed about and to participate in their children's education and of the opportunities available to them to do so.

Each year the Executive Director or designee shall identify objectives of the school's parent involvement. He/she shall ensure that parents/guardians are consulted and participate in the planning, design, implementation, and evaluation of the parent involvement program .

The President or designee shall ensure that the parent involvement strategies are established and implemented.

The Title I Parent Involvement Policy was updated and developed in collaboration with parents of Title I students. Parents participated in the development process through surveys and meetings at the Resource Centers. The data collected from parents yielded important feedback on ways to successfully engage parents and improve the parent involvement practices. Parents expressed the following themes:

- Parents can provide input and receive communication from staff through various programs and activities.
- Parents feel involved in their child's education through various programs and activities.
- Parents report having frequent communication with instructional staff.
- Parents want to continue to access resources and trainings on how they can better support their children's achievement and performance at school and at home.
- Parents want to continue to have safe, supportive, and innovative Resource Centers.

These recommendations above are integrated throughout this Title I Parent Involvement Policy and reinforce the core belief that parents are our equal partners in ensuring the success of all students.

The Title I Parent Involvement Policy will be annually distributed to parents by including the policy in the handbook, making the policy available on the website and at the Resource Centers. This Policy describes the means for carrying out the following Title I parental involvement requirements.

#### **Charter School Expectations and Objectives**

In establishing the Charter School's expectations and objectives for meaningful parent and family involvement, Charter School has established the following practices:

    - Teachers are required to reach out to all parents in a variety of methods (in-person, phone, email, text, letters, home visits) to ensure their involvement. In addition, the school provides several Parent Involvement presentations throughout the year through Altus University.
  7. Charter School conducts, with the meaningful involvement of parents and family members, an annual evaluation of strategies to support successful Charter School and family interactions.
    - Staff is in constant communication with parents to review all involvement opportunity and strategies. Teachers are specially trained to involve parents in a variety of ways. The school reviews monthly data on outreach efforts and compares it with academic outcomes to ensure the success of every student. Any modifications in parent outreach and involvement strategies are quickly adopted as appropriate.

    - All parents have the opportunity to participate as a member of the School Site Council. They also have the opportunity to provide feedback directly to school staff in the resource center meetings or through the annual LCAP development process.

**Involvement of Parents in the Title I Program**

To involve parents in the Title I program, the following practices have been established:

1. Conduct an annual meeting to inform parents of Title I students about Title I requirements and about the right of parents to be involved in the Title I program.
  - In the fall, an annual meeting will be held to share with parents a description of the Title I program and its requirements.
2. Offer a flexible number of meetings for Title I parents, such as meetings in the morning or evening.

\*The policy must be updated periodically to meet changing needs of parents and the School. If the School has a process in place for involving parents in planning and designing the School's programs, the school may use that process if it includes adequate representation of parents of Title I children.

#### **Home-School Compact**

The Home-School Compact will be distributed to parents of Title I annually. The compact, which has been jointly developed with parents, outlines how parents, the entire school staff, and students will share the responsibility for improved student academic achievement. It describes specific ways the school and families will partner to help children achieve the State's high academic standards. It addresses the following legally required items, as well as other items suggested by parents of Title I students.

- The Schools responsibility to provide high-quality curriculum and instruction to meet the challenging State academic standards.
- The ways parents will be responsible for supporting their children's learning, volunteering in the Resource Center, and participating, as appropriate, in decisions relating to the education of their children and positive use of extracurricular time.
- The importance of ongoing communication between parents and teachers through, at a minimum, annual parent-teacher conferences; frequent reports on student progress; access to staff; opportunities for parents to volunteer and participate in their child's class; and opportunities to observe Resource Center activities and ensuring regular communication between family members and school staff, and, to the extent practicable, in a language that family members can understand.

\*\*\*\*

A copy of the Charter School's complete Policy is available on the website.

#### ***Attendance, Lessons, and Course Credits***

Unlike traditional schools where attendance is measured by being physically present in a classroom, MIRUS measures attendance by completion of a work product, a student's average daily attendance ("ADA") is determined by the professional judgment of the teacher as it relates to the time spent on the successful completion of each lesson. Students are expected to complete an average of 12 courses every 12 months at an acceptable level of competency to demonstrate learning and proficiency of state standards. To meet this expectation at MIRUS, students should complete an average of 7 assignments per week and complete 1 semester course in 3-to-4 weeks.

A complete copy of MIRUS' Independent Study Policy is available on the school website.

### **Year-round School Year**

MIRUS has a year-round school year that is designed to maximize the amount of days and time that a student is able to earn credits. (See school holiday calendar on the School's website.)

### **Student Assessments**

Students at MIRUS are part of the public school system in the State of California. Participating in the state testing system is a requirement. All students must take state mandated assessments which include the California Assessment of Student Performance and Progress ("CAASPP"), English Language Proficiency Assessments for California ("ELPAC"), and Physical Fitness Test scheduled throughout the school year. Additionally, all students who enroll in our MIRUS program take the school mandated NWEA Measures of Academic Progress ("MAP"). These tests are very critical. They tell us how students are progressing in their learning.

MIRUS staff members are dedicated to making sure students receive the instruction they need to do well on these tests to demonstrate learning. Students are offered many opportunities for special assistance if it is needed. These opportunities include diagnostic assessment and one-to-one tutoring. Please review your student's test results and be sure he or she is working on improving his/her weak areas. It is important that we work together to help your student succeed.

If you have any questions about testing and/or a specific test you may contact your student's teacher. The table below provides basic information about the standardized tests and approximate administration dates. Additional information about state tests is posted on the California Department of Education ("CDE") website at <http://www.cde.ca.gov/ta/tg>.

### **California Assessment of Student Performance and Progress ("CAASPP")**

The School shall annually administer required state testing to the applicable grades (e.g., the CAASPP). [Pursuant to California Education Code Section 60615, parents/guardians may annually submit to the school a written request to excuse their child from any or all the CAASPP assessments. This exemption does not exist for the ELPAC or Physical Fitness Test.](#)

### **NCAA Eligibility**

The NCAA Eligibility Center has launched a new website at [ncaa.org/student-athletes/future](http://ncaa.org/student-athletes/future) to help high school student-athletes successfully transition to college. The enhanced online content gives student-athletes and counselors a broad look at the initial eligibility process and detailed information about common eligibility situations.

The new content is part of the NCAA Eligibility Center's continuing response to customer requests for key pieces of information student-athletes should know as they consider college. Student-athletes are guided through current and upcoming initial eligibility requirements, recruiting guidelines, and timelines for staying on track in high school. Additional webpages address initial eligibility situations unique to international, home-school and non-traditional students.

A wide range of frequently-asked questions addressing issues from academic and amateurism eligibility to high school and core-course review are easily searchable and will be expanded in the future.

To ensure your student is taking the right courses for NCAA eligibility, please contact your student's teacher/counselor.

### **Student Wellness Policy**

Board Policy: 1710

Approved: February 22, 2018

Amended: February 16, 2022, June 22, 2023

Mirus Secondary School ("Charter School") adopts this policy to ensure its commitment to the optimal development of every student. Charter School believes that for students to have the opportunity to achieve personal, academic, developmental and social success, we need to create positive, safe and health-promoting learning environments at every level, in every setting, throughout the school year. This policy may be updated from time to time as required to be in compliance with state law, regulation, or administrative directive.

The Board of Directors of Mirus Education, Inc. hereby adopts this Wellness Policy to apply to Mirus Secondary School, hereafter referred to as "Charter School."

Charter School adopts this policy to ensure its commitment to the optimal development of every student. Charter School believes that for students to have the opportunity to achieve personal, academic, developmental and social success, we need to create positive, safe and health-promoting learning environments at every level, in every setting, throughout the school year. This policy may be updated from time to time as required to be in compliance with state law, regulation, or administrative directive.

Research shows that two components, good nutrition and physical activity before, during and after the school day, are strongly correlated with positive student outcomes. Conversely, less-than-adequate consumption of specific foods including fruits, vegetables and dairy products, is associated with lower grades among students. In addition, students who are physically active through active transport to and from school, recess, physical activity breaks, high-quality physical education and extracurricular activities – do better academically. Finally, there is evidence that adequate hydration is associated with better cognitive performance.

This Policy outlines Charter School's approach to ensuring environments and opportunities for all students to practice healthy eating and physical activity behaviors throughout the school day while minimizing commercial distractions. Specifically, this Policy establishes goals and procedures to ensure that:

- Students in the Charter School have access to healthy foods throughout the school day—both through reimbursable school meals and other foods available throughout the Charter School resource centers—in accordance with Federal and state nutrition standards.
- Students receive quality nutrition education that helps them develop lifelong healthy eating behaviors.

- Students have opportunities to be physically active before, during and after the school day.
- The Charter School engages in nutrition and physical activity promotion and other activities that promote student wellness.
- Charter School staff are encouraged and supported to practice healthy nutrition and physical activity behaviors in and out of school.
- The community is engaged in supporting the work of the Charter School in creating continuity between Charter School and other settings for students and staff to practice lifelong healthy habits.
- The Charter School establishes and maintains an infrastructure for management, oversight, implementation, communication about and monitoring of this Policy and its established goals and objectives.

This Policy applies to all students, faculty, and staff in the Charter School. Specific measurable goals and outcomes are identified within each section below.

This Policy will be assessed and updated as indicated at least every three (3) years, following the triennial assessment.

#### ***Community Involvement, Outreach and Communications***

The Charter School is committed to being responsive to community input, which begins with awareness of the Policy. Charter School will actively communicate ways in which representatives of the Charter School and others can participate in the development, implementation and periodic review and update of this Policy through a variety of means. The Charter School will also inform parents of the improvements that have been made to school meals and compliance with school meal standards, availability of child nutrition programs and how to apply, and a description of and compliance with Smart Snacks in Charter School nutrition standards.

The Charter School will ensure that communications are culturally and linguistically appropriate to the community and accomplished through means similar to other ways that other local schools are communicating important school information with parents.

The Charter School will actively notify the public about the content of, the implementation of, and any updates to the Policy annually, at a minimum. The Charter School will also use these mechanisms to inform the community about the availability of the annual and triennial reports.

All efforts related to obtaining federal, state or association recognition for efforts, or grants/funding opportunities for healthy school environments will be coordinated with and complementary of this Policy, including but not limited to ensuring the involvement of parents and the community.

All Charter School-sponsored events will adhere to this Policy’s wellness guidelines. All Charter School-sponsored wellness events will include physical activity and healthy eating opportunities when appropriate.

### ***Community Partnerships***

The Charter School will continue to develop and enhance its *current efforts* in relationships with community partners (e.g., hospitals, universities/colleges, local businesses, SNAP-Ed providers and coordinators, etc.) in support of this Policy's implementation. Existing and new community partnerships and sponsorships will be evaluated to ensure that they are consistent with this Policy and its goals.

### **Professional Learning**

When feasible, the Charter School will offer annual professional learning opportunities and resources for staff to increase knowledge and skills about promoting healthy behaviors in the classroom and school (e.g., increasing the use of kinesthetic teaching approaches or incorporating nutrition lessons into math class). ### C. Suspension Procedure

Suspensions shall be initiated according to the following procedures:

#### 1. Conference

Suspension shall be preceded, if possible, by a conference conducted by the School Learning Lead or Administrator of Instructional Services or designee with the student and his or her parent/guardian and, whenever practical, the teacher, supervisor or MIRUS SECONDARY SCHOOL employee who referred the student to the School Learning Lead or Administrator of Instructional Services or designee.

The conference may be omitted if the School Learning Lead or Administrator of Instructional Services or designee determines that an emergency situation exists. An "emergency situation" involves a clear and present danger to the lives, safety or health of students or MIRUS SECONDARY SCHOOL personnel. If a student is suspended without this conference, both the parent/guardian and student shall be notified of the student's right to return to school for the purpose of a conference.

At the conference, the student/pupil shall be informed of the reason for the disciplinary action and the evidence against him or her and shall be given the opportunity to present his or her version and evidence in his or her defense, in accordance with Education Code Section 47605(c)(5)(J)(i). This conference shall be held within two (2) school days, unless the student/pupil waives this right or is physically unable to attend for any reason including, but not limited to, incarceration or hospitalization. No penalties may be imposed on a student/pupil for failure of the student/pupil's parent or guardian to attend a conference with MIRUS SECONDARY SCHOOL officials. Reinstatement of the suspended student/pupil shall not be contingent upon attendance by the student/pupil's parent or /guardian at the conference.

## 2. Notice to Parents/Guardians

At the time of the suspension, an administrator or designee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension and the date of return following suspension. This notice shall state the specific offense committed by the student. In addition, the notice may also state the date and time when the student may return to school. If MIRUS SECONDARY SCHOOL officials wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice may request that the parent/guardian respond to such requests without delay.

## 3. Suspension Time Limits/Recommendation for Expulsion

Suspensions, when not including a recommendation for expulsion, shall not exceed five (5) consecutive school days per suspension. Upon a recommendation of expulsion by the School Learning Lead or Administrator of Instructional Services or designee, the student/pupil and the student/pupil's parent/guardian or representative will be invited to a conference to determine if the suspension for the student/pupil should be extended pending an expulsion hearing. In such instances when the Charter School has determined a suspension period shall be extended, such extension shall be made only after a conference is held with the student/pupil or the student/pupil's parents, unless the student/pupil and the student/pupil's parents fail to attend the conference.

This determination will be made by the School Learning Lead or Administrator of Instructional Services or designee upon either of the following: 1) the student/pupil's presence will be disruptive to the education process; or 2) the student/pupil poses a threat or danger to others. Upon either determination, the student/pupil's suspension will be extended pending the results of an expulsion hearing.

## 4. Homework Assignments During Suspension

In accordance with Education Code Section 47606.2(a), upon the request of a parent, a legal guardian or other person holding the right to make education decisions for the student, or the affected student, a teacher shall provide to a student in any of grades 1 to 12, inclusive, who has been suspended from school for two (2) or more school days, the homework that the student would otherwise have been assigned.

In accordance with Education Code Section 47606.2(b), if a homework assignment that is requested pursuant to Section 47606.2(a) and turned into the teacher by the student either upon the student's return to school from suspension or within the timeframe originally prescribed by the teacher, whichever is later, is not graded before the end of the academic term, that assignment shall not be included in the calculation of the student's overall grade in the class.

## D. Authority to Expel

As required by Education Code Section 47605(c)(5)(J)(ii), students recommended for expulsion are entitled to a hearing adjudicated by a neutral officer to determine whether the student should be expelled. The procedures herein provide for such a hearing and the notice of said hearing, as required by law.

A student may be expelled either by the neutral and impartial Board of Directors following a hearing before it or by the neutral and impartial Board of Directors upon the recommendation of a neutral and impartial Administrative Panel, to be assigned by the Board of Directors as needed. The Administrative Panel shall consist of at least three (3) members who are certificated and neither a teacher of the student/pupil nor a member of the Charter School Board of Directors. Each entity shall be presided over by a designated neutral hearing chairperson. The Administrative Panel may recommend expulsion of any student found to have committed an expellable offense, and the Board of Directors shall make the final determination.

#### **E. Expulsion Procedures**

Students recommended for expulsion are entitled to a hearing to determine whether the student should be expelled. Unless postponed for good cause, the hearing shall be held within thirty (30) school days after the School Learning Lead or Administrator of Instructional Services or designee determines that the student/pupil has committed an expellable offense and recommends the student for expulsion.

In the event an Administrative Panel hears the case, it will make a recommendation to the Board for a final decision whether to expel. The hearing shall be held in closed session (complying with all student/pupil confidentiality rules under the Family Educational Rights and Privacy Act "FERPA") unless the student/pupil makes a written request for a public hearing in open session three (3) days prior to the date of the scheduled hearing.

Written notice of the hearing shall be forwarded to the student and the student's parent/guardian at least ten (10) calendar days before the date of the hearing. Upon mailing the notice, it shall be deemed served upon the student/pupil. The notice shall include:

1. The date and place of the expulsion hearing.
2. A statement of the specific facts, charges and offenses upon which the proposed expulsion is based.
3. A copy of MIRUS SECONDARY SCHOOL 's disciplinary rules which relate to the alleged violation.
4. Notification of the student's or parent/guardian's obligation to provide information about the student's status at MIRUS SECONDARY SCHOOL to any other school district or school to which the student seeks enrollment.
5. The opportunity for the student and/or the student's parent/guardian to appear in person or to employ and be represented by counsel or a non-attorney advisor.

6. The right to inspect and obtain copies of all documents to be used at the hearing.
7. The opportunity to confront and question all witnesses who testify at the hearing.
8. The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf including witnesses.

#### **F. Special Procedures for Expulsion Hearings Involving Sexual Assault or Battery Offenses**

MIRUS SECONDARY SCHOOL may, upon a finding of good cause, determine that the disclosure of either the identity of the witness or the testimony of that witness at the hearing, or both, would subject the witness to an unreasonable risk of psychological or physical harm. Upon this determination, the testimony of the witness may be presented at the hearing in the form of sworn declarations that shall be examined only by MIRUS SECONDARY SCHOOL or the hearing officer. Copies of these sworn declarations, edited to delete the name and identity of the witness, shall be made available to the student.

1. The complaining witness in any sexual assault or battery case must be provided with a copy of the applicable disciplinary rules and advised of ~~their his/her~~ right to (a) receive five (5) calendar days' notice of ~~their his/her~~ scheduled testimony; (b) have up to two (2) adult support persons of ~~their his/her~~ choosing present in the hearing at the time ~~the complaining witness testifies, he/she testifies~~, which may include a parent/guardian or legal counsel; and (c) elect to have the hearing closed while testifying.
2. MIRUS SECONDARY SCHOOL must also provide the victim a room separate from the hearing room for the complaining witness' use prior to and during breaks in testimony.
3. At the discretion of the entity conducting the expulsion hearing, the complaining witness shall be allowed periods of relief from examination and cross-examination during which he or she may leave the hearing room.
4. The entity conducting the expulsion hearing may also arrange the seating within the hearing room to facilitate a less intimidating environment for the complaining witness.
5. The entity conducting the expulsion hearing may also limit time for taking the testimony of the complaining witness to the hours ~~the complaining witness he/she~~ is normally in school, if there is no good cause to take the testimony during other hours.
6. Prior to a complaining witness testifying, the support persons must be admonished that the hearing is confidential. Nothing in the law precludes the entity presiding over the hearing from removing a support person whom the presiding person finds is disrupting the hearing. The entity conducting the hearing may permit any one of the support persons for the complaining witness to accompany him or her to the witness stand.
7. If one or both of the support persons is also a witness, MIRUS SECONDARY SCHOOL must present evidence that the witness' presence is both desired by the witness and will be

helpful to MIRUS SECONDARY SCHOOL . The entity presiding over the hearing shall permit the witness to stay unless it is established that there is a substantial risk that the testimony of the complaining witness would be influenced by the support person, in which case the presiding official shall admonish the support person or persons not to prompt, sway, or influence the witness in any way. Nothing shall preclude the presiding officer from exercising his or her discretion to remove a person from the hearing whom he or she believes is prompting, swaying, or influencing the witness.

8. The testimony of the support person shall be presented before the testimony of the complaining witness and the complaining witness shall be excluded from the courtroom during that testimony.
9. Especially for charges involving sexual assault or battery, if the hearing is to be conducted in public at the request of the ~~student/pupil~~ being expelled, the complaining witness shall have the right to have ~~their/his/her~~ testimony heard in a closed session when testifying at a public meeting would threaten serious psychological harm to the complaining witness and there are no alternative procedures to avoid the threatened harm. The alternative procedures may include videotaped depositions or contemporaneous examination in another place communicated to the hearing room by means of closed-circuit television.
1. Evidence of specific instances of a complaining witness' prior sexual conduct is presumed inadmissible and shall not be heard absent a determination by the entity conducting the hearing that extraordinary circumstances exist requiring the evidence be heard. Before such a determination regarding extraordinary circumstance can be made, the witness shall be provided notice and an opportunity to present opposition to the introduction of the evidence. In the hearing on the admissibility of the evidence, the complaining witness shall be entitled to be represented by a parent, legal counsel, or other support person. Reputation or opinion evidence regarding the sexual behavior of the complaining witness is not admissible for any purpose.

#### **G. Record of Hearing**

A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate and complete written transcription of the proceedings can be made.

#### **H. Presentation of Evidence**

While technical rules of evidence do not apply to expulsion hearings, evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. A recommendation by the Administrative Panel to expel must be supported by substantial evidence that the student committed an expellable offense. Findings of fact shall be based solely on the evidence at the hearing. While hearsay evidence is admissible, no decision to expel shall be based solely on hearsay. Sworn declarations may be admitted as

testimony from witnesses of whom the Board or Administrative Panel determines that disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm.

If, due to a written request by the expelled ~~student~~, the hearing is held at a public meeting, and the charge is committing or attempting to commit a sexual assault or committing a sexual battery as defined in Education Code Section 48900, a complaining witness shall have the right to have his or her testimony heard in a session closed to the public.

### **I. Expulsion Decision**

The decision of the Administrative Panel shall be in the form of written findings of fact and a written recommendation to the Board who will make a final determination regarding the expulsion. The final decision by the Board shall be made within ten (10) school days following the conclusion of the hearing. The decision of the Board is final. If the Administrative Panel decides not to recommend expulsion, or the Board of Directors ultimately decides not to expel, the student shall immediately be returned to ~~their~~ educational program.

The Board of Directors may also determine to suspend the enforcement of the expulsion order for a period of not more than one (1) calendar year from the date of the expulsion hearing and return the student to the student's previous educational program under a probationary status and rehabilitation plan to be determined by the Board. During the period of the suspension of the expulsion order, the student is deemed to be on probationary status. The Board of Directors may revoke the suspension of an expulsion order under this section if the student commits any of the enumerated offenses listed above or violates any of the Charter School's rules and regulations governing student conduct. If the Board revokes the suspension of an expulsion order, the student may be expelled under the terms of the original expulsion order. The Board of Directors shall apply the criteria for suspending the enforcement of the expulsion order equally to all students, including individuals with exceptional needs as defined in Education Code Section 56026. The Board of Directors shall further comply with the provisions set forth under Education Code Section 48917, except as otherwise expressly set forth herein.

The School Learning Lead or Administrator of Instructional Services or designee, following a decision of the Board of to expel, shall send written notice of the decision to expel, including the Board's adopted findings of fact, to the student and student's parent/guardian. This notice shall also include the following: a) Notice of the specific offense committed by the student; and b) Notice of the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of the student's status with MIRUS SECONDARY SCHOOL.

The School Learning Lead or Administrator of Instructional Services or designee shall send a copy of the written notice of the decision to expel to the authorizer. This notice shall include the following: a) The student's name b) The specific expellable offense committed by the student.

#### **K. Disciplinary Records**

MIRUS SECONDARY SCHOOL shall maintain records of all student suspensions and expulsions at Charter School. Such records shall be made available to the authorizer upon request.

#### **L. No Right to Appeal**

The ~~student~~~~pupil~~ shall have no right of appeal from expulsion from MIRUS SECONDARY SCHOOL as the Board of Directors' decision to expel shall be final.

#### **M. Expelled ~~Students~~~~Pupils~~/Alternative Education**

~~Parents/guardians of pupils~~~~Students~~ who are expelled shall be responsible for seeking alternative education programs including, but not limited to, programs within the County or their school district of residence. Charter School shall work cooperatively with parents/guardians as requested by parents/guardians or by the school district of residence to assist with locating alternative placements during expulsion.

#### **N. Rehabilitation Plans**

Students who are expelled from MIRUS SECONDARY SCHOOL shall be given a rehabilitation plan upon expulsion as developed by the Board at the time of the expulsion order, which may include, but is not limited to, periodic review as well as assessment at the time of review for readmission. The rehabilitation plan should include a date not later than one year from the date of expulsion when the ~~student~~~~pupil~~ may reapply to MIRUS SECONDARY SCHOOL for readmission.

#### **O. Readmission or Admission of Previously Expelled Student**

The decision to readmit a ~~student~~~~pupil~~ after the end of the student's expulsion term or to admit a previously expelled ~~student~~~~pupil~~ from another school district or MIRUS SECONDARY SCHOOL who has not been readmitted/admitted to another school or school district after the end of the student's expulsion term, shall be in the sole discretion of the Board following a meeting with the School Learning Lead or Administrator of Instructional Services or designee and the ~~student~~~~pupil~~ and parent/guardian or representative to determine whether the ~~student~~~~pupil~~ has successfully completed the rehabilitation plan and to determine whether the ~~student~~~~pupil~~ poses a threat to others or will be disruptive to the school environment. The School Learning Lead or Administrator of Instructional Services or designee shall make a recommendation to the Board following the meeting regarding his or her determination. The Board shall then make a final decision regarding readmission or admission of the student during the closed session of a public meeting, reporting out any action taken during closed session consistent with the requirements of the Brown Act. The ~~student~~~~pupil~~'s readmission is also contingent upon MIRUS SECONDARY SCHOOL 's capacity at the time the student seeks readmission or admission to the Charter School.

**P. Notice to Teachers**

The Charter School shall notify teachers of each student who has engaged in or is reasonably suspected to have engaged in any of the acts listed in Education Code Section 49079 and the corresponding enumerated offenses set forth above.

## 1. Notification of SELPA

MIRUS SECONDARY SCHOOL shall immediately notify the SELPA and coordinate the procedures in this policy with the SELPA of the discipline of any student with a disability or student that MIRUS SECONDARY SCHOOL or the SELPA would be deemed to have knowledge that the student had a disability.

## 2. Services During Suspension

Students suspended for more than ten (10) school days in a school year shall continue to receive services so as to enable the student to continue to participate in the general education curriculum, although in another setting (which could constitute a change of placement and the student's IEP would reflect this change), and to progress toward meeting the goals set out in the child's IEP/504 Plan; and receive, as appropriate, a functional behavioral assessment and behavioral intervention services and modifications, that are designed to address the behavior violation so that it does not recur. These services may be provided in an interim alternative educational setting.

## 3. Procedural Safeguards/Manifestation Determination

Within ten (10) school days of a recommendation for expulsion or any decision to change the placement of a child with a disability because of a violation of a code of student conduct, MIRUS SECONDARY SCHOOL, the parent, and relevant members of the IEP/504 Team shall review all relevant information in the student's file, including the child's IEP/504 Plan, any teacher observations, and any relevant information provided by the parents to determine:

- a. If the conduct in question was caused by, or had a direct and substantial relationship to, the child's disability; or
- b. If the conduct in question was the direct result of the local educational agency's failure to implement the IEP/504 Plan.

If MIRUS SECONDARY SCHOOL, the parent, and relevant members of the IEP/504 Team determine that either of the above is applicable for the child, the conduct shall be determined to be a manifestation of the child's disability.

If MIRUS SECONDARY SCHOOL, the parent, and relevant members of the IEP/504 Team make the determination that the conduct was a manifestation of the child's disability, the IEP/504 Team shall:

- a. Conduct a functional behavioral assessment and implement a behavioral intervention plan for such child, provided that the MIRUS SECONDARY SCHOOL had not conducted such assessment prior to such determination before the behavior that resulted in a change in placement;
- b. If a behavioral intervention plan has been developed, review the behavioral intervention plan if the child already has such a behavioral intervention plan, and modify it, as necessary, to address the behavior; and
- c. Return the child to the placement from which the child was removed, unless the parent/guardian and MIRUS SECONDARY SCHOOL agree to a change of placement as part of the modification of the behavioral intervention plan.

If MIRUS SECONDARY SCHOOL, the parent/guardian, and relevant members of the IEP/504 Team determine that the behavior was not a manifestation of the student's disability and that the conduct in question was not a direct result of the failure to implement the IEP/504 Plan, then MIRUS SECONDARY SCHOOL may apply the relevant disciplinary procedures to children with disabilities in the same manner and for the same duration as the procedures would be applied to students without disabilities.

#### 4. Due Process Appeals

The parent/guardian of a child with a disability who disagrees with any decision regarding placement, or the manifestation determination, or MIRUS SECONDARY SCHOOL believes that maintaining the current placement of the child is substantially likely to result in injury to the child or to others, may request an expedited administrative hearing through the Special Education Unit of the Office of Administrative Hearings or by utilizing the dispute provisions of the 504 Policy and Procedures.

When an appeal relating to the placement of the student or the manifestation determination has been requested by either the parent/guardian or MIRUS SECONDARY SCHOOL, the student shall remain in the interim alternative educational setting pending the decision of the hearing officer in accordance with state and federal law, including 20 USC Section 1415(k), until the expiration of the forty-five (45) day time period provided for in an interim alternative educational setting, unless the parent/guardian and MIRUS SECONDARY SCHOOL agree otherwise.

In accordance with 20 U.S.C. Section 1415(k)(3), if a parent/guardian disagrees with any decision regarding placement, or the manifestation determination, or if the Charter School believes that maintaining the current placement of the child is substantially likely to result in injury to the child or to others, the parent/guardian or Charter School may request a

hearing.

In such an appeal, a hearing officer may: (1) return a child with a disability to the placement from which the child was removed; or (2) order a change in placement of a child with a disability to an appropriate interim alternative educational setting for not more than 45 school days if the hearing officer determines that maintaining the current placement of such child is substantially likely to result in injury to the child or to others.

#### 5. Special Circumstances

MIRUS SECONDARY SCHOOL personnel may consider any unique circumstances on a case-by-case basis when determining whether to order a change in placement for a child with a disability who violates a code of student conduct.

The School Learning Lead or Administrator of Instructional Services or designee may remove a student to an interim alternative educational setting for not more than forty-five (45) school days without regard to whether the behavior is determined to be a manifestation of the student's disability in cases where a student:

- a. Carries or possesses a weapon, as defined in 18 USC 930, to or at school, on school premises, or to or at a school function;
- b. Knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at school, on school premises, or at a school function; or
- c. Has inflicted serious bodily injury, as defined by 20 USC 1415(k)(7)(D), upon a person while at school, on school premises, or at a school function.

#### 6. Interim Alternative Educational Setting

The student's interim alternative educational setting shall be determined by the student's IEP/504 team.

#### 7. Procedures for Students Not Yet Eligible for Special Education Services

A student who has not been identified as an individual with disabilities pursuant to IDEA and who has violated MIRUS SECONDARY SCHOOL 's disciplinary procedures may assert the procedural safeguards granted under this administrative regulation only if MIRUS SECONDARY SCHOOL had knowledge that the student was disabled before the behavior occurred.

MIRUS SECONDARY SCHOOL shall be deemed to have knowledge that the student had a disability if one of the following conditions exists:

- a. The parent/guardian has expressed concern in writing, or orally if the parent/guardian does not know how to write or has a disability that prevents a

written statement, to MIRUS SECONDARY SCHOOL supervisory or administrative personnel, or to one of the child's teachers, that the student is in need of special education or related services.

- b. The parent/guardian has requested an evaluation of the child.
- c. The child's teacher, or other MIRUS SECONDARY SCHOOL personnel, has expressed specific concerns about a pattern of behavior demonstrated by the child, directly to the director of special education or to other MIRUS SECONDARY SCHOOL supervisory personnel.

If MIRUS SECONDARY SCHOOL knew or should have known the student had a disability under any of the three (3) circumstances described above, the student may assert any of the protections available to IDEA-eligible children with disabilities, including the right to stay-put.

If MIRUS SECONDARY SCHOOL had no basis for knowledge of the student's disability, it shall proceed with the proposed discipline. MIRUS SECONDARY SCHOOL shall conduct an expedited evaluation if requested by the parents; however, the student shall remain in the education placement determined by MIRUS SECONDARY SCHOOL pending the results of the evaluation.

MIRUS SECONDARY SCHOOL shall not be deemed to have knowledge that the student had a disability if the parent/guardian has not allowed an evaluation, refused services, or if the student has been evaluated and determined to not be eligible.

### ***Lost or Damaged School Property***

If a student willfully damages the Charter School's property or the personal property of a Charter School employee, or fails to return a textbook, library book, computer/tablet or other Charter School property that has been loaned to the student, the student's parents/guardians are liable for all damages caused by the student's misconduct not to exceed ten thousand dollars (\$10,000), adjusted annually for inflation. After notifying the student's parent or guardian in writing of the student's alleged misconduct and affording the student due process, Charter School may withhold the student's grades, transcripts, and diploma until the damages have been paid. If the student and the student's parent/guardian are unable to pay for the damages or to return the property, Charter School will provide a program of voluntary work for the minor

in lieu of the payment of monetary damages. Upon completion of the voluntary work, the student's grades and diploma will be released.

### ***Parents' Responsibilities***

- Ensure that students get to their scheduled appointment on time. If this is not possible, contact the teacher to arrange an alternate time.
- Hold high expectations for your student, regularly monitor his or her daily work.
- Support school rules and the independent study definition of attendance—students complete school work rather than spending time in the Resource Center.
- Establish a schedule with the student and provide a space for study time at home.
- Arrange for student to attend appropriate field trips and supplemental tutoring sessions.
- Meet with staff when requested, particularly during master agreement signing conferences.
- Participate in decisions related to the education of your student.
- Ensure that students are clothed properly for school and school events.

### **Parents' Role in Discipline and Behavior**

Parents are expected to cooperate with Charter School staff in maintaining and encouraging proper standards of behavior for their children. The following points may prove helpful:

- Instill in your child a sense of responsibility for what he/she says and does.
- Help your child to solve conflicts in a peaceful manner.
- Review your own attitude about discipline and behavior.
- Make sure you communicate with the school to learn necessary facts and expected behavior.
- As a role model for your child, show respect for learning and the necessity for completing an education.

### ***Emergency Procedures and School Safety Plan***

MIRUS Resource Centers have plans and preparations for major emergency situations. We believe that the reactions of people in emergencies depend largely upon their training. Our staff has been trained, and drills are held regularly to make certain that the students understand emergency procedures.

Please assure students that they are as safe at school as they are at home in a serious emergency. The safety and welfare of the students is our primary concern in the event of an emergency. Your child should be instructed to obey the directions of their teachers in general and especially in emergency situation.

MIRUS defines a crisis as any incident that disrupts the educational program and/or affects the emotional stability of students or staff. In the event of a crisis, such as a natural disaster, we ask the following:

- Please do not telephone the school. Telephone lines will be needed for emergency communications.

- Please do not drive to the Resource Center if possible. Streets should be as open as possible for emergency vehicles.
- Listen to your local radio station and news for information and advice.

In conjunction with the National Association for Search and Rescue, we urge every family to make home emergency plans and preparations.

If you have questions about our emergency preparedness program, please contact your teacher. A complete copy of the MIRUS Comprehensive School Safety Plan is available ~~on the school website and~~ at each Resource Center.

### ***School Bus and Passenger Safety***

All students who are transported in a school bus or school student activity bus shall receive instruction in school bus emergency procedures and passenger safety as outlined in the Transportation Safety Plan.

### **Transportation Safety Plan**

Because Mirus Secondary School ("CHARTER SCHOOL" or the "Charter School") provides transportation to CHARTER SCHOOL activity, the Board of Directors ("Board") approved the following transportation safety plan, which contains procedures for Charter School personnel to follow to ensure the safe transportation of students. A copy of this Plan will be kept at each CHARTER SCHOOL and will be made available upon request to an officer of the Department of the California Highway Patrol. Students shall be informed that any violation of Charter School policies and procedures, including violation of safety procedures on a school bus or school activity bus, could result in discipline pursuant to the CHARTER SCHOOL discipline policy.

### **Definitions**

- *"School bus"* is any motor vehicle designed, used, or maintained for the transportation of a Charter School student at or below the grade 12 level to or from Charter School Resource Center or to and from Charter School activities. *"School bus"* does not include a passenger vehicle designed for and when actually carrying not more than 10 persons, including the driver, except any vehicle or truck transporting two or more students who use wheelchairs.

### **Determining Whether a Student Requires an Escort**

If the Resource Center or school activity destination is located on the opposite side of the street of the actual bus stop, then Charter School and California Vehicle Code section 22112(d) require the student to be physically escorted by the bus driver across that street and under the bus drivers’ direction and supervision. The bus driver will be required to activate the school bus red flashing crossover lights and if so equipped, the stop arm, and physically get out of the bus to assist the students safely across the street. Charter School requires ALL students who cross the street, be physically escorted by the bus driver with crossover lights and signs being activated.

### **Procedures for Kindergarten through Eighth Grade Students Regarding Boarding and Exiting the Bus**

**Procedures for All Students to Follow as They Board or Exit a School Bus at CHARTER SCHOOL Resource Center or Other School Activity Location**

#### Exiting Buses at School Site or School Activity Location:

1. Upon arrival at Charter School Resource Center, the driver shall take the bus to the designated student drop off area.
2. Upon reaching the designated area, the driver will park the bus and open the door when it is clear and safe to do so. The flashing red signal lights will not be activated.
3. Upon arrival at the school or school activity destination, the driver will select an area where the bus can be lawfully parked and the boarding/exiting of students can be reasonably controlled.
  - a. The driver will confer with the Charter School teacher/head chaperone regarding the time and location where the group will assemble to reload the bus.
  - b. When it is clear and safe to do so, the driver will have the students disembark the bus. The flashing red signal lights will not be activated.
  - c. When the Charter School teacher/head chaperone has confirmed all students are accounted for, the group may proceed to the trip.
4. Students exiting the bus at either Charter School Resource Center or a school activity location should do so in an orderly, respectful, and appropriate manner, following all instructions from Charter School staff and the bus driver.

3. A Charter School staff member/chaperone shall be the last person to exit the bus at each stop to ensure no students are on left board. Before exiting the bus, the staff member/chaperone will walk up the aisle, checking each seat and area on the floor by each seat to ensure no students are present.
4. Once all students and staff/chaperones have exited the bus, but before leaving for the designated activity, the Charter School teacher/head chaperone will conduct another roll call by calling out each student's name and waiting for verbal and visual confirmation from the student of being present.
5. The Charter School teacher/head chaperone will discuss with the bus driver a way to contact each other in the event it is later discovered a student is still on the bus.

#### **Procedures and Standards for Designating an Adult Chaperone, Other than the Bus Driver, to Accompany Students on a School Activity Bus**

CHARTER SCHOOL shall follow its applicable policies and procedures, including its visitor and volunteer policy, for designating an adult chaperone other than the school bus driver to accompany students on a bus or a school activity bus. ### **School Employees and Parent/Guardian as Chaperones and Drivers (Private Passenger Vehicles)**

As field trips and excursions are an integral part of the Charter School learning experience, parents are encouraged to participate in an assisting role with students. The Executive Director or the coordinating teacher will provide parents and guardians with specific supervisory guidelines prior to any Charter School group trip involving students. Topics to be included are safety regulations, emergency responses, and responsibilities of the parent volunteers and language or behavior requirements of all attendees.

If travel is not by bus, the legal occupancy limit of ten (10) occupants (including the driver) must not be exceeded, all speed notices must be strictly adhered to and students are to be seated with individual seatbelts at all times.

CHARTER SCHOOL shall take reasonable precautions to ensure that all employees and volunteers who transport students are responsible and capable operators of the vehicles to be used and ensure compliance with Driver Requirements as follows:

5. A Department of Motor Vehicles record. Employees or volunteers with driving records with two (2) points or more shall not be permitted to transport students or operate any vehicle for Charter School field trips and excursions.

Each of these items will be provided to the Executive Director or coordinating teacher prior to driving on a field trip or excursion.

Under no circumstances shall students transport other students.

For the employee's/volunteer's safety and that of all the students in his/her car, the following rules apply:

1. All Charter School rules apply to students in the car. Employee/volunteer drivers are free to appropriately manage student behavior as necessary to maintain safety.
2. All California driving laws must be followed including child restraint laws: no texting or distracted driving, hands-free phone use only.

### **Bullying and Cyberbullying Prevention Procedures**

MIRUS has adopted the following procedures for preventing acts of bullying, including cyberbullying.

#### **1. Cyberbullying Prevention Procedures**

MIRUS advises students:

- a. To never share passwords, personal data, or private photos online.
- b. To think about what they are doing carefully before posting and by emphasizing that comments cannot be retracted once they are posted.
- c. That personal information revealed on social media can be shared with anyone including parents, teachers, administrators, and potential employers. Students should never reveal information that would make them uncomfortable if the world had access to it.
- d. To consider how it would feel receiving such comments before making comments about others online.

MIRUS informs Charter School employees, students, and parents/guardians of MIRUS’ policies regarding the use of technology in and out of the classroom. MIRUS encourages parents/guardians to discuss these policies with their children to ensure their children understand and comply with such policies.

#### **2. Education**

MIRUS employees cannot always be present when bullying incidents occur, so educating students about bullying is a key prevention technique to limit bullying from happening. MIRUS advises students that hateful and/or demeaning behavior is inappropriate and unacceptable in our society and at MIRUS and encourages students to practice compassion and respect each other.

Charter School educates students to accept all student peers regardless of protected characteristics (including but not limited to actual or perceived sexual orientation, gender identification, physical or cognitive disabilities, race, ethnicity, religion, and immigration status) and about the negative impact of bullying other students based on protected characteristics.

MIRUS' bullying prevention education also discusses the differences between appropriate and inappropriate behaviors and includes sample situations to help students learn and practice appropriate behavior and to develop techniques and strategies to respond in a non-aggressive way to bullying-type behaviors. Students will also develop confidence and learn how to advocate for themselves and others, and when to go to an adult for help.

MIRUS informs employees, students, and parents/guardians of this Policy and encourages parents/guardians to discuss this Policy with their children to ensure their children understand and comply with this Policy.

### **3. Professional Development**

MIRUS annually makes available the online training module developed by the California Department of Education pursuant Education Code section 32283.5(a) to its certificated employees and all other MIRUS employees who have regular interaction with students.

MIRUS informs certificated employees about the common signs that a student is a target of bullying including:

- Physical cuts or injuries
- Lost or broken personal items
- Fear of going to school/practice/games
- Loss of interest in school, activities, or friends
- Trouble sleeping or eating
- Anxious/sick/nervous behavior or distracted appearance
- Self-destructiveness or displays of odd behavior
- Decreased self-esteem

Charter School also informs certificated employees about the groups of students determined by MIRUS, and available research, to be at elevated risk for bullying. These groups include but are not limited to:

- Students who are lesbian, gay, bisexual, transgender, or questioning youth ("LGBTQ") and those youth perceived as LGBTQ; and
- Students with physical or learning disabilities.

MIRUS encourages its employees to demonstrate effective problem-solving, anger management, and self-confidence skills for MIRUS' students.

## **Grievance Procedures**

### **1. Scope of Grievance Procedures**

MIRUS will comply with its Uniform Complaint Procedures ("UCP") policy when investigating and responding to complaints alleging unlawful harassment, discrimination, intimidation or bullying against a protected group or on the basis of a person's association with a person or group with one or more of the protected characteristics set forth in the UCP that:

- a. Are written and signed;
- b. Filed by an individual who alleges that that individual has personally suffered unlawful discrimination, harassment, intimidation or bullying, or by one who believes any specific class of individuals has been subjected to discrimination, harassment, intimidation or bullying prohibited by this part, or by a duly authorized representative who alleges that an individual student has been subjected to discrimination, harassment, intimidation, or bullying; and
- c. Submitted to the MIRUS UCP Compliance Officer not later than six (6) months from the date the alleged unlawful discrimination, harassment, intimidation or bullying occurred, or the date the complainant first obtained knowledge of the facts of the alleged discrimination, harassment, intimidation or bullying.

The following grievance procedures shall be utilized for reports of misconduct prohibited by this Policy that do not comply with the writing, timeline, or other formal filing requirements of a uniform complaint. For formal complaints of sexual harassment, MIRUS will utilize the following grievance procedures in addition to its UCP when applicable.

### **2. Reporting**

All staff are expected to provide appropriate supervision to enforce standards of conduct and, if they observe or become aware of misconduct prohibited by this Policy, to intervene when safe to do so, call for assistance, and report such incidents. The Board requires staff to follow the procedures in this policy for reporting alleged acts of misconduct prohibited by this Policy.

Any student who believes they have been subject to misconduct prohibited by this Policy or has witnessed such prohibited misconduct is encouraged to immediately report such misconduct to the Coordinator:

Tim Tuter  
Executive Director  
858-678-2042

ttuter@altusschools.net

Complaints regarding such misconduct may also be made to the U.S. Department of Education, Office for Civil Rights. Civil law remedies, including, but not limited to, injunctions, restraining orders, or other remedies or orders may also be available to complainants.

While submission of a written report is not required, the reporting party is encouraged to submit a written report to the Coordinator. MIRUS will investigate and respond to all oral and written reports of misconduct prohibited by this Policy in a manner that is not deliberately indifferent. Reports may be made anonymously, but formal disciplinary action cannot be based solely on an anonymous report.

Students are expected to report all incidents of misconduct prohibited by this Policy or other verbal, or physical abuses. Any student who feels they are a target of such behavior should immediately contact a teacher, counselor, the Executive Director, [Administrator of Instrucional Services, School](#) Coordinator, a staff person or a family member so that the student can get assistance in resolving the issue in a manner that is consistent with this Policy.

The Charter School acknowledges and respects every individual's right to privacy. All reports shall be investigated in a manner that protects the confidentiality of the parties and the integrity of the process to the greatest extent possible. This includes keeping the identity of the reporter confidential, as appropriate, except to the extent necessary to comply with the law, carry out the investigation and/or to resolve the issue, as determined by the Coordinator or administrative designee on a case-by-case basis.

The Charter School prohibits any form of retaliation against any individual who files a report or complaint, testifies, assists, participates, or refuses to participate in any investigation or proceeding related to misconduct prohibited by this Policy. Such participation or lack of participation shall not in any way affect the status, grades, or work assignments of the individual. Individuals alleging retaliation in violation of this Policy may file a grievance using the procedures set forth in this Policy. Knowingly making false statements or knowingly submitting false information during the grievance process is prohibited and may result in disciplinary action.

All supervisors of staff will receive sexual harassment training within six (6) months of their assumption of a supervisory position and will receive further training once every two (2) years thereafter. All staff, and any individual designated as a coordinator, investigator or decision-maker will receive sexual harassment training and/or instruction concerning sexual harassment as required by law.

### **3. Supportive Measures**

Upon the receipt of an informal or formal complaint of sexual harassment, the Coordinator will promptly contact the complainant to discuss the availability of supportive measures. The Coordinator will consider the complainant's wishes with respect to supportive measures, inform the complainant of the availability of supportive measures with or without the filing of a formal complaint of sexual harassment, and explain the process for filing a formal complaint of sexual harassment.

Supportive measures are non-disciplinary, non-punitive individualized services offered as appropriate, as reasonably available, and without fee or charge to the complainant or the

respondent before or after the filing of a formal complaint of sexual harassment or where no formal complaint of sexual harassment has been filed. Such measures are designed to restore or preserve equal access to MIRUS' education program or activity without unreasonably burdening the other party, including measures designed to protect the safety of all parties or MIRUS' educational environment, or deter sexual harassment. Supportive measures available to complainants and respondents may include but are not limited to counseling, extensions of deadlines or other course-related adjustments, modifications of work or class schedules, campus escort services, mutual restrictions on contact between the parties, changes in work locations, leaves of absence, increased security and monitoring of certain areas of the campus, and other similar measures. MIRUS will maintain as confidential any supportive measures provided to the complainant or respondent, to the extent that maintaining such confidentiality would not impair the ability of MIRUS to provide the supportive measures.

#### **4. Investigation and Response**

Upon receipt of a report of misconduct prohibited by this Policy from a student, staff member, parent, volunteer, visitor or affiliate of MIRUS, the Coordinator (or administrative designee) will promptly initiate an investigation. In most cases, a thorough investigation will take no more than twenty-five (25) school days. If the Coordinator (or administrative designee) determines that an investigation will take longer than twenty-five (25) school days and needs to be delayed or extended due to good cause, the Coordinator (or administrative designee) will inform the complainant of the reasons for the delay or extension and provide an approximate date when the investigation will be complete.

At the conclusion of the investigation, the Coordinator (or administrative designee) will meet with the complainant and, to the extent possible with respect to confidentiality laws, to provide the complainant with information about the investigation, including any actions necessary to resolve the incident/situation. However, the Coordinator (or administrative designee) will not reveal confidential information related to other students or employees.

For investigations of and responses to formal complaints of sexual harassment, the following grievance procedures will apply:

- Notice of the Allegations
  - Upon receipt of a formal complaint of sexual harassment, the Coordinator will give all known parties written notice of its grievance process, including any voluntary informal resolution process. The notice will include:

    - A statement that the respondent is presumed not responsible for the alleged conduct until a final decision is reached;
    - A statement that the parties may have an advisor of their choice, who may be an attorney, and may inspect and review evidence;

- A statement that MIRUS prohibits an individual from knowingly making false statements or knowingly submitting false information during the grievance process.
- Emergency Removal
  - MIRUS may place a non-student employee respondent on administrative leave during the pendency of a formal complaint of sexual harassment grievance process in accordance with MIRUS' policies.
  - MIRUS may remove a respondent from MIRUS education program or activity on an emergency basis, in accordance with MIRUS' policies, provided that MIRUS undertakes an individualized safety and risk analysis, determines that an immediate threat to the physical health or safety of any student or other individual arising from the allegations of sexual harassment justifies removal, and provides the respondent with notice and an opportunity to challenge the decision immediately following the removal.
  - This provision may not be construed to modify any rights under the IDEA, Section 504, or the ADA.
- Informal Resolution
  - If a formal complaint of sexual harassment is filed, MIRUS may offer a voluntary informal resolution process, such as mediation, to the parties at any time prior to reaching a determination regarding responsibility. If MIRUS offers such a process, it will do the following:
    - Provide the parties with advance written notice of:
      - The allegations;
      - The requirements of the voluntary informal resolution process including the circumstances under which the parties are precluded from resuming a formal complaint of sexual harassment arising from the same allegations;
      - The parties' right to withdraw from the voluntary informal resolution process and resume the grievance process at any time prior to agreeing to a resolution; and
      - Any consequences resulting from participating in the voluntary informal resolution process, including the records that will be maintained or could be shared; and
    - Obtain the parties' advance voluntary, written consent to the informal resolution process.
  - MIRUS will not offer or facilitate an informal resolution process to resolve allegations that an employee sexually harassed a student.
- Investigation Process
  - The decision-maker will not be the same person(s) as the Coordinator or the investigator. MIRUS shall ensure that all decision-makers and investigators do not have a conflict of interest or bias for or against complainants or respondents.
  - In most cases, a thorough investigation will take no more than twenty-five (25) school days. If the investigator determines that an investigation will take longer than twenty-five (25) school days and needs to be delayed or extended due to

good cause, the investigator will inform the complainant and any respondents in writing of the reasons for the delay or extension and provide an approximate date when the investigation will be complete.

- The parties will be provided with an equal opportunity to present witnesses, to inspect and review any evidence obtained that is directly related to the allegations raised, and to have an advisor present during any investigative meeting or interview.
- The parties will not be prohibited from discussing the allegations under investigation or to gather and present relevant evidence.
- A party whose participation is invited or expected at an investigative meeting or interview will receive written notice of the date, time, location, participants, and purpose of the meeting or interview with sufficient time for the party to prepare to participate.
- Prior to completion of the investigative report, MIRUS will send to each party and the party's advisor, if any, a copy of the evidence subject to inspection and review, and the parties will have at least ten (10) days to submit a written response for the investigator's consideration prior to the completion of the investigation report.
- The investigator will complete an investigation report that fairly summarizes relevant evidence and send a copy of the report to each party and the party's advisor, if any, at least ten (10) days prior to the determination of responsibility.
- Dismissal of a Formal Complaint of Sexual Harassment
  - If the investigation reveals that the alleged harassment did not occur in MIRUS' educational program in the United States or would not constitute sexual harassment even if proved, the formal complaint with regard to that conduct must be dismissed. However, such a dismissal does not preclude action under another applicable MIRUS policy.
  - MIRUS may dismiss a formal complaint of sexual harassment if:
    - The complainant provides a written withdrawal of the complaint to the Coordinator;
    - The respondent is no longer employed or enrolled at MIRUS; or
    - The specific circumstances prevent MIRUS from gathering evidence sufficient to reach a decision on the formal complaint or the allegations therein.
  - If a formal complaint of sexual harassment or any of the claims therein are dismissed, MIRUS will promptly send written notice of the dismissal and the reason(s) for the dismissal simultaneously to the parties.
- Determination of Responsibility
  - The standard of evidence used to determine responsibility is the preponderance of the evidence standard.
  - Determinations will be based on an objective evaluation of all relevant evidence and credibility determinations will not be based on a person's status as a complainant, respondent, or witness.

Formatted: Normal, Space After: 12 pt

- MIRUS will send a written decision on the formal complaint to the complainant and respondent simultaneously that describes:
  - The allegations in the formal complaint of sexual harassment;
  - All procedural steps taken including any notifications to the parties, interviews with parties and witnesses, site visits, and methods used to gather other evidence;
  - The findings of facts supporting the determination;
  - The conclusions about the application of MIRUS' code of conduct to the facts;
  - The decision and rationale for each allegation;
  - Any disciplinary sanctions the recipient imposes on the respondent, and whether remedies designed to restore or preserve equal access to the education program or activity will be provided to the complainant; and
  - The procedures and permissible bases for appeals.

## 5. Consequences

Students or employees who engage in misconduct prohibited by this Policy, knowingly make false statements or knowingly submit false information during the grievance process may be subject to disciplinary action up to and including expulsion from MIRUS or termination of employment. The Coordinator is responsible for effective implementation of any remedies ordered by MIRUS in response to a formal complaint of sexual harassment.

## 6. Right of Appeal

Should the reporting individual find MIRUS' resolution unsatisfactory, the reporting individual may, within five (5) business days of notice of MIRUS' decision or resolution, submit a written appeal to the ~~Chairperson of the Board~~President of the Charter School Board, who will review the investigation and render a final decision.

The following appeal rights and procedures will also apply to formal complaints of sexual harassment:

- The complainant and the respondent shall have the same appeal rights and MIRUS will implement appeal procedures equally for both parties.
- Within five (5) business days of Charter School's written decision or dismissal of the complaint, the complainant or respondent may submit a written appeal to the Coordinator.
- The decision-maker(s) for the appeal will not be the same person(s) as the Coordinator, the investigator or the initial decision-maker(s).
- The complainant and respondent may appeal from a determination regarding responsibility, and from Charter School's dismissal of a formal complaint or any allegations therein, on the following bases:
  - Procedural irregularity that affected the outcome of the matter;
  - New evidence that was not reasonably available at the time the determination regarding responsibility or dismissal was made, that could affect the outcome of the matter; and

- The Title IX Coordinator, investigator(s), or decision-maker(s) had a conflict of interest or bias for or against complainants or respondents generally or the individual complainant or respondent that affected the outcome of the matter.

Formatted: Normal, Space After: 12 pt

- MIRUS will notify the other party in writing when an appeal is filed.
- The decision-maker for the appeal will give both parties a reasonable, equal opportunity to submit a written statement in support of, or challenging, the outcome; issue a written decision describing the result of the appeal and the rationale for the result; and provide the written decision simultaneously to both parties.

### 7. Recordkeeping

All records related to any investigation of complaints under this Policy are maintained in a secure location.

MIRUS will maintain the following records for at least seven (7) years:

- Charter School will not allow school resources or data to be used to create a registry based on race, gender, sexual orientation, religion, ethnicity, or national origin.
- Charter School will not inquire specifically about a student's citizenship or immigration status or the citizenship or immigration status of a student's parents or guardians; nor shall personnel seek or require, to the exclusion of other permissible documentation or information, documentation or information that may indicate a student's immigration status, such as a green card, voter registration, a passport, or citizenship papers.

*Social Security Information:*

Charter School will not collect entire social security numbers or cards or a statement that the parent or guardian does not possess a Social Security number for the purposes of enrollment, and failure to provide this information will not bar a student from enrolling or attending Charter School. However, the last four digits of an adult household member's Social Security number may be solicited and/or collected if required to establish eligibility for federal benefit programs such as free or reduced-price meals. This Social Security information will only be collected for the limited purpose of establishing eligibility for federal benefit programs and will not affect student enrollment. Charter School shall encourage that families and students have and know their emergency phone numbers and know where to find important documentation, including birth certificates, passports, Social Security cards, doctors' contact information, medication lists, lists of allergies, etc., which will allow them to be prepared in the event that a family member is detained or deported.

Charter School shall permit students and families to update students' emergency contact information as needed throughout the school year and provide alternative contacts if no parent or guardian is available. ### **Teacher Qualifications**

Our school focuses on delivering a strong standards-based and personalized educational program. Professional development for teachers, communication with parents, and opportunities for tutoring have always been common practice at the school.

We have a rigorous selection process and we believe our teachers are outstanding. We not only hire teachers who are strong academically, we choose people:

- who will work with both the family and the student,
- who will go above and beyond in helping your child develop workplace skills like responsibility and dependability,
- who will assess your child's strengths and build on them,
- who will provide support for their areas of weakness, and
- who will help your child succeed both personally and academically.

Your child is attending a school receiving Title I federal funds through the Elementary and Secondary Education Act (ESEA). At the beginning of each school year, local educational agencies receiving Title I funds are required to notify parents whose student(s) attend a Title I school that they may request, and the agency will provide the parents on request (and in a timely manner), information regarding the professional qualifications of the student's classroom teachers, including at a minimum:

1. Whether the student's teacher:
  - Has met State qualification and licensing criteria for the grade levels and subject areas in which the teacher provides instruction;
  - Is teaching under emergency or other provisional status through which State qualification or licensing criteria have been waived; and
  - Is teaching in the field of discipline of the certification of the teacher.
2. Whether the child is provided services by paraprofessionals and, if so, their qualifications.

Parents are invited to seek further information on their specific teacher's or paraprofessional's professional qualifications.

### Procedures

The following procedures shall be used to address all complaints which allege that the Charter School has violated federal or state laws or regulations enumerated in the section "Scope", above. The compliance officer shall maintain a record of each complaint and subsequent related actions for at least three (3) calendar years.

All parties named shall be notified when a complaint is filed, when a complaint meeting or hearing is scheduled, and when a decision or ruling is made.

- **Step 1: Filing of Complaint**

Any individual, including a person's duly authorized representative or an interested third party, public agency or organization may file a written complaint of alleged noncompliance of unlawful discrimination, harassment, intimidation or bullying pursuant to this Policy.

A complaint of unlawful discrimination, harassment, intimidation or bullying may be filed by an individual who alleges that individual has personally suffered unlawful discrimination, harassment, intimidation or bullying or by one who believes any specific class of individuals has been subjected to unlawful discrimination, harassment, intimidation or bullying, or by a duly authorized representative who alleges that an individual student has been subjected to discrimination, harassment, intimidation, or bullying. An investigation of alleged unlawful discrimination, harassment, intimidation or bullying shall be initiated by filing a complaint no later than six (6) months from the date the alleged discrimination, harassment, intimidation or bullying occurred, or the complainant first obtained knowledge of the facts of the alleged discrimination, harassment, intimidation or bullying unless the time for filing is extended by the CFO or designee, upon written request by the complainant setting forth the reasons for the extension. Such extension by the CFO or designee shall be made in writing. The period for filing may be extended by the CFO or designee for good cause for a period not to exceed ninety (90) calendar days following the expiration of the six-month time period. The School Coordinator shall respond immediately upon a receipt of a request for extension.

All other complaints under this Policy shall be filed not later than one (1) year from the date the alleged violation occurred. For complaints relating to the LCAP, the date of the alleged violation is the date on which the Student Success Board of Directors approved the LCAP or the annual update was adopted by the Charter School.

The complaint shall be presented to the compliance officer who shall maintain a log of complaints received, providing each with a code number and date stamp.

Complaints filed pursuant to this Policy must be in writing and signed. A signature may be handwritten, typed (including in an email) or electronically generated. Only complaints regarding pupil fees or LCAP compliance may be filed anonymously as set forth in this Policy. If a complainant is unable to put a complaint in writing due to conditions such as a disability or illiteracy, the Charter School staff shall assist the complainant in the filing of the complaint.

- **Step 2: Mediation**

Within three (3) business days of receiving the complaint, the compliance officer may informally discuss with the complainant the possibility of using mediation. If the complainant agrees to mediation, the compliance officer shall make arrangements for this process.

Before initiating the mediation of an unlawful discrimination, harassment, intimidation or bullying complaint, the compliance officer shall ensure that all parties agree to make the mediator a party to related confidential information.

If the mediation process does not resolve the complaint to the satisfaction of the complainant, the compliance officer shall proceed with the investigation of the complaint.

The use of mediation shall not extend the Charter School's timelines for investigating and resolving the complaint unless the complainant agrees in writing to such an extension of time.

- **Step 3: Investigation of Complaint**

The compliance officer is encouraged to hold an investigative meeting within five (5) business days of receiving the complaint or an unsuccessful attempt to mediate the complaint. This meeting shall provide an opportunity for the complainant and/or the complainant's representative to repeat the complaint orally.

The complainant and/or the complainant's representative shall have an opportunity to present the complaint and evidence or information leading to evidence to support the allegations in the complaint.

A complainant's refusal to provide the compliance officer with documents or other evidence related to the allegations in the complaint, or complainant's failure or refusal to cooperate in the investigation or the complainant's engagement in any other obstruction of the investigation, may result in the dismissal of the complaint because of a lack of evidence to support the allegation.

The Charter School's refusal to provide the compliance officer with access to records and/or other information related to the allegation in the complaint, or its failure or refusal to cooperate in the investigation or its engagement in any other obstruction of the investigation, may result in a finding, based on evidence collected, that a violation has occurred and may result in the imposition of a remedy in favor of the complainant.

#### **Final Written Decision**

The Charter School shall issue an investigation report (the "Decision") based on the evidence. The Charter School's decision shall be in writing and sent to the complainant within sixty (60) calendar days of the Charter School's receipt unless the timeframe is extended with the written agreement of the complainant. The Charter School's decision shall be written in English and in the language of the complainant whenever feasible or as required by law.

The Decision shall include:

1. The findings of fact based on evidence gathered.

2. The conclusion.
3. Rationale providing a clear determination for each allegation as to whether the Charter School is in compliance with the relevant law.
4. Corrective actions, if the Charter School finds merit in the complaint and any are warranted or required by law.
5. Notice of the complainant's right to appeal the Charter School's decision within thirty (30) calendar days to the CDE, except when the Charter School has used its UCP to address complaints that are not subject to the UCP requirements
6. Procedures to be followed for initiating such an appeal.

If an employee is disciplined as a result of the complaint, the Decision shall simply state that effective action was taken and that the employee was informed of the Charter School's expectations. The Decision shall not give any further information as to the nature of the disciplinary action except as required by applicable law.

#### Appeals to the California Department of Education

If dissatisfied with the Decision, the complainant may appeal in writing to the CDE within thirty (30) days of receiving the Decision. The appeal shall be accompanied by a copy of the complaint filed with the Charter School and a copy of the Decision. When appealing to the CDE, the complainant must specify and explain the basis for the appeal, including at least one of the following:

1. Charter School failed to follow its complaint procedures.
2. Relative to the allegations of the complaint, the Charter School's decision lacks material findings of necessary to reach a conclusion of law.
3. The material findings of fact in Charter School's decision are not supported by substantial evidence.
4. The legal conclusion in Charter School's Decision is inconsistent with the law.
5. In a case in which Charter School's Decision found noncompliance, the corrective actions fail to provide a proper remedy.

Upon notification by the CDE that the complainant has appealed the Decision, the CFO or designee shall forward the following documents to the CDE within ten (10) calendar days of the date of notification:

1. A copy of the original complaint.
2. A copy of the Decision

4. A report of any action taken to resolve the complaint.
5. A copy of the Charter School's complaint procedures.
6. Other relevant information requested by the CDE.

If the CDE determines the appeal raises issues not contained in the local complaint, the CDE will refer those new issues back to the Charter School for resolution as a new complaint. If the CDE notifies the Charter School that its Decision failed to address an allegation raised by the complaint and subject to the UCP process, the Charter School will investigate and address such allegation(s) in accordance with the UCP requirements and provide the CDE and the appellant with an amended Decision addressing such allegation(s) within twenty (20) calendar days of the CDE's notification. The amended Decision will inform the appellant of the right to separately appeal the amended Decision with respect to the complaint allegation(s) not addressed in the original Decision.

Within thirty (30) calendar days of the date of the CDE's appeal Decision pursuant to 5 C.C.R. section 4633(f)(2) or (3), either party may request reconsideration by the State Superintendent of Public Instruction

("SSPI") or the SSPI's designee. The request for reconsideration shall specify and explain the reason(s) for contesting the findings of fact, conclusions of law, or corrective actions in the CDE's appeal Decision. The SSPI will not consider any information not previously submitted to the CDE by a party during the appeal unless such information was unknown to the party at the time of the appeal and, with due diligence, could not have become known to the party. Pending the SSPI's response to a request for reconsideration, the CDE appeal Decision remains in effect and enforceable, unless stayed by a court.

The CDE may directly intervene in the complaint without waiting for action by the Charter School when one of the conditions listed in 5 C.C.R. section, 4650 exists, including but not limited to cases in which through no fault of the complainant, the Charter School has not taken action within sixty (60) calendar days of the date the complaint was filed with the Charter School.

### **Civil Law Remedies**

A complainant may pursue available civil law remedies outside of the Charter School's complaint procedures. Complainants may seek assistance from mediation centers or public/private interest attorneys. Civil law remedies that may be imposed by a court include, but are not limited to, injunctions and restraining orders. For unlawful discrimination, complaints arising under state law, however, a complainant must wait until sixty (60) calendar days have elapsed from the filing of an appeal with the CDE before pursuing civil law remedies. The moratorium does not apply to injunctive relief and is applicable only if the Charter School has appropriately, and in a timely manner, apprised the complainant of their right to file a complaint.

A copy of the UCP shall be available upon request free of charge on the school website. For further information on any part of the complaint procedures, including filing a complaint or requesting a copy of the UCP, please contact the Executive Director.

(Education Code §§ 8239, 8259(d)(3), 8263(g), (h), 8265, 8447(g), 5600.) Fees for supervision of children before and after school, except that no child who desires to participate shall be denied the opportunity to participate because of inability to pay the fee. (Education Code §§ 8487 and 8488.)

#### **V. Voluntary Contributions**

Nothing in this Policy shall be interpreted to prohibit solicitation of voluntary donations of funds or property, voluntary participation in fundraising activities, or Charter School and other entities

from providing student prizes or other recognition for voluntarily participating in fundraising activities.

Pupils, parents, and guardians are still encouraged (though not required) to make voluntary contributions or donations of time, money, or property and to participate in fund raising activities. Pupils may be encouraged to participate in fundraising activities through prizes or other recognition for voluntary participation.

#### **VI. Notice**

Students and parents of students will be provided a copy of this policy at the start of each school year as part of Charter School's Student and Parent Handbook.

#### **VII. Complaint and Remedy Procedures**

Students, parents or guardians who believe they are being charged an impermissible pupil fee should contact the Executive Director or designee, or file a complaint pursuant to Charter School's Uniform Complaint Procedures Policy ("UCP") set forth in Student and Parent Handbook. As outlined in the UCP, complaints related to school fees may be made anonymously. Pupil fee complaints shall be filed no later than one year from the date of the alleged violation occurred.

In the event Charter School finds merit in a pupil fees complaint, or the California Department of Education ("CDE") finds merit in an appeal, Charter School shall provide a remedy to all affected students, parents/guardians that, where applicable, includes reasonable efforts by Charter School to ensure full reimbursement to all affected students and parents/guardians, subject to procedures established through regulations adopted by the state board. Under 5 CCR § 4600(u), "reasonable efforts" means a public school's good faith attempts to identify and fully reimburse all pupils, parents and guardians who paid a pupil fee within one year prior to the filing of the complaint, as follows:

- (1) Reasonable efforts to identify pupils who paid a pupil fee include but are not limited to researching existing school records, contacting pupils who were enrolled in or participating in the educational activity during the time the pupil fee was charged, and considering submissions of proof of payment of the pupil fee.
- (2) Reasonable efforts to fully reimburse all pupils, parents and guardians who paid a pupil fee include but are not limited to crediting the pupil's school financial account and sending reimbursement by first class mail to the pupil's last known primary address as contained in school or local educational agency records. If the school has knowledge that a pupil's last known address as contained in school or local educational agency records is no longer valid, the school may attempt to obtain a

more recent address from any notices returned to the school or local educational agency by the United States Postal Service.

## ***Suicide Prevention Policy***

Board Policy: 3191

Approved: June 22, 2017

Amended: October 21, 2020, March 18, 2022, June 22, 2023

The Board of Directors of Audeo Charter School, Inc. hereby adopts this Policy to apply to Audeo Charter School II, Audeo Charter School III, Audeo Valley Charter School, Grossmont Secondary School, Mirus Secondary School and Sweetwater Secondary School ("Charter School").

~~The Governing Board of Mirus Secondary School ("Charter School")~~ The Board recognizes that suicide is a major cause of death among youth and should be taken seriously. In order to attempt to reduce suicidal behavior and its impact on students and families, the Governing Board has developed prevention strategies and intervention procedures.

In compliance with Education Code section 215, this policy has been developed in consultation with Charter School and community stakeholders, Charter School school-employed mental health professionals (e.g., school counselors, psychologists, social workers, nurses), administrators, other school staff members, parents/guardians/caregivers, students, local health agencies and professionals, the county mental health plan, law enforcement, and community organizations in planning, implementing, and evaluating Charter School's strategies for suicide prevention and intervention. Charter School must work in conjunction with local government agencies, community-based organizations, and other community supports to identify additional resources.

~~The policy shall be developed in consultation with school and community stakeholders, school-employed mental health professionals, and suicide prevention experts and shall, at a minimum, address procedures relating to suicide prevention, intervention, and post-vention.~~

To ensure the policies regarding suicide prevention are properly adopted, implemented, and updated, the Charter School shall appoint an individual (or team) to serve as the suicide prevention point of contact. The suicide prevention point of contact for Charter School and the Executive Director shall ensure proper coordination and consultation with the county mental health plan if a referral is made for mental health or related services on behalf of a student who is a Medi-Cal beneficiary. This policy shall be reviewed and revised as indicated, at least annually in conjunction with the previously mentioned community stakeholders.

### **Suicide Prevention Crisis Team**

To ensure the policies regarding suicide prevention are properly adopted, implemented, and updated, Charter School created an in-house Suicide Prevention Crisis Team ("SPCT") consisting of administrators, mental health professionals, relevant staff, parents, and middle and high school students.

Charter School designates the following administrators to act as the primary and secondary suicide prevention liaisons to lead the SPCT:

1. School Psychologist
2. Executive Director

The functions of the SPCT are to:

- Review mental health related school policies and procedures;
- Provide annual updates on school and district data and trends;
- Review and revise school prevention policies;
- Review and select general and specialized mental health and suicide prevention training;
- Review and oversee staff, parent/guardian, and student trainings;
- Ensuring the suicide prevention policy, protocols, and resources are posted on the district and school websites;
- Collaborate with community mental health organizations,
- Identify resources and agencies that provide evidence-based or evidence-informed treatment,
- Help inform and build skills among law enforcement and other relevant partners, and
- Collaborate to build community response.

### **Staff Development**

Charter School, along with its partners, has carefully reviewed available staff training to ensure it promotes the mental health model of suicide prevention and does not encourage the use of the stress model to explain suicide.

Training shall be provided for all school staff members. It may also be provided, when appropriate, for other adults on campus (such as substitutes and intermittent staff, volunteers, interns, tutors, coaches, and afterschool staff). Training shall include the following:

1. All suicide prevention trainings shall be offered under the direction of mental health professionals (e.g., school counselors, school psychologists, healthy youth school therapist, other public entity professionals, such as psychologists or social workers) who have received advanced training specific to suicide. Charter School has collaborated with [Insert Names of One Or More County and/or Community Mental Health Agencies] to review the training materials and content to ensure it is evidence-based, evidence-informed, and aligned with best practices.

2. Staff training may be adjusted year-to-year based on previous professional development activities and emerging best practices.
3. Charter School shall ensure that training is available for new hires during the school year.
4. At least annually, all staff shall receive training on the risk factors and warning signs of suicide, suicide prevention, intervention, referral, and postvention.
5. At a minimum, all staff shall participate in training on the core components of suicide prevention (identification of suicide risk factors and warning signs, prevention, intervention, referral, and postvention) at the beginning of their employment or annually. Core components of the general suicide prevention training shall include:
  - a. Suicide risk factors, warning signs, and protective factors.
  - b. How to talk with a student about thoughts of suicide.
  - c. How to respond appropriately to the youth who has suicidal thoughts. Such responses shall include constant supervision of any student judged to be at risk for suicide and an immediate referral for a suicide risk assessment.
  - d. Emphasis on immediately referring (same day) any student who is identified to be at risk of suicide for assessment while staying under constant monitoring by staff member.
  - e. Emphasis on reducing stigma associated with mental illness and that early prevention and intervention can drastically reduce the risk of suicide.
  - f. Reviewing the data annually to look for any patterns or trends of the prevalence or occurrence of suicide ideation, attempts, or death. Data from the California School Climate, Health, and Learning Survey (Cal-SCHLS) should also be analyzed to identify school climate deficits and drive program development. See the Cal-SCHLS Web site at <http://cal-schls.wested.org/>.
  - g. Information regarding groups of students judged by the school, and available research, to be at elevated risk for suicide. These groups include, but are not limited to, the following:
    - i. Youth affected by suicide.
    - ii. Youth with a history of suicide ideation or attempts.
    - iii. Youth with disabilities, mental illness, or substance abuse disorders.
    - iv. Lesbian, gay, bisexual, transgender, or questioning youth.
    - v. Youth experiencing homelessness or in out-of-home settings, such as foster care.
    - vi. Youth who have suffered traumatic experiences.
    - vii. [Charter School may Insert other Local Youth Populations Vulnerable to Depression and Suicide].

6. In addition to initial orientations to the core components of suicide prevention, ongoing annual staff professional development for all staff may include the following components:

- a. The impact of traumatic stress on emotional and mental health.
- b. Common misconceptions about suicide.
- c. Charter School and community suicide prevention resources.
- d. Appropriate messaging about suicide (correct terminology, safe messaging guidelines).
- e. The factors associated with suicide (risk factors, warning signs, protective factors).
- f. How to identify youth who may be at risk of suicide.
- g. Appropriate ways to interact with a youth who is demonstrating emotional distress or is suicidal. Specifically, how to talk with a student about their thoughts of suicide and (based on Charter School guidelines) how to respond to such thinking; how to talk with a student about thoughts of suicide and appropriately respond and provide support based on Charter School guidelines.
- h. Charter School-approved procedures for responding to suicide risk (including multi-tiered systems of support and referrals). Such procedures should emphasize that the suicidal student should be constantly supervised until a suicide risk assessment is completed.
- i. Charter School-approved procedures for responding to the aftermath of suicidal behavior (suicidal behavior postvention).
- j. Responding after a suicide occurs (suicide postvention).
- k. Resources regarding youth suicide prevention.
- l. Emphasis on stigma reduction and the fact that early prevention and intervention can drastically reduce the risk of suicide.
- m. Emphasis that any student who is identified to be at risk of suicide is to be immediately referred (same day) for assessment while being constantly monitored by a staff member.

#### **Specialized Professional Development for School-based Mental Health Staff (Screening and/or Assessment)**

Additional professional development in suicide risk assessment (SRA) and crisis intervention is provided to designated student mental health professionals, including but not limited to school counselors, psychologists, healthy youth school therapist, social workers, administrators, and nurses employed by Charter School. Training for these staff is specific to conducting SRAs, intervening during a crisis, de-escalating situations, interventions specific to preventing suicide, making referrals, safety planning, and re-entry.

Specialized Professional Training for targeted School-based mental health staff includes the following components:

- Best practices and skill building on how to conduct an effective suicide risk screening/SRA using an evidence-based, Charter-approved tool; Patient Health Questionnaire 9 (PHQ-9) Depression Scale; BSS Beck Scale for Suicide Ideation ; National

Institute of Mental Health (NIMH)'s Ask Suicide-Screening Questions (ASQ) Toolkit; and the Adolescent Suicide Assessment Protocol – 20.

- Best practices on approaching and talking with a student about their thoughts of suicide and how to respond to such thinking, based on district guidelines and protocols.
- Best practices on how to talk with a student about thoughts of suicide and appropriately respond and provide support based on district guidelines and protocols.
- Best practices on follow up with parents/caregivers.
- Best practices on re-entry.

### **Virtual Screenings for Suicide Risk**

Virtual suicide prevention efforts include checking in with all students, promoting access to school and community-based resources that support mental wellbeing and those that address mental illness and give specific guidance on suicide prevention.

Charter School has established a protocol for assigning school staff to connect with students during distance learning and school closures. In the event of a school closure, Charter School has determined a process and protocols to establish daily or regular contact with all students. Staff understand that any concern about a student's emotional wellbeing and/or safety must be communicated to the appropriate school staff, according to Charter School protocols.

Charter School has determined a process and protocols for school-based mental health professionals to establish regular contact with high-risk students, students who are on their caseloads, and those who are identified by staff as demonstrating need. When connecting with students, staff are directed to begin each conversation by identifying the location of the student and the availability of parents or caregivers. This practice allows for the staff member to ensure the safety of the student, particularly if they have expressed suicidal thoughts.

### **Employee Qualifications and Scope of Services**

Employees of the Charter School must act only within the authorization and scope of their credential or license. While it is expected that school professionals are able to identify suicide risk factors and warning signs, and to prevent the immediate risk of a suicidal behavior, treatment of suicidal ideation is typically beyond the scope of services offered in the school setting. In addition, treatment of the mental health challenges often associated with suicidal thinking typically requires mental health resources beyond what schools are able to provide.

### **Parents, Guardians, and Caregivers Participation and Education**

1. Parents/guardians/caregivers may be included in suicide prevention efforts. At a minimum, the Charter School shall share this Policy with parents/guardians/caregivers by notifying them where a complete copy of the policy is available.

This Suicide Prevention Policy shall be easily accessible and prominently displayed on the Charter School Web page and included in the parent handbook.

2. Parents/guardians/caregivers should be invited to provide input on the development and implementation of this policy.
3. Charter School shall establish and widely disseminate a referral process to all parents/guardians/caregivers/families, so they are aware of how to respond to a crisis and are knowledgeable about protocols and school, community-based, and crisis resources.
4. Community-based organizations that provide evidence-based suicide-specific treatments shall be highlighted on the Charter School's website with treatment referral options marked accordingly.
5. Staff autoreplies during vacations or absences shall include links to resources and phone/text numbers so parents and students have information readily available.
6. All parents/guardians/caregivers may have access to suicide prevention training that addresses the following:
  - a. Suicide risk factors, warning signs, and protective factors.
  - b. How to talk with a student about thoughts of suicide.  
How to respond appropriately to the student who has suicidal thoughts. Such responses shall include constant supervision of any student judged to be at risk for suicide and referral for an immediate suicide risk assessment.
  - c. Charter School's referral processes and how they or their children can reach out for help, etc.
7. Parents/guardians/caregivers are reminded that the Family Educational Rights and Privacy Act ("FERPA") generally protects the confidentiality of student records, which may sometimes include counseling or crisis intervention records. However, FERPA's health or safety emergency provision permits the disclosure of personally identifiable information from a student's education records, to appropriate parties, in order to address a health or safety emergency when the disclosure is necessary to protect the health or safety of the student or other individuals.

### **Student Participation and Education**

Messaging about suicide has an effect on suicidal thinking and behaviors. Consequently, Charter School along with its partners has carefully reviewed and will continue to review all materials and resources used in awareness efforts to ensure they align with best practices for safe messaging about suicide. Suicide prevention strategies may include, but not be limited to, efforts to promote a positive school climate that enhances students' feelings of connectedness with Charter School and is characterized by caring staff and harmonious interrelationships among students.

Charter School's instructional and student support program shall promote the healthy mental, emotional, and social development of students including, but not limited to, the development of problem-solving skills, coping skills, and resilience. The instruction shall not use the stress model to explain suicide.

Charter School's instructional curriculum may include information about suicide prevention, as appropriate or needed. If suicide prevention is included in the Charter School's instructional curriculum, it shall consider the grade level and age of the students and be delivered and discussed in a manner that is sensitive to the needs of young students. Under the supervision of an appropriately trained individual acting within the scope of her/his credential or license, students shall:

1. Receive developmentally appropriate, student-centered education about the warning signs of mental health challenges and emotional distress. The content of the education may include:
  - a. Coping strategies for dealing with stress and trauma.
  - b. How to recognize behaviors (warning signs) and life issues (risk factors) associated with suicide and mental health issues in oneself and others.
  - c. Help-seeking strategies for oneself and others, including how to engage school-based and community resources and refer peers for help.
  - d. Emphasis on reducing the stigma associated with mental illness and the fact that early prevention and intervention can drastically reduce the risk of suicide.
2. Receive developmentally appropriate guidance regarding Charter School's suicide prevention, intervention, and referral procedures.

Student-focused suicide prevention education can be incorporated into classroom curricula (e.g., health classes, orientation classes, science, and physical education).

Charter School will support the creation and implementation of programs and/or activities on campus that raise awareness about mental wellness and suicide prevention (e.g., Mental Health Awareness Week, Peer Counseling, Freshman Success, and National Alliance on Mental Illness on Campus High School Clubs).

Charter School maintains a list of current student trainings and is available upon request. Charter School has shared school-based supports and self-reporting procedures, so students are able to seek help if they are experiencing thoughts of suicide or if they recognize signs with peers. Although confidentiality and privacy are important, students should understand safety is a priority and if there is a risk of suicide, school staff are required to report. Charter-based mental health professionals are legally and ethically required to report suicide risk. **When reporting suicidal ideation or an attempt, school staff must maintain confidentiality and only share information limited to the risk or attempt.**

Charter School shall establish and widely disseminate a referral process to all students, so they know how to access support through school, community-based, and crisis services. Students shall be encouraged to notify a staff member when they are experiencing emotional distress or suicidal ideation, or when they have knowledge or concerns of another student's emotional distress, suicidal ideation, or attempt.

### **Intervention and Emergency Procedures**

Whenever a staff member suspects or has knowledge of a student's suicidal intentions, they shall promptly notify the primary designated suicide prevention liaison. If this primary suicide prevention liaison is unavailable, the staff shall promptly notify the secondary suicide prevention liaison.

The suicide prevention liaison shall immediately notify the Executive Director or designee, who shall then notify the student's parent/guardian as soon as possible if appropriate and in the best interest of the student. Determination of notification to parents/guardians/caregivers should follow a formal initial assessment to ensure that the student is not endangered by parental notification.

The suicide prevention liaison shall also refer the student to mental health resources at Charter School or in the community.

When a student is in imminent danger (has access to a gun, is on a rooftop, or in other unsafe conditions), a call shall be made to 911. The call shall NOT be made in the presence of the student and the student shall not be left unsupervised. Staff shall NOT physically restrain or block an exit.

When a suicide attempt or threat is reported on campus or at a school-related activity, the suicide prevention liaison shall, at a minimum:

1. Ensure the student's physical safety by one or more of the following, as appropriate:
  - a. Securing immediate medical treatment if a suicide attempt has occurred.
  - b. Securing law enforcement and/or other emergency assistance if a suicidal act is being actively threatened.
  - c. Keeping the student under continuous adult supervision until the parent/guardian and/or appropriate support agent or agency can be contacted and has the opportunity to intervene.
  - d. Remaining calm, keeping in mind the student is overwhelmed, confused, and emotionally distressed.
  - e. Moving all other students out of the immediate area.
  - f. Not sending the student away or leaving him/her alone, even to go to the restroom.

- g. Providing comfort to the student, listening and allowing the student to talk and being comfortable with moments of silence.
  - h. Promising privacy and help, but not promising confidentiality.
2. Document the incident in writing as soon as feasible.
  3. Follow up with the parent/guardian and student in a timely manner to provide referrals to appropriate services as needed and coordinate and consult with the county mental health plan if a referral is made for mental health or related services on behalf of a student who is a Medi-Cal beneficiary. **Determination of notification to parents/guardians/caregivers should follow a formal initial assessment to ensure that the student is not endangered by parental notification.**
  4. After a referral is made, Charter School shall verify with the parent/guardian that the follow up treatment has been accessed. Parents/guardians will be required to provide documentation of care for the student. If parents/guardians refuse or neglect to access treatment for a student who has been identified to be at risk for suicide or in emotional distress, the suicide prevention liaisons shall meet with the parent to identify barriers to treatment (e.g., cultural stigma, financial issues) and work to rectify the situation and build understanding of care. If follow up care is still not provided, Charter School may contact Child Protective Services.
  5. Provide access to counselors or other appropriate personnel to listen to and support students and staff who are directly or indirectly involved with the incident at Charter School.
  6. Provide an opportunity for all who respond to the incident to debrief, evaluate the effectiveness of the strategies used, and make recommendations for future actions.

In the event a suicide occurs or is attempted on the Charter School campus, the suicide prevention liaison shall follow the crisis intervention procedures contained in Charter School's safety plan. After consultation with the Executive Director or designee and the student's parent/guardian about facts that may be divulged in accordance with the laws governing confidentiality of student record information, the Executive Director or designee may provide students, parents/guardians, and staff with information, counseling, and/or referrals to community agencies as needed. Charter School staff may receive assistance from Charter School counselors or other mental health professionals in determining how best to discuss the suicide or attempted suicide with students.

In the event a suicide occurs or is attempted off the Charter School campus and unrelated to school activities, the Executive Director or designee shall take the following steps to support the student:

1. Contact the parent/guardian and offer support to the family.

2. Discuss with the family how they would like Charter School to respond to the attempt while minimizing widespread rumors among teachers, staff, and students.
3. Obtain permission from the parent/guardian to share information to ensure the facts regarding the crisis are correct.
4. The suicide prevention liaisons shall handle any media requests.
5. Provide care and determine appropriate support to affected students.
6. Offer to the student and parent/guardian steps for re-integration to school. Re-integration may include obtaining a written release from the parent/guardian to speak with any health care providers; conferring with the student and parent/guardian about any specific requests on how to handle the situation; informing the student's teachers about possible days of absences; allowing accommodations for make-up work (being understanding that missed assignments may add stress to the student); appropriate staff maintaining ongoing contact with the student to monitor the student's actions and mood; and working with the parent/guardian to involve the student in an aftercare plan; providing parent's/guardians/caregivers/families local emergency numbers for after school and weekend emergency contacts.

#### **Supporting Students during or after a Mental Health Crisis**

Students shall be encouraged through the education program and in Charter School activities to notify a teacher, the Executive Director, another Charter School administrator, psychologist, Charter School counselor, suicide prevention liaisons, or other adult when they are experiencing thoughts of suicide or when they suspect or have knowledge of another student's suicidal intentions. Charter School staff should treat each report seriously, calmly, and with active listening and support. Staff should be non-judgmental to students and discuss with the student, and parent/guardian, about additional resources to support the student.

#### **Responding After a Suicide Death (Postvention)**

A death by suicide in the school community (whether by a student or staff member) can have devastating consequences on the school community, including students and staff. Charter School shall follow the below action plan for responding to a suicide death, which incorporates both immediate and long-term steps and objectives:

The suicide prevention liaison shall:

1. Coordinate with the Executive Director to conduct an initial meeting of the Suicide Prevention Crisis Team to:

- a. Confirm death and cause.
  - b. Identify a staff member to contact deceased's family (within 24 hours).
  - c. Enact the Suicide Postvention Response.
  - d. Notify all staff members (ideally in-person or via phone, not via e-mail or mass notification).
2. Coordinate an all-staff meeting, to include:
  - a. Notification (if not already conducted) to staff about suicide death.
  - b. Emotional support and resources available to staff.
  - c. Notification to students about suicide death and the availability of support services (if this is the protocol that is decided by administration).
  - d. Share information that is relevant and that which you have permission to disclose.
3. Prepare staff to respond to needs of students regarding the following:
  - a. Review of protocols for referring students for support/assessment.
  - b. Talking points for staff to notify students.
  - c. Resources available to students (on and off campus).
4. Identify students significantly affected by suicide death and other students at risk of imitative behavior, and refer them to a school-based mental health professional.
5. Identify students affected by suicide death but not at risk of imitative behavior.
6. Communicate with the larger school community about the suicide death. Staff shall not share explicit, graphic, or dramatic content, including the manner of death.
7. Consider funeral arrangements for family and school community.
8. Respond to memorial requests in respectful and non-harmful manner; responses should be handled in a thoughtful way and their impact on other students should be considered.
9. Identify media spokesperson if needed.
10. Ensure that all communications, documents, materials related to messaging about suicide avoid discussing details about method of suicide, avoid oversimplifying (i.e. identifying singular cause of suicide), avoid sensational language, and only includes clear, respectful, people-first language that encourages an environment free of stigma. As part of safe messaging for suicide, we use specific terminology when referring to actions related to suicide or suicidal behavior:

Use	Do Not Use
<p><u>“Died by suicide”</u> or <u>“Took their own life”</u></p>	<p><u>“Committed suicide”</u> <u>Note: Use of the word “commit” can imply crime/sin</u></p>
<p><u>“Attempted suicide”</u></p>	<p><u>“Successful” or “unsuccessful”</u> <u>Note: There is no success, or lack of success, when dealing with suicide</u></p>

11. Include long-term suicide postvention responses:

- a. Consider important dates (i.e., anniversary of death, deceased birthday, graduation, or other significant event) and how these will be addressed.
- b. Support siblings, close friends, teachers, and/or students of deceased.
- c. Consider long-term memorials and how they may impact students who are emotionally vulnerable and at risk of suicide.

**Student Identification Cards**

Charter School will include the telephone numbers on all student identification cards:

- National Suicide Prevention Lifeline/Suicide Crisis Lifeline:
  - Call or Text “988”

**Prevention and Instruction**

Suicide prevention strategies may include, but not be limited to, efforts to promote a positive school climate that enhances students’ feelings of connectedness with the Charter School and is characterized by caring staff and harmonious interrelationships among students.

The Charter School’s instructional and student support program shall promote the healthy mental, emotional, and social development of students including, but not limited to, the development of problem-solving skills, coping skills, and resilience.

The Executive Director or designee may offer parents/guardians education or information which describes the severity of the youth suicide problem, the Charter School’s suicide prevention efforts, risk factors and warning signs of suicide, basic steps for helping suicidal youth, reducing the stigma of mental illness, and/or school and community resources that can help youth in

crisis. California Department of Education youth suicide prevention information can be found at: <http://www.cde.ca.gov/ls/cg/mh/suicideprevres.asp>

This Suicide Prevention Policy shall be easily accessible and prominently displayed on the Charter School Web page.

The Charter School's instructional curriculum may include information about suicide prevention, as appropriate or needed, taking into consideration the grade level and age of the students. If offered or included in the Charter School's instructional curriculum, suicide prevention instruction shall be designed to help students:

1. Identify and analyze signs of depression and self-destructive behaviors and understand how feelings of depression, loss, isolation, inadequacy, and anxiety can lead to thoughts of suicide.
2. Identify alternatives to suicide and develop coping and resiliency skills.
3. Learn to listen, be honest, share feelings, and get help when communicating with friends who show signs of suicidal intent.
4. Identify trusted adults, school resources, and/or community crisis intervention resources where youth can get help and recognize that there is no stigma associated with seeking mental health, substance abuse, gender identity, or other support services.

#### **Staff Development**

Suicide prevention training for staff may be designed to help staff identify and find help for students at risk of suicide. Materials approved by the Charter School for training shall include how to identify appropriate mental health services, at school facilities and within the larger community, and when and how to refer youth and their families to those services. The training may be offered under the discretion of the Executive Director and/or Governing Board and/or in cooperation with one or more community mental health agencies and may include information on:

1. Research identifying risk factors, such as previous suicide attempt(s), history of depression or mental illness, substance abuse problems, family history of suicide or violence, feelings of isolation, interpersonal conflicts, a recent severe stressor or loss, family instability, and other factors.
2. Warning signs that may indicate suicidal intentions, including changes in students' appearance, personality, or behavior.
3. Research-based instructional strategies for teaching the suicide prevention curriculum and promoting mental and emotional health.

4. School and community resources and services for students and families in crisis and ways to access them.

5. Charter School procedures for intervening when a student attempts, threatens, or discloses the desire to die by suicide.

#### **Intervention and Emergency Procedures**

Whenever a staff member suspects or has knowledge of a student's suicidal intentions, he/she shall promptly notify the Executive Director or designee. The Executive Director or designee shall then notify the student's parent/guardian as soon as possible and may also refer the student to mental health resources at the Charter School or in the community.

When a suicide attempt or threat is reported, the Executive Director or designee shall, at a minimum:

1. Ensure the student's physical safety by one of the following, as appropriate:
  - a. Securing immediate medical treatment if a suicide attempt has occurred;
  - b. Securing law enforcement and/or other emergency assistance if a suicidal act is being actively threatened;
  - c. Keeping the student under continuous adult supervision until the parent/guardian and/or appropriate support agent or agency can be contacted and has the opportunity to intervene.
2. Designate specific individuals to be promptly contacted, for example the school counselor, psychologist, nurse, Executive Director, and/or the student's parent/guardian, and, as necessary, local law enforcement or mental health agencies.
3. Document the incident in writing as soon as feasible.
4. Follow up with the parent/guardian and student in a timely manner to provide referrals to appropriate services as needed.
5. Provide access to counselors or other appropriate personnel to listen to and support students and staff who are directly or indirectly involved with the incident at the school.
6. Provide an opportunity for all who respond to the incident to debrief, evaluate the effectiveness of the strategies used, and make recommendations for future actions.

In the event a suicide occurs or is attempted on the Charter School campus, the Executive Director or designee shall follow the crisis intervention procedures contained in the Charter School's safety plan. After consultation with the Executive Director or designee and the student's parent/guardian about facts that may be divulged in accordance with the laws governing

confidentiality of student record information, the Executive Director or designee may provide students, parents/guardians, and staff with information, counseling, and/or referrals to community agencies as needed. Charter School staff may receive assistance from school counselors or other mental health professionals in determining how best to discuss the suicide or attempted suicide with students.

Students shall be encouraged through the education program and in school activities to notify a teacher, Executive Director, another school administrator, psychologist, school counselor, or other adult when they are experiencing thoughts of suicide or when they suspect or have knowledge of another student's suicidal intentions.

#### **Employee Qualifications and Scope of Services**

Employees of the Charter School must act only within the authorization and scope of their credential or license. While it is expected that school professionals are able to identify suicide risk factors and warning signs, and to prevent the immediate risk of a suicidal behavior, treatment of suicidal ideation is typically beyond the scope of services offered in the school setting. In addition, treatment of the mental health challenges often associated with suicidal thinking typically requires mental health resources beyond what schools are able to provide.

A homeless youth who is enrolled will have the right to attend classes and participate fully in school activities, including extracurricular activities.

If the Charter School does not otherwise provide transportation services to all Charter School students, Charter School shall ensure that transportation is provided for homeless students to and from Charter School, at the request of the parent or guardian (or Charter School Liaison), if Charter School is the student's school of origin. (42 U.S.C. § 11432(g)(1)(J).) (Education Code Section 48852.5(c)(2).)~~

The Charter School Liaison shall offer training to Charter School certificated and classified employees providing services to students experiencing homelessness, including, but not limited to, teachers, support staff, and other school staff who work with pupils, at least annually relating to:

- (1) Charter School's homeless education program policies; and
- (2) Recognition of signs that pupils are experiencing, or are at risk of experiencing, homelessness.

The Charter School Liaison shall inform such employees of the availability of training and the services the Charter School Liaison provides to aid in the identification and provision of services to students who are experiencing, or are at risk of experiencing, homelessness.

### **High School Graduation Requirements**

Homeless students who transfer to the Charter School any time after the completion of their second year of high school shall be exempt from any of the Charter School's graduation requirements that are in excess of the California minimum graduation requirements specified in Education Code section 51225.3 ("additional graduation requirements") unless Charter School makes a finding that the student is reasonably able to complete the Charter School's graduation requirements by the end of the student's fourth year of high school.

To determine whether a homeless student is in their third or fourth year of high school, either the number of credits the student has earned to the date of transfer or the length of the student's school enrollment may be used, whichever will qualify the student for the exemption.

Within thirty (30) calendar days of the date that a student who may qualify for exemption under the above requirements transfers into the Charter School, the Charter School shall notify the student, the student's educational rights holder, and the Charter School Liaison of the availability of the exemption and whether the student qualifies for an exemption.

The Charter School shall notify students who are exempted from the Charter School's additional graduation requirements and the student's educational rights holder of how any of the requirements that are waived will affect the student's ability to gain admission to a postsecondary educational institution and provide information about transfer opportunities available through the California Community Colleges.

The Charter School shall not require any student who would otherwise be entitled to remain in attendance at the Charter School to accept the exemption from the Charter School's additional graduation requirements or deny the student enrollment in, or the ability to complete, courses for which the student is otherwise eligible. The Charter School shall not revoke an exemption and shall grant an eligible student's request for the exemption at any time if the student qualifies, regardless of whether the student previously declined the exemption. An eligible student's exemption from the Charter School's additional graduation requirements will continue to apply while the student is enrolled in the Charter School or if the student transfers to another school even after the student no longer meets the definition of a homeless child.

The Charter School shall not require or request that a student transfer schools in order to qualify the student for the exemption. Nor shall a student, a student's parent/guardian or educational rights holder, or a student's social worker or probation officer request a transfer solely to qualify for an exemption from the Charter School's additional graduation requirements.

If a student who is exempted from the Charter School's additional graduation requirements completes the California minimum coursework requirements specified in Education Code section 51225.3 before the end of the student's fourth year of high school and would otherwise be entitled to remain in attendance at the Charter School, the Charter School shall not require or request that the student graduate before the end of the student's fourth year of high school.

If the Charter School determines the student is reasonably able to complete the Charter School's graduation requirements by the end of the student's fifth year of high school, the Charter School shall do the following:

1. Inform the student of the student's option to remain at the Charter School for a fifth year to complete the Charter School's graduation requirements.
2. Inform the student, and the educational rights holder for the student, about how remaining in school for a fifth year to complete the Charter School's graduation requirements will affect the student's ability to gain admission to a postsecondary educational institution.
3. Provide information to the student about transfer opportunities available through the California Community Colleges.
4. Permit the student to stay at the Charter School for a fifth year to complete the Charter School's graduation requirements upon agreement with the student, if the student is 18 years of age or older, or, if the student is under 18 years of age, upon agreement with the educational rights holder for the student.

#### **Acceptance of Course Work**

The Charter School will accept any coursework satisfactorily completed at any public school, a juvenile court school, a school in a country other than the United States, and/or a nonpublic, nonsectarian school or agency by a homeless student.

The Charter School will provide homeless students credit for the partial completion of courses taken while attending a public school, a juvenile court school, a school in a country other than the United States, and/or a nonpublic, nonsectarian school or agency. If the student did not complete the entire course, the Charter School shall not require the student to retake the portion of the course the student completed unless the Charter School, in consultation with the holder of educational rights for the student, finds that the student is reasonably able to complete the requirements in time to graduate from high school. When partial credit is awarded in a particular course, the homeless student shall be enrolled in the same or equivalent course, if applicable, so that the student may continue and complete the entire course. These students shall not be prevented from taking or retaking a course to meet California State University or the University of California admission eligibility requirements.

**Notice**

For any homeless student who seeks enrollment at the Charter School, written notice will be provided to the parent/guardian at the time of enrollment and while the student is enrolled at the Charter School in alignment with the law. (42 U.S.C. § 11432(e)(3)(C).)

**Annual Policy Review**

The Charter School shall annually review and revise any policies that may act as barriers to the identification of homeless children and youths or the enrollment of homeless children and youths at the Charter School. In reviewing and revising such policies, consideration shall be given to issues concerning transportation, immunization, residency, birth certificates, school records and other documentation, and guardianship. Special attention shall be given to ensuring the identification, enrollment, and attendance of homeless children and youths who are not currently attending school. Charter School's review of its homeless education program policies shall use resources developed by the CDE and posted on the CDE's internet website and resources developed by homeless education technical assistance centers established using funding from the American Rescue Plan Act of 2021.

**School Website Posting**

Charter School shall ensure that the following information is posted, and updated as necessary, on its internet website:

- The name and contact information of the Charter School Liaison(s) for homeless children and youths.
- The contact information of any employee or contractor that assists the Charter School Liaison in completing the Liaison's duties.
- Specific information regarding the educational rights and resources available to persons experiencing homelessness.

The role of the Foster and Mobile Youth Liaison is advisory with respect to placement options and determination of the school of origin.

### **School Stability and Enrollment**

The Charter School will work with foster youth and their ERH to ensure that each foster youth is placed in the least restrictive educational programs and has access to the academic resources, services, and extracurricular and enrichment activities that are available to all students, including, but not limited to, interscholastic sports. All decisions regarding a foster youth's education and placement will be based on the best interest of the child and shall consider, among other factors, educational stability and the opportunity to be educated in the least restrictive educational setting necessary to achieve academic progress.

Foster youth, currently migratory children, and children of military families have the right to remain in their school of origin if it is their best interest. The Charter School will immediately enroll a foster youth, a currently migratory child, or child of a military family seeking reenrollment in the Charter School as their school of origin.

A foster youth, currently migratory child, or child of a military family who seeks to transfer to the Charter School will be immediately enrolled (subject to the Charter School's capacity, if the Charter School is not the student's school of origin, and pursuant to the procedures stated in the Charter School's charter and Board policy) even if the student has outstanding fees, fines, textbooks, or other items or monies due to the school last attended or is unable to meet normal enrollment documentation or school uniform requirements (e.g. producing medical records or academic records from a previous school).

At the initial detention or placement, or any subsequent change in placement, a foster youth may continue in their school of origin for the duration of the court's jurisdiction. A currently migratory child or child of a military family may continue in their school of origin as long as the student meets the definition of a currently migratory child or child of a military family as described above. Foster youth, currently migratory children, and children of military families have the right to remain in their school of origin following the termination of the court's jurisdiction or termination of the child's status as a currently migratory child or child of a military family, as follows:

1. For students in kindergarten through eighth grade, inclusive, the student will be allowed to continue in the school of origin through the duration of the academic year in which the student's status changed.
2. For students enrolled in high school, the student will be allowed to continue in the school of origin through graduation.

If the foster youth, currently migratory child or child of a military family is transitioning between school grade levels, the youth shall be allowed to continue in the district of origin in the same attendance area to provide the youth the benefit of matriculating with their peers in accordance with the established feeder patterns of school districts. A student who is transitioning to a middle school or high school shall be allowed to enroll in the school designated for matriculation in another school district.

The Foster and Mobile Youth Liaison may, in consultation with and with the agreement of the foster youth and the ERH for the foster youth, recommend that the foster youth's right to attend the school of origin be waived and the student be enrolled in any district school that the student would otherwise be eligible to attend as a resident of the school district or in the Charter School consistent with current enrollment procedures. All decisions shall be made in accordance with the foster youth's best interests.

Prior to making any recommendation to move a foster youth from their school of origin, the Foster and Mobile Youth Liaison shall provide the foster youth and the foster youth's ERH with a written explanation of the basis for the recommendation and how the recommendation serves the foster youth's best interests.

If any dispute arises regarding a foster youth's request to remain in the Charter School as

the foster youth's school of origin, the foster youth have the right to remain in the Charter School pending resolution of the dispute. The dispute shall be resolved in accordance with the existing Charter School dispute resolution process.

### **Transportation**

The Charter School shall not be responsible for providing transportation to allow a foster youth to attend school, unless there is an agreement with a local child welfare agency that the Charter School assumes part or all of the transportation costs in accordance with Section 6312(c)(5) of Title 20 of the United States Code, or unless required by federal law. The Charter School is not prohibited from providing transportation, at its discretion, to allow a foster youth to attend school.

In accordance with Section 6312(c)(5) of Title 20 of the United States Code, the Charter School shall collaborate with local child welfare agencies to develop and implement clear written procedures to address the transportation needs of foster youth to maintain them in their school of origin, when it is in the best interest of the youth.

For any student who has an individualized education program ("IEP"), the student's IEP team will determine if the student requires special education transportation as a related service regardless of the student's status.

### **Effect of Absences on Grades**

The grades of a foster youth shall not be lowered for any absence from the Charter School that is due to either of the following circumstances:

- a. A decision by a court or placement agency to change the student's placement, in which case the student's grades shall be calculated as of the date the student left school.
- b. A verified court appearance or related court-ordered activity.

### **Transfer of Coursework and Credits**

The Charter School shall accept coursework satisfactorily completed by a Foster and Mobile Youth while attending another public school<sup>4</sup>, a juvenile court school, a charter school, a school in a country other than the United States, or a nonpublic, nonsectarian school or agency even if the student did not complete the entire course and shall issue that student full or partial credit for the coursework completed. [The credits accepted pursuant to this paragraph shall be applied for enrollment purposes to the same or equivalent course, if applicable, as the coursework completed in the prior public school, juvenile court school, charter school, school in a country other than the United States, or nonpublic, nonsectarian school. For purposes of](#)

<sup>4</sup> For purposes of coursework completed by a student who is a child of a military family, "public school" includes schools operated by the United States Department of Defense.

the official transcript, the credits accepted pursuant to this paragraph shall be added to the credits earned from the same or equivalent course for purposes of calculating the total credits earned for the course but shall separately identify the school and local educational agency in which the credits were earned.

If a Foster and Mobile Youth transfers in or out of Charter School, Charter School shall issue the full and partial credits on an official transcript for the pupil and shall ensure the transcript includes all of the following:

- a. All full and partial credits and grades earned based on any measure of full or partial coursework being satisfactorily completed, including a determination of the days of enrollment or seat time, or both, if applicable, at a school of that local educational agency or a prior local educational agency, or any other public school, juvenile court school, charter school, school in a country other than the United States, or nonpublic, nonsectarian school.
- b. The credits and grades for each school and local educational agency listed separately so it is clear where they were earned.
- c. A complete record of the pupil's seat time, including both period attendance and days of enrollment.

If Charter School has knowledge that the transcript from the transferring local educational agency may not include certain credits or grades for the pupil, it shall contact the prior local educational agency within two business days to request that the prior local educational agency issue full or partial credits pursuant to this paragraph. The prior local educational agency shall issue appropriate credits and provide all academic and other records to Charter School within two business days of the request.

If the Foster and Mobile Youth did not complete the entire course, the student shall be issued partial credit for the coursework completed and shall not be required to retake the portion of the course that the student completed at another school unless the Charter School, in consultation with the student's ERH, finds that the student is reasonably able to complete the requirements in time to graduate from high school. Whenever partial credit is issued to a Foster and Mobile Youth in any particular course, the student shall be enrolled in the same or equivalent course, if applicable, so that the student may continue and complete the entire course.

In no event shall the Charter School prevent a Foster and Mobile Youth from taking or retaking a course to meet the eligibility requirements for admission to the California State University or the University of California.

#### Applicability of Graduation Requirements

To obtain a high school diploma from the Charter School, a student must complete all courses required by the Charter School and fulfill any additional graduation requirements prescribed by the Board. However, Foster and Mobile Youth who transfer to the Charter School any time after the completion of their second year of high school, and students participating in a newcomer program who are in their third or fourth year of high school, shall be exempt from any of the Charter School's graduation requirements that are in

excess of the California minimum graduation requirements specified in Education Code section 51225.3 ("additional graduation requirements") unless the Charter School makes a finding that the student is reasonably able to complete the Charter School's graduation requirements by the end of the student's fourth year of high school.

To determine whether a Foster and Mobile Youth is in their third or fourth year of high school, either the number of credits the student has earned to the date of transfer, or the length of the student's school enrollment may be used, whichever will qualify the student for the exemption. For a student participating in a newcomer program, enrollment in grade 11 or 12 based on the average age of students in the third or fourth year of high school may be used to determine whether the student is in their third or fourth year of high school.

Within thirty (30) calendar days of the date that a student who may qualify for exemption under the above requirements transfers into the Charter School, the Charter School shall notify the student, the ERH, and where applicable, the student's social worker or probation officer, of the availability of the exemption and whether the student qualifies for the exemption. If the Charter School fails to provide timely notice of the availability of the exemption, the Foster and Mobile Youth shall be eligible for the exemption from the additional graduation requirements once notified, even if that notification occurs after the termination of the court's jurisdiction over the student, if the foster youth otherwise qualifies for the exemption.

If a student is exempted from the Charter School's additional graduation requirements pursuant to this Policy and completes the statewide coursework requirements specified in Educational Code section 51225.3 before the end of their fourth year of high school and that student would otherwise be entitled to remain in attendance at the Charter School, the Charter School shall not require or request that the student graduate before the end of their fourth year of high school.

The Equity and Inclusion Officer or designee shall notify a Foster and Mobile Youth and their ERH if the Charter School grants an exemption from the additional graduation requirements, ~~how any requirements that are waived will affect the student's ability to gain admission to a postsecondary educational institution, and shall provide information about transfer opportunities available through the California Community Colleges, and shall consult with the Foster and Mobile Youth and their ERH. The consultation shall include all of the following:~~

1. Discussion regarding how any of the requirements that are waived may affect the pupil's postsecondary education or vocation plans, including the ability to gain admission to a postsecondary educational institution.

2. Discussion and information about other options available to the pupil, including, but not limited to, a fifth year of high school, possible credit recovery, and any transfer opportunities available through the California Community Colleges.

3. Consideration of the pupil's academic data and any other information relevant to making an informed decision on whether to accept the exemption.

A Foster and Mobile Youth who would otherwise be entitled to remain in attendance at the Charter School shall not be required to accept the exemption from additional graduation requirements or be denied enrollment in, or the ability to complete, courses for which the student is otherwise eligible, including courses necessary to attend an institution of higher education, regardless of whether those courses are required for statewide graduation requirements.

~~If an eligible student a Foster and Mobile Youth who was eligible for an exemption and 1) was not properly notified of the availability of the exemption, or 2) is not exempted from additional graduation requirements or has~~ previously declined the exemption pursuant to this Policy, the Charter School shall exempt the student ~~at any time within thirty (30) days of the exemption request,~~ if an exemption is requested by the youth and the youth ~~qualifies at one time qualified~~ for the exemption, ~~even if the pupil is no longer a Foster and Mobile Youth or the court's jurisdiction of the pupil has terminated.~~ Likewise, if the youth is exempted, the Charter School may not revoke the exemption.

If a Foster and Mobile Youth is exempted from additional graduation requirements pursuant to this section, the exemption shall continue to apply after the termination of the court's jurisdiction over the student or after the termination of circumstances which make the Student eligible while he or she is enrolled in school or if the student transfers to another school, including a charter school, or school district.

The Charter School shall not require or request a Foster and Mobile Youth to transfer schools in order to qualify for an exemption from additional graduation requirements, and no Foster and Mobile Youth or any person acting on behalf of a Foster and Mobile Youth may request a transfer solely to qualify for an exemption from the Charter School's additional graduation requirements.

Upon making a finding that a Foster and Mobile Youth is reasonably able to complete the Charter School's additional graduation requirements within the student's fifth year of high school, the Equity and Inclusion Officer or designee shall:

1. ~~Inform~~ Consult with the student and the student's ERH of the student's option to remain in school for a fifth year to complete the Charter School's graduation requirements, consistent with the laws regarding continuous enrollment and

satisfactory progress for Charter School students over age 19.

2. ~~Inform~~ Consult with the student and the student's ERH how remaining in school for a fifth year will affect the student's ability to gain admission to a postsecondary educational institution.
3. ~~Provide~~ Consult with and provide information to the student about transfer opportunities available through the California Community Colleges.
4. Upon agreement with the student or, if the student is under 18 years of age, the ERH, permit the student to stay in school for a fifth year to complete the Charter School's graduation requirements.

Through January 1, 2028, upon making a finding that a Foster and Mobile Youth is not reasonably able to complete the Charter School's additional graduation requirements but is reasonably able to complete state coursework requirements specified in Education Code Section 51225.3 within the student's fifth year of high school, the Executive Director or designee shall exempt the pupil from Charter School's graduation requirements and provide pupil the option of remaining in school for a fifth (5<sup>th</sup>) year to complete the statewide coursework requirements. Charter School shall consult with the Foster and Mobile Youth and the ERH regarding all of the following:

1. The pupil's option to remain in school for a fifth year to complete the statewide coursework requirements.
2. How waiving the local educational requirements and remaining in school for a fifth year may affect the pupil's postsecondary education or vocation plans, including the ability to gain admission to a institution of higher education.
3. Whether any other options are available to the pupil, including, but not limited to, possible credit recovery, and any transfer opportunities available through the California Community Colleges.
4. The pupil's academic data and any other information relevant to making an informed decision on whether to accept the exemption and option to remain in school for a fifth year to complete the statewide coursework requirements.

If a Foster and Mobile Youth is not eligible for an exemption in the year in which the pupil transfers between schools, because Charter School makes a finding that the pupil

is reasonably able to complete Charter School's additional graduation requirements in time to graduate from high school by the end of the pupil's fourth year of high school, then Charter School shall do the following:

- 1) Within the first 30 calendar days of the following academic year, Charter School shall reevaluate eligibility;
- 2) Provide written notice to the pupil, the ERH, and the pupil's social worker or probation officer, if applicable, whether the pupil qualifies for an exemption, based on the course completion status of the pupil at the time of reevaluation, to determine if the pupil continues to be reasonably able to complete Charter School's additional graduation requirements in time to graduate from high school by the end of the pupil's fourth year of high school.
- 3) If, given their course completion status at that time the reevaluation is conducted, the pupil is not reasonably able to complete Charter School additional graduation requirements in time to graduate from high school by the end of the pupil's fourth year of high school, the Charter School shall:
  - i. provide the pupil with the option to receive an exemption from all coursework and other requirements adopted by the governing board body of Charter School that are in addition to the statewide coursework requirements specified in Section 51225.3, or
  - ii. to stay in school for a fifth year to complete the Charter School's additional graduation requirements.

Charter School shall provide notification of the availability of these options. The pupil (if not a minor) or the ERH shall have sole discretion whether to accept the exemption, based on the pupil's best educational interests.

If a juvenile court youth satisfies the requirements for high school graduation while enrolled at a juvenile court school but has elected to decline the issuance of the diploma for the purpose of taking additional coursework, the Charter School will not prevent the juvenile court youth from enrolling in the Charter School and pursuing additional coursework if requested by the youth or by the youth's ERH.

#### **Eligibility for Extracurricular Activities**

A student who is in foster care whose residence changes pursuant to a court order or decision of a child welfare worker shall be immediately deemed to meet all residency requirements for participation in interscholastic sports or other extracurricular activities.

#### **Waiver of Fees for Afterschool Programs**

The Charter School shall not charge any student who the Charter School knows is currently in foster care any family fees associated with an After-School Education and Safety (“ASES”) Program operated by the Charter School.

#### **Student Records**

When the Charter School receives a transfer request and/or student records request for the educational information and records of a foster youth from a new LEA, the Charter School shall provide these student records within two (2) business days. The Charter School shall compile the complete educational record of the student, including but not limited to a determination of seat time, full or partial credits earned, current classes and grades, immunization, and other records, and, if applicable, a copy of the student’s special education records including assessments, IEPs, and/or 504 plans. All requests for student records will be shared with the Foster and Mobile Youth Liaison, who shall be aware of the specific educational record keeping needs of Foster and Mobile Youth.

In accordance with the Charter School’s Educational Records and Student Information Policy, under limited circumstances, the Charter School may disclose student records or personally identifiable information contained in those records to certain requesting parties including but not limited to a foster family agency and state and local authorities within a juvenile justice system, without parental consent.

#### **Complaints of Noncompliance**

Complaints of noncompliance with this Policy shall be governed by the Charter School’s Uniform Complaint Procedures. A copy of the Uniform Complaint Policy and Procedures is available upon request.

#### **Reporting Requirements**

Charter School shall report to the California Department of Education (“CDE”) annually on the number of pupils who, for the prior school year, graduated with an exemption from the Charter School’s graduation requirements that are in addition to the statewide coursework requirements. This data shall be reported for pupils graduating in the fourth year and fifth year cohorts, and shall be disaggregated by cohort, pupil category, race, and disability status. The CDE shall make this data publicly available on an annual basis aligned with other reporting timelines for the California dashboard graduation data. For purposes of this subdivision, “pupil category” means the categories of pupils identified in the “Definitions” section of this Policy, above.

\*\*\*\*

#### **Availability of Complete Policy**

For any Foster and Mobile Youth who enrolls at the Charter School, a copy of the Charter School's complete foster youth policy shall be provided at the time of enrollment. A copy of the complete Policy is available on the school website.

### **Section 504: Policy, Procedures, and Parent Rights Regarding Identification, Evaluation, and Education**

**Board Policy: 3325**

**Approved: February 16, 2022**

**Amended: June 22, 2023**

#### **A. SECTION 504 POLICY**

The Board of Directors of Audeo Charter School hereby adopts the Section 504: Policy, Procedures, and Parent Rights Regarding Identification, Evaluation and Education to apply to Audeo Charter School II, Audeo Charter School III, Audeo Valley Charter School, Grossmont Secondary School, Mirus Secondary School and Sweetwater Secondary School hereafter collectively referred to as ("Charter School"). ~~The Board of Directors of Mirus Education hereby adopts the Section 504: Policy, Procedures, and Parent Rights Regarding Identification, Evaluation and Education to apply to Mirus Secondary School, hereafter collectively referred to as ("Charter School").~~ The Governing Board of the Charter School recognizes the need to identify and evaluate students with disabilities in order to provide them with a free, appropriate public education and its legal responsibility to ensure that "no qualified person with a disability shall, solely by reason of their disability, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance." This Policy and the related administrative regulation has been developed to ensure the implementation of Section 504 of the Rehabilitation Act of 1973 ("Section 504"), and its implementing regulations as amended, which pertains to public schools. The intent is to ensure that all students with disabilities, who are eligible under Section 504, are identified and evaluated and have access to a free, appropriate public education ("FAPE").

Under Section 504, individuals with physical or mental impairments that substantially limit one or more major life activities, including learning, are entitled to receive regular or special education and/or related aids and services designed to meet their individual needs as adequately as the needs of nondisabled students are met. Major Life Activities include functions such as caring for oneself, performing manual tasks, seeing, hearing, eating, sleeping, walking, standing, lifting, bending, speaking, breathing, learning, reading, concentrating, thinking, communicating, and working, as well as the operation of a major bodily functions, including functions of the immune system, normal cell growth, digestive, bowel, bladder, neurological, brain, respiratory, circulatory, endocrine, and reproductive functions. Students may be disabled and entitled to services under Section 504 even though they are not eligible for services pursuant to the Individuals with Disabilities Education Act Improvement Act of 2004 ("IDEA").

The Charter School's Executive Director or designee shall ensure that this policy and set of procedures is implemented and followed. Whenever there is reason to believe that, because of a

disability, a student needs regular or special education and/or related aids and services (and the student has not been found eligible under IDEA) that student will be evaluated under this policy's corresponding procedures.

A Section 504 Team will be convened to determine the student's need for regular or special education and/or related aids and services. The 504 Team will include persons knowledgeable about the Section 504 standards, the student's individual needs and school history, the meaning of evaluation data, and placement options. The student's parent/guardian shall be invited to participate in this 504 Team and shall receive notice of procedural safeguards guaranteed by law.

If Charter School does not assess a student after a parent has requested an assessment, the Charter School shall provide notice of the parent's/guardian's procedural safeguards. Charter School shall not retaliate in any way against parents/guardians or students who exercise any rights under the procedural safeguards and/or Section 504.

If the student, due to disability, is found to require regular or special education and/or related aids and services under Section 504, the Section 504 Team shall develop a 504 plan for the provision of such services to the student. The student shall be educated with nondisabled students to the maximum extent appropriate to the student's individual needs. The student's parent/guardian shall be provided a copy of the 504 plan and shall receive notice of procedural safeguards guaranteed by law. Charter School shall periodically review the student's progress and placement.

The Charter School does not discriminate on the basis of disability, or any other characteristic protected under law. Charter School will implement this policy through its corresponding procedures.

## **B. SECTION 504 PROCEDURES**

### **A. Definitions**

1. **Academic Setting** – the regular, educational environment operated by Charter School.
2. **Individual with a Disability under Section 504** – An individual who:
  - a. has a physical or mental impairment that substantially limits one or more major life activities;
  - b. has a record of such an impairment; or
  - c. is regarded as having such an impairment.
3. **Evaluation** – procedures used to determine whether a student has a disability as defined within these Procedures, and the nature and extent of the services that the student needs. The term means procedures used selectively with an individual student and does not include basic tests administered to, or procedures used with, all students in a school, grade or class.
4. **504 Plan** – is a plan developed to identify and document the student's needs for regular or special education and related aids and services for participation in educational programs, activities, and school-sponsored events.

5. **Free Appropriate Public Education (“FAPE”)** – the provision of regular or special education and related aids and services that are designed to meet the individual needs of persons with disabilities as adequately as the needs of persons without disabilities are met.
  6. **Major Life Activities** - Functions such as caring for oneself, performing manual tasks, seeing, hearing, eating, sleeping, walking, standing, sitting, reaching, lifting, bending, speaking, breathing, learning, reading, concentrating, thinking, communicating, interacting with others, and working. A major life activity also includes the operation of a major bodily function, including but not limited to, functions of the immune system, special sense organs and skin, normal cell growth, digestive, genitourinary, bowel, bladder, neurological, brain, respiratory, circulatory, endocrine, hemic, lymphatic, musculoskeletal, and reproductive functions.
  7. **Physical or Mental Impairment** –
    - a. Any physiological disorder or condition, cosmetic disfigurement, or anatomical loss affecting one or more of the following body systems: neurological; musculoskeletal; special sense organs; respiratory; including speech organs; cardiovascular; reproductive; digestive; genitor-urinary; hemic and lymphatic; skin; and endocrine; or
    - b. Any mental or psychological disorder, such as intellectual disability, organic brain syndrome, emotional or mental illness, and specific learning disabilities.
  8. **504 Coordinator** – The Special Education Coordinator shall serve as the Charter School’s Section 504 Coordinator. The parents or guardians may request a Section 504 due process hearing from or direct any questions or concerns to the Section 504 Coordinator at (619) 393-2270.
  9. **Has a record of such an impairment** - means has a history of, or has been misclassified as having, a mental or physical impairment that substantially limits one or more major life activities.
  10. **Is regarded as having an impairment** - means
    - a. An individual meets the requirement of 'being regarded as having such an impairment' if the individual establishes that they have been subjected to an action prohibited under this Act because of an actual or perceived physical or mental impairment whether or not the impairment limits or is perceived to limit a major life activity.
    - b. Being regarded as having an impairment shall not apply to impairments that are transitory and minor. A transitory impairment is an impairment with an actual or expected duration of 6 months or less.
- B. Referral, Assessment and Evaluation Procedures

1. Charter School will evaluate any student who, because of disability, needs or is believed to need regular or special education and/or related aids and services.
  2. A student may be referred by anyone, including a parent/guardian, teacher, other school employee or community agency, for consideration as to whether the student qualifies as a student with disabilities under Section 504. Requests for evaluation shall be made in writing, and a copy of said request will remain in the student's file regardless of the final determination. This referral should be made to the Section 504 Coordinator who will convene a 504 Team. Any requests made to another Charter School employee will be forwarded to the Section 504 Coordinator.
  3. The Charter School has the responsibility to ensure that students with disabilities are evaluated. Therefore, it is important that students who have or may have a disability are referred to the Section 504 Coordinator so that the assessment process is initiated.
  4. The 504 Team convened by the Section 504 Coordinator will be composed of the student's parents/guardians and other persons knowledgeable about the student (such as the student's regular education teachers), the student's school history, the student's individual needs (such as a person knowledgeable about the student's disabling condition), the meaning of evaluation data, the options for placement and services, and the legal requirements for least restrictive environment and comparable facilities.
  5. The 504 Team shall promptly consider the referral and determine what assessments are needed in all suspected areas of disability to evaluate whether the student is a student with a disability under Section 504 and what special needs the student may have. The decision regarding what assessments shall be undertaken shall be based on a review of the student's school records (including academic, social and behavioral records), any relevant medical records, and the student's needs. Students requiring assessment shall be provided appropriate assessments administered by qualified assessment specialists.
6. The 504 Team will consider the following information in its evaluation of the student:
- a. Tests and other evaluation materials that have been validated for the specific purpose for which they are used and are administered by trained personnel;
  - b. Tests and other evaluation materials including those tailored to assess specific areas of educational need and not merely those which are designed to provide a single general intelligence quotient; and

- c. Tests are selected and administered so as to best ensure that, when a test is administered to a student with impaired sensory, manual, or speaking skills, the test results accurately reflect the student's aptitude or achievement level or whatever factor the test purports to measure, rather than reflecting the student's impaired sensory, manual, or speaking skills (except where those skills are the factors that the test purports to measure.)
7. The evaluation of the student must be sufficient for the 504 Team to accurately and completely describe: (a) the nature and extent of the disabilities; (b) the student's special needs; (c) the impact upon the student's education; and (d) what regular or special education and/or related aids and services are appropriate to ensure that the student receives a free appropriate public education. All significant factors relating to the learning process for that student, including adaptive behavior and cultural and language background, must be considered. The evaluation may include, but is not limited to, classroom and playground observation, performance-based testing, academic assessment information, and data offered by the student's teachers and parent/guardian.
8. Mitigating measures cannot be considered when evaluating whether or not a student has a substantially limiting impairment. Mitigating measures could include medications, prosthetic devices, assistive devices, or learned behavioral or adaptive neurological modifications a student uses to eliminate or reduce the effects of an impairment.
9. The parents/guardians shall be given an opportunity in advance of 504 Team meetings to examine assessment results and all other relevant records.
10. If a request for evaluation is denied, the 504 Team shall inform the parents/guardians in writing of this decision and of their procedural rights as described below.

C. 504 Plan

1. When a student is identified as having a disability within the meaning of Section 504, the 504 Team shall determine what, if any, services are needed to ensure that the student receives a FAPE.
2. The 504 Team responsible for making the placement decision shall include the parents/guardians and other persons knowledgeable about the child, the meaning of the evaluation data, and the placement options.
3. For each identified eligible student, the 504 Team will develop a 504 Plan describing the student's disability and the regular or special education and/or related aids and services needed. The Plan will specify how the special education and/or related aids and services will be provided to the eligible student and by whom. The 504 Plan will also identify the person responsible for ensuring that all the components of the Plan are implemented.
4. The student's teacher and any other staff who are to provide services to the student or who are to make modifications in the classroom for the student shall be informed of the services or modifications necessary for the student and, if appropriate, provided a copy of the 504 Plan. A copy of this plan shall be kept in the student's cumulative file in a manner that limits access to those persons involved in the 504 process and/or the provision of services and modifications.
5. The eligible student shall be placed in the regular education environment unless it is demonstrated that the student's needs cannot be met in the regular education environment with supplementary aids and services. The student shall be educated with students who are not disabled to the maximum extent appropriate to their individual needs.
6. The referral, assessment, evaluation and placement process will be completed within a reasonable time. It is generally not reasonable to exceed fifty (50) school days in completing this process.
7. The parents/guardians shall be notified in writing of the final decision concerning the student's identification as a person with disabilities, the educational program and services to be provided, if any, and of the Section 504 procedural safeguards, as described below, including the right to an impartial hearing to challenge the decision.
8. If the 504 Team determines that the student has a disability but that no special services are necessary for the student, the 504 Plan shall reflect the identification of the student as a person with a disability under Section 504 and shall state the basis for the decision that no special services are presently needed.
9. The 504 Plan shall include a schedule for annual review of the student's needs and indicate that this review may occur more frequently at the request of the parent/guardian or school staff.
10. Charter School shall immediately implement a student's prior 504 Plan, when a student enrolls at the Charter School. Within thirty (30) calendar days of starting school, Charter School shall schedule a 504 Team meeting to review the existing 504 Plan. Charter School shall request a copy of the prior 504 plan from both the prior school and the parent/guardian.

D. Review of the Student's Progress

1. The 504 Team shall monitor the progress of the eligible student and the effectiveness of the student's 504 Plan. According to the review schedule set out in the student's 504 Plan, the 504 Team shall annually determine whether the services and modifications are appropriate.
2. A reevaluation of the student's needs shall be conducted before any subsequent significant change in placement.

E. Procedural Safeguards

1. Parents/guardians shall be notified in writing of all decisions regarding the identification, evaluation or educational placement of students with disabilities or suspected disabilities.

Notifications shall include a statement of their rights to:

- Examine relevant records
  - Have an impartial hearing with an opportunity for participation by the parents/guardians and their counsel
  - Have the right to file a Uniform Complaint pursuant to Charter School policy
  - Seek review in federal court if the parents/guardians disagree with the hearing decision.
2. Notifications shall also set forth the procedures for requesting an impartial hearing. Requests shall be made to the following:

[Kirsten Ramirez Henderson](#)

[10170 Huennekens Street, San Diego, CA 92121](#)

[\(619\)-393-2270](#)

[khenderson@altusschools.net](mailto:khenderson@altusschools.net)

Notifications shall also advise that reimbursement for attorney's fees is available only as authorized by law.

3. The Executive Director or designee shall maintain a list of impartial hearing officers who are qualified and willing to conduct Section 504 hearings. To ensure impartiality, such officers shall not be employed by or under contract with Charter

School or any district within the El Dorado Charter SELPA or the San Diego County Office of Education in any capacity other than that of hearing officer and shall not have any professional or personal involvement that would affect their impartiality or objectivity in the matter.

4. If a parent/guardian disagrees with the identification, evaluation or educational placement of a student with disabilities under Section 504, the parent/guardian may request a hearing to initiate due process procedures. The parent/guardian shall set forth in writing their request for a hearing. A request for hearing should include:
  - The specific decision or action with which the parent/guardian disagrees.
  - The changes to the 504 Plan the parent/guardian seeks.
  - Any other information the parent/guardian believes is pertinent.
  
5. Within five (5) calendar days of receiving the parent/guardian's request for a hearing, the Charter School may offer the parent/guardian an optional alternative dispute resolution process. However, the timeline for the hearing shall remain in effect unless it is extended by mutual written agreement of the parent/guardian and the Charter School. Alternative dispute resolution options include:
  - Mediation by a neutral third party.
  - Review of the 504 Plan by the Executive Director or designee.
  
6. Within ten (10) calendar days of receiving the parent/guardian's request, the Executive Director or designee shall select an impartial hearing officer. These 10 days may be extended for good cause or by mutual agreement of the parent/guardian and Executive Director.
  
7. Within thirty-five (35) calendar days of the selection of the hearing officer, the due process hearing shall be conducted. These thirty-five (35) calendar days may be extended for good cause or by mutual agreement of the parent/guardian and Executive Director.

8. The parent/guardian and the School shall be afforded the rights to:

- Be accompanied and advised by counsel and by individuals with special knowledge or training related to the individual needs of students who are qualified as having a disability under Section 504.
- Present written and oral evidence.
- Question and cross-examine witnesses.
- Receive written findings by the hearing officer.

9. The hearing officer shall issue a written decision within ten (10) calendar days of the hearing.

10. If desired, either party may seek a review of the hearing officer's decision by a federal court. The decision shall be implemented unless the decision is stayed, modified or overturned by a court.

11. Charter School shall not retaliate in any way against parents/guardians or students who exercise any rights under the procedural safeguards and/or Section 504.

F. **Suspension and Expulsion, Special Procedures for Students with Disabilities**  
Charter School shall follow the suspension and expulsion policy and procedures as set forth in the charter. A student who is qualified for services under Section 504 of the Rehabilitation Act of 1973 is subject to the same grounds for disciplinary action, including suspension and expulsion, and is accorded the same due process procedures applicable

to general education students except when federal and state law mandates additional or different procedures. Charter School will follow Section 504 and all applicable federal and state laws when imposing any form of discipline on a student identified as an individual with disabilities or for whom the Charter School has a basis of knowledge of a suspected disability or who is otherwise qualified for such services or protections in accordance to due process to such students. The following procedures shall be followed when a student with a disability is considered for suspension or expulsion. These procedures will be updated if there is a change in the law.

1. Services During Suspension

Students suspended for more than ten (10) school days in a school year shall continue to receive services so as to enable the student to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the child's 504 Plan; and receive, as appropriate, a functional behavioral assessment ("FBA") and behavioral intervention services and modifications, that are designed to address the behavior violation so that it does not recur. These services may be provided in an interim alternative educational setting.

2. Procedural Safeguards/Manifestation Determination

Within ten (10) school days of a recommendation for expulsion or any decision to change the placement of a child with a disability because of a violation of a code of student conduct, Charter School, the parent, and relevant members of the 504 Team shall review all relevant information in the student's file, including the child's 504 Plan, any teacher observations, and any relevant information provided by the parents to determine:

- a. If the conduct in question was caused by, or had a direct and substantial relationship to, the child's disability; or
- b. If the conduct in question was the direct result of the local educational agency's failure to implement the 504 Plan.

If Charter School, the parent, and relevant members of the 504 Team determine that either of the above is applicable for the child, the conduct shall be determined to be a manifestation of the child's disability.

If Charter School, the parent, and relevant members of the 504 Team make the determination that the conduct was a manifestation of the child's disability, the 504 Team shall:

- a. Conduct an FBA and implement a behavioral intervention plan ("BIP") for such child, provided that Charter School had not conducted such assessment prior to such determination before the behavior that resulted in a change in placement;
- b. If the child has a BIP, review the BIP and modify it, as necessary, to address the behavior; and

- c. Return the child to the placement from which the child was removed, unless the parent and Charter School agree to a change of placement as part of the modification of the BIP.

If Charter School, the parent, and relevant members of the 504 team determine that the behavior was not a manifestation of the student's disability and that the conduct in question was not a result of the failure to implement the 504 Plan, then Charter School may apply the relevant disciplinary procedures to children with disabilities in the same manner and for the same duration as the procedures would be applied to students without disabilities.

3. Appeals

The parent/guardian of a child with a disability under a 504 Plan who disagrees with any decision regarding placement, or the manifestation determination, or if the Charter School believes that maintaining the current placement of the child is substantially likely to result in injury to the child or to others, either party may request to utilize the appeal process outlined in the Procedural Safeguards section of these Procedures.

When an appeal relating to the placement of the student or the manifestation determination has been requested by either the parent or Charter School, the student shall remain in the interim alternative educational setting pending the decision of the hearing officer in accordance with state and federal law, including 20 U.S.C. Section 1415(k), until the expiration of the forty-five (45) day time period provided for in an interim alternative educational setting, unless the parent and Charter School agree otherwise.

4. Special Circumstances

Charter School personnel may consider any unique circumstances on a case-by-case basis when determining whether to order a change in placement for a child with a disability who violates a code of student conduct.

The Executive Director or designee may remove a student to an interim alternative educational setting for not more than forty-five (45) days without regard to whether the behavior is determined to be a manifestation of the student's disability in cases where a student:

- a. Carries or possesses a weapon, as defined in 18 U.S.C. § 930, to or at school, on school premises, or to or at a school function;
- b. Knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at school, on school premises, or at a school function; or

5. Interim Alternative Educational Setting

The student's interim alternative educational setting shall be determined by the student's 504 Team.

6. Procedures for Students Not Yet Eligible for Special Education Services

A student who has not been identified as an individual with disabilities pursuant to the IDEA 2004 and who has violated Charter School 's disciplinary procedures may assert the procedural safeguards granted under these Procedures only if Charter School had knowledge that the student had a disability before the behavior occurred.

Charter School shall be deemed to have knowledge that the student had a disability if one of the following conditions exists:

- a. The parent/guardian has expressed concern in writing, or orally if the parent/guardian does not know how to write or has a disability that prevents a written statement, to School Coordinator or the Administrator for Instructional Services, or to one of the child's teachers, that the student is in need of special education or related services.
- b. The parent has requested an evaluation of the child.
- c. The child's teacher, or the special education teacher or the school coordinator, has expressed specific concerns about a pattern of behavior demonstrated by the child, directly to the Special Education Coordinator or to the School Coordinator or to the Administrator for Instructional Services.

If Charter School knew or should have known the student had a disability under any of the three (3) circumstances described above, the student may assert any of the protections available to IDEA 2004-eligible children with disabilities, including the right to stay-put.

If Charter School had no basis for knowledge of the student's disability, it shall proceed with the proposed discipline. Charter School shall conduct an expedited evaluation if requested by the parent/guardian; however, the student shall remain in the education placement determined by Charter School pending the results of the evaluation.

Charter School shall not be deemed to have knowledge of that the student had a disability if the parent has not allowed an evaluation, refused services, or if the student has been evaluated and determined to not be eligible.

- *"Personally Identifiable Information"*: Personally identifiable information ("PII") is information about a student that is contained in their education records that cannot be disclosed without compliance with the requirements of Family Educational Rights and Privacy Act of 2001 ("FERPA"). PII includes, but is not limited to: a student's name; the name of a student's parent or other family member; the address of a student or student's family; a personal identifier, such as the student's Social Security number, student number or biometric record; other indirect identifiers, such as the student's date of birth, place of birth, and mother's maiden name; other information that, alone or in combination, is linked or linkable to a specific student that would allow a reasonable person in the school community, who does not have personal knowledge of the relevant circumstances, to identify the student with reasonable certainty; or information requested by a person who Charter School reasonably believes knows the identity of the student to whom the education record relates.
  - *"Directory Information"*: [Directory information is information contained in an education record of a student that would not generally be considered harmful or an invasion of privacy if disclosed.](#) Charter School may disclose the PII that it has designated as directory information, consistent with the terms of the annual notice provided by Charter School pursuant to the FERPA (20 U.S.C. § 1232g). Charter School has designated the following information as directory information:
    1. Student's name

2. Student's address

  - *"Legitimate Educational Interest"*: A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill their professional responsibility.

### **Disclosure Of Directory Information**

**Commented [MB3]:** A video is only appropriately classified under this list if the student's image is incidental or captured only as part of the background, or if a student is shown participating in school activities that are open to the public and without a specific focus on any individual.

Examples of situations that may cause a video to be an education record and NOT appropriately released as Directory Information:

A school surveillance video showing two students fighting in a hallway, used as part of a disciplinary action, is directly related to the students fighting.

A classroom video that shows a student having a seizure is directly related to that student because the depicted health emergency becomes the focus of the video.

If a school maintains a close-up photo of two or three students playing basketball with a general view of student spectators in the background, the photo is directly related to the basketball players because they are the focus of the photo, but it is not directly related to the students pictured in the background. However, schools often designate photos or videos of students participating in public events (e.g., sporting events, concerts, theater performances, etc.) as directory information and/or obtain consent from the parents or eligible students to publicly disclose photos or videos from these events.

A video recording of a faculty meeting during which a specific student's grades are being discussed is directly related to that student because the discussion contains PII from the student's education record.

<https://www.cde.state.co.us/cdereval/leatransparencybestpractice>

If the school chooses to include videos within "directory information," then we recommend providing parents with a Media Release Form at the beginning of each school year.

At the beginning of each school year, Charter School shall provide parents and eligible students with a notice containing the following information: 1) The type of PII it designates as directory information; 2) The parent's or eligible student's right to require that Charter School not release "directory information" without obtaining prior written consent from the parent or eligible student; and 3) The period of time within which a parent or eligible student must notify Charter School in writing of the categories of "directory information" that it may not disclose without the parent's or eligible student's prior written consent. Charter School will continue to honor a valid request to opt out of the disclosure of a former student's directory information made while the former student was in attendance unless the student rescinds the opt out request.

#### **Annual Notification To Parents And Eligible Students**

At the beginning of each school year, in addition to the notice required for directory information, Charter School shall provide eligible students currently in attendance and parents of students currently in attendance with a notice of their rights under the FERPA. The notice shall inform the parents and eligible students that they have the right to:

1. Inspect and review the student's education records;
2. Seek amendment of the student's education records that the parent or eligible student believes to be inaccurate, misleading or otherwise in violation of the student's privacy rights;
3. Consent to disclosures of PII contained in the student's education records, except to the extent that disclosure is permitted without prior written consent pursuant to FERPA;
4. File with the U.S. Department of Education a complaint concerning alleged failures by Charter School to comply with the requirements of FERPA and its promulgated regulations; and
5. Request that Charter School not release student names, addresses and telephone listings to military recruiters or institutions of higher education without prior written parental consent.

The notice must also include the following:

1. The procedure for exercising the right to inspect and review educational records;
2. The procedure for requesting amendment of records;
3. A statement that Charter School forwards education records to other agencies or institutions that have requested the records and in which the student seeks or intends to enroll or is already enrolled so long as the disclosure is for purposes related to the student's enrollment or transfer; and

4. The criteria for determining who constitutes a school official and what constitutes a legitimate educational interest.

#### **Parental And Eligible Student Rights Relating To Education Records**

Parents and eligible students have the right to review the student's education records. In order to do so, parents and eligible students shall submit a request to review education records in writing to the Executive Director. Within five (5) business days, Charter School shall comply with the request.

1. Copies of Education Records

Charter School will provide copies of requested documents within five (5) business days of a written request for copies. Charter School may charge reasonable fees for copies it provides to parents or eligible students. However, no charge shall be made for furnishing (1) up to two transcripts of former students' records or (2) up to two verifications of various records of former students. The charge will not include a fee to search for or to retrieve the education records.

2. Request for Amendment to Education Records

Following the inspection and review of a student's education record, a parent or eligible student may file a written request with the Executive Director to correct or remove any information in the student's education record that is any of the following:

- a. Inaccurate.
- b. Misleading.
- c. In violation of the privacy rights of the student.

Charter School will respond within thirty (30) days of the receipt of the request to amend. Charter School's response will be in writing and if the request for amendment is denied, Charter School will set forth the reason for the denial and inform the parent or eligible student of their right to a hearing challenging the content of the education record.

If the Executive Director sustains any or all of the allegations, the Executive Director must order the correction or the removal and destruction of the information. The Executive Director or designee must then inform the parent or eligible student of the amendment in writing.

If the Executive Director sustains the parent or eligible student's request to change the student's name and/or gender, Charter School shall add a new document to the student's record that includes all of the following information:

- a. The date of the request.
- b. The date the requested records were corrected.
- c. A list of the records requested to be corrected.

- d. The type of documentation, if any, provided to demonstrate a legal change to the student's name and/or gender. The parent or guardian of the student is not required to provide documentation of a legal change to the student's name and/or gender.
- e. The name of the employee that completed the request.
- f. The student's corrected and former names and/or genders.

Charter School shall immediately update a former student's records to include the student's updated legal name or gender if the Charter School receives government-issued documentation demonstrating that the former student's legal name or gender has been changed. Acceptable government issued identification includes but is not limited to:

- a. State-issued driver's license.
- b. Birth certificate.
- c. Passport.
- d. Social security card.
- e. Court order indicating a name change or a gender change, or both.

If requested by the former student, the Charter School shall reissue any documents conferred upon the former student with the former student's updated legal name or gender. Documents that may be reissued by Charter School include, but are not limited to, a transcript, a high school diploma, a high school equivalency certificate, or other similar documents conferred upon the former student.

If a former student requests that their name or gender be changed and the requested records are reissued, the Charter School shall add a new document to the former student's file that includes all of the following:

- a. The date of the request.
- b. The date the requested records were reissued to the former student.
- c. A list of the records that were requested by, and reissued to, the former student.
- d. The type of documentation provided by the former student in order to demonstrate the legal name or gender change.
- e. The name of the school district, charter school, or county office of education staff person that completed the request.
- f. The current and former name or gender of the former student.

### 3. Hearing to Challenge Education Record

If Charter School denies a parent or eligible student's request to amend an education record, the parent or eligible student may, within thirty (30) days of the denial, request in writing that the parent or eligible student be given the opportunity for a hearing to challenge the content of the student's education record on the grounds that the information contained in the education record is: inaccurate, misleading, or in violation of

the privacy rights of the student.

The Board Chair may convene a hearing panel to assist in making determinations regarding educational record challenges provided that the parent has given written consent to release information from the student's records to the members of the panel convened. The hearing panel shall consist of the following persons:

- a. The Administrator of Instructional Services, School Coordinator, or designee of a public school other than the public school at which the record is on file;
- b. A certificated Charter School employee; and
- c. A parent appointed by the Executive Director or by the Board Chair, depending upon who convenes the panel.

The hearing to challenge the education record shall be held within thirty (30) days of the date of the request for a hearing. Notice of the date, time and place of the hearing will be sent by Charter School to the parent or eligible student no later than twenty (20) days before the hearing.

The Administrator for Instructional Services or designee of a public school will serve as the chairman and shall not be required to use formal rules of evidence or procedure. The parent or eligible student will be given a full and fair opportunity to present evidence relevant to the issues relating to the challenge to the education record. The parent or eligible student may also, at their own expense, be assisted or represented by one or more individuals of their choice, including an attorney. The decision of the Board Chair or Executive Director or designee will be based solely on the evidence presented at the hearing and is final. Within thirty (30) days after the conclusion of the hearing, Charter School's decision regarding the challenge will be made in writing and will include a summary of the evidence and the reasons for the decision.

If, as a result of the hearing, Charter School decides that the information is inaccurate, misleading, or in violation of the privacy rights of the student, it will amend the record accordingly and inform the parent or eligible student of the amendment in writing.

If, as a result of the hearing, Charter School decides that the information in the education record is not inaccurate, misleading, or in violation of the privacy rights of the student, it shall inform the parent or eligible student of the right to place a statement in the record commenting on the contested information in the record or stating why they disagree with the decision of Charter School, or both. If Charter School places a statement by the parent or eligible student in the education records of a student, it will maintain the statement with the contested part of the record for as long as the record is maintained and disclose the statement whenever it discloses the portion of the record to which the statement relates.

#### **Disclosure Of Education Records And Directory Information**

Charter School must have a signed and dated written consent from the parent or eligible student before releasing any non-directory information from a student's education record except as provided below. The written permission must specify the records that may be disclosed, the purpose of the disclosure and the party or class of parties to whom the disclosure may be made. When disclosure is made pursuant to written permission, the parent or eligible student may request a copy of the disclosed records and Charter School shall provide the requestor with a copy of the records disclosed upon request. Signed and dated written consent may include a record and signature in electronic form if it identifies and authenticates a particular person as the source of the electronic consent and indicates such person's approval of the information contained in the electronic consent.

Charter School will only disclose PII on the condition that the receiving party not disclose the information to any party without the prior written consent of the parent or eligible student and that the receiving party use the information for the purposes for which the disclosure was made. This restriction does not apply to disclosures that fall within the disclosure exceptions listed below. Charter School must maintain the appropriate records related to these disclosure exceptions, as described below. Except for disclosures pursuant to a warrant, judicial order or lawfully issued subpoena, or directory information or to parents or eligible students, Charter School will inform a receiving party of the requirement that the party not disclose the information to any other party without the prior written consent of the parent or eligible student and that the receiving party use it for the purpose for which the disclosure was made. 1. Charter School will disclose education records, without prior written consent of the parent or eligible student, to the following parties:
2. School officials who have a legitimate educational interest as defined by 34 Code of Federal Regulations ("C.F.R.") Part 99;
3. Other schools to which a student seeks or intends to enroll so long as the disclosure is for purposes related to the student's enrollment or transfer. When a student transfers schools, Charter School will mail the original or a copy of a student's cumulative file to the receiving district or private school within ten (10) school days following the date the request is received from the public school or private school where the student intends to enroll. Charter School will make a reasonable attempt to notify the parent or eligible student of the request for records at their last known address, unless the disclosure is initiated by the parent or eligible student. Additionally, Charter School will give the parent or eligible student, upon request, a copy of the record that was disclosed and give the parent or eligible student, upon request, an opportunity for hearing pursuant to Section (IV)(3) above;
4. Certain government officials listed in 20 U.S.C. § 1232g(b)(1) in order to carry out lawful functions;
5. Appropriate parties in connection with a student's application for, or receipt of, financial aid if it is necessary to determine eligibility, amount of aid, conditions for aid or enforcing the terms and conditions of the aid;

Subject to the exceptions found in 34 C.F.R. § 99.31(a)(9)(i), reasonable effort must be made to notify the parent or eligible student of the order or subpoena in advance of compliance, so that the parent or eligible student may seek a protective order;
10. Persons who need to know in cases of health and safety emergencies;

The disclosure may only include final results of the disciplinary proceedings conducted by Charter School with respect to that alleged crime or offense. Charter School may disclose the final results of the disciplinary proceeding, regardless of whether Charter School concluded a violation was committed.

#### **Solicitation and Disclosure of Student Information for Immigration Purposes**

Charter School shall observe the following:

1. Except as required by state or federal law or as required to administer a state or federally supported education program, Charter School officials and employees will not collect information or documents regarding citizenship or immigration status of students or their family members.
2. If Charter School possesses information that could indicate immigration status, citizenship status, or national origin information, Charter School will not use the acquired information to discriminate against any student or families or bar children from enrolling in or attending school.
3. If parents or guardians choose not to provide information that could indicate their or their children's immigration status, citizenship status, or national origin, Charter School will not use such actions as

a basis to discriminate against any students or families or bar children from enrolling or attending school.

4. Charter School will not allow school resources or data to be used to create a registry based on race, gender, sexual orientation, religion, ethnicity, or national origin.

5. During the enrollment process:

a. Where permitted by law, Charter School shall accept alternative means to establish residency, age, or other eligibility criteria for enrollment or programs, and those alternative means shall include among them documentation or information that are available to persons regardless of immigration status, citizenship status, or national origin, and that do not reveal information related to citizenship or immigration status.

b. Charter School will not inquire specifically about a student's citizenship or immigration status or the citizenship or immigration status of a student's parents or guardians; nor shall personnel seek or require, to the exclusion of other permissible documentation or information, documentation or information that may indicate a student's immigration status, such as a green card, voter registration, a passport, or citizenship papers.

c. Charter School will not collect entire social security numbers or cards or a statement that the parent or guardian does not possess a Social Security number for the purposes of enrollment, and failure to provide this information will not bar a student from enrolling or attending Charter School. However, the last four digits of an adult household member's Social Security number may be solicited and/or collected if required to establish eligibility for federal benefit programs such as free or reduced-price meals. This Social Security information will only be collected for the limited purpose of establishing eligibility for federal benefit programs and will not affect student enrollment.

6. Charter School will not release information to third parties for immigration-enforcement purposes, except as required by law or court order. Except for investigations of child abuse, child neglect, or child dependency, or when the subpoena served on the Charter School prohibits disclosure, Charter School shall provide parental or guardian notification of any court orders, warrants, or subpoenas before responding to such requests.

The parent, guardian, or eligible student is not required to sign the consent form. If the parent, guardian or eligible student refuses to provide written consent for the release of student information that this not otherwise subject to release, Charter School shall not release the information. The Charter School may enter into a contract with a third party for the digital storage, management, and retrieval of student records and/or to authorize a third party provider of digital software to access, store, and use student records, provided that the contract meets the requirements of Education Code section 49073.1 and other applicable state and federal laws.

**Record Keeping Requirements**

Charter School will maintain a record of each request for access to and each disclosure of PII from the education records of each student for as long as the records are maintained. For each request, the record must include the following information: the parties who have requested or received the information and the legitimate interests the parties had in requesting or obtaining the information.

For disclosures of PII to institutions that make disclosures of the information on behalf of Charter School in accordance with 34 C.F.R. § 99.33(b), the record must include the names of the additional parties to which the receiving party may disclose the information on behalf of Charter School and the legitimate interests that each of the additional parties has in requesting or obtaining the information.

These record keeping requirements do not apply to requests from or disclosure to parents or eligible students, Charter School officials with a legitimate purpose of inspecting the records, a party with written consent from the parent or eligible student, a party seeking directory information, or a party seeking or receiving the records as directed by a court order or subpoena.

The records relating to disclosures of PII may be inspected by parents and eligible students, Charter School officials (or their assistants) responsible for the custody of the records, and parties authorized by regulations for the purpose of auditing the recordkeeping procedures of Charter School.

Student cumulative records may not be removed from the premises of Charter School, unless the individual removing the record has a legitimate educational interest, and is authorized by the Executive Director, or by a majority of a quorum of the Board of Directors at a duly agendized meeting. Employees who remove student cumulative records or other student records from the Charter School premises without a legitimate educational interest and authorization may be subject to discipline. Employees are permitted to take student work-product, or other appropriate student records, off premises without authorization for legitimate academic purposes (e.g. grading work-product, assigning credit, reviewing materials for classroom discussion, etc.).

### ***Professional Boundaries: Staff/Student Interaction Policy***

The Board of Directors of Mirus Education, Inc. hereby adopts this Staff/Student Interaction Policy to apply to Mirus Secondary School ("Charter School" or "Mirus".)

The Charter School recognizes its responsibility to make and enforce all rules and regulations governing student and employee behavior to bring about the safest and most learning-conducive environment possible.

## **I. PURPOSE AND SCOPE**

It is the purpose of this Policy to provide additional specificity to the standards of conduct embodied in the Charter School code of ethics-related rules and regulations so that staff members clearly understand the prohibitions and behavior boundaries which must govern their conduct towards students. (For purposes of this Policy, staff includes all school employees—certificated or classified; coaches or advisors; full-time or part-time, and independent contractors and volunteers).

The rules of conduct set forth in this Policy are not intended to serve as an exhaustive delineation of requirements, limitations, or prohibitions on staff conduct and activities established by this school. Rather, the components of this Policy serve to

- (1) Alert staff about some of the more sensitive and often problematic matters involved in faculty/staff student relationships.
- (2) Specify boundaries related to potentially sexual situations and conduct—the crossing of which is contrary to accepted norms of behavior and in conflict with the duties and responsibilities of staff.
- (3) Provide staff members with clear guidance in conducting themselves in a manner that reflects high standards of professionalism. (It is important for Charter School to maintain a school-wide culture in which students and staff understand their responsibilities to report sexual misconduct without fearing that school leaders will betray them if they do. In order to prevent sexual abuse and exploitation, students and staff must know that the administration will investigate reports about possible misconduct.)
- (4) Clarify that improper action will have significant consequences.
- (5) Provide an environment that empowers students to identify actions that appear to have crossed boundaries.
- (6) Define the process that Charter Schools will use for addressing potential improper conduct.
- (7) Preserve student and staff privacy rights during any pending investigation.

## **II. BACKGROUND AND GENERAL POLICY PROVISIONS**

Actions by staff members that are inconsistent or in conflict with the values established by Charter School can harm students, staff members, and the school's operation; therefore, such actions are unacceptable. It is the Policy of this school that all employees conduct themselves at all times in a manner that reflects the ethical standards consistent with the rules contained in this Policy and otherwise proclaimed by this school.

The provisions herein are intended to guide all Charter School staff members toward conduct that reflects the high standards of behavior and professionalism required of school staff while defining interaction boundaries between students and staff members.

Misconduct by a staff member disrupt the education of each other students, sidetrack the instructional focus of the school, and harm the school's legitimacy—all of which threaten the school's future ability to recruit skilled professionals and maintain a credible operation in the eyes of the community. It is critical that staff members study this Policy thoroughly and behave in ways to avoid even the appearance of misconduct.

Policy

While all boundaries and/or situations cannot be addressed in a single Policy, the issues delineated herein are among those that can be most problematic for staff members and among those that can have the greatest potential for a negative impact on this school and its community. Staff members should seek guidance in their daily conduct from established policies, procedures, and directives as well as through the guidance and recommendations of school leadership. Although this Policy gives specific, clear direction, it is each staff member's obligation to avoid situations that could prompt suspicion by parents, students, colleagues, or school leaders.

### III. BOUNDARIES

#### A. Boundaries Defined

For the purposes of this Policy, the term "boundaries" is defined as acceptable professional behavior by staff members while interacting with a student. Trespassing the boundaries of a student/teacher relationship is deemed an abuse of power and a betrayal of trust.

#### B. Acceptable and Unacceptable Behavior

Some activities may seem innocent from a staff member's perspective, but some of these can be perceived as flirtation or sexual insinuation from a student or parent point of view. The purpose of the following lists of acceptable and unacceptable behaviors is not to restrain innocent, positive relationships between staff and students but to prevent relationships that could lead to, or may be perceived as, inappropriate.

Staff members must understand their own responsibilities for ensuring that they do not cross the boundaries as written in this Policy. Disagreeing with the wording or intent of the established boundaries will be considered irrelevant for any required disciplinary purposes. Thus, it is critical that all staff study this Policy thoroughly and apply its spirit and intent in their daily

activities. Although sincere, professional interaction with students fosters the charter mission of implementing “personalized, education programs to facilitate student achievement,” student/staff interaction has boundaries regarding the activities, locations and intentions.

**Unacceptable Staff/Student Behaviors (Violations of this Policy)**

(This list, and any subsequent lists, are not meant to be all-inclusive, but, rather illustrative of the types of behavior addressed by this PPolicy.)

1. Giving gifts to an individual student that are of a personal and intimate nature.
2. Kissing of ANY kind.
3. Any type of unnecessary physical contact with a student in a private situation.
4. Intentionally being alone with a student away from the school.
5. Making, or participating in, sexually inappropriate comments.
6. Sexual jokes, or jokes/comments with sexual double-entendre.
7. Seeking emotional involvement (which can include intimate attachment) with a student beyond the normative care and concern required of an educator.
8. Listening to or telling stories that are sexually oriented.
9. Discussing inappropriate personal troubles or intimate issues with a student in an attempt to gain their support and understanding.
10. Becoming involved with a student so that a reasonable person may suspect inappropriate behavior.

**Unacceptable Staff/Student Behaviors without Parent and Supervisor Permission**

1. Giving students a ride to/from school or school activities without parent permission (only in “emergency” situations).
2. Being alone in a room with a student.
  3. Allowing students in your home.

**Cautionary Staff/Student Behaviors**

1. Remarks about the physical attributes or physiological development of anyone.
2. Excessive attention toward a particular student.
3. Sending e-mails, text messages, social media responses, or letters to students if the content is not about school activities.

**Acceptable and Recommended Staff/Student Behaviors**

1. Getting parents' written consent for any after-school activity on or off campus (exclusive of tutorials).
2. Obtaining formal approval (site and parental) to take students off school property for activities such as field trips or competitions.
3. E-mails, text-messages, phone conversations, and other communications to and with students must be professional and pertain to school activities or classes. (Communication should be initiated via school-based technology and equipment.)
4. Keeping reasonable space between you and your students.
5. Stopping and correcting students if they cross your own personal boundaries.
6. Keeping parents informed when a significant issue develops about a student.
7. Keeping all discussions with students professional.
8. Asking for advice from senior staff or administrators if you find yourself in a difficult situation related to boundaries.
9. Involving your supervisor if conflict arises with a student.
10. Informing your supervisor and/or Support Team (coordinators and directors) about situations that have the potential to become more severe.
11. Making detailed notes about an incident that could evolve into a more serious situation later.
12. Recognizing the responsibility to stop unacceptable behavior of students and/or co-workers.
13. Asking another staff member to be present if you will be alone with any student who may have severe social or emotional challenges (and you are not the assigned case educator).
14. Asking another staff member to be present, or within close supervisory distance, when you must be alone with a student.
15. Giving students praise and recognition without touching them in questionable areas; giving appropriate pats on the back, high-five's, and handshakes are appropriate.
16. Keeping your professional conduct a high priority during all moments of student contact.
17. Asking yourself if any of your actions which go contrary to these provisions are worth sacrificing your job and career.

**IV. CORPORAL PUNISHMENT**

Corporal punishment shall not be used as a disciplinary measure against any student. Corporal punishment includes the willful infliction of, or willfully causing the infliction of, physical pain on a student.

For purposes of this Policy, corporal punishment does not include an employee's use of force that is reasonable and necessary to protect the employee, students, staff or other persons or to prevent damage to property.

For clarification purposes, the following examples are offered for direction and guidance of Charter School personnel:

A. Examples of PERMITTED actions (NOT corporal punishment)

1. Stopping a student from fighting with another student;
2. Preventing a pupil from committing an act of vandalism;
3. Defending yourself from physical injury or assault by a student;
4. Forcing a pupil to give up a weapon or dangerous object;
5. Requiring an athletic team to participate in strenuous physical training activities designed to strengthen or condition team members or improve their coordination, agility, or physical skills;
6. Engaging in group calisthenics, team drills, or other physical education or voluntary recreational activities.

B. Examples of PROHIBITED actions (corporal punishment)

1. Hitting, shoving, pushing, or physically restraining a student as a means of control;
2. Making unruly students do push-ups, run laps, or perform other physical acts that cause pain or discomfort as a form of punishment;
3. Paddling, swatting, slapping, grabbing, pinching, kicking, or otherwise causing physical pain.

## V. REPORTING

When any staff member, parent, or student becomes aware of a staff member having crossed the boundaries specified in this Policy, they should report the occurrence or suspected occurrence to a supervisor and/or Support Team member promptly. All reports shall be confidential. Prompt reporting is essential to protect students, the suspected staff member, any witnesses, and the school as a whole. Staff must also report to the administration any awareness of, or concern about, student behavior that crosses boundaries, or any situation in which a student appears to be at risk for sexual abuse. Please note that employees of the Charter School are mandated reporters under California state law, and are thus legally bound to report suspected abuse or neglect of a student.

## **VI. INVESTIGATING**

A supervisor and/or Support Team member will promptly investigate and document the investigation of any allegation of inappropriate conduct per this Policy, using such support staff or outside assistance as he or she deems necessary and appropriate under the circumstances. Throughout this fact-finding process, the investigating administrator, and all others privy to the investigation, shall protect the privacy interests of any affected student(s) and/or staff member(s), including any potential witnesses, to the extent practical and appropriate under the law. The investigating supervisor shall promptly notify the Supervising Administrator that an investigation is in progress; the Supervising Administrator, in turn, shall notify the Executive Director of the existence and status of any investigations. Upon completion of any such investigations, the Supervising Administrator shall direct the investigating administrator to report to the Executive Director any conclusions reached. The investigating administrator may consult with Charter School legal counsel, as appropriate, prior to, during, and after conducting any investigation.

## **VII. CONSEQUENCES**

Staff members who have violated this Policy will be subject to appropriate disciplinary action, and, where appropriate, will be reported to authorities for potential legal action.

## **VIII. TRAINING**

This document shall be discussed with and acknowledged by all Charter School employees as part of their initial employment and again, on an annual basis, as part of on-going training for all Charter School employees. A copy of this acknowledgement will be placed into each Charter School employee's personnel folder. In addition, appropriate portions of this Policy and related information will be incorporated into on-going Charter School communications thrust to underscore the continuing importance that Charter School places on student/staff interaction.

## About Our School

Sweetwater Secondary School (SSS) is a public school designed for students who seek an alternative option to the traditional approach to education. Students receive a personalized and rigorous academic experience from a high-quality staff in a safe and supportive environment. As a charter school, SSS is a school of choice, with open enrollment policies that serve a diverse student community. The flexible scheduling and around-the-year calendar better serves many students who seek a non-traditional environment in which to learn. Sweetwater Secondary School serves students in grades 7-12.

### ***Core Competency: Transforming Lives***

#### ***Mission - Why We Exist***

- To implement personalized educational programs to facilitate student achievement.
- To provide a prototype for changing the way teachers teach and students learn in the future.

#### ***Vision - What We Strive to Be***

- An educational option that offers a personalized instructional program that demonstrates positive outcomes for each student.

- A prototype for educational reform that creates instructional, service, organizational, and governance role models.
- A collaboration of efforts that improve the quality of life for students, their families, our employees, and the Southern California community-at-large.

### **Values - How We Do Our Work**

- Kids come first.
- Education is personalized, individualized and high quality.
- Highly professional individuals are accountable for their work, and are independent, self-motivated, high-energy people who speak for themselves.
- We create a positive, challenging environment that is centered on teaching and learning.
- People-centered teams focus on supporting quality teaching and learning.
- Manage the school with proven business principles focusing on continuous improvement.
- Performance is measured on a variety of indicators that include productivity, credit ratio, auditability, quality, performance, and commitment to the vision of Sweetwater Secondary School.

### **Focus on Academic Teaching and Learning**

Audeo Charter School II, Audeo Charter School III, Audeo Valley Charter School, Grossmont Secondary School, Mirus Secondary School, and Sweetwater Secondary School (“Altus Schools”) which are operated by Audeo Charter School corporation are solely academic in nature and were originally created as re-directive programs designed for all students seeking a learning approach better suited to their learning style. The development, growth, and expansion of the schools primarily involve the creation of instructional environments. These instructional environments support an individualized and personalized educational template that motivates and engages students. The Altus Schools are designed to be expanded and potentially replicated in a manner consistent with this model sufficiently proven effective.

Extracurricular activities such as sports, proms or other school sponsored dances, yearbooks, class rings, or anything unrelated to academics which may create distractions for students or staff are not a part of the operational design. The schools’ sole focus on academics and devotion to nurturing the intrinsic value and confidence gained by the students’ successfully meeting academic goals that they once thought were beyond their reach, has resulted in notable academic achievements. Such achievements include but are not limited to: exceeding the one-year DASS graduation rates of San Diego County Dashboard Alternative School Status (“DASS”)<sup>1</sup> schools and California DASS schools, outperforming comparable DASS schools in California assessments, maintaining a low one-year dropout rate (below 5%), and increasing student confidence within 90 days of enrollment.

The confidence gained by committing time to working directly with Altus instructional staff, coupled with the support of family and community, leaves students better equipped to make good life decisions as they pursue positive self-sufficiency, productivity, and positive social relationships, and it is for these reasons that it is the prerogative of the Board to retain the sole focus on academics. Partners of the Altus Schools support this vision and help collaborate to prepare students to better deal with and overcome personal and social constraints that influence their lives.

<sup>1</sup> DASS schools have at least 70% of the school’s total enrollment comprised of unduplicated high-risk groups such as: those who have been expelled, credit deficient, highly transient, homeless, pregnant and/or parenting, have gaps in enrollment, recovered dropouts, and/or those who are habitually truant.

## Instructional Program

Our school is accredited by the Western Association of Schools and Colleges ("WASC"). At SSS, students receive a rigorous curriculum based on the California Common Core standards. We provide University of California ("UC") approved courses for those students planning to attend a UC or California State University ("CSU") school after the completion of high school. Additionally, we offer National Collegiate Athletics Association ("NCAA") - approved courses for students who are interested in pursuing NCAA athletic scholarships. Our "university model" is an excellent preparation for future studies.

The primary method of instruction is independent study supplemented with in-person participation at one of our Resource Centers. Each SSS Resource Center location provides a professional, quiet environment for one-on-one learning with a credentialed teacher who is available on-demand. Resource Centers are located at major retail centers or office buildings and may include work-study employment opportunities. Guest speaker events, tutoring, and field trips are also available. These activities are a required part of the curriculum and provide opportunities for basic skills development, career exploration, higher-level thinking skills, interpersonal relationship skills, and enrichment within the core curriculum. This method of instruction is very similar to university studies in which students take one course at a time and are required to take charge of their education.

Upon enrollment, a credentialed "On-Demand" teacher is assigned to each student who, in collaboration with the student and parents, assesses the student's current needs and goals and creates a plan for rapid advancement, focusing solely on one or two subjects at a time. Assigned to each student for a full year or more, the teacher supervises all subjects studied, and is personally held accountable to inspire and produce self-motivated and self-disciplined students who succeed not only academically, but also socially through teamwork and community service. As a result, On-Demand teachers adjust assignments to align with the goals and interests of the student and also personally act as necessary to ensure achievement. For example, if a student is late to an appointment, teachers contact either the student or the parents within minutes to identify and address any needs and teach accountability.

To further support students working on courses in core subject areas (English, mathematics, sciences, social science, and the fine and practical arts), additional certificated teachers with subject-matter expertise are available to students at their assigned Resource Center, via email or telephone within 24 hours.

SSS also offers a blended learning option for its students. Blended learning is a formal educational program in which a student learns at least in part through online delivery of content with some element of student control over time, place, path, and pace. This option allows students to complete the majority of their academic coursework at home.

Upon enrollment, a Pathways Personalized Education Plan ("PPEP") is prepared by a school counselor that outlines high school graduation requirements. This PPEP is delivered to the teacher. The student,

parents/guardians, and teacher complete the planning with a discussion of the student's short and long-term goals, transcripts from previous schools, learning styles, current interests, academic achievement, career interests, skills development, and standardized test scores. The PPEP is reviewed and updated by the parents, student, and teacher on a regular basis throughout the student's enrollment.

Students study one or two subjects/courses at a time and are expected to complete an average of one course every three-to-four weeks. Within these parameters students can progress at an individualized pace, receiving tutoring or enrichment as needed.

SSS students earn course credits and attendance by successfully completing the prescribed lessons that demonstrate mastery of the state standards.

The student's primary academic support person for student success is the teacher. The teacher becomes fully acquainted with his/her students, their families, and other factors that affect their learning and academic success. In addition to the services provided by staff, SSS has many partnerships and alliances to provide community resources for students and their families.

### ***Home/School Partnership***

The most important relationship we build is the one between the teacher, student, and the student's family. SSS encourages parent/guardian involvement through the monitoring of his/her student's regular and required attendance of Resource Center appointments, completion of high-quality work according to scheduled dates, and attendance on testing days and field trips. With parents actively involved in their student's lives, we can create a successful learning environment.

Two-way communication between all staff and parents is a building block for student success. Teachers are available for parent-student conferences, phone calls, interventions and home visits. In addition, there are scheduled opportunities throughout the year for dialogue. These opportunities include Open House nights, master agreement signings, college information meetings, and senior meetings. A climate that continually promotes open communication and dialogue is expected and supported.

### ***Parent Involvement Policy***

The Charter School aims to provide all students in our school significant opportunity to receive a fair, equitable, and high-quality education, and to close educational achievement gaps while abiding by guidelines within the Elementary and Secondary Education Act ("ESEA"). The Charter School staff recognizes a partnership with families is essential to meet this goal. Our Parent and Family Engagement Policy leverages and promotes active involvement of all families as partners with schools to ensure student success.

#### ***Title I Parent Involvement Policy***

**Board Policy #: 6010**

**Approved: February 22, 2018**

**Amended: October 20, 2021, June 22, 2023**

**Commented [AA1]:** Include most recent copy of Board Policy 6010 (amended 10/20/21)

Sweetwater Secondary School ("Charter School") recognizes the parents/guardians are their children's first and most influential teachers and the sustained parent involvement in the education of their children contributes greatly to student achievement and a positive school environment. The Executive Director or

designee shall work with staff and parents/guardians to develop meaningful opportunities at all grade levels for parents/guardians to be involved in school activities to support learning at home.

Parents/guardians shall be notified of their rights to be informed about and to participate in their children's education and of the opportunities available to them to do so.

Each year the Executive Director or designee shall identify objectives of the school's parent involvement. He/she shall ensure that parents/guardians are consulted and participate in the planning, design, implementation, and evaluation of the parent involvement program .

The President or designee shall ensure that the parent involvement strategies are established and implemented.

The Title I Parent Involvement Policy was updated and developed in collaboration with parents of Title I students. Parents participated in the development process through surveys and meetings at the Resource Centers. The data collected from parents yielded important feedback on ways to successfully engage parents and improve the parent involvement practices. Parents expressed the following themes:

- Parents can provide input and receive communication from staff through various programs and activities.
- Parents feel involved in their child's education through various programs and activities.
- Parents report having frequent communication with instructional staff.
- Parents want to continue to access resources and trainings on how they can better support their children's achievement and performance at school and at home.
- Parents want to continue to have safe, supportive, and innovative Resource Centers.

These recommendations above are integrated throughout this Title I Parent Involvement Policy and reinforce the core belief that parents are our equal partners in ensuring the success of all students.

The Title I Parent Involvement Policy will be annually distributed to parents by including the policy in the handbook, making the policy available on the website and at the Resource Centers. This Policy describes the means for carrying out the following Title I parental involvement requirements.

#### **Charter School Expectations and Objectives**

In establishing the Charter School's expectations and objectives for meaningful parent and family involvement, Charter School has established the following practices:

1. Charter School involves parents and family members in the joint development of the Charter School's Parent and Family Engagement Plan.

In addition, parents provide feedback on engagement through the annual LCAP development process and surveys.
2. Charter School provides the coordination, technical assistance, and other support necessary to assist and build the capacity within the Charter School in planning and implementing effective parent and family involvement activities to improve student academic achievement and school performance,

which may include meaningful consultation with employers, business leaders, and philanthropic organizations, or individuals with expertise in effectively engaging parents and family members in education.

    - Parents have the opportunity to participate in the development of the LCAP and title funding recommendations in School Site Council and English Language Advisory meetings and surveys. Teachers are in constant communication with parents regarding their feedback on all aspects of the program.
  4. Charter School conducts, with the meaningful involvement of parents and family members, an annual evaluation of the content and effectiveness of the Policy in improving the academic quality at the Charter School.
    - Through regular communication with parents at each resource center, annually parent surveys, parent stakeholder meetings, school website, school publications, and social media parents input and feedback is sought after and deemed essential by the school for improvements in academic results.

Charter School conducts, with the meaningful involvement of parents and family members, an annual evaluation of barriers to greater participation by parents/families (with particular attention to parents who are economically disadvantaged, are disabled, have limited English proficiency, have limited literacy, or are of any racial or ethnic minority background).
    - The school has designated the Equity and Inclusion department to ensure outreach efforts are being made to all parents representing all student groups. Potential barriers to parent participation are discussed at teacher meetings, resource center meetings, School Site Council meetings, and English Language Advisory meetings to ensure all parents can participate as needed.
  6. Charter School conducts, with the meaningful involvement of parents and family members, an annual evaluation of the needs of parents and family members to assist with the learning of their children, including engaging with Charter School personnel and teachers.
    - Teachers are required to reach out to all parents in a variety of methods (in-person, phone, email, text, letters, home visits) to ensure their involvement. In addition, the school provides several Parent Involvement presentations throughout the year through Altus University.
  7. Charter School conducts, with the meaningful involvement of parents and family members, an annual evaluation of strategies to support successful Charter School and family interactions.

- Staff is in constant communication with parents to review all involvement opportunity and strategies. Teachers are specially trained to involve parents in a variety of ways. The school reviews monthly data on outreach efforts and compares it with academic outcomes to ensure the success of every student. Any modifications in parent outreach and involvement strategies are quickly adopted as appropriate.
8. Charter School uses the findings of the annual evaluation to design evidence-based strategies for more effective parental and family engagement, and to revise, if necessary, the Parent and Family Engagement Policy.
- Monthly and annual reviews of student results allow the school to incorporate improvement and/or new parent and family engagement strategies as needed. Monthly intervention reports are published, disseminated, and reviewed to ensure the success of every student. - All parents have the opportunity to participate as a member of the School Site Council. They also have the opportunity to provide feedback directly to school staff in the resource center meetings or through the annual LCAP development process.

#### **Involvement of Parents in the Title I Program**

To involve parents in the Title I program, the following practices have been established:

1. Conduct an annual meeting to inform parents of Title I students about Title I requirements and about the right of parents to be involved in the Title I program.
  - In the fall, an annual meeting will be held to share with parents a description of the Title I program and its requirements.
2. Offer a flexible number of meetings for Title I parents, such as meetings in the morning or evening.

If the School has a process in place for involving parents in planning and designing the School's programs, the school may use that process if it includes adequate representation of parents of Title I children.

#### **Home-School Compact**

The Home-School Compact will be distributed to parents of Title I annually. The compact, which has been jointly developed with parents, outlines how parents, the entire school staff, and students will share the responsibility for improved student academic achievement. It describes specific ways the school and families will partner to help children achieve the State's high academic standards. It addresses the following legally required items, as well as other items suggested by parents of Title I students.

- The Schools responsibility to provide high-quality curriculum and instruction to meet the challenging State academic standards.
- The ways parents will be responsible for supporting their children's learning, volunteering in the Resource Center, and participating, as appropriate, in decisions relating to the education of their children and positive use of extracurricular time.

A copy of the Charter School's complete Policy is available on the website.

### **Attendance, Lessons, and Course Credits**

Unlike traditional schools where attendance is measured by being physically present in a classroom, SSS measures attendance by completion of a work product, a student's average daily attendance ("ADA") is determined by the professional judgment of the teacher as it relates to the time spent on the successful completion of each lesson. Students are expected to complete an average of 12 courses every 12 months at an acceptable level of competency to demonstrate learning and proficiency of state standards. To meet this expectation at SSS, students should complete an average of 7 assignments per week and complete 1 semester course in 3-to-4 weeks.

A complete copy of SSS's Independent Study Policy is available on the school website.

### **Year-round School Year**

SSS has a year-round school year that is designed to maximize the amount of days and time that a student is able to earn credits. (See school holiday calendar on the School's website.)

### **Student Assessments**

Students at SSS are part of the public school system in the State of California. Participating in the state testing system is a requirement. All students must take state mandated assessments which include the California Assessment of Student Performance and Progress ("CAASPP"), English Language Proficiency Assessments for California ("ELPAC"), and Physical Fitness Test scheduled throughout the school year. Additionally, all students who enroll in our SSS program take the school mandated NWEA Measures of Academic Progress ("MAP"). These tests are very critical. They tell us how students are progressing in their learning.

SSS staff members are dedicated to making sure students receive the instruction they need to do well on these tests to demonstrate learning. Students are offered many opportunities for special assistance if it is needed. These opportunities include diagnostic assessment and one-to-one tutoring. Please review your student's test results and be sure he or she is working on improving his/her weak areas. It is important that we work together to help your student succeed.

If you have any questions about testing and/or a specific test you may contact your student's teacher. The table below provides basic information about the standardized tests and approximate administration dates. Additional information about state tests is posted on the California Department of Education ("CDE") website at <http://www.cde.ca.gov/ta/tg>.

### **California Assessment of Student Performance and Progress ("CAASPP")**

The School shall annually administer required state testing to the applicable grades (e.g., the CAASPP).

[Pursuant to California Education Code Section 60615, parents/guardians may annually submit to the school a written request to excuse their child from any or all the CAASPP assessments. This exemption does not exist for the ELPAC or Physical Fitness Test.](#)

#### **Student Wellness Policy**

[Board Policy: 1710](#)

[Approved: February 22, 2018](#)

[Amended: February 16, 2022, June 22, 2023](#)

Sweetwater Secondary School ("Charter School") adopts this policy to ensure its commitment to the optimal development of every student. Charter School believes that for students to have the opportunity to achieve personal, academic, developmental and social success, we need to create positive, safe and health-promoting

learning environments at every level, in every setting, throughout the school year. This policy may be updated from time to time as required to be in compliance with state law, regulation, or administrative directive.

Research shows that two components, good nutrition and physical activity before, during and after the school day, are strongly correlated with positive student outcomes. Conversely, less-than-adequate consumption of specific foods including fruits, vegetables and dairy products, is associated with lower grades among students. In addition, students who are physically active through active transport to and from school, recess, physical activity breaks, high-quality physical education and extracurricular activities – do better academically. Finally, there is evidence that adequate hydration is associated with better cognitive performance.

This Policy outlines Charter School's approach to ensuring environments and opportunities for all students to practice healthy eating and physical activity behaviors throughout the school day while minimizing commercial distractions. Specifically, this Policy establishes goals and procedures to ensure that:

- Students in the Charter School have access to healthy foods throughout the school day—and other foods available throughout the Charter School resource centers—in accordance with Federal and state nutrition standards.
- Students receive quality nutrition education that helps them develop lifelong healthy eating behaviors.
- Students have opportunities to be physically active before, during and after the school day.
- The Charter School engages in nutrition and physical activity promotion and other activities that promote student wellness.
- Charter School staff are encouraged and supported to practice healthy nutrition and physical activity behaviors in and out of school.
- The community is engaged in supporting the work of the Charter School in creating continuity between Charter School and other settings for students and staff to practice lifelong healthy habits.
- The Charter School establishes and maintains an infrastructure for management, oversight, implementation, communication about and monitoring of this Policy and its established goals and objectives.

This Policy applies to all students, faculty, and staff in the Charter School. Specific measurable goals and outcomes are identified within each section below.

## **I. Wellness Policy Implementation, Monitoring, Accountability and Community Engagement**

The Charter School will provide as much information as possible about the Charter School nutrition environment. This will include a summary of Charter School's events or activities related to Policy implementation.

This Policy will be assessed and updated as indicated at least every three (3) years, following the triennial assessment.

#### **Community Involvement, Outreach and Communications**

The Charter School is committed to being responsive to community input, which begins with awareness of the Policy. Charter School will actively communicate ways in which representatives of the Charter School and others can participate in the development, implementation and periodic review and update of this Policy through a variety of means. The Charter School will also inform parents of the improvements that have been made to school meals and compliance with school meal standards, availability of child nutrition programs and how to apply, and a description of and compliance with Smart Snacks in Charter School nutrition standards.

The Charter School will use electronic mechanisms, such as email or displaying notices on the Charter School's website, as well as non-electronic mechanisms, such as newsletters, presentations to parents, or sending information home to parents, to ensure that all families are actively notified of the content of, implementation of, and updates to this Policy, as well as how to get involved and support the Policy. The Charter School will ensure that communications are culturally and linguistically appropriate to the community and accomplished through means similar to other ways that other local schools are communicating important school information with parents.

The Charter School will actively notify the public about the content of, the implementation of, and any updates to the Policy annually, at a minimum. The Charter School will also use these mechanisms to inform the community about the availability of the annual and triennial reports.

All efforts related to obtaining federal, state or association recognition for efforts, or grants/funding opportunities for healthy school environments will be coordinated with and complementary of this Policy, including but not limited to ensuring the involvement of parents and the community.

Students are expected to follow safe practices when using Charter School technology.

Charter School advises students:

1. To never share passwords, personal data, or private photos online.
2. To think about what they are doing carefully before posting and by emphasizing that comments cannot be retracted once they are posted.
3. That personal information revealed on social media can be shared with anyone including parents, teachers, administrators, and potential employers. Students should never reveal information that would make them uncomfortable if the world had access to it.
4. To consider how it would feel receiving such comments before making comments about others online.

Students shall not use the Internet to perform any illegal act or to help others perform illegal acts. Illegal acts include, but are not limited to, any activities in violation of local, state, and federal law and/or accessing information designed to further criminal or dangerous activities. Such information includes, but is not limited to, information that if acted upon could cause damage, present a danger, or cause disruption to the Charter School, other students, or the community. Damaging, debilitating or disabling computers, computer networks or systems through the intentional or overuse of electronic distribution or the spreading of computer viruses or other harmful programs shall be prohibited. Any unauthorized online access to other computers by means of hacking into other computers, downloading hacker tools such as port scanners and password crackers designed to evade restrictions shall also be strictly prohibited.

Student use of Charter School computers to access social networking sites is not prohibited, but access is limited to educational purposes only. To the extent possible, the Executive Director or designee shall block access to such sites on Charter School computers with Internet access.

The Executive Director or designee shall oversee the maintenance of the Charter School's technological resources and may establish guidelines and limits on their use.

All employees shall receive a copy of this policy and the accompanying Acceptable Use Agreement describing expectations for appropriate use of the system and shall also be provided with information about the role of staff in supervising student use of technological resources. ~~All employees shall comply with this policy and the Acceptable Use Agreement, in addition to any separate policies governing employee use of technology.~~

Student use of Charter School's computers, networks, and Internet services is a privilege, not a right. Compliance with the Charter School's policies and rules concerning computer use is mandatory. Students who violate these policies and rules may have their computer privileges limited and may be subject to discipline, including but not limited to suspension or expulsion per school policy.

To facilitate monitoring of activities, computer screens may be positioned so that they are visible to the staff member supervising the students. The Charter School reserves the right to access stored computer records and communications, files, and other data stored on Charter School equipment or sent over Charter School networks. Such communications, files, and data are not private and may be accessed during routine system maintenance; during inspection of Charter School equipment at the end of the school year/term or agree to use period; and review of individual files or monitoring of individual activity when there is a reasonable suspicion that the student is engaging in an inappropriate use.

[Board Policy: 3110](#)

[Amended: May 5, 2009, February 16, 2022, December 7, 2022, June 22, 2023](#)

#### **Policy**

The Suspension and Expulsion Policy and Procedures have been established in order to promote learning and protect the safety and wellbeing of all students at Sweetwater Secondary School ("SSS" or "Charter School"). In

creating this policy, SSS has reviewed Education Code Section 48900 *et seq.* ~~which describe the offenses for which students at noncharter schools may be suspended or expelled and the procedures governing those suspensions and expulsions in order to establish its list of offenses and procedures for suspensions, expulsions and involuntary removal, which describes the non-charter schools' list of offenses and procedures to establish its list of offenses and procedures for suspensions, expulsions and involuntary removal.~~ The language that follows closely mirrors ~~is largely consistent with~~ the language of Education Code Section 48900 *et seq.* SSS is committed to annual review of policies and procedures surrounding suspensions, expulsions, and involuntary removals, and, as necessary, modification of the lists of offenses for which students are subject to suspension or expulsion.

~~Consistent with this Policy~~When the policy is violated, it may be necessary to suspend or expel a student from regular classroom instruction. This policy shall serve as SSS's policy and procedures for student suspension, expulsion, and involuntary removal, and it may be amended from time to time without the need to ~~seek a material revision of~~ amend the charter so long as the amendments comport with legal requirements. SSS staff shall enforce disciplinary ~~rules-policies~~ and procedures fairly and consistently among all students. This policy and its procedures will be ~~printed and~~ distributed ~~annually~~ as part of the student handbook ~~and which~~ will clearly describe discipline expectations.

Corporal punishment shall not be used as a disciplinary measure against any student. Corporal punishment includes the willful infliction of or willfully causing the infliction of physical pain on a student. For purposes of this policy, corporal punishment does not include an employee's use of force that is reasonable and necessary to protect the employee, students, staff or other persons or to prevent damage to school property.

The SSS administration shall ensure that students and their parents/guardians are notified in writing upon enrollment of all discipline and involuntary removal policies and procedures. The notice shall state that this policy and procedures are available upon request at the ~~Executive Director's~~ School Coordinator's office.

Suspended or expelled students shall be excluded from all school and school-related activities unless otherwise agreed during the period of suspension or expulsion.

A student identified as an individual with disabilities or for whom SSS has a basis of knowledge of a suspected disability pursuant to the Individuals with Disabilities Education Improvement Act of 2004 ("IDEA") or who is qualified for services under Section 504 of the Rehabilitation Act of 1973 ("Section 504") is subject to the same grounds for suspension and expulsion and is accorded the same due process procedures applicable to general education students except when federal and state law mandates additional or different procedures. SSS will follow all applicable federal and state laws including but not limited to the applicable provisions of the California Education Code, when imposing any form of discipline on a student identified as an individual with disabilities or for whom SSS has a basis of knowledge of a suspected disability or who is otherwise qualified for such services or protections in according to due process to such students.

No student shall be involuntarily removed by the Charter School for any reason unless the parent/guardian of the student has been provided written notice of intent to remove the student no less than five (5) school days before the effective date of the action. The written notice shall be in the native language of the student or the student's parent/guardian ~~or, if the student is a foster child or youth or a homeless child or youth, the student's educational rights holder,~~ and shall inform the student, the student's parent/guardian, ~~or educational rights holder~~ of the basis for which the student is being involuntarily removed and the student's parent, guardian, ~~or educational rights holder's~~ right to request a hearing to challenge the involuntary removal. If a student's parent, guardian, ~~or educational rights holder~~ requests a hearing, the Charter School shall utilize the same hearing procedures specified below for expulsions, before the effective date of the

action to involuntarily remove the student. If the student's parent, guardian, or educational rights holder requests a hearing, the student shall remain enrolled and shall not be removed until the Charter School issues a final decision. As used herein, "involuntarily removed" includes disenrolled, dismissed, transferred, or terminated, but does not include removals for misconduct which may be grounds for suspension or expulsion as enumerated below. Students may be involuntarily removed for reasons including, but not limited to, failure to comply with the terms of the student's independent study Master Agreement pursuant to Education Code Section 51747(c)(4).

<sup>1</sup> The Charter School shall ensure that a homeless child or youth's educational rights holder; a foster child or youth's educational rights holder, attorney, and county social worker; and an Indian child's tribal social worker and, if applicable, county social worker have the same rights as a parent or guardian to receive a suspension notice, expulsion notice, manifestation determination notice, involuntary transfer notice, involuntary removal notice, and other documents and related information.     - (a) For purposes of this policy, "cyber sexual bullying" means the dissemination of, or the solicitation or incitement to disseminate, a photograph or other visual

recording by a student to another student or to school personnel by means of an electronic act that has or can be reasonably predicted to have one or more of the effects described in subparagraphs (i) to (iv), inclusive, of paragraph (1). A photograph or other visual recording, as described above, shall include the depiction of a nude, semi-nude, or sexually explicit photograph or other visual recording of a minor where the minor is identifiable from the photograph, visual recording, or other electronic act.

(b) For purposes of this policy, "cyber sexual bullying" does not include a depiction, portrayal, or image that has any serious literary, artistic, educational, political, or scientific value or that involves athletic events or school-sanctioned activities.

3) Notwithstanding subparagraphs (1) and (2) above, an electronic act shall not constitute pervasive conduct solely on the basis that it has been transmitted on the Internet or is currently posted on the Internet.

u) A pupil who aids or abets, as defined in Section 31 of the Penal Code, the infliction or attempted infliction of physical injury to another person may be subject to suspension, but not expulsion, except that a pupil who has been adjudged by a juvenile court to have committed, as an aider and abettor, a crime of physical violence in which the victim suffered great bodily injury or serious bodily injury shall be subject to discipline pursuant to subdivision (3)(a)-(b).

v) Possessed, sold, or otherwise furnished any knife or other dangerous object of no reasonable use to the student unless, in the case of possession of any object of this type, the student had obtained written permission to possess the item from a certificated school employee, with the ~~School Coordinator~~~~Executive Director~~ or designee's concurrence.

4. Non-Discretionary Expellable Offenses: Students must be recommended for expulsion for any of the following acts when it is determined pursuant to the procedures below that the pupil:

a) Possessed, sold, or otherwise furnished any firearm, explosive, or other destructive device unless, in the case of possession of any device of this type, the student had obtained written permission to possess the item from a certificated school employee, with the ~~School Coordinator~~~~Executive Director~~ or designee's concurrence.

b) Brandished a knife at another person.

c) Unlawfully sold a controlled substance listed in Health and Safety Code Section 11053, et seq.

If it is determined by the Administrative Panel and/or the Board of Directors that a student has brought a firearm or destructive device, as defined in Section 921 of Title 18 of the United States Code, on to campus or to have possessed a firearm or destructive device on campus, the student shall be expelled for one year, pursuant to the Federal Gun Free Schools Act of 1994. In such instances, the pupil shall be provided due process rights of notice and a hearing as required in this policy.

The Charter School will use the following definitions:

- The term “knife” means (A) any dirk, dagger, or other weapon with a fixed, sharpened blade fitted primarily for stabbing; (B) a weapon with a blade fitted primarily for stabbing; (C) a weapon with a blade longer than 3½ inches; (D) a folding knife with a blade that locks into place; or (E) a razor with an unguarded blade.
- The term “firearm” means (A) any weapon (including a starter gun) which will or is designed to or may readily be converted to expel a projectile by the action of an explosive; (B) the frame or receiver of any such weapon; (C) any firearm muffler or firearm silencer; or (D) any destructive device. ### C. Suspension Procedure

Suspensions shall be initiated according to the following procedures:

#### 1. Conference

Suspension shall be preceded, if possible, by a conference conducted by the ~~School Coordinator~~~~Executive Director~~ or designee with the student and his or her parent/guardian and, whenever practical, the teacher, supervisor or SSS employee who referred the student to the ~~School Coordinator~~~~School Coordinator~~~~Executive Director~~ or designee.

The conference may be omitted if the ~~School Coordinator~~~~Executive Director~~ or designee determines that an emergency situation exists. An “emergency situation” involves a clear and present danger to the lives, safety or health of students or SSS personnel. If a student is suspended without this conference, both the parent/guardian and student shall be notified of the student’s right to return to school for the purpose of a conference.

At the conference, the ~~student~~~~pupil~~ shall be informed of the reason for the disciplinary action and the evidence against him or her and shall be given the opportunity to present his or her version and evidence in his or her defense, in accordance with Education Code Section 47605(c)(5)(J)(i). This conference shall be held within two (2) school days, unless the ~~student~~~~pupil~~ waives this right or is physically unable to attend for any reason including, but not limited to, incarceration or hospitalization. No penalties may be imposed on a ~~student~~~~pupil~~ for failure of the ~~student~~~~pupil~~’s parent or guardian to attend a conference with SSS officials. Reinstatement of the suspended ~~student~~~~pupil~~ shall not be contingent upon attendance by the ~~student~~~~pupil~~’s parent or guardian at the conference.

#### 2. Notice to Parents/Guardians

At the time of the suspension, an administrator or designee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension and the date of return following suspension. This notice shall state the specific offense(s) committed by the student. In addition, the notice may also state the date and time when the student may return to school. If SSS officials wish to ask the parent/guardian to confer regarding

matters pertinent to the suspension, the notice may request that the parent/guardian respond to such requests without delay.

### 3. Suspension Time Limits/Recommendation for Expulsion

Suspensions, when not including a recommendation for expulsion, shall not exceed five (5) consecutive school days per suspension. Upon a recommendation of expulsion by the ~~School Coordinator~~~~Executive Director~~ or designee, the ~~student~~~~pupil~~ and the ~~student~~~~pupil~~'s guardian or representative will be invited to a conference to determine if the suspension for the ~~student~~~~pupil~~ should be extended pending an expulsion hearing. In such instances when the Charter School has determined a suspension period shall be extended, such extension shall be made only after a conference is held with the ~~student~~~~pupil~~ or the ~~student~~~~pupil~~'s parents, unless the ~~student~~~~pupil~~ and the ~~student~~~~pupil~~'s parents fail to attend the conference.

This determination will be made by the ~~School Coordinator~~~~Executive Director~~ or designee upon either of the following: 1) the ~~student~~~~pupil~~'s presence will be disruptive to the education process; or 2) the ~~student~~~~pupil~~ poses a threat or danger to others. Upon either determination, the ~~student~~~~pupil~~'s suspension will be extended pending the results of an expulsion hearing.

### 4. Homework Assignments During Suspension

In accordance with Education Code Section 47606.2(a), upon the request of a parent, a legal guardian or other person holding the right to make education decisions for the student, or the affected student, a teacher shall provide to a student in any of grades 1 to 12, inclusive, who has been suspended from school for two (2) or more school days, the homework that the student would otherwise have been assigned.

In accordance with Education Code Section 47606.2(b), if a homework assignment that is requested pursuant to Section 47606.2(a) and turned into the teacher by the student either upon the student's return to school from suspension or within the timeframe originally prescribed by the teacher, whichever is later, is not graded before the end of the academic term, that assignment shall not be included in the calculation of the student's overall grade in the class.

## D. Authority to Expel

As required by Education Code Section 47605(c)(5)(J)(ii), students recommended for expulsion are entitled to a hearing adjudicated by a neutral officer to determine whether the student should be expelled. The procedures herein provide for such a hearing and the notice of said hearing, as required by law.

A student may be expelled either by the neutral and impartial Charter School Board of Directors following a hearing before it or by the ~~neutral and impartial~~ Board of Directors upon the recommendation of a neutral and impartial Administrative Panel, to be assigned by the Board of Directors as needed. The Administrative Panel shall consist of at least three (3) members who are certificated and neither a teacher of the ~~student~~~~pupil~~ ~~or nor~~ a member of the Board of Directors. Each entity shall be presided over by a designated neutral hearing chairperson. The Administrative Panel may recommend expulsion of any student found to have committed an expellable offense, and the Board of Directors shall make the final determination.

## E. Expulsion Procedures

Students recommended for expulsion are entitled to a hearing to determine whether the student should be expelled. Unless postponed for good cause, the hearing shall be held within thirty (30) school days after the ~~School Coordinator~~~~Executive Director~~ or designee determines that the ~~student/pupil~~ has committed an expellable offense and recommends the student for expulsion.

In the event an Administrative Panel hears the case, it will make a recommendation to the Board for a final decision whether to expel. The hearing shall be held in closed session (complying with all ~~student/pupil~~ confidentiality rules under the Family Educational Rights and Privacy Act "FERPA") unless the ~~student/pupil~~ makes a written request for a public hearing in open session three (3) days prior to the date of the scheduled hearing.

Written notice of the hearing shall be forwarded to the student and the student's parent/guardian at least ten (10) calendar days before the date of the hearing. Upon mailing the notice, it shall be deemed served upon the ~~student/pupil~~. The notice shall include:

1. The date and place of the expulsion hearing.
2. A statement of the specific facts, charges and offenses upon which the proposed expulsion is based.
3. A copy of SSS's disciplinary rules which relate to the alleged violation;
4. Notification of the student's or parent/guardian's obligation to provide information about the student's status at SSS to any other school district or school to which the student seeks enrollment.
5. The opportunity for the student and/or the student's parent/guardian to appear in person or to employ and be represented by counsel or a non-attorney advisor.
6. The right to inspect and obtain copies of all documents to be used at the hearing.
7. The opportunity to confront and question all witnesses who testify at the hearing.
8. The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf including witnesses.

#### **F. Special Procedures for Expulsion Hearings Involving Sexual Assault or Battery Offenses**

SSS may, upon a finding of good cause, determine that the disclosure of either the identity of the witness or the testimony of that witness at the hearing, or both, would subject the witness to an unreasonable risk of psychological or physical harm. Upon this determination, the testimony of the witness may be presented at the hearing in the form of sworn declarations that shall be examined only by SSS or the hearing officer. Copies of these sworn declarations, edited to delete the name and identity of the witness, shall be made available to the ~~student/pupil~~.

1. The complaining witness in any sexual assault or battery case must be provided with a copy of the applicable disciplinary rules and advised of ~~their his/her~~ right to (a) receive five days' notice of ~~their his/her~~ scheduled testimony, (b) have up to two (2) adult support persons of ~~their his/her~~ choosing present in the hearing at the time ~~the complaint witness testifies, he/she testifies~~, which may include a parent, guardian, or legal counsel, and (c) elect to have the hearing closed while testifying.
2. SSS must also provide the victim a room separate from the hearing room for the complaining witness' use prior to and during breaks in testimony.
3. At the discretion of the entity conducting the expulsion hearing, the complaining witness shall be allowed periods of relief from examination and cross-examination during which he or she may leave the hearing room.

4. The entity conducting the expulsion hearing may also arrange the seating within the hearing room to facilitate a less intimidating environment for the complaining witness.
5. The entity conducting the expulsion hearing may also limit time for taking the testimony of the complaining witness to the hours ~~the complaining witness he/she~~ is normally in school, if there is no good cause to take the testimony during other hours.
6. Prior to a complaining witness testifying, the support persons must be admonished that the hearing is confidential. Nothing in the law precludes the entity presiding over the hearing from removing a support person whom the presiding person finds is disrupting the hearing. The entity conducting the hearing may permit any one of the support persons for the complaining witness to accompany him or her to the witness stand.
7. If one or both of the support persons is also a witness, SSS must present evidence that the witness' presence is both desired by the witness and will be helpful to SSS. The person presiding over the hearing shall permit the witness to stay unless it is established that there is a substantial risk that the testimony of the complaining witness would be influenced by the support person, in which case the presiding official shall admonish the support person or persons not to prompt, sway, or influence the witness in any way. Nothing shall preclude the presiding officer from exercising his or her discretion to remove a person from the hearing whom he or she believes is prompting, swaying, or influencing the witness.
8. The testimony of the support person shall be presented before the testimony of the complaining witness and the complaining witness shall be excluded from the courtroom during that testimony.
9. Especially for charges involving sexual assault or battery, if the hearing is to be conducted in public at the request of the ~~student/pupil~~ being expelled, the complaining witness shall have the right to have ~~their/his/her~~ testimony heard in a closed session when testifying at a public meeting would threaten serious psychological harm to the complaining witness and there are no alternative procedures to avoid the threatened harm. The alternative procedures may include videotaped depositions or contemporaneous examination in another place communicated to the hearing room by means of closed-circuit television.
10. Evidence of specific instances of a complaining witness' prior sexual conduct is presumed inadmissible and shall not be heard absent a determination by the entity conducting the hearing that extraordinary circumstances exist requiring the evidence be heard. Before such a determination regarding extraordinary circumstances can be made, the witness shall be provided notice and an opportunity to present opposition to the introduction of the evidence. In the hearing on the admissibility of the evidence, the complaining witness shall be entitled to be represented by a parent, legal counsel, or other support person. Reputation or opinion evidence regarding the sexual behavior of the complaining witness is not admissible for any purpose.

#### **G. Record of Hearing**

A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate and complete written transcription of the proceedings can be made.

#### **H. Presentation of Evidence**

While technical rules of evidence do not apply to expulsion hearings, evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. A recommendation by the Administrative Panel to expel must be supported by substantial evidence that the student committed an expellable offense. Findings of fact shall be based solely on the evidence at the hearing. While hearsay evidence is admissible, no decision to expel shall be based solely on hearsay. Sworn declarations may be admitted as testimony from witnesses of whom the Board or Administrative Panel determines that disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm.

If, due to a written request by the expelled ~~student~~<sup>pupil</sup>, the hearing is held at a public meeting, and the charge is committing or attempting to commit a sexual assault or committing a sexual battery as defined in Education Code Section 48900, a complaining witness shall have the right to have his or her testimony heard in a session closed to the public.

#### **I. Expulsion Decision**

The decision of the Administrative Panel shall be in the form of written findings of fact and a written recommendation to the Board who will make a final determination regarding the expulsion. The final decision by the Board shall be made within ten (10) school days following the conclusion of the hearing. The decision of the Board is final.

If the Administrative Panel decides not to recommend expulsion, or the Board of Directors ultimately decides not to expel, the student shall immediately be returned to ~~their~~<sup>his/her</sup> educational program.

The Board of Directors may also determine to suspend the enforcement of the expulsion order for a period of not more than one (1) calendar year from the date of the expulsion hearing and return the student to the student's previous educational program under a probationary status and rehabilitation plan to be determined by the Board. During the period of the suspension of the expulsion order, the student is deemed to be on probationary status. The Board of Directors may revoke the suspension of an expulsion order under this section if the student commits any of the enumerated offenses listed above or violates any of the Charter School's rules and regulations governing student conduct. If the Board revokes the suspension of an expulsion order, the student may be expelled under the terms of the original expulsion order. The Board of Directors shall apply the criteria for suspending the enforcement of the expulsion order equally to all students, including individuals with exceptional needs as defined in Education Code Section 56026. The Board of Directors shall further comply with the provisions set forth under Education Code Section 48917, except as otherwise expressly set forth herein.

#### **J. Written Notice to Expel**

The ~~School Coordinator~~<sup>Executive Director</sup> or designee, following a decision of the Board to expel shall send written notice of the decision to expel, including the Board's adopted findings of fact, to the student or parent/guardian. This notice shall also include the following: a) Notice of the specific offense committed by the student; and b) Notice of the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of the student's status with SSS.

The ~~School Coordinator~~<sup>Executive Director</sup> or designee shall send a copy of the written notice of the decision to expel to the authorizer. This notice shall include the following: a) The student's name; and b) The specific expellable offense committed by the student.

**K. Disciplinary Records**

SSS shall maintain records of all student suspensions and expulsions at SSS. Such records shall be made available to the authorizer upon request.

**L. No Right to Appeal**

The ~~student/pupil~~ shall have no right of appeal from expulsion from SSS as the Board of Directors' decision to expel shall be final.

**M. Expelled ~~Students/Pupils~~/Alternative Education**

~~Parents/guardians of pupils~~ Students who are expelled shall be responsible for seeking alternative education programs including, but not limited to, programs within the County or their school district of residence. SSS shall work cooperatively with parents/guardians as requested by parents/guardians or by the school district of residence to assist with locating alternative placements during expulsion.

**N. Rehabilitation Plans**

Students who are expelled from SSS shall be given a rehabilitation plan upon expulsion as developed by the Board at the time of the expulsion order, which may include, but is not limited to, periodic review as well as assessment at the time of review for readmission. The rehabilitation plan should include a date not later than one year from the date of expulsion when the ~~student/pupil~~ may reapply to SSS for readmission.

**O. Readmission or Admission of Previously Expelled Student**

The decision to readmit a ~~student/pupil~~ after the end of the student's expulsion term or to admit a previously expelled ~~student/pupil~~ from another school district or SSS who has not been readmitted/admitted to another school or school district after the end of the student's expulsion term, shall be in the sole discretion of the Board following a meeting with the ~~School Coordinator/Executive Director~~ or designee and the ~~student/pupil~~ and parent/guardian or representative to determine whether the ~~student/pupil~~ has successfully completed the rehabilitation plan and to determine whether the ~~student/pupil~~ poses a threat to others or will be disruptive to the school environment. The ~~School Coordinator/Executive Director~~ or designee shall make a recommendation to the Board of Directors following the meeting regarding the ~~School Coordinator/Executive Director's~~ or designee's determination. The Board shall then make a final decision regarding readmission or admission of the student during the closed session of a public meeting, reporting out any action taken during closed session consistent with the requirements of the Brown Act. The ~~student/pupil's~~ readmission is also contingent upon SSS's capacity at the time the student seeks readmission or admission to the Charter School.

**P. Notice to Teachers**

The Charter School shall notify teachers of each student who has engaged in or is reasonably suspected to have engaged in any of the acts listed in Education Code Section 49079 and the corresponding enumerated offenses set forth above.

**R. Special Procedures for the Consideration of Suspension and Expulsion or Involuntary Removal of Students with Disabilities**

1. Notification of SELPA

SSS shall immediately notify the SELPA and coordinate the procedures in this policy with the SELPA of the discipline of any student with a disability or student that SSS or the SELPA would be deemed to have knowledge that the student had a disability.

## 2. Services During Suspension

Students suspended for more than ten (10) school days in a school year shall continue to receive services so as to enable the student to continue to participate in the general education curriculum, although in another setting (which could constitute a change of placement and the student's IEP would reflect this change), and to progress toward meeting the goals set out in the child's IEP/504 Plan; and receive, as appropriate, a functional behavioral assessment and behavioral intervention services and modifications, that are designed to address the behavior violation so that it does not recur. These services may be provided in an interim alternative educational setting.

## 3. Procedural Safeguards/Manifestation Determination

Within ten (10) school days of a recommendation for expulsion or any decision to change the placement of a child with a disability because of a violation of a code of student conduct, SSS, the parent, and relevant members of the IEP/504 Team shall review all relevant information in the student's file, including the child's IEP/504 Plan, any teacher observations, and any relevant information provided by the parents to determine:

- a. If the conduct in question was caused by, or had a direct and substantial relationship to, the child's disability; or
- b. If the conduct in question was the direct result of the local educational agency's failure to implement the IEP/504 Plan.

If SSS, the parent, and relevant members of the IEP/504 Team determine that either of the above is applicable for the child, the conduct shall be determined to be a manifestation of the child's disability.

If SSS, the parent, and relevant members of the IEP/504 Team make the determination that the conduct was a manifestation of the child's disability, the IEP/504 Team shall:

- a. Conduct a functional behavioral assessment and implement a behavioral intervention plan for such child, provided that the SSS had not conducted such assessment prior to such determination before the behavior that resulted in a change in placement;
- b. If a behavioral intervention plan has been developed, review the behavioral intervention plan if the child already has such a behavioral intervention plan, and modify it, as necessary, to address the behavior; and
- c. Return the child to the placement from which the child was removed, unless the parent/guardian and SSS agree to a change of placement as part of the modification of the behavioral intervention plan.

If SSS, the parent/guardian, and relevant members of the IEP/504 team determine that the behavior was not a manifestation of the student's disability and that the conduct in question was not a direct result of the failure to implement the IEP/504 Plan, then SSS may apply the relevant disciplinary procedures to children with disabilities in the same manner and for the same duration as the procedures would be applied to students without disabilities.

#### 4. Due Process Appeals

The parent/guardian of a child with a disability who disagrees with any decision regarding placement, or the manifestation determination, or SSS believes that maintaining the current placement of the child is substantially likely to result in injury to the child or to others, may request an expedited administrative hearing through the Special Education Unit of the Office of Administrative Hearings or by utilizing the dispute provisions of the 504 Policy and Procedures.

When an appeal relating to the placement of the student or the manifestation determination has been requested by either the parent/guardian or SSS, the student shall remain in the interim alternative educational setting pending the decision of the hearing officer in accordance with state and federal law, including 20 USC Section 1415(k), until the expiration of the forty-five (45) day time period provided for in an interim alternative educational setting, whichever occurs first, unless the parent and SSS agree otherwise.

In accordance with 20 U.S.C. Section 1415(k)(3), if a parent/guardian disagrees with any decision regarding placement, or the manifestation determination, or if the Charter School believes that maintaining the current placement of the child is substantially likely to result in injury to the child or to others, the parent/guardian or Charter School may request a hearing.

In such an appeal, a hearing officer may: (1) return a child with a disability to the placement from which the child was removed; or (2) order a change in placement of a child with a disability to an appropriate interim alternative educational setting for not more than 45 school days if the hearing officer determines that maintaining the current placement of such child is substantially likely to result in injury to the child or to others.

#### 5. Special Circumstances

SSS personnel may consider any unique circumstances on a case-by-case basis when determining whether to order a change in placement for a child with a disability who violates a code of student conduct.

The ~~School Coordinator~~ ~~Executive Director~~ or designee may remove a student to an interim alternative educational setting for not more than forty-five (45) school days without regard to whether the behavior is determined to be a manifestation of the student's disability in cases where a student:

- a. Carries or possesses a weapon, as defined in 18 USC 930, to or at school, on school premises, or to or at a school function;
- b. Knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at school, on school premises, or at a school function; or
- c. Has inflicted serious bodily injury, as defined by 20 USC 1415(k)(7)(D), upon a person while at school, on school premises, or at a school function.

#### 6. Interim Alternative Educational Setting

The student's interim alternative educational setting shall be determined by the student's IEP/504 team.

#### 7. Procedures for Students Not Yet Eligible for Special Education Services

A student who has not been identified as an individual with disabilities pursuant to IDEA and who has violated SSS's disciplinary procedures may assert the procedural safeguards granted under this administrative regulation only if SSS had knowledge that the student was disabled before the behavior occurred.

SSS shall be deemed to have knowledge that the student had a disability if one of the following conditions exists:

- a. The parent/guardian has expressed concern in writing, or orally if the parent/guardian does not know how to write or has a disability that prevents a written statement, to SSS supervisory or administrative personnel, or to one of the child's teachers, that the student is in need of special education or related services.
- b. The parent/guardian has requested an evaluation of the child.
- c. The child's teacher, or other SSS personnel, has expressed specific concerns about a pattern of behavior demonstrated by the child, directly to the director of special education or to other SSS supervisory personnel.

If SSS knew or should have known the student had a disability under any of the three (3) circumstances described above, the student may assert any of the protections available to IDEA-eligible children with disabilities, including the right to stay-put.

If SSS had no basis for knowledge of the student's disability, it shall proceed with the proposed discipline. SSS shall conduct an expedited evaluation if requested by the parents; however the student shall remain in the education placement determined by SSS pending the results of the evaluation.

SSS shall not be deemed to have knowledge that the student had a disability if the parent/guardian has not allowed an evaluation, refused services, or if the student has been evaluated and determined to not be eligible.

the potential for cell phones, smartphones, pagers, and electronic signaling devices (hereinafter collectively referred to as "private devices") to disrupt the learning environment of Sweetwater Secondary School ("Charter School"), and adopts this Policy to permit students to possess, but not use private devices while on site or at the resource center, at school-sponsored activities, or under the supervision of Charter School employees, except as otherwise provided in this Policy. Students who possess any private devices must always keep them turned off and out of view while on school grounds or at school-sponsored activities and functions. Parents/guardians will be contacted to pick up any confiscated private devices at the end of the instructional time at the resource center or at the conclusion of a Charter School sponsored activity.

In addition to this Policy, all other applicable Charter School student discipline policies and rules shall apply to any student who fails to comply with the requirements of this Policy.

Students who possess any private device(s) shall assume sole responsibility for the maintenance and care of any such private device(s) in accordance with this Policy. A complete copy of the Cell Phone/Electronics Policy is available for review on the school website.

### ***Lost or Damaged School Property***

If a student willfully damages the Charter School's property or the personal property of a Charter School employee, or fails to return a textbook, library book, computer/tablet or other Charter School property that has been loaned to the student, the student's parents/guardians are liable for all damages caused by the student's misconduct not to exceed ten thousand dollars (\$10,000), adjusted annually for inflation. After notifying the student's parent or guardian in writing of the student's alleged misconduct and affording the student due process, Charter School may withhold the student's grades, transcripts, and diploma until the damages have been paid. If the student and the student's parent/guardian are unable to pay for the damages or to return the property, Charter School will provide a program of voluntary work for the minor in lieu of the payment of monetary damages. Upon completion of the voluntary work, the student's grades and diploma will be released.

### ***Parents' Responsibilities***

- Ensure that students get to their scheduled appointment on time. If this is not possible, contact the teacher to arrange an alternate time.
- Hold high expectations for your student, regularly monitor his or her daily work.

- Establish a schedule with the student and provide a space for study time at home.
- Arrange for student to attend appropriate field trips and supplemental tutoring sessions.
- Meet with staff when requested, particularly during master agreement signing conferences.
- Participate in decisions related to the education of your student.
- Ensure that students are clothed properly for school and school events.

### ***Parents' Role in Discipline and Behavior***

Parents are expected to cooperate with Charter School staff in maintaining and encouraging proper standards of behavior for their children. The following points may prove helpful:

- Instill in your child a sense of responsibility for what he/she says and does.

- Help your child to solve conflicts in a peaceful manner.
- Review your own attitude about discipline and behavior.
- Make sure you communicate with the school to learn necessary facts and expected behavior.
- As a role model for your child, show respect for learning and the necessity for completing an education.

### ***Emergency Procedures and School Safety Plan***

SSS Resource Centers have plans and preparations for major emergency situations. We believe that the reactions of people in emergencies depend largely upon their training. Our staff has been trained, and drills are held regularly to make certain that the students understand emergency procedures.

Please assure students that they are as safe at school as they are at home in a serious emergency. The safety and welfare of the students is our primary concern in the event of an emergency. Your child should be instructed to obey the directions of their teachers in general and especially in emergency situation.

SSS defines a crisis as any incident that disrupts the educational program and/or affects the emotional stability of students or staff. In the event of a crisis, such as a natural disaster, we ask the following:

- Please do not telephone the school. Telephone lines will be needed for emergency communications.
- Please do not drive to the Resource Center if possible. Streets should be as open as possible for emergency vehicles.
- Listen to your local radio station and news for information and advice.

In conjunction with the National Association for Search and Rescue, we urge every family to make home emergency plans and preparations.

If you have questions about our emergency preparedness program, please contact your teacher. A complete copy of the SSS Comprehensive School Safety Plan is available ~~on the school website and~~ at each Resource Center.

### ***School Bus and Passenger Safety***

All students who are transported in a school bus or school student activity bus shall receive instruction in school bus emergency procedures and passenger safety as outlined in the Transportation Safety Plan.

### **Transportation Safety Plan**

Because Audeo Charter School II, Audeo Charter School III, Audeo Valley Charter School, Grossmont Secondary School and Sweetwater Secondary School ("CHARTER SCHOOL" or the "Charter School") provides transportation to CHARTER SCHOOL activity, the Board of Directors ("Board") approved the following transportation safety plan, which contains procedures for Charter School personnel to follow to ensure the safe transportation of students. A copy of this Plan will be kept at each CHARTER SCHOOL and will be made available upon request to an officer of the Department of the California Highway Patrol. Students shall be informed that any violation of Charter School policies and procedures, including violation of safety procedures on a school bus or school activity bus, could result in discipline pursuant to the CHARTER SCHOOL discipline policy.

### **Definitions**

- "*School bus*" is any motor vehicle designed, used, or maintained for the transportation of a Charter School student at or below the grade 12 level to or from Charter School Resource

Center or to and from Charter School activities. "School bus" does not include a passenger vehicle designed for and when actually carrying not more than 10 persons, including the driver, except any vehicle or truck transporting two or more students who use wheelchairs.

"School activity bus" is any motor vehicle, other than the school bus, operated by a common carrier, or by and under the exclusive jurisdiction of a publicly owned or operated transit system, or by a passenger charter-party carrier, used under a contractual agreement between Charter School and carrier to transport Charter School students at or below the grade 12 level to or from a Charter School activity, or used to transport students from residential schools, when the students are received and discharged at off-highway locations where a parent or adult designated by the parent is present to accept the student or place the student on the bus.

- "Private passenger vehicle" is any other privately owned or leased vehicle not included in the definitions above, designed for and when not carrying more than 10 persons, and operated by a parent/guardian or staff driver to transport student to and from a Charter School activity.

#### **Determining Whether a Student Requires an Escort**

If the Resource Center or school activity destination is located on the opposite side of the street of the actual bus stop, then Charter School and California Vehicle Code section 22112(d) require the student to be physically escorted by the bus driver across that street and under the bus drivers' direction and supervision. The bus driver will be required to activate the school bus red flashing crossover lights and if so equipped, the stop arm, and physically get out of the bus to assist the students safely across the street. Charter School requires ALL students who cross the street, be physically escorted by the bus driver with crossover lights and signs being activated.

#### **Procedures for Kindergarten through Eighth Grade Students Regarding Boarding and Exiting the Bus**

CHARTER SCHOOL has created the following procedures to govern the safe entry and exit of kindergarten through eighth grade students to and from the school bus. Charter School is not required to use the services of an onboard school bus monitor in addition to the driver to ensure these procedures are followed.

5. Students are to maintain a noise level which will allow the bus driver to hear approaching traffic.
6. Students are to follow the directions of the bus driver while they are aboard the bus.

7. Students are responsible to follow all rules and regulations.

Exiting:

8. Students must avoid trespassing on other people's property, stay on sidewalks when possible.

**Procedures for All Students to Follow as They Board or Exit a School Bus at CHARTER SCHOOL Resource Center or Other School Activity Location**

CHARTER SCHOOL has created the following procedures to govern the safe entry and exit of all students at Charter School Resource Center or other school activity location.

Boarding Buses at Resource Center or School Activity Location:

1. The school bus driver may not activate the flashing amber warning light system, the flashing red light signal system, and stop signal arm at any school.
2. The driver will monitor the students' entry onto the bus to ensure an orderly and safe entry for all students.
3. The group of students, along with the teacher(s) and any other adult personnel attending a school activity, shall assemble in an area away from the school bus to wait. When the students are ready to load, the Charter School staff shall inform the driver, and the driver will begin the boarding process.
4. Upon completion of the boarding process, the driver will proceed with the bus evacuation and safety presentation, described below. This shall include an explanation and demonstration of all emergency exits, first aid kits, fire extinguishers, etc.
5. Upon completion of the presentation, the driver shall have the Charter School teacher or head chaperone sign a trip sheet, acknowledging the presentation has been given. The driver will then depart when safe to do so.

Exiting Buses at School Site or School Activity Location:

1. Upon arrival at Charter School Resource Center, the driver shall take the bus to the designated student drop off area.
2. Upon reaching the designated area, the driver will park the bus and open the door when it is clear and safe to do so. The flashing red signal lights will not be activated.
3. Upon arrival at the school or school activity destination, the driver will select an area where the bus can be lawfully parked and the boarding/exiting of students can be reasonably controlled.
  - a. The driver will confer with the Charter School teacher/head chaperone regarding the time and location where the group will assemble to reload the bus.
  - b. When it is clear and safe to do so, the driver will have the students disembark the bus. The flashing red signal lights will not be activated.
  - c. When the Charter School teacher/head chaperone has confirmed all students are accounted for, the group may proceed to the trip.
4. Students exiting the bus at either Charter School Resource Center or a school activity location should do so in an orderly, respectful, and appropriate manner, following all instructions from Charter School staff and the bus driver.

**Procedures for School Staff to Ensure a Student is Not Left Unattended on a School Bus or School Activity Bus**

CHARTER SCHOOL staff members should always be involved and active in the supervision of the loading and unloading of students at Charter School Resource Center and on activity trips to ensure no student is left unattended on the school bus or school activity bus.

To do this, CHARTER SCHOOL staff shall adhere to the following procedures:

1. Before leaving the Resource Center for a school activity, the Charter School teacher/head chaperone for the trip shall ensure they have a copy of the class roster with all student names.
2. Once the bus reaches the destination, a Charter School teacher/head chaperone shall be the first person off the bus and will note each student who exits the bus by comparing the exiting students against the class roster.
3. A Charter School staff member/chaperone shall be the last person to exit the bus at each stop to ensure no students are on left board. Before exiting the bus, the staff member/chaperone will walk up the aisle, checking each seat and area on the floor by each seat to ensure no students are present.
4. Once all students and staff/chaperones have exited the bus, but before leaving for the designated activity, the Charter School teacher/head chaperone will conduct another roll call by calling out each student's name and waiting for verbal and visual confirmation from the student of being present.
5. The Charter School teacher/head chaperone will discuss with the bus driver a way to contact each other in the event it is later discovered a student is still on the bus.

**Procedures and Standards for Designating an Adult Chaperone, Other than the Bus Driver, to Accompany Students on a School Activity Bus**

CHARTER SCHOOL shall follow its applicable policies and procedures, including its visitor and volunteer policy, for designating an adult chaperone other than the school bus driver to accompany students on a bus or a school activity bus. All appropriate background checks will be conducted on any chaperone prior to the chaperone's attending a school trip or school activity bus.

Parent/guardian or staff may transport students in their private vehicles for field trips. Parents may decline permission for their child to be transported by a staff member/other parent or guardian in a private passenger vehicle, in which case that student will be responsible for his/her own transportation.

All adults taking out-of-state field trips or excursions (including athletics meets and games), and all parents or guardians of pupils taking out-of-state field trips or excursions (including athletics meets and games) are required to sign a statement waiving all claims against Charter School, its employees, and the State of California for injury, accident, illness or death occurring during or by reason of the field trip or excursion (including athletics meets and games).
